Did you know that matter, can be in three forms? **Solid**, liquid and gas ! We can also change from ...

Did you know that matter, can be in three forms?

Matter can be in three states: **solid**, form, liquid form and ...

Solid, state is characterised by having a fixed size and ...

Do you know how we can change from one state to another?

Changes in state happen after cooling or heating matter, and there are different types: melting,

solidification, evaporation and condensation.

Melting happens when matter changes from its **solid**, ...

Solidification is the opposite change as in melting.

Matter changes from liquid to solid form.

Evaporation is when matter changes from liquid to gas, after liquids are heated.

Condensation is the step from gas, to liquid, and it happens when matter, in gas state is cooled.
