The Fairy Tale Tarot

Your happily ever after awaits . . . Transport yourself to a faraway land of enchantment—a magical world where wondrous fantasies abound and anything is possible. Created by internationally renowned tarot artist Lisa Hunt, this unique tarot deck brings to life our most beloved fairy tales from around the world. See the cunning Puss in Boots as the Mentor (High Priest), Little Red Riding Hood as the Fool, and the Fairy Godmother as the Empress. Built within the Rider-Waite tradition, The Fairy Tale Tarot invites you to call upon your imagination and find your own adventures. Charming and evocative artwork in the tarot card deck and book vividly portrays each fairy tale Delightful retellings of the stories and an explanatory discussion of the symbolism Suggested tarot card spreads and layouts for divination PRAISE FOR FAIRY TALE TAROT: "A whimsical twist on traditional tarot, this new deck helps us connect with our inner child and reach a place of further self-discovery."—New Age Retailer "This is a great deck for personal work, for collectors, for those looking for a deck to use with children, for those interested in myth and fairy tales, and for those interested in fantasy/magical art and story."—Aeclectic Tarot "This ambitious work delights, surprises, and transports, exceeding any possible expectation because it is true to the source of meaning and creativity from which stories and tarot both spring."—Tarot Reflections

McCall's

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

New York Magazine

When a poor miller, hoping to impress a king, foolishly boasts that his daughter can spin straw into gold, it leads to terrible trouble. With glowing illustrations and a translation faithful to the classic Grimm tale, Bernadette Watts and Anthea Bell spin a new magic into a old favorite. Full color.

Rumpelstiltskin

It is almost impossible to envision what childhood would be like without the enchanting world of fairyland. Princes and princesses, flying dragons, monsters and magicians, giants and dwarfs, ogres and fairies—these are the companions who thrill youngsters of all lands and times. This book contains 19 such tales. Coming from all quarters of the world, including France, England, Germany, Russia and Persia, the stories provide rich insight into the lives and cultures of different peoples. Narrated in clear, lively and easy to understand language, the tales are enriched with beautiful illustrations.

The Literary World

Hans Christian Andersen was a Danish author best known for writing children's stories including "The Little Mermaid" and "The Ugly Duckling." But he didn't just write short stories, and his intended audience wasn't restricted to children. In addition to his fairy tales, Andersen wrote poems, plays, novels, travel books, essays, and more. He hungered for recognition at home (Denmark) and abroad—and he got it! Eventually. Today, his stories can be read in over one hundred languages. But no matter what language they're in, Andersen's tales have got something for everyone. In them, you'll find beauty, tragedy, nature, religion, artfulness, deception, betrayal, love, death, judgment, penance, and—occasionally—a happy ending. They're complex tales, but since Andersen himself was pretty complex, we like to think that art imitates life. Or something like that. "The Wild Swans" is a literary fairy tale by Hans Christian Andersen about a princess who rescues her eleven brothers from a spell cast by an evil queen. Includes vintage illustration!

The Pink Fairy

From ensorcelled princesses to a frog that speaks, an enchanting collection of fairy tales from the Newbery Medal-winning author. The last mortal kingdom before the unmeasured sweep of Faerieland begins has at best held an uneasy truce with its unpredictable neighbor. There is nothing to show a boundary, at least on the mortal side of it; and if any ordinary human creature ever saw a faerie—or at any rate recognized one—it was never mentioned; but the existence of the boundary and of faeries beyond it is never in doubt either. So begins "The Stolen Princess," the first story of this collection, about the meeting between the human princess Linadel and the faerie prince Donathor. "The Princess and the Frog" concerns Rana and her unexpected alliance with a small, green, flipper-footed denizen of a pond in the palace gardens. "The Hunting of the Hind" tells of a princess who has bewitched her beloved brother, hoping to beg some magic of cure, for her brother is dying, and the last tale is a retelling of the Twelve Dancing Princesses in which an old soldier discovers, with a little help from a lavender-eyed witch, the surprising truth about where the princesses dance their shoes to tatters every night.

The School Librarian

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The Door in the Hedge

Six unusual fairy tales include "The Practical Princess," "Stupid Marco," "The Silver Whistle," "Forgetful Fred," "Petronella," and "Philbert the Fearful".

Los Angeles Magazine

In a land far, far away . . . A boy with magical powers to win Princess Charming's heart. A fairy who likes turning humans into toads. A true love forbidden by the King. A world of fairies and magic -- what could be more perfect than that? But is it perfect enough to help a simple farm boy marry a beautiful princess? And if an unruly fairy turns a maiden into a toad, how does she turn herself back? And can a fairy -- even a helpful one -- change a stubborn king's law? Welcome to a land where Princess Charming saves the day, the prince must kiss the toads, and nothing is as it seems! Now in one volume, three hilarious chances at happily-ever-after from the Newbery Honor author of *Ella Enchanted: Cinderellis* and *the Glass Hill For Biddle's Sake The Fairy's Return*

British Books

An enchantress is murdering Queen Kartek's soldiers and threatening her kingdom. Kartek's healing jewel has been lost. Her only hope of saving her kingdom seems to lie in the hands of the green-eyed stranger...but the price is steep, and the young queen doesn't have much time. Seventeen-year-old Queen Kartek has resigned herself to marrying the greatest warrior in the Megal Desert. Her true joy, however, lies in sharing her healing powers with her people. But when an enchantress attacks, her betrothed is murdered, and danger camps outside of Hedjet's gates, Kartek's world is turned upside down. To make matters worse, her healing jewel falls into an abandoned well just when she needs it the most, and her only hope of retrieving the jewel lies in marrying a green-eyed stranger and making him king. Kartek must either choose to trust that her new husband's intentions are as honorable as he promises, or try to defeat the enchantress alone. For as much as she resents her new husband, she quickly realizes there is more to this quiet man than meets the eye. He might just be the miracle her kingdom needs...and the balm she craves for her lonely heart. The Green-Eyed Prince is a novella set in the world of the Classical Kingdoms Collection, a series of clean fairy tale retellings clean, passionate romance, magical mystery, and heroic happily-ever-afters.

The Publishers' Circular and Booksellers' Record

The present state of copyright law and the way in which it threatens the remix of culture and creativity is a shared concern of the contributors to this unique book. Whether or not to remain within the underlying regime of intellectual property law, and what sort of reforms are needed if we do decide to remain within this regime, are fundamental questions that form the subtext for their discussions. - Publisher.

TWISTED FAIRY TALES

In this version of Rapunzel, the heroine breaks the enchantment put on her by the ogress who keeps her prisoner with the aid of three acorns.

Los Angeles Magazine

All mermaids long for the magic of a human soul. Briony won't drown sailors to get it. She makes potions instead, earning a reputation as a witch and becoming a social outcast. When a little mermaid asks for a potion that can reunite her with the human she loves, Briony reluctantly agrees. But there is more to the mermaid's plan than a quest for love. The more Briony interacts with the human prince the mermaid wants to claim, the more she suspects that he never loved the little mermaid at all. Discover a retelling of The Little Mermaid that turns the classic fairytale inside out and upside down. Where mermaids lure men to their deaths with siren songs and the sea witch will be the hero if she survives the final battle. The Prince and the Sea Witch is one of twelve short novels in A VILLAIN'S EVER AFTER, a collection of standalone stories featuring villainous twists on some of your favorite classic fairytales. Read the series in any order for magical adventures . . . and fall in love with villains as you've never seen them before. Who said villains can't have happily-ever-afters?

The Illustrated London News

"Through the dark and wolfish woods, through the white and silent snow, lived a small girl called Hortense. Though kind and brave, she was sad as an owl because of one thing . . . Hortense hated her shadow." A beautifully illustrated dark fairy tale that will remind you of the fables you read as a child. A treasure not to be missed.

Le Monde perdu des dinosaures

Loin de représenter un échec de l'évolution, le monde des dinosaures constitue une étape étonnante de la vie sur terre. Bipèdes ou quadrupèdes, carnivores (Tyrannosaurus rex) ou herbivores (Diplodocus), pesant quelques kilos (Compsognatus) ou plusieurs de tonnes (Brachiosaurus), ces reptiles terrestres, incroyablement diversifiés, régnèrent sur la planète pendant quelque 150 millions d'années. Leur disparition demeurent un mystère. Fut-elle longue et inexorable ou bien brutale ? Est-elle due au formidable choc d'un astéroïde gigantesque, à une éruption volcanique qui aurait plongé la terre pendant des siècles dans l'obscurité, ou encore à la régression des eaux à la fin du Crétacé ? Au terme d'un prodigieux voyage dans le temps, Jean-Guy Michard convie le lecteur à une enquête paléontologique, à la recherche du monde perdu des dinosaures.

Le Monde Perdu

Embarquez dans une aventure épique avec "Le Monde Perdu" d'Arthur Conan Doyle. Rejoignez le professeur Challenger et son équipe alors qu'ils découvrent un monde préhistorique caché dans la forêt amazonienne, regorgeant de créatures disparues depuis longtemps. Un mélange captivant d'aventure, de découverte et de survie qui enflammera l'imagination de tout lecteur.

Le monde perdu

Six ans après la catastrophe de Jurassic Park, quelque chose a survécu. Au large du Costa Rica, les inventeurs de la fantastique épopée zoologique ont échoué et vu leur projet anéanti. Mais les dinosaures ont continué à se reproduire. Pourquoi ? Comment ? Mystère. L'île est devenue un monde perdu, repeuplé de mammifères géants et de féroces carnivores. Pour un petit groupe d'hommes et de femmes aussi érudits que téméraires, un nouveau combat commence. Le rêve scientifique s'achèvera-t-il en cauchemar, comme la première fois ?

Le monde perdu

Le Monde perdu (The Lost World) est un roman d'aventures et de fantastique de Sir Arthur Conan Doyle paru en 1912. C'est le premier volet de la série des aventures du Professeur Challenger qui comprend cinq romans. Récit d'une expédition sur un haut-plateau peuplé de créatures préhistoriques, Le Monde perdu reflète l'engouement populaire pour les dinosaures durant les premières années du XXe siècle. Adapté de nombreuses fois au cinéma et à la télévision, le roman a eu une grande influence sur des oeuvres comme King Kong et Jurassic Park. Le monde perdu: univers oublié, disparu ? Pas pour tous: Edouard Malone, reporter à la Daily Gazette, va tenter de prouver à la belle Gladys et à l'effrayant professeur Challenger qu'il existe encore. L'aventure commence dans les méandres de l'Amazonie, mais les serpents venimeux et les esprits des bois ne sont pas les moindres dangers. La découverte des monstres du jurassique inaugure une série de catastrophes que le courage des aventuriers et l'intelligence des scientifiques ne parviennent pas toujours à maîtriser... Le Monde perdu n'est pas le plus célèbre roman du créateur de Sherlock Holmes, mais il devance de loin les films à grand spectacle qui nous ont familiarisés avec les pires dinosaures. Mélange d'aventures, de science-fiction et de paléontologie, Le Monde perdu multiplie les sujets d'enquête et de réflexion. Par son intrigue émaillée de rebondissements et son style d'une grande modernité, ce texte, accessible et stimulant, est idéal pour une étude en classe. Niveau 2: recommandé pour les classes de cinquième et de quatrième.

Le Monde Perdu

La suite du best-seller qui a inspiré le film de Steven Spielberg. Suite de Jurassic Park, Le Monde perdu se déroule six ans après la catastrophe d'Isla Nublar. Bombardée par l'armée, l'île de John Hammond est désormais déserte. Selon le paléontologue Richard Levine, il serait cependant possible que des dinosaures survivent encore non loin de là. Il décide de se rendre sur ce fameux " Site B \

Jurassic Park - Tome 2 : Le Monde perdu

Le Monde perdu (The Lost World) est un roman d'aventures et de fantastique de Sir Arthur Conan Doyle paru en 1912. C'est le premier volet de la série des aventures du Professeur Challenger qui comprend cinq romans. Récit d'une expédition sur un haut-plateau peuplé de créatures préhistoriques, Le Monde perdu reflète l'engouement populaire pour les dinosaures durant les premières années du XXe siècle. Adapté de nombreuses fois au cinéma et à la télévision, le roman a eu une grande influence sur des oeuvres comme King Kong et Jurassic Park. Le monde perdu : univers oublié, disparu ? Pas pour tous : Edouard Malone, reporter à la Daily Gazette, va tenter de prouver à la belle Gladys et à l'effrayant professeur Challenger qu'il existe encore. L'aventure commence dans les méandres de l'Amazonie, mais les serpents venimeux et les esprits des bois ne sont pas les moindres dangers. Le Monde Perdu (texte Intégral De 1913)

Un album composé de photographies spectaculaires tirées des deux films, de quelques informations secondaires sur les dinosaures et de quelques remarques sur le tournage. Une publication exclusivement d'intérêt commercial.

Le monde perdu

Une suite au [Parc jurassique](#) en vue d'un film. [SDM].

Le monde perdu : roman

Le monde perdu, d'Arthur Conan Doyle a été de multiples fois adapté. Ce guide vous présente une dizaine de transpositions en bandes dessinées, les films et téléfilms de Harry Hoyt, Irwin Allen, Timothy Bond, Bob Keen, Stuart Orme, ainsi que la série animée de François Brisson et Thomas Lapiere et les trois saisons de The Lost World avec les soixante-six épisodes résumés et commentés. Il est complété par un tour d'horizon d'oeuvres "parentes, pastiches ou parodies" les comics Turok, Korak et Tarzan,

trois aventures de Bob Morane, une de Luc Orient, quelques unes des nombreuses adaptations de Voyage au centre de la Terre de Jules Verne, Lost Continent de Samuel Newfield, Unknown Island de Jack Bernhard, The Valley of Gwangi de Jim O'Connolly, The Last Dinosaur d'Alex Grasshoff et Tom Kotani, The Land that Time Forgot de Kevin Connor, Dinotopia de Marco Brambilla, King of the Lost World de Leigh Scott, etc."

VARIATIONS SUR LE MONDE PERDU

Quatre ans après la destruction de Jurassic Park, le parc d'attraction peuplé de dinosaures vivants, le professeur Ian Malcolm fait une découverte ahurissante : les animaux ont été introduits sur une autre île et vivent à l'état sauvage. Des dizaines d'espèces, libres de grandir et de se reproduire...

Le Monde des Dinosaures

JAMAIS DEPUIS JURASSIC PARK LA CHASSE AUX FOSSILES DE DINOSAURES N'AVAIT ÉTÉ AUSSI DANGEREUSE... Le roman inédit de Michael Crichton, qui lui a inspiré Jurassic Park 1875. Dandy désœuvré, le jeune William Johnson, après avoir perdu un pari, doit partir pour le Far West. Quittant son univers privilégié, l'étudiant de Yale rejoint une expédition à la recherche de fossiles préhistoriques dans les territoires reculés et hostiles du Wyoming. Mais la plus sanglante des guerres indiennes vient d'éclater. Et avec elle un autre conflit, opposant deux célèbres paléontologues prêts à tout pour déterrer d'incalculables vestiges de dinosaures et accéder à la gloire. Pactes secrets, trahisons et meurtres rythmeront l'épopée de Johnson, peuplée de figures mythiques de l'Ouest : chasseurs de bisons et chasseurs de primes, généraux en déroute et Sioux sanguinaires, as de la gâchette et danseuses de saloon. Retrouvé dans les archives de l'écrivain, ce roman inédit au confluent du western et du thriller est fondé sur des faits réels. Il lui a ensuite inspiré Jurassic Park, son plus célèbre roman.

LE MONDE PERDU.

Le monde perdu: univers oublié, disparu ? Pas pour tous: Édouard Malone, reporter à la Daily Gazette, va tenter de prouver à la belle Gladys et à l'effrayant professeur Challenger qu'il existe encore. L'aventure commence dans les méandres de l'Amazonie, mais les serpents venimeux et les esprits des bois ne sont pas les moindres dangers. La découverte des monstres du jurassique inaugure une série de catastrophes que le courage des aventuriers et l'intelligence des scientifiques ne parviennent pas toujours à maîtriser. Le Monde perdu n'est pas le plus célèbre roman du créateur de Sherlock Holmes mais il devance de loin les films à grand spectacle qui nous ont familiarisés avec les pires dinosaures. Mélange d'aventures, de science-fiction et de paléontologie, Le Monde perdu multiplie les sujets d'enquête et de réflexion. Par son intrigue émaillée de rebondissements et son style d'une grande modernité, ce texte, accessible et stimulant, est idéal pour une étude de classe. Niveau 2: recommandé pour les classes de cinquième et de quatrième. Le Monde perdu figure dans les documents d'accompagnement des programmes officiels de l'Éducation Nationale

Dent de dinosaure

Un voyage dans le monde perdu des dinosaures à la rencontre des terrifiants carnassiers, des impressionnants herbivores et de toutes les créatures étranges et inclassables ! Un superbe livre géant qui révèle au fil de pages dix mini-livres étonnants et plein d'autres surprises pour vivre intensément sa passion des dinosaures. Chaque livre fourmille d'informations insolites et passionnantes pour découvrir autrement le monde de ces animaux qui ont régné sur Terre pendant 160 millions d'années.

Le monde des dinosaures

«En 1964, mes pas ont croisé la piste des dinosaures et, depuis, mes souliers ont beaucoup voyagé, du désert du Ténéré au Sertão du Brésil, de la forêt du Laos aux steppes de Mongolie; j'ai eu la chance de découvrir quelques dinosaures et la joie de partager la vie de nombreux terriens, Touaregs du Niger, Berbères du Haut-Atlas marocain ou vigneron des Corbières. En racontant ces voyages à la recherche des dinosaures, je souhaite entraîner le lecteur dans un monde qui ne doit rien à la fiction mais tout à la science.» Philippe Taquet Professeur de paléontologie au Muséum national d'histoire naturelle, dont il a été le directeur, Philippe Taquet est l'un des grands spécialistes mondiaux des dinosaures.

Le Monde Perdu

Suivez les pas d'un paléontologue à travers l'Amérique du nord, à la découverte des sites riches en fossiles de dinosaures! Vous retrouverez la majesté et l'effroi qu'inspire le royaume des dinosaures : Coelophysis, triceratops, Tyrannosaurus rex, Elasmosaurus... Dont vous pourrez monter les maquettes, afin que le jeu prolonge le plaisir de la lecture.

Le monde des dinosaures

"Il n'y a pas de mots pour décrire ce qui s'offre enfin à nos yeux ! L'expédition du professeur Challenger continue son périple en Amazonie et c'est complètement éberlué que tous découvrent enfin les dinosaures tant espérés. Leur long voyage n'aura pas été vain ! Alors que certaines espèces sont inoffensives et herbivores d'autres sont beaucoup plus hostiles aux humains et l'équipe manque même de se faire dévorer. Alors que Summerlee préconise de rebrousser chemin et de revenir avec plus d'hommes et surtout plus d'armes, Challenger s'y refuse soutenu par ses compagnons. Mais le danger n'est pas seulement dû aux créatures, la nuit alors que de terrifiants cris retentissent, des silhouettes observent le campement...".

Dinosaurium

Retrouvez le monde disparu des dinosaures. Comment les connaissons-nous ? Quelles étaient les grandes familles de dinosaures ? Pourquoi et comment ont-ils disparu ? Existait-il des dinosaures à plumes ? Quelles espèces actuelles descendent des dinosaures ? Grâce à de superbes reconstitutions de ces animaux extraordinaires, vous serez témoin de ces temps reculés où les dinosaures peuplaient les océans, les continents et le ciel !

Le monde des dinosaures

Dinosaur Impressions is the engaging account of thirty years of travel and paleontological exploration by Philippe Taquet, one of the world's most noted paleontologists. In this 1998 book, Dr Taquet takes the reader on a surprisingly far-flung tour ranging from the Provence countryside to the Niger desert, from the Brazilian bush to the Mongolian Steppes, and from the Laos jungle to the Moroccan mountains in search of dinosaur bones and what they have to tell us about a vanished world. With wry humor and lively anecdotes, Dr Taquet retraces the history of paleontological research along the way discussing the latest theories of dinosaur existence and extinction. Dinosaur Impressions provides a unique, thoughtful perspective not often encountered in English-speaking works. This insightful, first-hand account of an exceptional career is also a travelogue par excellence that will enthrall enthusiasts and general readers alike.

Empreinte des dinosaures (L')

Il y a 65 millions d'années, les dinosaures furent rayés de la surface du globe, à la suite d'un gigantesque cataclysme dont la cause reste encore controversée. Comète géante ? Eruption volcanique ? L'explication appartient aux paléontologues, alors que déjà, dans le Sud de la France, des restes de dinosaures et des œufs fossiles apportent un début de réponse à cette énigme. Retraçant l'épopée de ces " dinosaures français " et de leur " redécouverte " dans les années 70, Eric Buffetaut dresse le tableau de la faune du Crétacé. Une faune incroyablement diverse, aboutissement d'un règne de 160 millions d'années - la plus spectaculaire " réussite " du monde vivant depuis les origines. Car les dinosaures n'étaient pas voués à l'extinction. Sans leur disparition, l'histoire des mammifères eût sans doute pris un cours tout différent - et, a fortiori, l'histoire des hommes. Du site de Bellevue, dans l'Aude, à celui de Cruzy, dans l'Hérault, Dinosaures : à la recherche d'un monde perdu nous donne à voir, au jour le jour, le travail du paléontologue : fouilles, reconstitutions, analyses et recherches dans les musées d'histoire naturelle du monde entier. Un travail qui s'apparente à celui de l'enquêteur, et dont l'ultime objectif est de mieux comprendre l'évolution de la vie sur terre.

Le monde des dinosaures

Le procédé original des films transparents révèle et explique, avec une exceptionnelle clarté, tous les secrets de la vie des dinosaures. Tournez chaque film transparent et découvrez : - L'éclosion d'un œuf de dinosaure, - La reconstitution virtuelle de Tyrannosaurus, - Allosaurus, un féroce prédateur, en pleine partie de chasse, - Les particularités étonnantes de la tête de Styracosaurus, un dinosaure végétarien. Retournez des centaines de millions d'années en arrière et plongez dans le monde disparu des dinosaures. Partagez avec des paléontologues des découvertes fascinantes. Comprenez comment les

chercheurs ont retrouvé les traces des dinosaures, de quelle manière ces animaux vivaient et pourquoi ces " lézards terribles " se sont éteints.

Le Monde perdu T02

La fascinante histoire de l'extinction des dinosaures et des débuts de l'humanité ! Le saviez-vous ? Si les dinosaures n'avaient pas disparu il y a soixante-six millions d'années à la suite d'un impact d'une météorite gigantesque dans le golfe du Mexique, nous ne serions pas là. L'Homme n'aurait pas pu exister. En effet, les dinosaures dominaient le monde et écrasaient les mammifères dont nous sommes issus. La disparition de ces grands reptiles leur a permis de se développer. C'est cette histoire passionnante que l'auteur raconte ici à la manière d'une pièce en trois actes : la vie en France à la fin du Crétacé supérieur ; l'impact de la météorite et ses effets dévastateurs ; la renaissance des mammifères et l'émergence de l'Homme. Vous vous promènerez dans le sud de la France, du côté de Cahors, et partagerez la vie des derniers dinosaures. Vous assisterez à leur agonie, au désastre planétaire, à l'extinction de 75 % des espèces animales. Vous comprendrez pourquoi, quelques centaines de milliers d'années plus tard, des mammifères de la taille d'un mulot ont progressivement grandi, mué, grimpé dans les arbres, donnant naissance aux primates... dont nous sommes issus. Une saga étonnante qui aide à mieux comprendre le prodigieux destin de l'humanité.

Le temps des dinosaures

Au cours des quinze dernières années, d'extraordinaires découvertes ont bouleversé le monde de la paléontologie et ont fait voler en éclats certains mythes. Dinosaures à plumes, oiseaux archaïques, mammifères dévorant des dinosaures, insectes géants... Le visage de la Préhistoire a changé. D'incroyables fossiles, mis au jour notamment en Chine, dévoilent des secrets jusque-là inconnus des scientifiques. À quoi ressemblaient les premiers mammifères ? Les dinosaures avaient-ils tous des plumes ? De quelle couleur étaient-elles ? Issu de la série documentaire Les Mondes Perdus (Saint Thomas Productions/Arte), superbement illustré par des reconstitutions hyperréalistes de ces monstres du passé, enrichi d'interviews de paléontologues de renom, truffé d'anecdotes insolites, ce livre propose un nouveau regard scientifique sur le passé lointain, un voyage à travers le temps à la rencontre de la nouvelle Préhistoire.

Dinosaur Impressions

Ce livre est un guide illustré des incroyables espèces qui régnaient sur notre planète il y a des millions d'années. Vous y découvrirez plus de 250 espèces disparues, dont certaines viennent tout juste d'être exhumées. Cet ouvrage, merveilleusement illustré, fourmille d'informations sur l'anatomie, le comportement, le régime alimentaire et l'habitat de ces créatures de la préhistoire. Faites connaissance avec les tout premiers dinosaures et leurs descendants, les herbivores géants, les énormes carnivores et les reptiles qui dominaient les océans et les cieux. suivez la progression continue des chasseurs de fossiles qui nous révèlent ce monde merveilleux.

Dinosaures

A Propos Doyle: Sir Arthur Ignatius Conan Doyle, DL (22 May 1859 - 7 July 1930) was a Scottish author most noted for his stories about the detective Sherlock Holmes, which are generally considered a major innovation in the field of crime fiction, and the adventures of Professor Challenger. He was a prolific writer whose other works include science fiction stories, historical novels, plays and romances, poetry, and non-fiction. Conan was originally a given name, but Doyle used it as part of his surname in his later years. Source: WikipediaLe Monde perdu (The Lost World) est un roman d'aventures et de fantastique de Sir Arthur Conan Doyle paru en 1912. C'est le premier volet de la série des aventures du Professeur Challenger qui comprend cinq romans. Récit d'une expédition sur un haut-plateau peuplé de créatures préhistoriques, Le Monde perdu reflète l'engouement populaire pour les dinosaures durant les premières années du XXe siècle. Adapté de nombreuses fois au cinéma et à la télévision, le roman a eu une grande influence sur des oeuvres comme Jurassic Park et King Kong.

La vie des dinosaures

Remonte le temps et explore le monde incroyable des dinosaures. Découvre le diplodocus, gros comme quatre autobus, le stégosaure avec son cerveau minuscule et le terrible tyrannosaure qui doit manger

un petit dinosaure tous les deux jours pour rester en vie ! Amuse-toi aussi avec des jeux et un quiz, et complète les scènes avec plus de 300 super stickers.

Le monde incroyable des dinosaures

Quelle taille faisaient les dinosaures ? Que pouvaient-ils bien manger ? A quoi servait le long cou de certains dinosaures ? Quand ont-ils disparu ? Savaient-ils nager ? Et voler ? Grâce au contrôleur et à tous les amis du Dino Train, le monde des dinosaures n'aura plus de secrets pour toi ! Avec un super poster g "ant de tous les dinosaures !

La fin des dinosaures - S'ils n'avaient pas disparu nous ne serions pas là !

Parcours les diverses périodes de la vie sur Terre, à travers la formation des fossiles. Explore le monde disparu des dinosaures, des premiers brachiosaures aux redoutables tyrannosaures, sans oublier les ptérosaures, les reptiles du ciel. Découvre les animaux et les plantes qui vivaient il y a cinq cents millions d'années.

Le monde fantastique des dinosaures

A partir d'un journal de bord de deux naturalistes anglais partis sur les traces de Darwin en 1860, s'élabore une agréable utopie qui, à l'instar du "monde perdu" de Conan Doyle, se révèle un continent intemporel où ont survécu les dinosaures et autres bestioles apparentées. Un récit jubilatoire, puisque ces bêtes sont familières et bienveillantes envers l'homme, un roman à la Jules Verne rehaussé d'étonnantes illustrations.
