Les Ingham, Pyr International A dog's life in the south of France. From puppyhood, Sirius the Pyrenean Mountain Dog has been trying to understand his humans and train them with kindness. How this led to their divorce he has no idea. More misunderstandings take Sirius to Death Row in an animal shelter, as a so-called dangerous dog learning survival tricks from the other inmates. During the twilight barking, he is shocked to hear his brother's voice but the bitter-sweet reunion is short-lived. Doggedly, Sirius keeps the faith. One day, his human will come.

After tirelessly climbing the ranks of her Chicago-based interior design firm, Lane Kelley is about to land her dream promotion when devastating news about her brother draws her back home--a quaint tourist town full of memories she'd just as soon forget. With her cell phone and laptop always within reach, Lane aims to check on her brother while staying focused on work--something her eclectic family doesn't understand. Ryan Brooks never expected to settle down in Harbor Pointe, Michigan, but after his final tour of duty, it was the only place that felt like home. Now knee-deep in a renovation project that could boost tourism for the struggling town, he is thrilled to see Lane, the girl he secretly once loved, even if the circumstances of her homecoming aren't ideal. Their reunion gets off to a rocky start, however, when Ryan can't find a trace of the girl he once knew in the woman she is today. As he slowly chips away at the walls Lane has built, secrets from his past collide with a terrible truth even he is reluctant to believe. Facing a crossroads that could define his future with Lane and jeopardize his relationship with the surrogate family he's found in the Kelleys, Ryan hopes Lane can see that maybe what really matters has been right in front of her all along--if only she'd just look up.

This book shares how you can recover from abuse by those you trusted within the church. It speaks to those who are wounded and feel they have no one to turn to for help. It also speaks to those that have been the cause of deep wounds inflicted on the people of God. Behind Closed Doors was inspired by God through the pain of one of his daughters. She has been given the assignment to tear down the devil's kingdom through prayer and exposure. I say to each of you take your rightful place in the kingdom. You are a citizen of the kingdom of God and with your citizenship you have certain rights. It is time to walk in the authority that has been given to you by the king.

Behind Closed Doors

These two letters were written by the man who tried to persuade Jesus not to be crucified; also wanted to erect three shrines on a mountain top for Moses, Elijah and Jesus; also was targeted by Satan to be sifted (separated) from the other disciples; and whose self-confident loyalty was shattered three times within twenty-four hours. But he had a special place on his Lord's prayer list, which was undoubtedly

a major cause of his transformation from a reed (Simon) into a rock (Peter), which enabled him to be the first pastor (not pope) of the church and the first preacher of the gospel (after Pentecost). This high calling qualified him to protect both the church, from the persecution outside, and the gospel, from the corruption inside. That is why his first epistle majors on suffering and the second on backsliding, the latter containing the clearest warning against 'once saved, always saved' complacency. His boldness led to his own crucifixion, upside down at his own request. Bear this in mind as you read both his pastoral letters.

Frank Tannenbaum Outstanding Book Award from the American Society of Criminology Faculty Senate Award for Research from Loyola University New Orleans Out of the Red is one man's pathbreaking story of how social forces and personal choices combined to deliver an unfortunate fate. After a childhood of poverty, institutional discrimination, violence, and being thrown away by the public education system, Bolden's life took him through the treacherous landscape of street gangs at the age of fourteen. The Bloods offered a sense of family, protection, excitement, and power. Incarcerated during the Texas prison boom, the teenage former gangster was thrust into a fight for survival as he navigated the perils of adult prison. As mass incarceration and prison gangs swallowed up youth like him, survival meant finding hope in a hopeless situation and carving a path to his own rehabilitation. Despite all odds, he forged a new path through education, ultimately achieving the seemingly impossible for a formerly incarcerated ex-gangbanger.

Made Up exposes the multibillion-dollar beauty industry that promotes unrealistic beauty standards through a market basket of advertising tricks, techniques, and technologies. Cosmetics magnate Charles Revson, a founder of Revlon, was quoted as saying, "In the factory, we make cosmetics. In the store, we sell hope." This pioneering entrepreneur, who built an empire on the foundation of nail polish, captured the unvarnished truth about the beauty business in a single metaphor: hope in a jar. Made Up: How the Beauty Industry Manipulates Consumers, Preys on Women's Insecurities, and Promotes Unattainable Beauty Standards is a thorough examination of innovative, and often controversial, advertising practices used by beauty companies to persuade consumers, mainly women, to buy discretionary goods like cosmetics and scents. These approaches are clearly working: the average American woman will spend around \$300,000 on facial products alone during her lifetime. This revealing book traces the evolution of the global beauty industry, discovers what makes beauty consumers tick, explores the persistence and pervasiveness of the feminine beauty ideal, and investigates the myth-making power of beauty advertising. It also examines stereotypical portrayals of women in beauty ads, looks at celebrity beauty endorsements, and dissects the "looks industry." Made Up uncovers the reality behind an Elysian world of fantasy and romance created by beauty brands that won't tell women the truth about beauty.

From this, the idea of "Purple Cloud" was born! However it wasn't until he emerged from his troubled childhood and thug lifestyle with a tattooed face and a past full of stereotypical mistakes, that businessman Jamarcus better known as "Nutz" was born. He has swept the fashion game with his creative bold designs. Overview - Providence Pond Bitter conflict and raw excitement abound as deep religious and political fervor divide and set ablaze the Caribbean community of Providence Pond, a former British slave holding in the futile valleys of western St. Mary, Jamaica. As this community struggles for life and definition following the passing of slavery, the imperative – which native religion, political ideology, or vestige of British thinking will prevail to lead the nascent community – must be resolved. During slavery the answer was clear: British thought must prevail. The eventual collapse of the strong, central British control gave rise to African traditions that were long kept semi-dormant in the distant backlands of huge slave plantation. Various factions – African, Indian, and British – vie for social and political dominance. The momentous events of Providence Pond are staged above the backdrop of the still larger conflict of World War 1. In Providence Pond there is first a triangular grouping derived from remnants of Ashanti, Congo and, British elements locked in the struggle to define the "only way." As the country forges along and the conflict in Providence Pond escalates, Congo King the leader of the forbidden Kumina sect, finds himself pitted in impending battle against the ad hoc Ashanti-Christian coalition – lead by the Anglican Reverend, Bernard Watkins. The torch is set! McLean's Providence Pond is a tale of wisdom and deep socio-political insight. It offers a fresh opportunity – yet another way of looking at our own modern conditions: to reevaluate past credence and prejudices – and finding new ways of courageously living old concepts.

This novel is an acute, darkly comic portrayal of changing times and sexual mores, and the baby boomer generation in the shadow of mid-life crisis. Novelist Max Napier didn't set out to make a mess of his life, but if you choose to entertain romantic notions and a raffish self-image, it's always on the cards. Now on the brink of turning 50, he's alone in his little flat: seduced, abandoned, out of ideas and out of fashion. A chance meeting with an old friend arrests the spiral, but not all the ghosts from Max's past are benevolent and there are tricky curves to negotiate on the road to redemption and emotional renewal.

Exercises with Phrasal Verbs#1 is for anyone learning English as a foreign or second language (EFL/ESL). It is aimed at students of intermediate and advanced levels. The book provides extensive practice of over 350 of the most useful phrasal verbs in English. Let's be honest, phrasal verbs are never going to be the most fun part of learning English. However, with this 'clic-book' you can work with a lot of material at your own speed and without pressure, focusing on this key aspect of the language. The book is divided into three sections. PART ONE focuses on phrasal verbs that use the most frequent lexical verbs (get, go, make, put, etc.), providing lots of opportunities to practice these verbs. PART TWO is based on the prepositions used in phrasal verbs (about, from, in, on, up, etc.) and once again provides a great many opportunities to practice the most common verbs. In parts ONE and TWO you will study over 350 different phrasal verbs, each used in different exercises. Finally, PART THREE contains five longer texts containing many of the phrasal verbs found in the previous parts of the book. These longer texts are very useful for practising reading comprehension at an intermediate and advanced level. This book is for students at levels B and C of the Common European Framework of Reference for Languages, for TOEFL, and for those studying towards Cambridge First Certificate and Cambridge Advanced ESOL exams. * ~ * Clic-books: What? Clic-books are a simple and enjoyable way to practice a foreign language. Using your phone, tablet or e-book reader, work through the texts at your own pace. They are 100% bilingual, so it's like having a personal tutor you as you read! Clic-books: Why? Because people have busy lives, and learning languages is difficult and time-consuming. Clic-books are all about little and often. Whenever you have a few minutes free, practice a foreign language in a relaxed and convenient way, developing your knowledge quickly and effectively. Clic-books: How? Clic-books present you with very short examples of a foreign language, normally one sentence at a time. By clicking to the following page you see the same sentence, along with a translation into your own language. Use these to check your comprehension, enriching your vocabulary and fluency as you go.

Check Your Vocabulary workbooks are aimed at learners of English who want to build vocabulary in a specific area. Check Your English Vocabulary Phrasal Verbs and Idioms is a new title in the range which focuses on an extremely important, yet difficult, area of study for learners. Phrases such as 'go with the flow' or 'hang around' form a natural part of native English speakers' speech; however, they present the learner with a tall order - having to master distinctive expressions whose meaning cannot be deduced from the meaning of their actual words. Containing a range of word games, quizzes and exercises, this workbook will help build vocabulary confidence in a fun, memorable way.

Our lives are mostly composed of ordinary reality—the flow of moment-to-moment existence. In this anthropological study of the Amazon's Mehinaku Indians, the author achieves an understanding of this part of reality by both observing various aspects of their experience and by relating how these different facets come to play in a stream of ordinary consciousness, a walk to the river. In this way, abstract schemata such as 'cosmology,' 'sociality,' 'gender,' and the 'everyday' are understood as they are actually lived.

It is a strange thing about life, that if you refuse to accept anything, other than the best, the life will give it to you. This book is a masterpiece by Shri. Joginder Singh. He says- "It is not important, as to what people think about you. It is more important, as to how they feel about you." For attaining everything, one has to be ambitious, eager, aspiring and has the will & wish power. It is your thoughts, words, actions, which only can take you to the top of success, in your life. The tips in this book will help you to live your life fully and magnificently. A must read book for everyone on new discoveries and approaches in life, and how to be confident in public life. The Self Help Addict

Sometime in the near future, Lionel, a computer nerd, lives alone with his sick cat, Buddha. His flat overlooks the high street where only a few rundown shops remain in business, including his friend, the old Caribbean gentleman Mr Barber. Lionel, mixed race, born in Kenya, was adopted by a white family. But, apart from his gorgeous, abrasive sister Lilith - his best friend and harshest critic - his family have deserted him. Lionel plays games because he's a coward who can't handle human interaction, Lilith says, before one of her frequent disappearances. But when Lionel puts his headset on, and enters CawrQuest he becomes Ludi, the fighter and the lover. He's free. Here he doesn't need to face his past, bullied by his adoptive brothers, and the shocking event he refuses to remember. Still, the 'real' world won't go away. Nor will Crystal, the haunted Anime girl who needs to be saved from the 'adult health centre' opposite his flat. Soon nothing adds up. Why are people beginning to look at him nervously? Why do the outcasts at work suddenly want to be his friend? Has Lilith finally disappeared for good? As reality and the game blur, Lionel and Ludi are assaulted on all sides. As Lionel struggles to unravel what's happening to him, Ludi tries to rescue the people he loves before the game is altered forever.

A Walk to the River in Amazonia

With its theme, "Our Information, Always and Forever," Part I of this book covers the basics of personal information management (PIM) including six essential activities of PIM and six (different) ways in which information can be personal to us. Part I then goes on to explore key issues that arise in the "great migration" of our information onto the Web and into a myriad of mobile devices. Part 2 provides a more focused look at technologies for managing information that promise to profoundly alter our practices of PIM and, through these practices, the way we lead our lives. Part 2 is in five chapters: - Chapter 5. Technologies of Input and Output. Technologies in support of gesture, touch, voice, and even eye movements combine to support a more natural user interface (NUI). Technologies of output include glasses and "watch" watches. Output will also increasingly be animated with options to "zoom". - Chapter 6. Technologies to Save Our Information. We can opt for "life logs" to record our experiences with increasing fidelity. What will we use these logs for? And what isn't recorded that should be? - Chapter 7. Technologies to Search Our Information. The potential for personalized search is enormous and mostly yet to be realized. Persistent searches, situated in our information landscape, will allow us to maintain a diversity of projects and areas of interest without a need to continually switch from one to another to handle incoming information. - Chapter 8. Technologies to Structure Our Information. Structure is key if we are to keep, find, and make effective use of our information. But how best to structure? And how best to share structured information between the applications we use, with other people, and also with ourselves over time? What lessons can we draw from the failures and successes in web-based efforts to share structure? - Chapter 9. PIM Transformed and Transforming: Stories from the Past, Present and Future. Part 2 concludes with a comparison between Licklider's world of information in 1957 and our own world of information today. And then we consider what the world of information is likely to look like in 2057. Licklider estimated that he spent 85% of his "thinking time" in activities that were clerical and mechanical and might (someday) be delegated to the computer. What percentage of our own time is spent with the clerical and mechanical? What about in 2057?
