Determination A great leader has never-ending determination. He is the first one to initiate an idea and the last one to give up. It is because of a leader's determination that projects are completed.

Self-confidence People will follow a leader who believes in him or herself. This does not mean being arrogant; rather, it means trusting in yourself and your abilities.

Good communication Skills What makes a leader great is his ability to communicate effectively with his team. A good leader understands that people don't understand messages in the exact same way so is always confirming what s/he has said or has heard is understood.

Patience A good leader does not make hasty decisions, instead carefully analyzes the situation before acting on it. A good leader also know that some results are achieved over time.
