"This 449-page collection of essays on the life of the famous (or infamous?) George Ivanovitch Gurdjieff could serve as the definitive tome on the eccentric and enigmatic teacher."

The Psychology of Man's Possible Evolution

In this book the author gives a clear and simple account of Gurdjieff's teaching on Man and his nature. Anyone who wishes to think for himself and is not afraid to face the truth about his own nature can find his starting point in this book. These lectures by Ouspensky were originally given from 1921 to 1947 and revised for publication by the author himself before his death in 1947. The lectures are indispensable to every serious student of normal and paranormal psychology. Furthermore, they can be studied by any person without scientific training or any prior knowledge of psychology. The lectures enable anyone to find for themselves the basis for self-study and self-development according to the ideas of Gurdjieff.

The Herald of Coming Good

Before venturing to unfold the very substance of my first appeal to contemporary humanity, I count it essential and even in every way my duty, to set forth—even if only approximately—the motives which compelled me to assume the whole burden of such an artificial life. This protracted and, for me, absolutely unnatural life, absolutely irreconcilable, too, in every way with the traits that had entrenched themselves in my individuality by the time of my maturity, was the direct consequence of my decision, founded upon the results of my previous study of a whole series of historic precedents with a view, first of all,—to preventing, by to a certain degree unnatural outward manifestations of myself, the formation, in relation to me, of that already noted from ancient times "something", termed by the great Solomon, King of "Juda," Tzvarnoharno, which, as was set out by our ancestors, forms itself by a natural process in the communal life of people as an outcome of a conjunction of the evil actions of so-called "common people" and leads to the destruction of both him that tries to achieve something for general human welfare and of all that he has already accomplished to this end. Secondly, with a view,—to counteracting the manifestation in people with whom I came in contact of that inherent trait which, embedded as it is in the psyche of people and acting as an impediment to the realization of my aims, evokes from them, when confronted with other more or less prominent people, the functioning of the feeling of enslavement, paralysing once and for all their capacity for displaying the personal initiative of which I then stood in particular need. My aim at that time was concentrated upon the creation of conditions permitting the comprehensive elucidation of one complicated and with difficulty explicable aspect of the question which had, already long before the beginning of this my artificial life, inhered in my being, and the necessity of whose final solution has, whether by the will of fate or thanks to the inscrutable laws of heredity, become and would, at the moment, appear to be the fundamental aim of my whole life and of the force motivating my activity. I find myself obliged—in this, so to say, definitive statement as a writer, which will also have to serve among other things as a sort of "prospectus" of the new phase of my unremitting activity for the welfare of my neighbours,—to give a brief outline of the history of the rise and development of those events and causes which were responsible for the formation in my individuality of the unquenchable striving to solve this question, which had, in the end, become for me what modern psychologists might term an "irresistible Mania." This mania began to impose itself upon my being at the time of my youth when I was on the point of attaining responsible age and consisted in what I would now term an "irrepressible striving" to understand clearly the precise significance, in general, of the life process on earth of all the outward forms of breathing creatures and, in particular, of the aim of human life in the light of this interpretation. Although a multitude of very specific factors, conditioned by my upbringing and education, had served as the primal cause for the formation in my being of the ground giving rise to such, for contemporary man, unusual striving, yet, as I understood later upon giving thought to the matter, the principal cause must in the end be attributed to those entirely accidental circumstances of my life which coincided precisely with the aforesaid transition from preparatory age to responsible age, and which may all be summed up in the fact that all my contacts at the time were almost exclusively with such persons of my age or my seniors who were either in the process of being formed themselves or who had already been formed into precisely that, of late increased amongst us, "psychic typicality" of people, the formation of which, as I myself have statistically established during the existence of my foundation, "The Institute For Man's Harmonious Development", is due to the fact that the future representatives of this "typicality" have never, either with a view to the real understanding of actuality, or in the period of their preparatory age, or, again, in the period of their responsible life, absolutely never, and in spite of the obvious necessity of such a step, laid themselves open to experience, but have contented themselves with other people's fantasies, forming from them illusory conceptions and, at the same time, limiting themselves to intercourse with those like them,

and have automatised themselves to a point of engaging upon authoritative discussions of all kinds of seemingly scientific, but, for the most part, abstract themes.

Beelzebub's Tales to His Grandson

With Beelzebub's Tales to His Grandson, G.I. Gurdjieff intended to "destroy, mercilessly ... the beliefs and views about everything existing in the world." This novel beautifully brings to life the visions of humanity for which Gurdjieff has become esteemed. Beelzebub, a man of worldly (and other-worldly) wisdom, shares with his grandson the anecdotes, personal philosophies, and lessons learned from his own life. The reader is given a detailed discussion of all matters physical, natural, and spiritual, from the creation of the cosmos to man's teleological purpose in the universe. This edition of Beelzebub's Tales to His Grandson -- the first single-volume paperback to appear in English -- restores the original, authoritative translation. Copyright © Libri GmbH. Beelzebub's Tales to His Grandson

"Originally written in Russian and Armenian.

Without Benefit of Clergy:

As a young man, Frank Sinclair looked for, and found, the teaching of G.I. Gurdjieff in Cape Town, South Africa, some seven years after Gurdjieff's death. Moved by his first encounter with Gurdjieff's chief pupil, Madame Jeanne de Salzmann, at Franklin Farms, the old Ouspensky estate at Mendham, New Jersey, he extended his original two-month visit to the United States into a stay that has lasted more than 45 years. In this brief memoir, he describes some unusual events surrounding the last days of Madame Ouspensky, his own extraordinary experiences at Mendham, and his subsequent work under the direct influence of Madame de Salzmann. He gives an intimate account of his lifelong search for meaning, his relations with some unusual people-seekers and concludes with some random inferences about the state of the Work in the world today.

The Three Dangerous Magi

The Most Dangerous man since Jesus Christ, the Sex Guru, the Ambassador from Hell, the Black Devil of Ashkhabad, The King of Depravity, and the Wickedest Man in the World. These were some of the labels given to three of the most notorious figures of 20th century spirituality: Osho (formerly known as Bhagwan Shree Rajneesh), G.I. Gurdjieff, and Aleister Crowley. Beneath the controversies and scandals that swirled around all three the author argues that these men, egocentric tendencies notwithstanding, were brilliant thinkers and extraordinary masters of their craft, that of the science of inner transformation, and in particular the art of balancing the so called Left and Right Hand spiritual paths. These men were not humble sages. They were bona fide crazy wisdom masters and consistently

went where angels fear to tread. They did not teach with the faint praise of new age fluff or the stuffy platitudes of religious sermons, but rather with a flaming sword, and were a genuine menace to all seekers who fear to face the abyss of their own egos.

Gurdjieff

"Tributes to the work of Gurdjieff by journalists, historians of religion, and former students.... The portrait that emerges is of a wise spiritual teacher who transcended religious categories". -- Library Journal

Life is Real Only Then, When 'I Am'

This is one of the few records published by Gurdjieff in which he offers guidance to his 'community of seekers', the pupils from many countries who joined him in Paris and New York. The first section is mainly autobiographical, relating material crucial to an understanding of the nature and intensity of personal effort required for an all-inclusive work on oneself. This is followed by a series of talks which Gurdjieff gave to his pupils in New York in 1930, and then by a long, but incomplete, essay on 'The Outer and Inner World of Man'.

G.I. Gurdjieff

Presents the life and work of one of the most influential psychological theorists of modern times, George Ivanovitch Gurdjieff. This examination of a psychologist and teacher of genius also provides an introduction to the philosophy of Gurdjieff. This work presents the life and work of one of the most influential psychological theorists of modern times. George Ivanovitch Gurdjieff is one of the most enigmatic figures of our time. He attracted legends as easily as disciples. But behind the Gurdjieff myth lies a solid corpus of thought, the importance of which is only now being generally recognized. At its heart was the idea of 'the war against sleep', the fact that man, in Colin Wilson's words, is like 'a grandfather clock driven by a watch-spring'. This brilliant and much praised examination of a psychologist and teacher of genius has established itself as the most important and accessible account for the general reader of Gurdjieff's life and work. This edition has been revised and expanded, providing the definitive introduction to the philosophy of Gurdjieff.

Gurdjieff: The Key Concepts

This unique book offers clear definitions of Gurdjieff's teaching terms, placing him within the political, geographic and cultural context of his time. Entries look at diverse aspects of his Work, including:

- * possible sources in religious, Theosophical, occult, esoteric and literary traditions
- * the integral relationships between different aspects of the teaching
- * its internal contradictions and subversive aspects
- * the derivation of Gurdjieff's cosmological laws and Enneagram
- * the passive form of "New Work" teaching introduced by Jeanne de Salzmann.

Gurdjieff Was Wrong But His Teaching Works

Gurdjieff was wrong but his teaching works...is the story of one man's remarkable journey of self-discovery which dispels the Gurdjieffian premise that man is not born with an immortal soul. With his own quest, Orest Stocco illustrates that we are all born with a spark of divine consciousness; but not until we take evolution into our own hands, which Gurdjieff's teaching helped him to do, will we realize our true self.

Discovering Gurdjieff

"Discovering Gurdjieff is more than just a memoir, it is an at times painfully honest account of one woman's quest to find answers to the questions that troubled her from an early age, and ultimately to discover a philosophy of life by which she might live. Along the way, she examines various religions, but it is not until her introduction to Gurdjieff's work through the 1941 lectures of J.G. Bennett, the essence of which she reproduces in his original words, that her search is rewarded. In later chapters, she faithfully reproduces the conversations she had in Paris with Gurdjieff and the monumental effect his teachings had on her search for Truth. Gurdjieff has had a lifelong influence on Dorothy and she spent much of the last 25 years of her life setting down her memories and ensuring their accuracy. At the time of writing, she was one of the last few people left alive who knew Gurdjieff personally, and as such her book gives an authentic view of the work and charismatic nature of this teacher, who Colin Wilson called "the greatest teacher of the 20th century"... However, the unique element of this book

is her description of the way meetings with Gurdjieff himself, along with her fervent study of relevant works, gradually enabled her to discover herself"--Dust jacket.

Beelzebub's Tales to His Grandson

Probably no figure of our time has excited at once more enthusiasm and controversy among serious intellectuals seeking spiritual guidance than Georgi Ivanovitch Gurdjieff. Accordingly, the editor of *Studies in Comparative Religion* engaged Whittall N. Perry, who as author of *A Treasury of Traditional Wisdom* is recognized for his impartiality, to devote a series of articles that would pierce through the obscurity and get to the real facts of the matter. This book is the result of that research. Whatever be the opinion of Gurdjieff gained by the reader, one thing certain is that he or she will come away with a far clearer understanding of the background, teaching, and phenomenon per se than has ever been accessible before. By far the best independent, critical evaluation of Gurdjieff I've come across. -Theodore Roszak, author of *Where the Wasteland Ends*, etc. A single book which examines the facts of [Gurdjieff's] background, his teachings, and his public faces is welcome and overdue. . . . The author incisively and colorfully presents as full and engrossing a view of the man as you could hope to read: the teachings, too, are clearly and thoughtfully explained, with ample references, and the whole book moves gracefully towards a balanced and intelligent conclusion. A 'must' for anyone interested in that extraordinary individual. -Prediction Mr. Perry may be congratulated on bringing the man, with all his foibles and eccentricities, his brilliance and darker depths, fully alive, and on making his a credible character. -World Faiths

Gurdjieff in the Light of Tradition

This is an unexpected input from the remarkable mystical teacher, George Ivanovitch Gurdjieff, over thirty years after his passing in 1949. A method of transmission was devised, through a trance medium, with multiple means for pursuing and checking the authenticity of the material and demonstrating the validity of the explanations provided. The information given is linked with clues in the published corpus of available teachings and backed by research into ancient sources of what Gurdjieff knew. It comes with the intriguing stories of how both the author found himself involved in the project, and Gurdjieff's explanation of why he had to resort to such a means of communication. Much of the mystery surrounding the man and his mission is unpacked, and many things about his life and work are revealed for the first time. We get a fuller picture at last of what he was trying to achieve during his lifetime. Special groups were set up by Gurdjieff before his passing to protect his writings and disseminate his teachings when he was no longer here. Many groups in many countries still carry on that work. What Gurdjieff addresses in the message of this book is the incompleteness of what he was able to pass on by that means. His students simply weren't ready to receive all he had to give to them. What couldn't be directly said or grasped was hidden in his enigmatic writings. At some future time, those messages would need to be revealed. This book is part of that process. Followers of Gurdjieff will find invaluable updated teaching here. Those previously unacquainted with him will nevertheless find a reliable path to self-development.

Encounters with Gurdjieff

"Gurdjieff was an extraordinary man who made a profound impact upon those who met him even casually. In the early 1920s he founded a school in France, popularly known as the 'forest philosophers,' and attracted a circle of remarkable men and women whose lives were changed by their contact with him. Nevertheless, after 1935 he almost disappeared from view and remained an enigma till the end of his life. His followers pledged themselves to perpetuate his work and to oversee the publication of his writings. Through their efforts Gurdjieff's ideas have penetrated into the world, particularly Europe and America. Books by and about him have been widely read and discussed. Appearing everywhere are groups dedicated to the study and application of Gurdjieff's teachings. Yet many have admitted that they have not fully understood his thought, especially his masterwork *Beelzebub's Tales to his Grandson*. Now J.G. Bennett, long both friend and pupil of Gurdjieff, has undertaken a mammoth task: to put Gurdjieff's mission into perspective and to indicate precisely how his three-volume *All and Everything* fits into this mission. Bennett's painstaking research into Gurdjieff's early life and the sources of his teaching gives the book a solid foundation, a way out of the subjective impasse all too typical of hooks on Gurdjieff. He offers fresh evidence that 'schools of wisdom' existed in Central Asia and suggests Gurdjieff's possible connection with these spiritual traditions. The fascinating story of Gurdjieff's own searchings forms a second thread that runs in documentary fashion through the book. Finally, Bennett

interprets Gurdjieff's message and outlines the methods that he used in transmitting this message to his followers. The entire enterprise is held together by reference to 'Gurdjieff's Question' as Bennett calls it in chapter 8: 'What is the sense and significance in general of life on earth, and in particular of human life?' This question, and the answer Gurdjieff found, lead to the conclusion that Gurdjieff has left an original and workable system of beliefs and values for our own time, and that we should set ourselves at once to decipher it and put his advice into effect. [This book] makes it clear that the message of this spiritual avatar was by no means his own private affair but rather part of a greater message coming from a higher source, unaffected by passing fashion and so capable of enlightening our changing, confusing orb."--Dust jacket.

Gurdjieff

When *The Teachers of Gurdjieff* was first published some 25 years ago, it made a very considerable stir. George Gurdjieff was one of the most famous mystics before the war, a teaching master who had many fashionable and influential pupils. He had a striking appearance and manner of teaching, one that was to prove influential. The meaning of his teaching and the sources of it were a puzzle. How did he come by his knowledge? What was to become of it? These were questions that engaged many seekers. This book offers, among the adventures of the search and the souks of Baghdad and Aleppo, striking and timeless advice to those interested in finding spirituality. Its appeal is far beyond that of one seeker in one era, but offers us information, today, on how to evaluate different forms of teaching, how to study, and even some tantalizing information on the role of Jesus.

The Teachers of Gurdjieff

About this book This is a first hand account of a disillusioned young man who, having travelled round the world studying various ways and religions, finally meets Gurdjieff in New York, and is convinced by seeing the demonstrations of sacred dances that at last he has found the Way he is looking for. The book, compiled from hundreds of pages of notes and diaries, is a record of sayings and doings of Gurdjieff and their impact on the young pupil at that time. It has also a description of life at the Chateau du Prieure as experienced by the pupil. The journal is not an exposition of the theory of the Gurdjieff system; it is rather an account of the cumulative effect on one person of practical work in an authentic esoteric school. Note: C. S. Nott's sequel *Further Teachings of Gurdjieff: Journey Through This World* and his translation of *Conference of the Birds* are also available in Kindle format from Toward Publishing. Basic information about Gurdjieff Gurdjieff was born in Armenia around 1870. His first tutor was a priest and he also received a scientific education in surroundings and a way of life that had changed little for centuries. To his questions: Who am I? Why am I here? he found no answer either in religion or in science, but suspected that the truth lay hidden behind what had come down from the past in religious traditions and those strange myths and legends which he learned from his father, a traditional bard or 'ashokh'. With inspired like-minded companions, he set out to find in Asia and Africa the truth he sought, learning many languages, and acquiring many practical skills to earn the money for his journeys. In 1912 he brought to Moscow an unknown teaching, a teaching that was neither a religion, nor a philosophy, but a practical teaching to be lived. He called this teaching 'The Fourth Way'. To follow the way he proposed, nothing is to be believed until verified by direct experience and life in the world is not to be renounced. It is a way in life, on which - gradually, for it cannot be done all at once - everything has to be questioned - one's beliefs, assumptions, attitudes, one's whole outlook on the life of man on this Earth. "Man is asleep," said Gurdjieff, "he has no real consciousness or will. He is not free; to him, everything 'happens'. He can become conscious and find his true place as a human being in the creation, but this requires a profound transformation." Gurdjieff calls us to awaken, telling us: "Man's possibilities are very great. You cannot even conceive a shadow of what man is capable of attaining. But nothing can be attained in sleep. In the consciousness of a sleeping man his illusions, his 'dreams' are mixed with reality. He lives in a subjective world and he can never escape from it. And this is the reason why he can never make use of all the powers he possesses and why he lives in only a small part of himself."

Teachings of Gurdjieff

The three volumes of *All and Everything* are a primary source for Gurdjieff's ideas, methods and biography. In the third, the first section is mainly autobiographical followed by a series of talks Gurdjieff gave in 1930. It also includes a long essay.

Life Is Real Only Then, When 'i Am'

This booklet was written more than 50 years ago as an introduction to Gurdjieff's ideas in The Netherlands. As it was felt that it can still serve a wider purpose, this English edition has been prepared.

Gurdjieff- The Man and His Work

Meetings with Remarkable Men, G. I. Gurdjieff's autobiographical account of his youth and early travels, has become something of a legend since it was first published in 1963. A compulsive "read" in the tradition of adventure narratives, but suffused with Gurdjieff's unique perspective on life, it is organized around portraits of remarkable men and women who aided Gurdjieff's search for hidden knowledge or accompanied him on his journeys in remote parts of the Near East and Central Asia. This is a book of lives, not doctrines, although readers will long value Gurdjieff's accounts of conversations with sages. Meetings conveys a haunting sense of what it means to live fully—with conscience, with purpose, and with heart. Among the remarkable individuals whom the reader will come to know are Gurdjieff's father (a traditional bard), a Russian prince dedicated to the search for Truth, a Christian missionary who entered a World Brotherhood deep in Asia, and a woman who escaped white slavery to become a trusted member of Gurdjieff's group of fellow seekers. Gurdjieff's account of their attitudes in the face of external challenges and in the search to understand the mysteries of life is the real substance of this classic work.

Meetings with Remarkable Men

In 1924, at the age of eleven, Fritz Peters first met Gurdjieff, the great master who introduced the West to the teachings of the Fourth Way. This hardcover volume brings together all three of Peters' books on Gurdjieff for the first time. Boyhood with Gurdjieff covers Fritz Peters' time as a young troublemaker at Gurdjieff's Institute in Fontainbleau, France. Gurdjieff's unconventional yet strangely logical behavior made him the only adult who made sense to Fritz Peters. In a series of brilliantly told anecdotes, Peters relates Gurdjieff's impromptu and surprising responses to the day-to-day problems of the Institute. In Gurdjieff Remembered, Peters describes his adult encounters with Gurdjieff from 1932 to 1947. As an adult, Peters is more circumspect about Gurdjieff, but Gurdjieff still makes a huge impression on him as a man who lives in the present, heedless of the opinions of others. Peters' third and final book about Gurdjieff, the rare Balanced Man, which has never before been published in the USA, looks back at the previous two books, and to the future of Gurdjieff's teaching.

Georgi Ivanovitch Gurdjieff

Since the last full life of G. I. Gurdjieff appeared in 1991, a number of books have corrected received facts and disclosed new information on selected portions of his life; but, the recent availability of formerly guarded records in the former Soviet Union, and the accumulation of facts in web sites concerning Gurdjieff, his family and his followers, call for disclosure. Considering the rapid expansion of interest in his work, there is need for a fresh historical account of the man who brought the "Fourth Way" into the consciousness of tens of thousands of people. Relying on extant evidence, this biography begins with a broad survey of known facts concerning his family and his upbringing, including a review of the conflicting evidence of the exact date of his birth. Taylor traces the likely movements of Gurdjieff in Asia and in Russia at the beginning of the twentieth century, and details his work from 1915 until the end of his life forty-four years later. Previously ignored information about Gurdjieff during this period is noted on his various passports, beginning with his 1920 Armenian passport, the Nansen passport which he carried in Germany and France, the German fremdenpass he acquired in New York in the mid-thirties, and finally a French passport he obtained in the mid-forties. Taylor accumulates information from many sources concerning Gurdjieff's relations with prominent Americans who supported his Institute For The Harmonious Development of Man financially during the last twenty-five years of his life. He outlines his attempts to establish the Institute in the United States at Olgivanna and Frank Lloyd Wright's Taliesin East in Wisconsin, Mabel Luhan's ranch in Taos, New Mexico, Marjorie Content and Jean Toomer's Mill House in Doylestown, Pennsylvania, and New York City where his emissary, A. R. Orage, had formed a well-organized and faithful body of followers of Gurdjieff's ideas since 1924. This biography stands apart from other biographical writings about Gurdjieff by emphasizing his relations with the many children for whom he played a fatherly role in the Caucasus, Fontainebleau, and New York City. It includes as well a review of Gurdjieff's misunderstood relations with the women who bore his children. In effect, this scan of his life covers virtually every significant aspect of his extraordinary life.

Boyhood with Gurdjieff; Gurdjieff Remembered; Balanced Man

Charlatan, magician, heroic man of action, revolutionary ... Gurdjieff's rich and vivid life conjures up conflicting images. But who was the real Gurdjieff? On the fiftieth anniversary of Gurdjieff's death, James Moore draws on a lifetime's contact with Gurdjieffian pupils to tell the compelling and extraordinary story of this eclectic revolutionary: his studies with the Red Hat Tibetan Lamas at the turn of the century, his travels disguised as a dervish, and how he was shot and almost killed twice. This inveterate and restless seeker of the truth coaxed from archaic sources relevant philosophy that drew tides of men and women to his cause. Through the humanity and dry humor of his writing, and through scholarship evidenced in an unprecedented note section, Moore offers the reader an entertaining and reliable introduction to one of the most remarkable men of this century.

Meetings with Remarkable Men

An adventure story replete with ancient texts, hidden monasteries, occult orders and lost civilizations, "Meetings With Remarkable Men" is Georgi Gurdjieff's account of his early life, of his travels and explorations in the Caucasus and Central Asia, and of the strange and mysterious individuals he met in those wild and mostly unexplored territories. But the book is far more than a simple tale of derring-do. Gurdjieff uses each of the remarkable characters he meets to illustrate at least one major point in his spiritual teachings - a philosophy that blossomed with his founding of the 'Institute for the Harmonious Development of Man', and which continues in one form or another to this day. "Meetings With Remarkable Men" has been a classic since its first publication in English in 1963, essential reading for those wishing to understand Gurdjieff's complex character and his deep insights into the spiritual development of humanity.

Psychological Commentaries on the Teaching of G.I. Gurdjieff and P.D. Ouspensky

"Georgi Ivanovitch Gurdjieff--The Man, The Teaching, His Mission is the author's ninth and final book on The Fourth Way. Ten years in the making, it is the deepest study yet of this potent seminal spiritual figure of the last century, and the teaching of The Fourth Way. Material from the library archives of Gurdjieff's direct students, much of it not available until recently, and all relevant books written about Gurdjieff have been integrated and assembled in chronological form. The aim is to give an objective, panoramic view of his life, the inner substance of the ancient teaching of spiritual self-development, and his unrelenting mission to introduce and establish The Fourth Way in the West...For those searching for a comprehensive factual presentation of Gurdjieff and the teaching this is the book. It takes its well-deserved place as the deepest exploration and resource yet." --Mary Ellen Korman, *A Woman's Work with Gurdjieff*, Ramana Maharshi, Krishnamurti, Anandamayi M & Pak Subuh; on book jacket.

G.I.Gurdjieff

The teaching of G.I. Gurdjieff (1866-1949) has come to be recognized as one of the most original, enduring, and penetrating of our century. While Gurdjieff used many different means to transmit his vision of the human dilemma and human possibility, he gave special importance to his acknowledged masterwork, *Beelzebub's Tales to His Grandson*. *Beelzebub's Tales* is an "ocean of story" and of ideas that one can explore for a lifetime. It is majestic in scale and content, challengingly inventive in prose style, and, for those very reasons, often approached with apprehension. The first English language edition of the Russian original appeared in 1950. Since then, readers have recognized the need for a revised translation that would clarify the verbal surface while respecting the author's own thought and style. - from publisher of different edition.

The *Psychological Commentaries on the teaching of Gurdjieff and Ouspensky* by Maurice Nicoll are the best, most in depth and easiest to understand books on the subject of Gurdjieff's and Ouspensky's teachings. Everyone interested in Gurdjieff's and Ouspensky's teachings should read all five volumes. Regardless of what spiritual path a person is on, the psychological commentaries can be a big help because they detail on a day-to-day basis the obstacles the false personality creates and how to

conquer and remove those obstacles. Very few books have ever been written that go into great detail exposing the tricks the imaginary I uses to prevent people from succeeding in their spiritual goals. The psychological commentaries do just that. The Psychological Commentaries is the classic work on the fundamental ideas of Gurdjieff and Ouspensky, expounded by one of their foremost students. The Commentaries, concerned with the immediate processes of applying certain principles in daily life, have come to be known and loved by entire generations of people interested in the ongoing evolution of psychological transformation. One of the leading British psychologists of his time, Maurice Nicoll was a student of Jung, Gurdjieff, and Ouspensky. At the latter's request, he devoted the last twenty years of his life to passing on the ideas he had received from his teachers. This devotion culminated in the five volumes of the Psychological Commentaries on the teaching of Gurdjieff & Ouspensky. The ISBN's are: Volume One 978-0-9829651-5-3. Volume Two 978-0-9829651-6-0. Volume Three 978-0-9829651-7-7. Volume Four 978-0-9829651-8-4. Volume Five 978-0-9829651-9-1.

Meetings with Remarkable Men

The central illusion is that we "know self." People think that they possess capacities which in reality they do not. Primary illusions concern the faculties of consciousness, the unity of I, the possession of will (the capacity to do) and the existence of the soul. The fourth way psychology begins with a study of humans as they are under the conditions of mechanical life and describes the psychology of man's possible evolution. Humans can awaken, experience higher states of consciousness, achieve a unity of "I" and will, and attain the soul. If we understand our illusions, then there is a chance of escape, of awakening and evolution. According to Beelzebub, the central character in G.'s Tales, the three-brained beings on planet Earth are microcosmoses or "similitudes of the Whole." As such, they have the possibility of not only serving local cosmic purposes, feeding the earth and moon as part of organic life on earth, but of experiencing sacred being-impulses, attaining levels of objective reason and individuality and even of "blending again with the infinite." (1950) A human being can potentially coat higher being-bodies for the life of the soul, instinctually sense cosmic truths and phenomena, and maintain existence within the subtle realms of being after death-achieving different levels of immortality. Unfortunately, humankind came to exist only in waking sleep states of automated consciousness, perceiving reality topsy-turvy, conditioned by pleasure and self love, and wasteful of their sacred sexual substances. Human beings no longer realize their deeper cosmic purposes and possibilities, or attain real "I." Psychological Illusions explores the psychology, metaphysics and cosmology of the fourth way teaching. This includes material on the Ray of Creation, the fundamental cosmic laws, the alchemical crystallization of higher being-bodies and the miraculous possibilities existing for the evolution of the individual human being.
