In this video, we'll be discussing what cognitive **computing**, ...

Intro

What is Cognitive Computing - Starting off we'll discuss, what cognitive computing is, more specifically – the difference between current computing Von Neuman architecture and more biologically representative neuromorphic architecture and how these two paired together will yield massive performance and efficiency gains!

Benefits of Cognitive Computing -Following that we'll discuss, the benefits of cognitive computing systems further as well as current cognitive computing initiatives, TrueNorth and Loihi.

Future of Cognitive Computing - To conclude we'll extrapolate and discuss the future of cognitive computing in terms of brain simulation, artificial intelligence and brain-computer interfaces!
