CASES AND TEXT ON PROPERTY, Fourth Edition, preserves the character of its esteemed predecessors with: introductory chapters that unveil the important historical perspective that infuses the book as the authors put contemporary property law in historical context. classic cases and absorbing text that match the high standard of quality established by the late Casner and Leach. problems that are seamlessly integrated with cases and notes. a broad scope of coverage that ranges from interests protected as property, To title transfers, landlord and tenant law, housing discrimination, and land-use regulation. When you examine this masterful revision, you'll notice many important changes: new author team - Professors French, Korngold, and VanderVelde are eminently qualified to guide this exceptional casebook into the 21st century. complete updating - Revised coverage includes new forms of property rights, such as computer-related intellectual property, and property issues that arise out of the latest developments in biotechnology. new cases and problems appear throughout the book. improved organization - discrete chapters on water, oil, gas, and air rights from previous editions are now folded into chapters that encompass those topics; and material on deeds, mortgages, and title insurance can now be found in the chapter on closings

Cases and Text on Property

An authoritative course text designed to provide a standalone resource for students. It contains a blend of carefully selected key cases, legislation and academic debate linked by substantial author commentary.

Cases and Text on Property

Property: Examples & Explanations, Fifth Edition, is a study aid that offers clear textual introductions to legal terms and concepts in property law, followed by examples and explanations that test and apply the reader's understanding of the material covered. Both authors have years of experience presenting material in a clear and compelling way. With its rich pedagogy that features boldfaced legal terms and visual aids, Property: Examples & Explanations fills a niche distinct from other books. The six-part topical organization matches the coverage of most first-year property courses and follows the organization of the best-selling casebook by Dukeminier, Krier, Alexander & Schill. Accomplished authors Barlow Burke and Joseph Snoe assure that the rules and doctrines making up the first year course on the law of property are well covered. Features: Clear and readable text Rich pedagogy includes boldfaced legal terms and visual aids, such as charts and diagrams, especially for common-law estates--a topic that lends itself to diagrammatic presentation Coverage of fundamental and widely taught rules and doctrines Expanded coverage of Fixtures Reinforcement of terminology in Estates in Land and in Future Interests Uses illustrative examples in the overview of Future Interests and of Rule Against Perpetuities Expanded discussion and explanation of trusts Added material on key new Supreme Court cases, including *Arkansas Game & Fish Commission v. United States* and *Marvin M. Brandt Revocable Trust v. United States*. Expanded coverage on the *Stop the Beach Renourishment* Comments on conceptual severance cases

Land Law

Real Property Law in Queensland gives a clear and concise account of the fundamental principles of real property law as applied in Queensland today. The fifth edition has been revised and updated to deal with developments in real property case law and legislation since the last edition.

Property: Cases and Materials Fifth Edition

LI

An innovative Property casebook that re-imagines the law school casebook format and covers all the major topics included in a basic 1L Property course, Property Law, Second Edition borrows some pedagogical features commonly found in undergraduate textbooks, making use of sidebars, illustrations, and other design devices to present material more clearly. The authors present concepts simply, then move the discussion toward complexity—the opposite of the approach taken by many current texts. Clear yet sophisticated, the casebook is the perfect choice for all skill levels. Including problems that students can and should be able to do on their own, explanatory answers, and skills-based exercises, this casebook is both professor-friendly and student-friendly. Themes that run through the course are highlighted throughout the book, resulting in a casebook that clearly presents the fundamentals of property law. This allows students to develop an understanding of basic concepts on their own while allowing professors to assist their students in developing an advanced understanding of property law. The authors of Property Law are experts on the property coverage on the bar exam, and while this casebook goes far beyond test-only material, students will benefit from their expertise and will learn every topic they are likely to see on the bar exam. New to the Second Edition: Additional text on racial discrimination and other critical issues in a subtle way, giving instructors the choice of how deeply to explore those issues. Revisions to Chapter 9 to include *Murr v. Wisconsin*, the Supreme Court's most recent regulatory takings case. A Revised Chapter 10 that includes new material on Intellectual Property and Property Theory. Minor corrections and refinements throughout the casebook. Professors and students will benefit from: A text that starts from simplicity and moves to complexity: The book first provides text that explains the basic doctrine, then presents a simple case example, and finally moves to more complex issues. Cases that are introduced with explanatory text discussing the law and issues surrounding the case. This radically different approach from most other casebooks allows students to have a better grasp of the concepts and themes before they even read the case. Problems and

exercises that students can complete on their own, with explanatory answers included in an appendix. An innovative design that aids student learning, with sidebars, diagrams, charts, and illustrations that make concepts clearer to students. Cases that are used as examples, not introductions to legal rules. Many topics in the book feature introductory text, illustrations, and problem sets before a single case is introduced, to aid in students' legal learning. The inclusion of sample documents, helping students to understand core concepts. A book perfect for a four-credit course but also features a modular design that can be used in courses of varying credit size. More comprehensive bar exam topic coverage than any competing book.

Real Property Law in Queensland

This casebook provides a traditional approach to property law. The opening chapter, which focuses on the law of personal property, includes cases designed to hone a student's skill in close case analysis, while later chapters, involving real property, are geared toward helping students understand the nuances of property law's public and private aspects. The book in its entirety introduces students to a broad spectrum of material traditionally covered in a first-year property course and constructs a foundation for upper-level courses like trusts and estates, real estate finance, mortgages, land-use planning and zoning, secured transactions, and others. The 7th edition features new cases in almost every chapter and expanded discussions involving the financing of property transactions, servitudes, and Fifth Amendment takings. It also includes refreshed charts and tables. The notes and comments have been appropriately updated to include recent trends, cases, and novel issues.

Property

CasebookPlus Hardbound - New, hardbound print book includes lifetime digital access to an eBook, with the ability to highlight and take notes, and 12-month access to a digital Learning Library that includes self-assessment quizzes tied to this book, leading study aids, an outline starter, and Gilbert Law Dictionary.

Property Law

Each section begins with a clear overview of the key points of the law, before fully explaining and illustrating the topic through substantial case extracts and further commentary."--BOOK JACKET.

Cases and Materials on American Property Law

Australian Property Law: Cases and Materials, 5th Edition remains a comprehensive collection of statutes, cases and reference material on Australian real and personal property with notes and questions to provoke fuller understanding and matters for reconsideration.

Cases and Texts on Property

McFarlane, Hopkins, and Nield's Land Law is the most succinct, analytical textbook available in this subject area. These experienced and respected authors have used their unique approach to land law to provide a consistent structure with which students and lecturers can tackle the topics. The approach arms students with the tools needed to analyse content covered in classes and exams autonomously by demonstrating how to consider rules in isolation before looking at the full picture. This method helps students make links across topics. The concise treatment allows students to concentrate on building an in-depth, sophisticated grasp of the core principles. The authors' direct writing style and contextual outlook guides readers through the depth and detail and gives lucidity to abstract rules. The use of significant cases to exemplify rules in practice and diagrams for visual learners gives additional clarity to concepts that are particularly difficult to imagine. Students are encouraged to test their knowledge by answering end-of-chapter questions and to widen their research by referring to the resources suggested in the further reading lists accompanying each chapter. Online resources Students can access additional supportive materials online including: - Web links to useful sites containing further information on chapter-specific topics - Self-test questions with instant feedback - Essay questions and guidance on how to answer them - Updates on legal developments in land law

Property

Titles in the Complete series offer students a carefully blended combination of the subject's concepts, cases, and commentary. A combination which encourages critical thinking, stimulates analysis, and promotes a complete understanding.

Tort Law

Commercial Law: Text, Cases, and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Len Sealy and Richard Hooley have been joined by four renowned experts in the field for the preparation of this edition. The authors have captured the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

Cases and Text on Property, Third Edition

Intellectual Property: Text and Essential Cases continues to provide a comprehensive, up-to-date legal analysis of modern intellectual property law. This edition considers important new cases which expose the ever expanding reach of intellectual property law in Australia. From breast cancer gene sequencing to plain tobacco packaging, from the Kookaburra song to mobile league coverage and the moral rights of celebrities - this is a field of law which continues to challenge courts, legislators and the community.

Cases and Text on Property, Third Edition

The A Practical Approach series is the perfect partner for practice work. Each title focuses on one field of the law and provides a comprehensive overview of the subject together with clear, practical advice and tips on issues likely to arise in practice. The books are also an excellent resource for those new to the law, where the expert overview and clear layout promotes clarity and ease of understanding. Now in its fourth edition, A Practical Approach to Commercial Conveyancing and Property serves as an accessible guide through the complex and diverse area of commercial conveyancing and property. Practical solutions are given to many of the more commonplace difficulties encountered, together with helpful diagrams explaining some of the intricacies involved. Checklists are provided as models of procedure, and easily followed precedent clauses and forms are supplied. This edition has been updated to provide comprehensive coverage of all the legislative changes to commercial property law since the publication of the last edition in February 2006. Significant changes covered in the book include: the code for Leasing Business Premises in England and Wales (2007 code), the RICS code of Practice on Service Charges in Commercial Property, and all recent significant case law such as Scottish & Newcastle v Raduz (2007).

Land Law

Immerse students in the world of intellectual property law and provide essential perspectives to practice in this area. The Fifth Edition of Loren & Miller's Intellectual Property Law continues to provide engaging and challenging coverage of all the major types of intellectual property law: trade secret, patent, copyright, and trademark law. Covering cases and developments through Spring 2017, the book includes all the latest Supreme Court cases that are vital to a survey course, including Star Athletica v. Varsity Brands (as a principal case) and contextualized discussion of Matal v. Tam and Impression Products v. Lexmark International. Each chapter has been fully revised, with changes, some small, some more extensive, that optimize clear presentation of tightly edited cases and concise notes and questions. The book kicks off with an introduction that explores the basic policies animating i.p. law and concludes with two overarching chapters, one on i.p. limits (preemption and first sale), and one on remedies (to redress past harm and prevent future harm). This book will both guide student analysis and challenge students to make vital connections within and across doctrines and policies.

Complete Land Law

Most of the lead cases are post-1990 and many are post-2000 decisions. There is significant new coverage in most of important topics of the course: personal property; adverse possession; estates; concurrent interests; landlord-tenant; easements; restrictive covenants; real estate transactions; land use; and intellectual property. The focus of this casebook is the application of traditional property concepts in a distinctly modern context. It is designed for a four, five or six unit Property course.

Property Law

Property, Third Edition, is an extremely accessible student treatise written by Professor Joseph William Singer, the well-known and highly regarded author of the popular casebook, Property Law: Rules, Policies, and Practices. This overview of property law addresses both classic and contemporary topics covered in the first-year property course in a straightforward format and offers clear explanations of property law through textual treatment, with numerous examples, as well as analytical discussion of key cases and issues followed by hypotheticals. Exceptional in its coverage and accessibility, this property law treatise: Clearly explains both classic and contemporary property rules and doctrine through a textual treatment, describing complicated property laws in a lively, contemporary manner. Features margin

notes to easily direct students to key concepts and ideas within the text. Includes numerous examples (including modern case examples) to help students understand the law. Prepares students for class and for exams by modeling correct answers to hard cases in which the law is unclear. By reading short summaries of the strongest arguments on both sides, students learn real-world skills for analyzing problems. Emphasizes disagreements among states about the applicable rules of property law, with explanations on why states adopt different rules. Teaches students to spot issues by explaining how courts interpret ambiguous elements in rules and identifying situations likely to give rise to exceptions. The Third Edition features: A new section on the subprime mortgage crisis that provides a contemporary look at property law (includes a discussion of the Massachusetts SJC case *Commonwealth v. Fremont*). Material on the Harry Potter copyright case (*Warner Bros. Entertainment, Inc. & J.K. Rowling v. RDR Books*). Recent Oregon land-use ballot initiatives regarding property owners' rights (Measures 37 and 49) and their impact. A new case on ownership issues surrounding Civil War-era papers once belonging to the governors of South Carolina (*Wilcox v. Stroup*). When your students need extra help, steer them to a reliable, scholarly resource by recommending this comprehensive yet easily comprehensible treatise.

Commercial Law

In this text, Roger Smith brings together the cases and materials that a property law student is most likely to require. Law Commission reports and other materials supplement the extracts from cases and statutes that lie at the heart of the book. Smith outlines the general principles of each topic, keeping the text deliberately light on references and minor points of detail, in order that the key principles are brought to the fore. In addition to drawing attention to the grey areas and controversies revealed in the extracts, the commentary and questions of varying difficulty link and critically discuss the extracts, setting them in context. This edition has been brought up to date with statutory and case law developments, including the far-reaching changes introduced by the Land Registration Act 2002 and the Commonhold and Leasehold Reform Act 2002.

Casenote Legal Briefs

The Fifth Edition of *CONTEMPORARY PROPERTY* emphasizes the traditional areas of real property law that are covered on the Multistate Bar Exam (MBE). The Fifth Edition features in-depth coverage of the following MBE topics: Present estates, future interests, and the Rule Against Perpetuities Cotenancy Landlord and tenant law Real estate contracts, deeds, and methods of title assurance Mortgage law principles, lien priority, and the foreclosure process Easements Restrictive covenants Zoning In addition, the Fifth Edition of *CONTEMPORARY PROPERTY* incorporates new developments and policy trends in Property Law, such as: The relationship between private property rights and democracy Constitutional constraints on private property rights Trends in intellectual property Marital property rights of same-sex couples The sharing economy Challenges to land use regulation based on due process and equal protection The power of eminent domain and regulatory takings Challenges to land use regulation based on freedom of speech and religion
