The Man of Letters as a Man of Business, and the Parlor Car (Dodo Press)

William Dean Howells (1837-1920) was an American realist author and literary critic. He wrote his first novel, *Their Wedding Journey*, in 1871, but his literary reputation really took off with the realist novel *A Modern Instance*, published in 1882, which describes the decay of a marriage. His 1885 novel *The Rise of Silas Lapham* is perhaps his best known, describing the rise and fall of an American entrepreneur in the paint business. His social views were also strongly reflected in the novels *Annie Kilburn* (1888) and *A Hazard of New Fortunes* (1890). While known primarily as a novelist, his short story "Editha" (1905) - included in the collection *Between the Dark and the Daylight* (1907) - appears in many anthologies of American literature. Howells also wrote plays, criticism, and essays about contemporary literary figures such as Ibsen, Zola, Verga, and, especially, Tolstoy, which helped establish their reputations in the United States. He also wrote critically in support of many American writers. It is perhaps in this role that he had his greatest influence.

The Man of Letters as a Man of Business, and The Parlor Car (Esprios Classics)

William Dean Howells (March 1, 1837 - May 11, 1920) was an American realist novelist, literary critic, and playwright, nicknamed "The Dean of American Letters". He was particularly known for his tenure as editor of *The Atlantic Monthly*, as well as for his own prolific writings, including the Christmas story "Christmas Every Day" and the novels *The Rise of Silas Lapham* and *A Traveler from Altruria*. In 1856, Howells was elected as a clerk in the State House of Representatives. In 1858, he began to work at the *Ohio State Journal* where he wrote poetry and short stories, and also translated pieces from French, Spanish, and German. He avidly studied German and other languages and was greatly interested in Heinrich Heine.

English Men of Letters

An extraordinary masterpiece written from personal experience, *Middlemarch* is a deep psychological observation of human nature that revolves around the issues of love, jealousy, and obligation. Eliot's feminist views are apparent through the novel: she stresses the fact that women should control their own lives....

How the Other Half Lives

This charming travelogue from William Henry Hudson, expert birdwatcher and renowned chronicler of English country life, gives readers unparalleled access to the quaint rhythms of village existence at the turn of the twentieth century. These essays and observations will please readers who have a love for English culture and the great outdoors.

Middlemarch

He was cursed, it seemed, with a fatal fascination. Women might be practically engaged to other men; they might be at the altar's hinges; but he could not stroll among them with his devilish gift without scattering ruin amid the troths. If he was not openly rude to them, they took it as direct encouragement; if he was civil, from him they viewed it as wooing; and when actually crowned with the deliberate kiss...-from *Angela's Business* Would he be seduced by the ultrafeminine wiles of old-fashioned Angela Flower? Or would writer and oh-so modern man Charles King Garrott come to recognize the charms of independent-minded schoolteacher Mary Wing? This 1915 novel, a bestseller in its day, wrings drama and ironic humor from the social upheaval of the early 20th century, as women began to assert the personhood and enjoy their autonomy... and men barely knew what to make of it. Author Henry Sydnor Harrison was a rarity in his time-a vocal male feminist-and this perceptive work is an excellent example of his fictional championing of a very real character: the New Woman of the new century. American

author HENRY SYDNOR HARRISON (1880-1930) is best remembered for his novels *Queed* (1911) and *Captivating Mary Carstairs* (1914).

Afoot in England

More than any other writer, Raymond Chandler (1888-1959) is responsible for raising detective stories from the level of pulp fiction to literature. Chandler's hard-boiled private eye Philip Marlowe set the standard for rough, brooding heroes who managed to maintain a strong sense of moral conviction despite a cruel and indifferent world. Chandler's seven novels, including *The Big Sleep* (1939) and *The Long Goodbye* (1953), with their pessimism and grim realism, had a direct influence on the emergence of film noir. Chandler worked to give his crime novels the flavor of his adopted city, Los Angeles, which was still something of a frontier town, rife with corruption and lawlessness. In addition to novels, Chandler wrote short stories and penned the screenplays for several films, including *Double Indemnity* (1944) and *Strangers on a Train* (1951). His work with Billy Wilder and Alfred Hitchcock on these projects was fraught with the difficulties of collaboration between established directors and an author who disliked having to edit his writing on demand. *Creatures of Darkness* is the first major biocritical study of Chandler in twenty years. Gene Phillips explores Chandler's unpublished script for *Lady in the Lake*, examines the process of adaptation of the novel *Strangers on a Train*, discusses the merits of the unproduced screenplay for *Playback*, and compares Howard Hawks's director's cut of *The Big Sleep* with the version shown in theaters. Through interviews he conducted with Wilder, Hitchcock, Hawks, and Edward Dmytryk over the past several decades, Phillips provides deeper insight into Chandler's sometimes difficult personality. Chandler's wisecracking Marlowe has spawned a thousand imitations. *Creatures of Darkness* lucidly explains the author's dramatic impact on both the literary and cinematic worlds, demonstrating the immeasurable debt that both detective fiction and the neo-noir films of today owe to Chandler's stark vision.

Angela's Business

The Little Story that Started the Civil War "Any mind that is capable of a real sorrow is capable of good." Harriet Beecher Stowe, *Uncle Tom's Cabin* *Uncle Tom's Cabin; or Life Among the Lowly*, is one of the most famous anti-slavery works of all time. Harriet Beecher Stowe's novel helped lay the foundation for the Civil War and was the best selling novel of the 19th century. While in recent years, the book's role in creating and reinforcing a number of stereotypes about African Americans, this novel's historical and literary impact should not be overlooked. This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. Creatures of Darkness

Reader be assured this narrative is no fiction. I am aware that some of my adventures may seem incredible; but they are, nevertheless, strictly true. I have not exaggerated the wrongs inflicted by Slavery; on the contrary, my descriptions fall far short of the facts. I have concealed the names of places, and given persons fictitious names. I had no motive for secrecy on my own account, but I deemed it kind and considerate towards others to pursue this course. ""I wish I were more competent to the task I have undertaken. But I trust my readers will excuse deficiencies in consideration of circumstances. I was born and reared in Slavery; and I remained in a Slave State twenty-seven years.""

Peopled with literary figures such as Tennyson, Trollope, Browning, George Eliot, Henry James and Virginia Woolf, this book provides Anne Thackeray Ritchie's complete journals written in 1864-65 and 1878, an ample selection of her most interesting letters and a number of significant letters written to her. Because only a third of each journal has been previously published, this collection presents a valuable document of Ritchie's inner life, especially the account of her response to her father's death.

Incidents in the Life of a Slave Girl

The egotism that fuels the desire for greatness has been associated exclusively with men, according to one feminist view; yet many women cannot suppress the need to strive for greatness. In this forceful and compelling book, Alison Booth traces through the novels, essays, and other writings of George Eliot and Virginia Woolf radically conflicting attitudes on the part of each toward the possibility of feminine greatness. Examining the achievements of Eliot and Woolf in their social contexts, she provides a challenging model of feminist historical criticism.

Captains Courageous

In their youth, Manni and Franzi, together with their brothers, Ziggy and Sebastian, captured Germany's collective imagination as the Flying Magical Loerber Brothers -- one of the most popular vaudeville acts of the old Weimar days. The ensuing years have, however, found the Jewish brothers estranged

and ensconced in various occupations as the war is drawing near its end and a German surrender is imminent. Manni is traveling through the Ruhr Valley with Albert Speer, who is intent on subverting Hitler's apocalyptic plan to destroy the German industrial heartland before the Allies arrive; Franzi has become inextricably attached to Heinrich Himmler's entourage as astrologer and masseur; and Ziggy and Sebastian have each been employed in pursuits that threaten to compromise irrevocably their own safety and ideologies. Now, with the Russian noose tightening around Berlin and the remnants of the Nazi government fleeing north to Flensburg, the Loerber brothers are unexpectedly reunited. As Himmler and Speer vie to become the next Führer, deluded into believing they can strike a bargain with Eisenhower and escape their criminal fates, the Loerbers must employ all their talents -- and whatever magic they possess -- to rescue themselves and one another. Deftly written and darkly funny, *Germania* is an astounding adventure tale -- with subplots involving a hidden cache of Nazi gold, Hitler's miracle U-boats, and Speer's secret plan to live out his days hunting walrus in Greenland -- and a remarkably imaginative novel from a gifted new writing talent.

This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short "stories," and the systematic building up of more complicated characters from basic building blocks. Although *Learning Chinese Characters* is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was

an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Falls Road looks completely different now from when Gerry Adams was a child living on it. Many of the businesses, houses, and landmarks have been demolished in favor of new developments. Even when Adams first wrote his memoir of Falls Road in 1982, many of these places were still around--a point Adams makes very clearly in his foreword to this most recent edition.

Discover a classic adventure from the author of A Town Like Alice and On the Beach. Keith Stewart is an ordinary man. However, one day he is called upon to undertake an extraordinary task. When his sister's boat is wrecked in the Pacific, he becomes trustee for his little niece. In order to save her from destitution he has to embark on a 2,000 mile voyage in a small yacht in inhospitable waters. His adventures and the colourful characters he meets on his journey make this book a marvellous tale of courage and friendship. 'Something about this author's calm, deliberate style creates unexpected excitement... we are warmed by the justice and sheer pleasure of it' Independent

Wonder: The Natural History Museum Poetry Book is a beautiful gift hardback collection of poetry with poems inspired by The Natural History Museum. It covers everything from the depths of space to the very centre of the earth - there are poems about the solar system, planet earth, oceans and rivers, birds, dinosaurs, fossils, wildlife, flowers, fungi, insects, explorers and palaeontologists. Each section includes an introduction and some footnotes about particularly interesting species. The museum has a collection of over eighty million objects and behind the scenes of its twenty-eight galleries crowd kilometres of preserved specimens, libraries of rare books and artworks, wonders gathered on some of the most famous voyages in history, rooms packed with pressed plants, warehouses teeming with stuffed animals and freezers full of DNA. As well as a museum, it is a state-of-the-art centre for discovery with over three hundred resident scientists and over ten thousand visiting researchers each year,

investigating everything from dinosaurs to life on other planets. The collection is made up of brand new and classic poems and is illustrated with botanical drawings and engravings from the museum's collections. This fantastic collection speaks of the wonder of nature and shows us why we need to look after our incredible planet.

The Book of the Damned

"There is no one quite like Barbara Kingsolver in contemporary literature," raves the Washington Post Book World, and it is right. She has been nominated three times for the ABBY award, and her critically acclaimed writings consistently enjoy spectacular commercial success as they entertain and touch her legions of loyal fans. In *High Tide in Tucson*, she returns to her familiar themes of family, community, the common good and the natural world. The title essay considers Buster, a hermit crab that accidentally stows away on Kingsolver's return trip from the Bahamas to her desert home, and turns out to have manic-depressive tendencies. Buster is running around for all he's worth -- one can only presume it's high tide in Tucson. Kingsolver brings a moral vision and refreshing sense of humor to subjects ranging from modern motherhood to the history of private property to the suspended citizenship of human beings in the Animal Kingdom. Beautifully packaged, with original illustrations by well-known illustrator Paul Mirocha, these wise lessons on the urgent business of being alive make it a perfect gift for Kingsolver's many fans.
