The HACK to ACE MATH no matter what - Caltech study tip - The HACK to ACE MATH no matter what

- Caltech study tip by wAmy 422,621 views 5 months ago 11 minutes, 51 seconds - You ARE smart and have the potential to be good at **math**,. Your schooling (as I've seen **in**, most public schools) is \*making\* **math**, ...

Can you relate to my struggle with math?

A \*magical\* example

The truth of why you struggle

We've been fooled in school

3 steps to start CRUSHING math

You'll be amazed at your improvements :)

How to teach yourself A-level maths! (And do really well) - How to teach yourself A-level maths! (And do really well) by Aldrich Cervania 22,651 views 2 years ago 15 minutes - How to teach yourself A-level **maths**,? You're probably asking this question because either, you're **in**, school and your teachers ...

Introduction

The aim of this video!

Disclaimer

What I'm actually teaching you in this video

Brief summary of the framework

Step 1: Create the blueprint (Attend lessons, make notes in class etc)

If you're a private A-level candidate student...

If you're still in school...

Why is the blueprint important?

Step 2: Use the blueprint (How to teach yourself)

When I say "use," I mean: do 4 things

Step 2.1: Find time to teach yourself

Step 2.2: Look at your notes from lessons

Step 2.3: Watch Examsolutions

What this whole process looks like in practise/real life

How did this whole process take me to do?

To put things into perspective...

The real reason I was able to stay on track (More perspective)

Step 3: Do textbook questions

What if I've done textbook questions in lessons already?

What if textbook questions are set as homework?

Wisdom

How do I know if I'm ready to do harder questions?

Step 4: Do harder questions

Why do we want to do harder questions?

Where can you find "harder" questions?

Important notes when you're doing these harder questions!

More Wisdom

How can I fully understand these harder questions?

Step 5: Repeat steps 1 to 4 until the end of term/semester

Tips!

How much time did I revise/practise maths every week? (Roughly)

Keep your notes in a folder

Balancing your other A-level subjects

Step 6: Before January mocks, do past papers in exam conditions

An overview of your progress so far!

How is this step different to the step 5?

Shift your mindset!

Ideally before your mocks, here's what you should do!

An important note when doing past papers!

Step 7: After mocks, repeat steps 1 to 4 for the new topics

Light work

Tips for maintaining productivity at this stage

A note on mental health

More wisdom

Step 8: The run-up to exams...

What did I do?

What this period is all about (for me)

Insightful things about past papers

More Tips!

More insightful things I wanted to share

So... how much work did I do for the entire year for maths?

Solomon Press Papers! (Cherry on top)

Closing remarks
