Leading Bavinck expert John Bolt edited that work, which has received wide acclaim. Now Bolt brings forth a recently discovered manuscript from Bavinck, in print for the first time, which serves as a companion to Reformed Dogmatics. #### Elements of Moral Philosophy and of Christian Ethics

Excerpt from Christian Ethics, Vol. 1 In virtue of his firm and independent nature - partly inborn and partly developed in the severe school of experience - he felt also a pressing need of a firmly-based construction of his theological views, and of a clear, distinct, and unambiguous expression of the same. This need was in part met by the Lutheran form of doctrine. It is true, he saw very clearly the defects and imperfections which a scientific construction and demonstration of this doctrinal formula bring to light; taking into consideration, however, its essential features, he found in it the purest and truest didactic presentation of evangelical truth.\* To preserve this form of the truth in its main features. ### Christian Ethics, Volume 2, Part 1

This recent edition of Christian Ethics Volume I is a thoroughly revised and updated version of fundamental moral theology. As in the previous editions, the author makes himself an interpreter of the demands of Vatican Council II and its request that moral theology be rooted more fully in Holy Scripture. At the same time account is taken of the new developments in the field of ethics. New issues of actual concern are taken up, such as the deontological and teleological conditions of moral norms, the confrontation between conscience and civil or ecclesiastical law, the communal roots of Christian identity, the requirement of liberty and the ethical compromise. The book addresses itself to all who are interested in the moral teaching of the Christian faith and endeavors to be a helpful instrument to this end.

### Christian Ethics

CHRISTIAN ETHICS CHRISTIAN ETHICS AN INTRODUCTORY READER "The selection of readings is excellent and I'd happily have my students devour them." Esther Reed, University of Exeter "Clear, sharply focused, and precisely what is needed. This book is enlightening and potentially transformative. It presents Christian ethics as an exciting theological enterprise and offers a rich, deep, and accessible way of practicing ethics." John Swinton, University of Aberdeen "Wells and Quash have put together a wonderfully comprehensive survey of Christian ethics while at the same time offering a distinctive and fresh perspective ... With the array of primary texts and judicious and very well-informed commentary that the two volumes represent, they have succeeded in constructing an extremely valuable resource for teachers and students of Christian ethics." Michael S. Northcott, University of Edinburgh (of *Introducing Christian Ethics* and *Christian Ethics: An Introductory Reader*) *Christian Ethics: An Introductory Reader* provides a comprehensive anthology of primary documents and materials relating to the emergence and study of key approaches to Christian ethics. The volume seeks to encompass the entire canon of Christian ethics, including first-hand accounts from major figures in the theological and ecclesial tradition. Readers are introduced to foundational figures such as Augustine, Aquinas, Luther, Calvin, and Barth, as well as contemporary voices including Rosemary Radford Ruether, James Cone, Jürgen Moltmann, Stanley Hauerwas, Oliver O'Donovan, Wendell Berry, and many others. Other notable figures not usually associated with the study of formal theoretical ethics, such as Gandhi and Martin Luther King, Jr., are also represented. The significance of each extract is summarized through useful introductory sections, placing the author or text in the context of broader developments in Christian ethical theory. Whether it is used independently or alongside the accompanying textbook, *Introducing Christian Ethics*, this engaging and informative volume offers students a window into the fascinating evolution of Christian ethical thought.

### Christian Ethics, Volume 1

In these two volumes, Kenneth Cauthen thoroughly examines what he terms "the ethics of belief." Simply stated, Cauthen posits that ethics are a matter of the convictions that individuals and com-

munities have about what is right and wrong, good and evil. He contrasts this with a more traditional view that morality is based upon principles that are universally valid and objectively true. Using a biological and historical approach, in Volume 1 Cauthen systematically develops a theory of Christian ethics based on what love (agape) and justice mean in contemporary society. He examines the interface between our complex civilization and some of the radical demands of the New Testament. Cauthen's ultimate goal is for readers to ask themselves, "How would Christ have us live in the 21st century?" In Volume 2, Cauthen spells out the implications of this ethical theory for a wide variety of contemporary topics. He takes forthright and controversial positions on a number of social and personal issues, including abortion, illegal drugs, prostitution, assisted suicide, capital punishment, church and state relations, religion and politics, democracy, poverty, health care, wealth and income distribution, affirmative action, and homosexuality. The Ethics Of Belief is a thought-provoking work that delves deeply into some of our world's most timely yet timeless issues. A nationally recognized authority on theology and ethics, Kenneth Cauthen is the John Price Crozer Griffith Emeritus Professor of Theology at Colgate-Rochester Divinity School/Crozer Theological Seminary. He is the author of several seminal works that have become standard texts, such as *The Impact of American Religious Liberalism*, which was selected for a special White House library on American history and culture. His CSS publications include the groundbreaking volumes *The Many Faces Of Evil* and *The Ethics Of Assisted Death*. Cauthen received his education from Mercer University (B.A.), Yale Divinity School (B.Div.), Emory University (M.A.), and Vanderbilt University (Ph.D.).

The History of Sexuality

Closing Remarks

Chapter the Incitement of Discourse

The Act of Sex

Foucault Turns to Secondary Schools of the 18th Century

Homosexuality

Homosexuality Appeared as One of the Forms of Sexuality

Police Violence

A Kind of Culturally Contingent Act Where I Wonder if Anything That Can Be Captured Can Truly Speak to a Kind of Truth Formula or if It Will Always Already Be Given Up to the Jackals of the Oh those Holders of Power to some Extent Where Doesn't Matter What Is Seen because the Narrative Can Be Spun in Almost any Way Well There's no Way outside of the Text or in Putting the Notion of the Text onto that so that's How I Think about this in this Way Why Why Foucault Is So Reticent To Think about the Act of Gazing or Seeing as Being Something That that Is Good or that Opens Up a Kind of Emancipatory

So Again Foucault Cautions that We Don't Regard this Explosion of Singular Sexualities as Being Something To Celebrate as He Says the Implant Implantation of Perversions Is an Instrument Effect It Is through the Isolation Intensification and Consolidation of Peripheral Sexualities that the Relations of Power to Sex and Pleasure Branched Out and Multiplied Measured the Body and Penetrated Modes of Conduct since on that Note Now I'M Moving to the Next Section Section Three I Guess the Antia Sexuales Which You Know He's Going To Be Speaking about the Attachment of Science and Sexuality What Does that Mean So in the Case of Science Foucault Is Not Convinced that It Ever Took Up Sexuality in a Direct Way

So this Whole Discourse around Sexuality through Science Was an Effort To Constitute Sex as a Problem of Truth To Make It a Matter of Truth or Falsity so the Important Thing as Foucault Tells Us and this Affair Is Not that these Men Doctors or What-Have-You Shut Their Eyes or Stop Their Ears or that They Were Mistaken It Is Rather that They Constructed Around and apropos of Sex an Immense Apparatus for Producing Truth Even in It Even if this Truth Was To Be Masked at the Last Moment or Relegated to the to the Recesses of Secrecy as We Were Speaking about It Earlier

It Is Rather that They Constructed Around and apropos of Sex an Immense Apparatus for Producing Truth Even in It Even if this Truth Was To Be Masked at the Last Moment or Relegated to the to the Recesses of Secrecy as We Were Speaking about It Earlier so There Have Been Four Foucault - Great-Great Procedures for Producing the Truth of Sex so the First One Indicative of China Japan India Roman Arable Muslim Societies Which Endowed Themselves with an Arse Erotica So in the Erotic Art Truth Is Drawn from Pleasure Itself Understood as a Practice and Accumulated as Experience Pleasure Is Not Considered in Relation to an Absolute Law of the Permitted and the Forbidden nor by Reference to a Criterion of Utility but First and Foremost in Relation to Itself It Is Experienced as It Is Experienced as Pleasure Evaluated

It Is Also a Ritual That Unfolds within a Power Relationship and because Truth Knowledge You Know that Truth Knowledge Paradigm Only Works within Power to some Extent some Kind of Formulation of It Then We Are Seeing the Formation of It of a Truth Claim of Kind of Truth Phenomenon Here So Then What Interests Foucault Is the Transition from the Confession as a Religious as a Religious Phenomenon Something That You Know in the Christian Christian Way the Catholic Way Went from that to to Science How Did Science Take Up the Confession in in this Way because as We've Established At Least if We Accept What Foucault Is Saying Confession Spoke to Truth

There's a Very Good Point in Discipline and Punished When Foucault Makes Clear that the Panopticon Produces Homogeneous Effects of Power Now in Relation to this That Makes a Lot of Sense because under the Ages of Scientists Sexuality What We Have Is that We Have the Crystallization the Formation of Sex under the Paradigm of Truth or under the Umbrella of Truth Which Allows a Little Wiggle Room like and It's Viewed Almost Always Negatively whereas the Arse Erotica that Thing That Focuses Solely on Pleasure Is Also a Very Subjective Field but It Doesn't Give Itself Over to a State or Scientific Apparatus That Can Then Mandate and Control That Field It Only Comes Down to the Subject

The Formation of Sex under the Paradigm of Truth or under the Umbrella of Truth Which Allows a Little Wiggle Room like and It's Viewed Almost Always Negatively whereas the Arse Erotica that Thing That Focuses Solely on Pleasure Is Also a Very Subjective Field but It Doesn't Give Itself Over to a State or Scientific Apparatus That Can Then Mandate and Control That Field It Only Comes Down to the Subject Where Being Only Focused on Pleasures or Bodies Is Only Their Own You CanNot Could

to some Extent Dictate What Is Pleasurable but in the Case of the Orgasm It Is a Very Subjective Experience but Foucault Is Careful However and He Makes Clear that It Should Not Be Noted or It Should Be Noted that the Arse Erotica Does Not Simply Disappear in Fact and He Goes On He Says that What We Have To Do Is Define the Strategies of Power That Are Imminent That Is inside of this Will to Knowledge As Far as Sexuality Is Concerned We Shall Attempt To Constitute the Political Economy of a Will to Knowledge Which Is What He's Going To Set Out To Do So Yeah that that LI Close that Off There It's about the First Half Right before Part or Get into the Rest I Wasn't Expecting this To Be so It's Just So Dense Write Small Books Are Their Elusive They'Re They'Re Tricky because that You Know I Think Oh I Read this Quickly but if You Really Want To Read It It Takes Forever
