City of Miracles

Sigrud je Harkvaldsson is back, and this time he's out for vengeance. The awesome climax to the fantasy thrillers City of Stairs and City of Blades: perfect for fans of Neil Gaiman, Brent Weeks and China Miéville. Shara Komayd, once Prime Minister of Saypur, has been assassinated. News travels fast and far, even to a remote logging town somewhere northwest of Bulikov, where the silent, shaven-headed Dreyling worker 'Bjorn' picks up the newspaper and walks out. He is shocked and grieved and furious; he's been waiting thirteen years for Shara, his closest friend, to reach out to him - to tell him to come home. He's always believed she was running a long operation, that there would be a role for him at the right time. Now he has no one else in his life, and nothing to live for - except to find the people who did this. Sigrud wasn't there for the death of his daughter Signe, and he wasn't there when Shara was murdered. Now Bjorn is dead and Sigrud is back. And he will find answers, for Shara, and for himself. He's made a promise . . .

The Court of Miracles (The Court of Miracles Trilogy, Book 1)

Les Misérables meets Six of Crows in this page-turning adventure as a young thief finds herself going head to head with leaders of Paris's criminal underground in the wake of a failed French Revolution.

City of Stairs

An atmospheric and intrigue-filled novel of dead gods, buried histories, and a mysterious, protean city--from one of America's most acclaimed young fantasy writers. The city of Bulikov once wielded the powers of the gods to conquer the world, enslaving and brutalizing millions—until its divine protectors were killed. Now Bulikov has become just another colonial outpost of the world's new geopolitical power, but the surreal landscape of the city itself—first shaped, now shattered, by the thousands of miracles its guardians once worked upon it—stands as a constant, haunting reminder of its former supremacy. Into this broken city steps Shara Thivani. Officially, the unassuming young woman is just another junior diplomat sent by Bulikov's oppressors. Unofficially, she is one of her country's most accomplished spies, dispatched to catch a murderer. But as Shara pursues the killer, she starts to suspect that the beings who ruled this terrible place may not be as dead as they seem—and that Bulikov's cruel reign may not yet be over.

City of Blades

'Robert Jackson Bennett deserves a huge audience' - Brent Weeks, New York Times bestselling author of *The Black Prism*. Do the dead sleep soundly in the land of death - or do they have plans of their own? Nominated for a Goodreads Choice Award 2016. A generation ago the city of Voortyashtan was the stronghold of the god of war and death, the birthplace of fearsome supernatural sentinels who killed and subjugated millions. But that was then. Now the god is dead and the city lies in ruins, a wasteland of sectarian violence and bloody uprisings. So it makes perfect sense for General Turyin Mulaghesh, foul-mouthed hero of the battle of Bulikov, rumoured war criminal, ally of embattled Prime Minister Shara Komayd, to be exiled here - but she's not just eking out her days in this hellhole till retirement. She's on one final mission, to find a Saypuri secret agent who's gone AWOL. The trouble is, that this old soldier isn't sure she's still got what it takes to be the hero . . . A triumphant return to the world of *A City of Stairs*. 'Loud, bold and uncompromisingly ambitious' - Upcoming4.me

The Troupe

George Carole ran away from home to join the Vaudeville circuit. Sixteen years old, uncommonly gifted at the piano, he falls in with a strange troupe - even for Vaudeville. Under the watchful eye of the enigmatic figure of Silenus, George comes to realise that the members of the troupe are more than they appear to be. And their travels have a purpose that runs deeper than entertainment. George must uncover the mysteries of Silenus's company before it is too late. He is already entangled in their web of secrets and, if he doesn't learn where they are taking him, he may never find his way out.

The Divine Cities Trilogy

A special omnibus edition, collecting all three books of Robert Jackson Bennett's acclaimed Divine Cities trilogy in a single volume. In a world where terrifying, capricious gods once walked the earth, enslaving and brutalizing millions, three unforgettable protagonists struggle to come to terms with the mysteries these divinities left behind— and to make sure these cruel masters do not rise again. In *City of Stairs*, an unassuming young woman named Shara Thivani arrives in Bulikov, the city that once wielded

the powers of the gods to conquer the world. Officially, she is just another junior diplomat, dispatched by the city's new colonial masters; unofficially, she is one of her country's most accomplished spies, on a mission to solve a murder. As she pursues the killer, she begins to suspect that the gods who once guarded Bulikov are not as dead as they seem, and that the city's cruel reign may begin anew. In *City of Blades*, General Turin Mulaghesh—foul-mouthed hero of the battle of Bulikov, rumored war criminal, ally of an embattled prime minister—is pressed into service one last time, investigating a terrifying discovery in the city of Voortyashtan, once the stronghold of the god of war and death. Voortyashtan's god is most certainly dead, but something is awakening in the city. And someone is determined to make the world tremble at the city's awful power once again. In *City of Miracles*, the formidable, seemingly unkillable Sigrud je Harkvaldsson returns from self-imposed exile on a mission of revenge, only to find himself embroiled in a battle that may be beyond even his abilities to win—a secret, decades-long war that will force him to confront the last mysteries of Bulikov, the city of miracles itself.

The Age of Miracles

Julia struggles as she comes of age when she learns, along with the rest of the world, that the Earth has begun to slow its rotation, drastically changing gravity and the environment.

In the Language of Miracles

• A New York Times Editors' Choice • "Assured and beautifully crafted . . . Hassib is a natural, graceful writer with a keen eye for cultural difference. . . . [She] handles the anatomy of grief with great delicacy. . . . In the *Language of Miracles* should find a large and eager readership. For the beauty of the writing alone, Hassib deserves it." —Monica Ali, *The New York Times Book Review* "[A] sensitive, finely wrought debut . . . sharply observant of immigrants' intricate relationships to their adopted homelands, this exciting novel announces the arrival of a psychologically and socially astute new writer." —Kirkus Reviews (starred review) For readers of *House of Sand and Fog*, a mesmerizing debut novel of an Egyptian American family and the wrenching tragedy that tears their lives apart, from the author of *A Pure Heart* Samir and Nagla Al-Menshawy appear to have attained the American dream. After immigrating to the United States from Egypt, Samir successfully works his way through a residency and launches his own medical practice as Nagla tends to their firstborn, Hosaam, in the cramped quarters of a small apartment. Soon the growing family moves into a big house in the manicured New Jersey suburb of Summerset, where their three children eventually attend school with Natalie Bradstreet, the daughter of their neighbors and best friends. More than a decade later, the family's seemingly stable life is suddenly upended when a devastating turn of events leaves Hosaam and Natalie dead and turns the Al-Menshawys into outcasts in their own town. Narrated a year after Hosaam and Natalie's deaths, Rajia Hassib's heartfelt novel follows the Al-Menshawys during the five days leading up to the memorial service that the Bradstreets have organized to mark the one-year anniversary of their daughter's death. While Nagla strives to understand her role in the tragedy and Samir desperately seeks reconciliation with the community, Khaled, their surviving son, finds himself living in the shadow of his troubled brother. Struggling under the guilt and pressure of being the good son, Khaled turns to the city in hopes of finding happiness away from the painful memories home conjures. Yet he is repeatedly pulled back home to his grandmother, Ehsan, who arrives from Egypt armed with incense, prayers, and an unyielding determination to stop the unraveling of her daughter's family. In Ehsan, Khaled finds either a true hope of salvation or the embodiment of everything he must flee if he is ever to find himself. Writing with unflinchingly honest prose, Rajia Hassib tells the story of one family pushed to the brink by tragedy and mental illness, trying to salvage the life they worked so hard to achieve. The graceful, elegiac voice of *In the Language of Miracles* paints tender portraits of a family's struggle to move on in the wake of heartbreak, to stay true to its traditions, and above all else, to find acceptance and reconciliation.

Ship of Miracles

It was a miracle worthy of the season. When Captain Leonard La Rue spied from his twelve-man merchant ship, the *Meredith Victory*, the throng of Korean refugees on the docks of a city in flames, he didn't hesitate to do what others would consider impossible. In December of 1950, La Rue and his skeleton crew rescued fourteen thousand Korean refugees from the hands of the rapidly-approaching Chinese army in the city of Hungnam. Through the night and next day, a seemingly endless succession of refugees boarded the *Meredith*, their will to live and strong spirit steeling them against the bitter cold and incredibly crowded conditions. Standing shoulder to shoulder for three days the refugees

and crew stoically endured as La Rue steered the ship through sea battle, a thirty-mile web of sea mines, and enemy shelling. "Ship of Miracles" is the incredible story of what has been called "the greatest rescue operation by a single ship in the history of mankind." Against all odds, the little merchant vessel transported its precious cargo to the island of Koje-Do on Christmas Eve completely unharmed, all fourteen thousand refugees alive and well, including an additional five new lives begun on this incredible journey. As the fiftieth anniversary of this miraculous rescue approaches, "Ship of Miracles" is as touching today as it was then; a tale you'll hold close to your heart, and return to time and again. While the United States Navy prepares to celebrate the fiftieth anniversary of the perilous evacuation at Hungnam and honor the Meredith Victory's miraculous feat, read this never-before-told account from the crew themselves, as they relate the incredible and unbelievable details of their three-day journey from fear to freedom.

The Miracle Pill

'This book is pretty life-changing – encouraging, optimistic, rich with information. It got me off the sofa.' Jeremy Vine 'This is such a lovely, ambitious, fascinating book. Essential lockdown reading. It allows us to reimagine our world and our bodies: we can move more.' Dr Xand van Tulleken, TV presenter 'Truly uplifting' Chris Boardman What is the 'miracle pill', the simple lifestyle change with such enormous health benefits that, if it was turned into a drug, would be the most valuable drug in the world? The answer is movement and the good news is that it's free, easy and available to everyone. Four in ten British adults, and 80% of children, are so sedentary they don't meet even the minimum recommended levels for movement. What's going on? The answer is simple: activity became exercise. What for centuries was universal and everyday has become the fetishised pursuit of a minority, whether the superhuman feats of elite athletes, or a chore slotted into busy schedules. Yes, most people know physical activity is good for us. And yet 1.5 billion people around the world are so inactive they are at greater risk of everything from heart disease to diabetes, cancer, arthritis and depression, even dementia. Sedentary living now kills more people than obesity, despite receiving much less attention, and is causing a pandemic of chronic ill health many experts predict could soon bankrupt the NHS. How did we get here? Daily, constant exertion was an integral part of humanity for millennia, but in just a few decades movement was virtually designed out of people's lives through transformed workplaces, the dominance of the car, and a built environment which encourages people to be static. In a world now also infiltrated by ubiquitous screens, app-summoned taxis and shopping delivered to your door, it can be shocking to realise exactly how sedentary many of us are. A recent study found almost half of middle-aged English people don't walk continuously for ten minutes or more in an average month. At current trends, scientists forecast, the average US adult will expend little more energy in an average week than someone who spent all their time in bed. This book is a chronicle of this very modern and largely unexplored catastrophe, and the story of the people trying to turn it around. Through interviews with experts in various fields - doctors, scientists, architects and politicians - Peter Walker explores how to bring more movement into the modern world and, most importantly, into your life. Forget the gym, introducing quick and easy lifestyle changes can slow down the ageing process and even reverse many illnesses and increase mental wellbeing.

Miracles

Jesus turned water into wine, Mohammad split the moon into two, and Buddha walked and spoke immediately upon birth. According to recent statistics, even in the present age of advanced science and technology, most people believe in miracles. In fact, newspapers and television regularly report alleged miracles, such as recoveries from incurable diseases, extremely unlikely coincidences, and religious signs and messages on unexpected objects. In this book the award-winning author and philosopher Yujin Nagasawa addresses some of our most fundamental questions concerning miracles. What exactly is a miracle? What types of miracles are believed in the world's great religions? What do recent scientific findings tell us about miracles? Can we rationally believe that miracles have really taken place? Can there be acts that are more religiously significant than miracles? Drawing on a vast variety of fascinating examples from across the major religions, Nagasawa discusses the lively debate on miracles that ranges from reported miracles in ancient scriptures in the East and West to cutting-edge scientific research on belief formation. Throughout, he drives us to ask ourselves if and how we can still believe in miracles in the twenty-first century. The Book of Sainte Foy

The miracle stories surrounding Sainte Foy form one of the most complete sets of material relating to a medieval saint's cult and its practices. Pamela Sheingorn's superb translation from the Medieval Latin texts now makes this literature available in English. The Book of Sainte Foy recounts the virgin saint's martyrdom in the third century (*Passio*), the theft of her relics in the late ninth century by the monks of the monastery at Conques (*Translatio*), and her diverse miracles (*Liber miraculorum*); also included is a rendering of the Provençal *Chanson de Sainte Foy*, translated by Robert L. A. Clark. The miracles distinguish Sainte Foy as an unusual and highly individualistic child saint displaying a fondness for gold and pretty things, as well as a penchant for playing practical jokes on her worshippers. In his record of Sainte Foy, Bernard of Angers, the eleventh-century author of the first parts of the *Liber miraculorum*, emphasized the saint's "unheard of" miracles, such as replacing missing body parts and bringing dead animals back to life. The introduction to the volume situates Sainte Foy in the history in the history of hagiography and places the saint and her monastery in the social context of the high Middle Ages. Sheingorn also evokes the rugged landscape of south central France, the picturesque village of Conques on the pilgrimage road, and, most important, the golden, jewel-encrusted reliquary statue that medieval believers saw as the embodiment of Sainte Foy's miracle-working power. In no other book will readers enjoy such a comprehensive portrait of Sainte Foy and the culture that nurtured her.

Miracles and Material Life

Sevea reveals a universe of miracle-workers in Islamic Malaya, connecting the supernatural to material life, socioeconomic activities and production.

The Cambridge Companion to Miracles

"The miracle stories of the founders and saints of the major world religions have much in common. Written by international experts, this Companion provides an authoritative and comparative study

of miracles in not only Hinduism, Islam, Buddhism, Christianity and Judaism, but also, indigenous religions. The authors promote a discussion of the problems of miracles in our largely secular culture, and of the value of miracles in religious belief. The miracles of Jesus are also contextualized through chapters on the Hebrew Bible, classical culture to the Romans, Second Temple and early rabbinic Judaism and early Christianity. This book provides students with a scholarly introduction to miracles, which also covers philosophical, medical and historical issues"--

Spectacular Miracles

Winner of the ACE / Mercers' Book Award 2014 *Spectacular Miracles* confronts an enduring Western belief in the supernatural power of images: that a statue or painting of the Madonna can fly through the air, speak, weep, or produce miraculous cures. Although contrary to widely held assumptions, the cults of particular paintings and statues held to be miraculous have persisted beyond the middle ages into the present, even in a modern European city such as Genoa, the primary focus of this book. Drawing upon rich documentation from northwest Italy and elsewhere, *Spectacular Miracles* shows how these images "work" in a range of historical contexts. Jane Garnett and Gervase Rosser vividly evoke ritual animation of the image and the phenomenology of the beholder's experience. These images, they demonstrate, have the subversive potential of the miraculous image to bypass clerical and secular authority, a power enhanced by reproducibility—devotion is hard to control when a copy of a venerated image is held to carry the same supernatural potential as the original, even when in a digital form mediated by the Internet. Engaging with the history, anthropology, and visual culture of images and religion, *Spectacular Miracles* is a convincing study of the continuing power of faith and art.

The matter of miracles

This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples. This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries. It shows how a focus on miracles produces original interpretations of architecture, sanctity and place which will engage architectural historians everywhere. The matter of the baroque miracle extends into a rigorous engagement with natural history, telluric philosophy, new materialism, theory and philosophy. The study will transform our understanding of baroque art and architecture, sanctity and Naples. Bristling with new archival materials and historical insights, this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality and thus unleash baroque art and architecture as productive and transformational.

Delos the Island of Miracles

This book, like a magic carpet, takes readers to Delos. First, it tells them about the history and mythology and about how light and art helped make miracles here. Next it takes them into the ancient people's homes and shops to see Delos out of the eyes of those who lived there. The archaeological section includes drawings with particular points of interest identified and captioned. Finally, the book presents 12 power places on Delos where people experienced miracles for thousands of years, with a map for pilgrimage to those places and suggestions for brief, longer, and multiple day visits to the island. Ceremonies and guided imagery are suggested that invite the visitor--or reader--to experience in the present time the power of Delos to change your life.

A Place of Miracles: The Story of a Children's Hospital in Kabul and the People Whose Lives Have Been Changed by It

Neha Was the Smallest Infant to Ever be Treated and Survive in Afghanistan. An unusual partnership created the French Medical Institute for Children - two private, non-governmental organizations - the Aga Khan Development Network and the France-based humanitarian entity, La Chaîne de l'Espoir, and two governments - the Islamic Republic of Afghanistan and France. The result is an institution that has enabled children's lives to be saved that might have otherwise been lost. Nearly 1,600 children have been treated for congenital and acquired heart diseases, almost half of which had open-heart surgery. Arising during a time of seemingly never-ending war, FMIC is one of Afghanistan's most remarkable success stories. It has become the enabling catalyst for lives to be changed and dreams to be realized - a place where people have succeeded and survived against overwhelming obstacles and odds. As the U.S. and its allies prepare to shift their missions in Afghanistan from military and combat to aid and development, the general consensus is that nothing done in that war-torn country has been successful. FMIC is one of Afghanistan's most remarkable reconstruction success stories. It is a model that can be emulated as the U.S. and others strive to complete their development missions there. "FMIC has achieved many successes and achieved excellence in many fields in healthcare in Afghanistan. This Institute is a true example of a successful public-private partnership." Dr. Suraya Dalil, Afghanistan's Minister of Public Health, speaking at FMIC's 2nd International Pediatric Conference, December 2012. "When we have international societies with us and partnerships like FMIC, we can have hope for the future. This hope gives me energy to go ahead." Dr. Jalil Wardak, Head of Pediatric General Surgery at FMIC

Foundryside

"The exciting beginning of a promising new epic fantasy series. Prepare for ancient mysteries, innovative magic, and heart-pounding heists."—Brandon Sanderson "Complex characters, magic that is

tech and vice versa, a world bound by warring trade dynasties: Bennett will leave you in awe once you remember to breathe!”—Tamora Pierce In a city that runs on industrialized magic, a secret war will be fought to overwrite reality itself—the first in a dazzling new series from City of Stairs author Robert Jackson Bennett. Sancia Grado is a thief, and a damn good one. And her latest target, a heavily guarded warehouse on Tevanne’s docks, is nothing her unique abilities can’t handle. But unbeknownst to her, Sancia’s been sent to steal an artifact of unimaginable power, an object that could revolutionize the magical technology known as scrying. The Merchant Houses who control this magic—the art of using coded commands to imbue everyday objects with sentience—have already used it to transform Tevanne into a vast, remorseless capitalist machine. But if they can unlock the artifact’s secrets, they will rewrite the world itself to suit their aims. Now someone in those Houses wants Sancia dead, and the artifact for themselves. And in the city of Tevanne, there’s nobody with the power to stop them. To have a chance at surviving—and at stopping the deadly transformation that’s under way—Sancia will have to marshal unlikely allies, learn to harness the artifact’s power for herself, and undergo her own transformation, one that will turn her into something she could never have imagined.

Shorefall

As a magical revolution remakes a city, an ancient evil is awakened in a brilliant novel from the Hugo-nominated author of Foundryside and the Divine Cities trilogy. “An absolutely wild ride . . . Foundryside blew me away, and this is a perfect sequel.”—Amal El-Mohtar, *The New York Times Book Review* A few years ago, Sancia Grado would’ve happily watched Tevanne burn. Now, she’s hoping to transform her city into something new. Something better. Together with allies Orso, Gregor, and Berenice, she’s about to strike a deadly blow against Tevanne’s cruel robber-baron rulers and wrest power from their hands for the first time in decades. But then comes a terrifying warning: Crasedes Magnus himself, the first of the legendary hierophants, is about to be reborn. And if he returns, Tevanne will be just the first place to feel his wrath. Thousands of years ago, Crasedes was an ordinary man who did the impossible: Using the magic of scrying—the art of imbuing objects with sentience—he convinced reality that he was something more than human. Wielding powers beyond comprehension, he strode the world like a god for centuries, meting out justice and razing empires single-handedly, cleansing the world through fire and destruction—and even defeating death itself. Like it or not, it’s up to Sancia to stop him. But to have a chance in the battle to come, she’ll have to call upon a god of her own—and unlock the door to a scrying technology that could change what it means to be human. And no matter who wins, nothing will ever be the same. The awe-inspiring second installment of the Founders Trilogy, *Shorefall* returns us to the world Robert Jackson Bennett created in his acclaimed *Foundryside* . . . and forges it anew.
