Leaf Trouble

When he wakes up one morning to find that his home tree is changing, the little squirrel is scared! Why are all the leaves falling off? Quickly he corrals his sister and they gather up the leaves in colourful pawfuls. But try as they may to stick them back on the branches, it's hopeless: Yellow, orange, red, and brown, all the leaves keep falling down! It's only when their wise mama explains what happens in autumn that the two little squirrels understand the seasons are changing. Green leaves will sprout anew in spring!

Scarecrow

From a Newbery Medal-winning author, a look at life from a scarecrow's point of view, accompanied by "magnificent" illustrations (School Library Journal). Scarecrows. They perch high above gardens and fields, with borrowed coats and button eyes and pie-pan hands that glint in the sun. What else is there to know about them? Perhaps more than we realize. Newbery Medalist Cynthia Rylant's rich and poignant story, powerfully illustrated by Lauren Stringer, will resonate deeply in the hearts of readers, who just might find themselves seeing the world in a whole new way. "Rylant lyrically imagines the scarecrow as a grateful 'witness to life,' while the acrylic paintings evoke a warm, even nostalgic sense of plenty."—Publishers Weekly "Rylant uses casual, conversational language with simple elegance and pleasing rhythms."—School Library Journal "Rylant is in fine form."—Kirkus Reviews

Huggapotamus

The day the cows strolled down Main Street in fancy hats...Evy didn't notice. What was Evy doing? Evy is so focused on watching her garden grow that she misses all the silliness going on around her—pigs DANCING, donkeys FLYING, and sheep HAVING A PICNIC. But after Evy's spent all year taking care of her garden, everyone's invited to pumpkin time!

Pumpkin Time!

More than leaves are about to fall...After calling off her fall wedding, horror novelist Amy Fox is left with a broken heart, a mega case of writer's block, and a serious aversion to all things pumpkin spice. When she receives news that her grandfather has broken his wrist driving through a Dunkin Donuts--literally straight through the front windows--five hundred miles away, in her hometown of Autumnboro, New Hampshire, Amy has no choice but to return to check on him. If she doesn't make sure that he's back on his feet, Grandpa may be moved into assisted living, and Amy's beloved childhood home will be put on the market. Knowing she must return, Amy worries about the only thing worse than pumpkin spice--a reunion with Kit Parker--her childhood best friend, first love, and entire reason for skipping town in the first place. As the two reconnect, a second chance seems possible...if only Kit weren't holding on to a secret that just might unravel everything. Set against the scenic backdrop of the White Mountains, New Hampshire, Pumpkin Everything is a small town, sweet romance, and the perfect way to kick off the fall season! A pumpkin spice latte wouldn't hurt, either.

Pumpkin Everything

What happens when, one day, a dropped bean is devoured by ten flies, and hundreds of dogs eat cheese fallen from a truck, and thousands of runners begin gulping air, and all the people at home that morning have eggs for breakfast, and then they all fart at once? This hilarious book answers that intriguing question, as readers learn the after-effects of the world's biggest fart on the poor town where it happens, from poodles' curls going limp to elephants plugging their trunks with bananas. This unique picture book, with lighthearted illustrations, will entertain children and parents alike.

It All Began with a Bean: The True Story of the World's Biggest Fart

"When Pumpkin the miniature horse was born, there was something wrong with her legs. It hurt the little horse to walk or even stand. She needed help and fast. Luckily, Pumpkin and her mom were rescued by Twist of Fate Farm and Sanctuary. The sanctuary's founder knew that Pumpkin was special. She would do whatever it took to help her. Pumpkin got lots of love from her animal and human families plus the support of thousands online fans from across the globe. Together they helped Pumpkin beat the odds and learn to run!"--Cover

Pumpkin's Story

Each year Americans start one million new businesses, nearly 80 percent of which fail within the first five years. Under such pressure to stay alive—let alone grow—it's easy for entrepreneurs to get caught up in a never-ending cycle of "sell it—do it, sell it—do it" that leaves them exhausted, frustrated, and unable to get ahead no matter how hard they try. This is the exact situation Mike Michalowicz found himself in when he was trying to grow his first company. Although it was making steady money, there was never very much left over and he was chasing customers left and right, putting in twenty-eight-hour days, eight days a week. The punishing grind never let up. His company was alive but stunted, and he was barely breathing. That's when he discovered an unlikely source of inspiration—pumpkin farmers.

After reading an article about a local farmer who had dedicated his life to growing giant pumpkins, Michalowicz realized the same process could apply to growing a business. He tested the Pumpkin Plan on his own company and transformed it into a remarkable, multimillion-dollar industry leader. First he did it for himself. Then for others. And now you. So what is the Pumpkin Plan? Plant the right seeds: Don't waste time doing a bunch of different things just to please your customers. Instead, identify the thing you do better than anyone else and focus all of your attention, money, and time on figuring out how to grow your company doing it. Weed out the losers: In a pumpkin patch small, rotten pumpkins stunt the growth of the robust, healthy ones. The same is true of customers. Figure out which customers add the most value and provide the best opportunities for sustained growth. Then ditch the worst of the worst. Nurture the winners: Once you figure out who your best customers are, blow their minds with care. Discover their unfulfilled needs, innovate to make their wishes come true, and overdeliver on every single promise. Full of stories of other successful entrepreneurs, The Pumpkin Plan guides you through unconventional strategies to help you build a truly profitable blue-ribbon company that is the best in its field.

The Pumpkin Plan

Baked, stewed, or mashed, pumpkins remind Rebecca Estelle of the Great Depression when that was all her family had to eat. When an enormous pumpkin falls off a truck and smashes in her yard, Rebecca Estelle devises a clever way to get rid of the unwanted crop that sprouts.

Too Many Pumpkins

For untold ages a dark presence has shrouded the small town of Orangefield. In addition to the plentiful pumpkins that gave the town its name, Orangefield is home to the dreaded Lord of Death himself, Samhain. Despite rumors of his existence, and rare, brief sightings, Samhain has long been content to leave the local inhabitants alone. But that's about to change... When a boy from the town disappears, detective Bill Grant is convinced Samhain is responsible. But even Grant cannot imagine the horrific extent of the Lord of Death's grand scheme. As what may prove to be the last Halloween approaches, the fate of the world will depend on the survival of a small group of people, pawns in a terrifying game of cosmic proportions.

Horrorween

This vibrant poem celebrates the beauty of autumn while inviting us all to go ahead and jump in that big, colorful, pile of fall leaves. Leslie Evan's bold artwork brings together gold, orange, yellow, red, and brown leaves into a literary pile creating the magic of autumn for young readers. The poetic text gives simple facts about different types of fall leaves making it easy for readers to identify leaves ranging from red maple to sycamore by color, shape, and other characteristics. Informative and fun, Carole Gerber brings us a wonderful introduction to seasons and science for the earliest of leaf jumpers.

Return to the beloved world of Julie Murphy's #1 New York Times bestselling *Dumplin'*—now a popular Netflix feature film starring Jennifer Aniston—in this fabulously joyful, final companion novel about drag, prom, and embracing your inner Queen. Waylon Russell Brewer is a fat, openly gay boy stuck in the small West Texas town of Clover City. His plan is to bide his time until he can graduate, move to Austin with his twin sister, Clementine, and finally go Full Waylon so that he can live his Julie-the-hills-are-alive-with-the-sound-of-music-Andrews truth. So when Clementine deviates from their master plan right after Waylon gets dumped, he throws caution to the wind and creates an audition tape for his favorite TV drag show, *Fiercest of Them All*. What he doesn't count on is the tape getting accidentally shared with the entire school. . . . As a result, Waylon is nominated for prom queen as a joke. Clem's girlfriend, Hannah Perez, also receives a joke nomination for prom king. Waylon and Hannah decide there's only one thing to do: run—and leave high school with a bang. A very glittery bang. Along the way, Waylon discovers that there is a lot more to running for prom court than campaign posters and plastic crowns, especially when he has to spend so much time with the very cute and

infuriating prom king nominee Tucker Watson. Waylon will need to learn that the best plan for tomorrow is living for today . . . especially with the help of some fellow queens. . . .

Pumpkin

"Cathleen Young's characters will forever have a place in my heart." --Holly Goldberg Sloan, author of *Counting by 7s* Former best friends compete to see who can grow the biggest pumpkin and win the annual giant pumpkin race on the lake. A great pick for fans of *Half a Chance* and *Gertie's Leap to Greatness*. At the end of every summer, Madeline Island hosts its famous pumpkin race. All summer, adults and kids across the island grow giant, thousand-pound pumpkins, then hollow one out and paddle in it across the lake to the cheers of the entire town. Twelve-year-old Billie loves to win; she has a bulletin board overflowing with first-prize ribbons. Her best friend Sam doesn't care much about winning, or at least Billie didn't think so until last summer's race, when his pumpkin crashed into hers as she was about to cross the finish line and he won. This summer, Billie is determined to get revenge by growing the best and biggest pumpkin and beating Sam in the race. It's a tricky science to grow pumpkins, since weather, bugs, and critters can wipe out a crop. Then a surprise visit from a long-lost relative shakes things up, and Billie begins to see her family, and her bond with Sam, in a new way.

The Pumpkin War

Sharing can be hard--but Little Critter always tries his best to share everything with Little Sister, from his crayons to his puppy. Now, if he could only teach her to share back! A funny, realistic, and reassuring look at a child's struggle to give up (however temporarily) "my stuff."

I Am Sharing

Leitmeritz the wizard solves everyone's problems with the help of his "Red Book of Spells." But, he can't help his assistant, Chancery, the sad blue man whom the villagers call the Ugly. One day, while the wizard is away, Chancery asks the "Red Book of Spells" to make him handsome, with unexpected consequences.

Disney: Hocus Pocus & The All New Sequel

THE NEW YORK TIMES BESTSELLER! A spellbinding, bewitching rom com . . . 'The book I've been waiting for all my life' Emily Henry, author of *Beach Read* 'Like if Casey McQuiston wrote paranormal' Goodreads Emmy Harlow is a witch in exile. She hasn't been home to the magical town of Thistle Grove in years, which has a lot to do with a complicated family history and a desire to forge her own way in the world, and only the very tiniest bit to do with Gareth Blackmoore, heir to the most powerful magical family in town, casual breaker of hearts and destroyer of dreams. But when a spellcasting tournament approaches, it turns out the pull of tradition (or the truly impressive parental guilt trip that comes with it) is strong enough to bring Emmy back. She's determined to do her familial duty; spend some quality time with her best friend, Linden Thorn; and get back to her real life in Chicago. On her first night home, Emmy runs into Talia Avramov - an all-around badass adept in the darker magical arts - who is fresh off a bad breakup . . . with Gareth Blackmoore. Talia had let herself be charmed, only to discover that Gareth was also seeing Linden - unbeknownst to either of them. And now she and Linden want revenge. Only one question stands: Is Emmy in? But most concerning of all: Why can't she stop thinking about the terrifyingly competent, devastatingly gorgeous, wickedly charming Talia Avramov? The perfect witchy autumn read to get you in the mood for Halloween . . . 'A queer rom com that bewitches from the very first page' Publishers Weekly 'John Tucker Must Die but with queer witches' Goodreads 'Compulsively fun' Jacqueline Carey, New York Times bestselling author 'Sexy, charming and completely magical!' Kerry Winfrey 'The perfect autumnal witchy romance!' The Wizard, the Ugly, and the Book of Shame

My Antonia is a novel by an American writer Willa Cather. It is the final book of the "prairie trilogy" of novels, preceded by *O Pioneers!* and *The Song of the Lark*. The novel tells the stories of an orphaned

boy from Virginia, Jim Burden, and Antonia Shimerda, the daughter of Bohemian immigrants. They are both became pioneers and settled in Nebraska in the end of the 19th century. The first year in the very new place leaves strong impressions in both children, affecting them lifelong. The narrator and the main character of the novel *My Antonia*, Jim grows up in Black Hawk, Nebraska from age 10 Eventually, he becomes a successful lawyer and moves to New York City.

Payback's a Witch: an absolutely spellbinding romcom

A child demonstrates that while Mom differs from a traditional superhero, as an American soldier, she is a hero of a different kind.

My Antonia

Captain Arsenio was a curious man who liked, more than anything, to tinker and explore. One day in 1782, he decided that he would put his unusual skills to work in a most ambitious way: he would build a flying machine. Despite a hodgepodge of materials (and a total unawareness of the laws of physics), Captain Arsenio aimed to get his feet off the ground and his head in the clouds—temporarily, at least. But would any of his crazy inventions ever achieve flight? In this hilarious fictional account, Pablo Bernasconi imagines a legend in the making—a retired cheesemaker and scuba diver turned inventor who sets off to fly with the birds, in spite of himself.

Hero Mom

"Narrator Polly Collier is very good. Her strong, clear voice makes her sound much like a teacher, and I appreciated her explanation to young listeners that she would be reading the text portion of a picture book...It's a wonderful book, full of interesting trivia..." - AudioFile

YOU WANT CLARITY. You are tired of wondering, "What's next?" You want to know if you are making the right decision. You are ready for fewer distractions, more direction, and a clear idea of where you want to go. AND YOU WANT IT NOW. You would take the initiative, if you only knew what steps to take. You don't want life to happen to you. You are ready for life to start happening because of you. PURPOSE IS THE FACTOR. In *The Purpose Factor*, you will discover the most practical and effective process ever developed for finding and living out your purpose. Purpose is the single difference between simply existing and really living. It is what separates the successful from the standard, divides the top earners from the just-get-byers, and determines whether a company will grow and thrive or just barely survive. Your purpose will unlock the secret to living a meaningful life, building a successful career, and making a difference in the world. Knowing your purpose will determine how well you do and how far you go.

The Purpose Factor

Pulitzer Prize-winning journalist and bestselling author John Hersey's seminal work of narrative nonfiction which has defined the way we think about nuclear warfare. "One of the great classics of the war" (*The New Republic*) that tells what happened in Hiroshima during World War II through the memories of the survivors of the first atomic bomb ever dropped on a city. "The perspective [Hiroshima] offers from the bomb's actual victims is the mandatory counterpart to any Oppenheimer viewing." —GQ Magazine "Nothing can be said about this book that can equal what the book has to say. It speaks for itself, and in an unforgettable way, for humanity." —The New York Times Hiroshima is the story of six

human beings who lived through the greatest single manmade disaster in history. John Hersey tells what these six -- a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest -- were doing at 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city. Then he follows the course of their lives hour by hour, day by day. The New Yorker of August 31, 1946, devoted all its space to this story. The immediate repercussions were vast: newspapers here and abroad reprinted it; during evening half-hours it was read over the network of the American Broadcasting Company; leading editorials were devoted to it in uncounted newspapers. Almost four decades after the original publication of this celebrated book John Hersey went back to Hiroshima in search of the people whose stories he had told. His account of what he discovered about them -- the variety of ways in which they responded to the past and went on with their lives -- is now the eloquent and moving final chapter of Hiroshima.

The Magic Pumpkin

The legendary New York Times bestselling tale of top-down change for anyone trying to navigate today's uncertain business seas. When Captain Abrashoff took over as commander of USS Benfold, it was like a business that had all the latest technology but only some of the productivity. Knowing that responsibility for improving performance rested with him, he realized he had to improve his own leadership skills before he could improve his ship. Within months, he created a crew of confident and inspired problem-solvers eager to take the initiative and responsibility for their actions. The slogan on board became "It's your ship," and Benfold was soon recognized far and wide as a model of naval efficiency. How did Abrashoff do it? Against the backdrop of today's United States Navy, Abrashoff shares his secrets of successful management including: See the ship through the eyes of the crew: By soliciting a sailor's suggestions, Abrashoff drastically reduced tedious chores that provided little additional value. Communicate, communicate, communicate: The more Abrashoff communicated the plan, the better the crew's performance. His crew eventually started calling him "Megaphone Mike," since they heard from him so often. Create discipline by focusing on purpose: Discipline skyrocketed when Abrashoff's crew believed that what they were doing was important. Listen aggressively: After learning that many sailors wanted to use the GI Bill, Abrashoff brought a test official aboard the ship-and held the SATs forty miles off the Iraqi coast. From achieving amazing cost savings to winning the highest gunnery score in the Pacific Fleet, Captain Abrashoff's extraordinary campaign sent shock waves through the U.S. Navy. It can help you change the course of your ship, no matter where your business battles are fought.

The Long Winter

Fabre had many scholarly achievements. He was a popular teacher, physicist, chemist, and botanist. However, he is probably best known for his findings in the field of entomology, the study of insects, and is considered by many to be the father of modern entomology. Much of his enduring popularity is due to his marvelous teaching ability and his manner of writing about the lives of insects in biographical form.

'Shoot all the bluejays you want, if you can hit 'em, but remember it's a sin to kill a mockingbird' Meet Scout, the narrator of this book. Her story is one of Deep South summers, fights at school and playing in the street. The spooky house of her mysterious neighbour, Boo Radley, sags dark and forbidding nearby. Her brother, Jem, and her friend, Dill, want to make Boo come outside. Her story is about justice. When Scout's father, a lawyer, agrees to defend a black man against an accusation by a white girl, he must battle the prejudice of the whole town. It's about imagination - not just the kind you need for childhood games. Because you never really know a man until you stand in his shoes and walk around in them. Vintage Children's Classics is a twenty-first century classics list aimed at 8-12 year olds and the adults in their lives. Discover timeless favourites from The Jungle Book and Alice's Adventures in Wonderland to modern classics such as The Boy in the Striped Pyjamas and The Curious Incident of the Dog in the Night-Time.

Hiroshima

First you marry a man who does not want children. He cheats and you divorce him. Then you marry the love of your life and find out he does not want to have children with you either. The three he has are more than enough. Although you always wanted to be a mother, you decide he is worth the sacrifice,

expecting to have a long happy life together. But that's not what happens. This is the story of how a woman becomes childless by marriage and how it affects every aspect of her life. This is the book of my heart, the one I had to write. Ever since I realized I was not going to have children, I have felt recurring grief and an emptiness in my heart. I am different from most women, but I have found that I am not alone. There are many of us childless women, and I think it's important to share our stories about what it's like when you don't have children in a world where most girls grow up to become mothers. I hope this book offers comfort to those who are childless and understanding to those who are not. If it makes you smile here and there, even better.

It's Your Ship

A little girl chases her giant pumpkin all over town with some help along the way. It's the perfect bedtime story to read with your little pumpkin.

Come Thou Fount of Every Blessing
Jesus Paid it All
It is Well With My Soul
Sweet Hour of Prayer
Be Still My Soul
Fairest Lord Jesus
Holy, Holy, Holy
Great is Thy Faithfulness
God is so Good
I'd Rather Have Jesus
This is My Father's World
Have Thine Own Way Lord
O How I Love Jesus
The Faithfulness of God
Pass Me Not O Gentle Savior
Trust and Obey
Blessed Assurance
I Need Thee Every Hour
Abide With Me
At the Cross
Rock of Ages Cleft for Me
Down to the River
The Peace of God
There is a Fountain
My Help Comes from the Lord
Man of Sorrows What a Name
Turn Your Eyes Upon Jesus
My Jesus I Love Thee
Revive Us Again
Tis So Sweet to Trust in Jesus
He Leadeth Me
Doxology
Give Me Jesus
Behold I am with You Always

Labor Issues of American International Trade and Investment

Employment policy monograph designed to familiarize labour force specialists with the interrelation between international trade and investment and the labour market in the USA - reviews the concept of labour intensive imports relative to exports, discusses the development of the worker adjustment assistance programme, and summarizes information on the importance of multinational enterprises' impact on the labour market, etc. References and statistical tables.

Multinationals and Employment in Indonesia

Trade, investment, economic growth, newly industrializing country, Hong Kong, Singapore, Korea R and Taiwan, China - export, foreign investment, industrialization, employment, labour market, income distribution. Graph, references, statistical tables.

Foreign Trade and Investment

Aimed at senior undergraduate and post-graduate students following courses in International Business and Industrial Relations this book examines the labour market effects of multinational business. In reflecting the complexity and dynamism of developments in this area, the book makes clear the need to underpin analysis of the labour market effects of multinational business with conceptual understanding of the theory of multinational enterprise.

Multinational Business and Labour (RLE International Business)

Globalization and the growing integration of national markets have had profound effects on the operation of markets, not least labour markets. In this book, a range of leading commentators on globalization and labour markets present original contribution on the interaction between these two areas. This book assesses the impact of globalization on trade, cross-border investment and migration from both a theoretical and econometric standpoint and discusses the possible applications of this analysis for both industrialized and developing countries.

The Employment Effects of Multinational Enterprises in the United States and of American Multinationals Abroad

Are immigrants squeezing Americans out of the work force? Or is competition with foreign products imported by the United States an even greater danger to those employed in some industries? How do wages and unions fare in foreign-owned firms? And are the media's claims about the number of illegal immigrants misleading? Prompted by the growing internationalization of the U.S. labor market since the 1970s, contributors to *Immigration, Trade, and the Labor Market* provide an innovative and comprehensive analysis of the labor market impact of the international movements of people, goods, and capital. Their provocative findings are brought into perspective by studies of two other major immigrant-recipient countries, Canada and Australia. The differing experiences of each nation stress the degree to which labor market institutions and economic policies can condition the effect of immigration and trade on economic outcomes. Contributors trace the flow of immigrants by comparing the labor market and migration behavior of individual immigrants, explore the effects of immigration on wages and employment by comparing the composition of the work force in local labor markets, and analyze the impact of trade on labor markets in different industries. A unique data set was developed especially for this study—ranging from an effort to link exports/imports with wages and employment in manufacturing industries, to a survey of illegal Mexican immigrants in the San Diego area—which will prove enormously valuable for future research.

Importing Jobs Or Exporting Firms?

"The substantial literature investigating the links between trade, trade policy, and labor market outcomes—both returns to labor and employment—has generated a number of stylized facts, but many open questions remain. This paper surveys the subset of the literature focusing on trade policy and integration into the world economy. Although in the longer run trade opportunities can have a major impact in creating more productive and higher paying jobs, this literature tends to take employment as given. A common finding is that much of the shorter run impacts of trade and reforms involve reallocation of labor or wage impacts within sectors. This reflects a pattern of expansion of more productive firms—especially export-oriented or suppliers to exporters—and contraction and adjustment of less productive enterprises in sectors that become subject to greater import competition. Wage responses to trade and trade reforms are generally greater than employment impacts, but trade can only explain a small fraction of the general increase in wage inequality observed in both industrial and developing countries in recent decades. A feature of the literature survey is that the focus is almost exclusively on industries producing goods. Given the importance of service industries as a source of employment and determinants of competitiveness, the paper argues that one priority area for future research is to study the employment effects of services trade and investment reforms."--World Bank web site.

Trade, Investment, Migration and Labour Market Adjustment

To the classical driving forces of migration such as poverty, oppression and war, yet another is being added: globalization. With the increasing economic interdependence between countries migration has become one of the important links. Many less developed countries (LDCs) accept migration of their workers to developed countries (DCs) because it reduces the pressure on unemployment, and remittances increase the capital inflow to the country. On the other hand, some of the DCs see migration as a threat to their employment and system of social security. Participants of the Second Annual Workshop of the Network EU-LDC Trade and Capital Relations gave a broad view of the problem which both DCs and LDCs are facing in connection with the globalization of labour markets. This volume consists of 10 chapters by scholars from the European Union (EU) and LDCs. Each paper is discussed in terms of its policy relevance by a policy maker as well as by an academic specializing in the field. In the opening chapter we aim to do justice to the discussion during the Workshop in Rotterdam in May 1995 at which preliminary versions of all chapters were presented. Edited versions of the interventions by the policy makers and experts are included as far as possible after the chapters. The opinions expressed in this volume are those of the authors and not necessarily those of their organizations.

Foreign-owned Firms in the German Labour Market

Launched and co-ordinated by the OECD, the International Collaborative Initiative on Trade and Employment (ICITE) is a two-year old joint undertaking of ten international organisations. This book brings together some of the results of ICITE's research.

This book explores theoretical developments of trade models, examining labour mobility, unemployment and training in models of international trade, as well as migration and labour markets, the wage and unemployment impacts of adjustment, adjustment and occupational mobility, exchange rate fluctuations and trade exposure, fragmentation and the labour market. Book Description This book explores theoretical developments of trade models, as well as examining migration, and labor markets, the wage and unemployment impacts of adjustment, and occupational mobility, exchange rate fluctuations and trade exposure, fragmentation, and the labor market.

Worker Rights in Export Processing Zones

This volume investigates the links between employment, trade and structural transformation. In the context of global rebalancing, accompanied by inevitable changes in trade patterns between Asia and the rest of the world, the volume's chapters analyze the links between trade openness and trends in employment and its quality. Specifically, through Asian case studies (both analytical and econometric), the volume examines how trade and export-led growth models have led to specialization and evolving demands on various types of labor. The rapidly changing labor market contours in developing Asia during this era of globalization, along with the new context resulting from the recent global financial crisis and new insights from theoretical literature, have led to the need for such studies. This volume helps fill this gap in the literature.

Trade and Employment

How can we account for the dynamic growth of East and Southeast Asian countries? Much of the debate has turned on the question of the 'state' versus the 'market' as exclusive (and often competing) explanations of the successful performance of individual countries. This book explores the distinctively interdependent nature of the East and Southeast Asian experience. As firms create a regional organization of production, the growing interdependence of national labour markets is one major outcome.

Globalization of Labour Markets

Discusses the pattern of direct foreign investment by MNEs and its role in industrial development of export oriented industry (manufacturing) and in employment creation; examines the geographic distribution of EPZs, etc.

The Impact of Trade and Foreign Direct Investment on Labour Markets

This paper provides a review of the available literature on global value chains (GVCs) and employment markets in developing countries. Due to the difficulty of observing intra-GVC transactions, there is very little direct empirical work on GVCs and labour markets. However, it is possible to extrapolate from the extensive empirical work already undertaken on firm internationalisation and labour markets to draw inferences as to the likely impacts of GVCs. The review therefore focuses on the labour market impacts of three processes that lie at the core of GVC development: importing, exporting, and foreign direct investment (FDI). It examines their impact on labour demand and wages, and disaggregates the effects whenever possible by skill level. The available empirical evidence strongly suggests that the type of activities undertaken by GVC participants influence labour market outcomes. For instance, many GVC firms are vectors of technological upgrading that in turn increases the relative demand for skilled labour. In these cases, GVC participation is linked to higher relative wages for skilled workers, but also greater wage inequality between skilled and unskilled workers. The evidence on outcomes is more mixed as regards pure processing trade (assembly), however: the limited data available on firms engaged purely in these activities suggests that they do not systematically pay higher wages than domestic firms, which is the reverse of the finding for foreign-owned firms, exporters, and importers in general. The labour market effects of GVCs in developing countries are therefore likely to be broadly positive, but highly case specific. The review therefore concludes with two case studies--electronics in Asia and services in Chile--that demonstrate the complexity of the issues involved, and the role of complementary policies in areas such as human capital development.

Policy Priorities for International Trade and Jobs

Discusses the role of the educational system in migration, the labour market and regional integration. Presents case studies of Prague and Vienna as the gateway cities in the process of regional integration in Central and Eastern Europe. Covers trends from 1981 to 1995.

North-south Direct Investment in the European Communities

This book offers a collection of distinguished contributions that identify current growth accelerators in India, and suggest policies and strategies to make India's growth more sustainable and inclusive. The papers are divided into three sections, the first of which focuses on issues related to industrial growth in India. The discussions include India's industrial development (manufacturing, construction and mining); role of manufacturing; global value chains; and of environment in industrial development. In turn, section II deals with issues related to trade and FDI as accelerators of India's growth. The respective chapters explore the changing patterns of trade, impacts of technology, and spill-over effects of FDI, to name but a few. Lastly, the third section discusses employment-related issues like measurement of labour input, the dichotomy of the Indian labour market, the nature of firms and employment generation, and impacts of technology on employment. Given its scope and focus, the book offers an invaluable resource for researchers and policymakers alike.

Multinationals and Employment

International trade is the core foundation of globalisation. This current and up-to-date volume brings together the finest academics working in the field today, containing contributions in key areas of policy research, such as, modelling frameworks, trade policy, trade and migration, trade and the environment, trade and unemployment.

Multinational Enterprises and Employment in the Caribbean with Special Reference to Trinidad and Tobago

Distributional Consequences of Direct Foreign Investment.

Globalization and Productivity

This collection of papers examines key trends in the internationalisation of employment, drawing on the proceedings of an ILO conference held in Annecy, France in April 2005. The papers focus on three related issues: the impacts of trade and investment abroad, including the offshoring of production of goods and services, and effects on the winners and losers in terms of employment; adjustment methods for coping with the short and medium term problems related to the globalisation of employment; and the importance of international instruments to help ensure a level playing field in trade and promote development, drawing on established rights and international labour standards.

Trade and Employment in Asia

Images of sweatshop labor in developing countries have rallied opponents of globalization against foreign direct investment (FDI). The controversy is most acute over the treatment of low-skilled workers producing garments, footwear, toys, and sports equipment in foreign-owned plants or the plants of subcontractors. Activists cite low wages, poor working conditions, and a variety of economic, physical, and sexual abuses among the negative consequences of the globalization of industry. In *Beyond Sweatshops*, Theodore Moran examines the impact of FDI in manufacturing on growth and welfare in developing countries, and explores how host governments can take advantage of the contributions of foreign investment while avoiding the hazards to lower-skilled workers. He traces case studies of countries that have managed to produce steady improvement in worker treatment at plants exporting garments, footwear, and other labor-intensive products. The first part of the book examines multilateral proposals designed to place a floor under the treatment of workers around the world, contrasting a WTO-based system to enforce labor standards with "voluntary" arrangements, including corporate codes of conduct, certification organizations, and "sweatshop free" labeling. It explores the pros and cons of adding a "living wage" requirement to the ILO's core labor standards. The second part of the book presents data that significantly broadens our understanding of FDI. By analyzing the evidence from a variety of developing countries—in Asia, Latin America, and Africa—Moran demonstrates that most FDI goes to industrial sectors that employ trained workers who are not easily exploited. The flow of FDI to plants that produce electronics, auto parts, industrial equipment, chemicals, pharmaceuticals, and medical equipment, paying production workers two to five times more than what is found in low-

er-skilled operations, is twenty-five times the flow to garment, textile, and footwear plants. Appropriately designed host country policies can transform the development trajectory of the entire economy. Moran advocates various "build-up"—rather than "trickle down"—strategies to enable developing countries to capture the benefits of FDI. He concludes by examining the impact of outward investment on workers and communities in the home economy, investigating evidence about what Ross Perot called the "great sucking sound," and asking whether the expansion of foreign investment in the developing world comes at the expense of good jobs and dynamic industries in the developed countries.

Labour Standards in Export Processing Zones

Integration into the production and marketing arrangements of multinational corporations may offer many benefits to transition economies that, after a long period of isolation, have liberalized trade and investment. The fragmentation of production offers a unique opportunity for producers in developing countries to move from servicing small local markets to supplying large firms abroad and, indirectly, their customers all over the world.

Regionalization and Labour Market Interdependence in East and Southeast Asia

An International Labor Office and European Commission publication Although the effect of trade on employment is a popular point of economic debate, there are very few factual assessments available. This book examines the most recent evidence and provides guidance for the design of tools to assess more accurately the employment impacts of trade. Trade and Employment argues for strengthening the micro-foundations of models used to evaluate the employment effects of trade and for including the informal economy and adjustment processes in modeling efforts. It emphasizes the role of governments in helping firms survive or grow, in providing social protection to protect against external shocks, in addressing gender equity, and in building physical infrastructure and human skills bases that facilitate export diversification. It is a valuable resource for all those interested in the debate on the employment effects of trade: workers and employers, academics and policymakers, and trade and labor specialists.

Employment and Multinationals in Asian Export Processing Zones

This comparative analysis of growth, structural change and labour market dynamics in the Greater Mekong countries (Yunnan Province in China, Thailand, Vietnam, Cambodia, Lao PDR and Myanmar) of Southeast Asia is the first of its kind. It explores economic integration and cooperation, the possibilities for improving the functioning of labour markets and facilitating mutually beneficial labour flows in the region. The book begins with a comparative overview of policy reforms, economic performance and structural changes, focusing on economic relations in the Greater Mekong countries. It then examines the salient features of labour market structures and policies, patterns of cross-border migration, and information systems, paying attention to the similarities and differences between countries. It is especially timely in the context of economic transition from socialist systems in the three Indochina countries, the ongoing policy reforms in Yunnan Province and Myanmar, and in light of the Asian financial crisis in shaping growth trends. The analysis yields policy recommendations for improvement in labour market performance. The book will be of great interest to development and labour economists and those working in the field of Asian studies, as well as to policymakers.
