The Drawing of the Dark

"Combining the best of mythology and real history, Tim Powers takes you on a rollicking magical adventure that is both tense and hilarious. You won't read a more plausible explanation for Western civilization, or one that's half so much fun."—David Brin Brian Duffy, aging soldier of fortune, had been hired in Venice by a strange old man who called himself Aurelianus Ambrosius. He was supposed to go to Vienna and act as bouncer at an inn where the fabulous Herzwesten beer was brewed. That was clear enough. But why was he guided and guarded on the trip by creatures from the ancient legends? Why should he be attacked by ifrits and saved by mythical dwarfs? What was so important about the Herzwesten beer to the Fisher King—whoever he was? Why was Duffy plagued by visions of a sword and an arm rising from a lake? And what had a bunch of drunken, ancient Vikings to do with it all? Then there was no time for speculation as Vienna was besieged by the Turkish armies of Suleiman. Duffy found himself drawn into a war of desperation and magic. It was up to him to preserve the West until the drawing of the Dark.

The Drawing of the Dark

Lake Geneva, 1816 As Byron and Shelley row on the peaceful waters of Lake Geneva, a sudden squall threatens to capsize them. But this is no natural event - something has risen from the lake itself to attack them. Kent, 1816 Michael Crawford's wife is brutally murdered on their wedding night as he sleeps peacefully beside her - and a vengeful ghost claims Crawford as her own husband. Crawford's quest to escape his supernatural wife will force him to travel the Continent in the company of the most creative, most doomed poets of his age. Byron, Keats and Shelley all have a part to play in his fate, and the fate of Europe.

The Drawing of the Dark

Brendan Doyle is a twentieth-century English professor who travels back to 1810 London to attend a lecture given by English romantic poet Samuel Taylor Coleridge. This is a London filled with deformed clowns, organised beggar societies, insane homunculi and magic. When he is kidnapped by gypsies and consequently misses his return trip to 1983, the mild-mannered Doyle is forced to become a street-smart con man, escape artist, and swordsman in order to survive in the dark and treacherous London underworld. He defies bullets, black magic, murderous beggars, freezing waters, imprisonment in mutant-infested dungeons, poisoning, and even a plunge back to 1684. Coleridge himself and poet Lord Byron make appearances in the novel, which also features a poor tinkerer who creates genetic monsters and a werewolf that inhabits others' bodies when his latest becomes too hairy.

The Stress of Her Regard

A heart-stopping supernatural adventure from one of fantasy fiction's most original talents—back in print! Ghosts can be caught, and bottled, and sold by covert dealers to addicts who inhale the things—and when a young boy named Kootie accidentally inhales the ghost of Thomas Edison, he finds that all the factions of Los Angeles' occult underground are after him, determined to kill him and get Edison's powerful ghost for themselves. Aided by Edison's confused and irascible ghost, Kootie flees—and finds himself dodging perils natural and supernatural in the gritty alleys and trainyards of a Los Angeles that tourists never see. From the slums around the L.A. River, to the abandoned Houdini mansion in the Hollywood Hills, to a final dramatic confrontation on the haunted ocean liner Queen Mary docked in Long Beach, *Expiration Date* is a heart-stopping supernatural adventure from one of fantasy fiction's most original talents. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Tim Powers: "Powers writes in a clean, elegant style that illuminates without slowing down the tale. . . . [He] promises marvels and horrors, and delivers them all."—Orson Scott Card ". . . immensely clever stuff.... Powers' prose is often vivid and arresting . . . All in all, Powers' unique voice in science fiction continues to grow stronger."—Washington Post Book World "Powers is at heart a storyteller, and ruthlessly shapes his material into narrative form."—The Encyclopedia of Science Fiction "On Stranger Tides . . . immediately hooks you and drags you along in sympathy with one central character's appalling misfortunes on the Spanish Main, [and] escalates from there to closing mega-thrills so determinedly spiced that your palate is left almost jaded."—David Langford "On Stranger Tides . . . was the inspiration for Monkey Island. If you read this book you can really see where Guybrush and LeChuck were -plagiarized- derived from, plus the heavy influence of voodoo in the game. . . . [the book] had a lot of what made fantasy interesting . . ."—legendary game designer Ron Gilbert "Powers's strengths [are] his originality, his action-crammed plots, and his ventures into the mysterious, dark, and supernatural."—Los Angeles Times Book Review "[Powers' work delivers] an intense and intimate sense of period or realization of milieu; taut plotting, with human development and destiny . . . and, looming above all, an awareness of history itself as a merciless turning of supernatural wheels. . . . Powers' descriptions . . . are breathtaking, sublimely precise . . . his status as one of fantasy's major stylists can no longer be in doubt."—SF Site

The Anubis Gates

From multi-award-winning fantasy writer Tim Powers - the exhilarating masterwork *Three Days to Never* When Albert Einstein told Franklin Roosevelt in 1939 that the atomic bomb was possible, he did not tell the president about another discovery he had made, something so extreme and horrific it remained a secret . . . until now. This extraordinary new novel from one of the most brilliant talents in contemporary fiction is a standout literary thriller in which one man stumbles upon the discovery Einstein himself tried to keep hidden. When twelve-year-old Daphne Marrity takes a videotape labeled Pee-wee's Big Adventure from her grandmother's house, neither she nor her college-professor father, Frank Marrity, has any idea that the theft has drawn the attention of both the Israeli Secret Service and an ancient European cabal of occultists-or that within hours they'll be visited by her long-lost grandfather, who is also desperate to get that tape. And when Daphne's teddy bear is stolen, a blind assassin nearly kills Frank, and a phantom begins to speak to her from a switched-off television set, Daphne and her father find themselves caught in the middle of a murderous power struggle that originated long ago in Israel and Germany but now crashes through Los Angeles and out to the Mojave Desert. To survive, they must quickly learn the rules of a dangerous magical chess game and use all their cleverness and courage-as well as their love and loyalty to each other-to escape a fate more profound than death.

Drawing of the Dark

A mesmerising, award-winning, daringly imaginative, multi-levelled thriller for fans of John le Carre or Neal Stephenson. An ultra-secret MI6 codename. A deadly game of deception and intrigue. Dark forces from the depths of history. The terrible secret at the heart of the cold war. Operation: DECLARE London, 1963. A cryptic phone call forces ex-MI6 agent Andrew Hale to confront the nightmare that has haunted his adult life: an ultra-secret wartime operation, codenamed Declare. Operation Declare took Hale from Nazi-occupied Paris to the ruins of post-war Berlin and the trackless wastes of the Arabian desert, culminating in a night of betrayal and mind-shattering terror on the glacial slopes of Mount Ararat. Now, with the Cold War at its height, his superiors want him to return to the mountain and face the dark secret entombed within its icy summit. Hale has no choice but to comply, for Declare is the key to a conflict far deeper, far colder, than the Cold War itself.

The Drawing of the Dark

Strange Itineraries takes you down haunted byways into the heart of Tim Powers country, where you will find turbulent ghosts, secretive immortals and mysterious Ether Bunnies. Containing Tim Powers' short fiction from 1982 to 2004, including his delightful collaborations with James P. Blaylock, Strange Itineraries will enchant you and lead you astray.

Expiration Date

From multi-award-winning fantasy writer Tim Powers: a secret history of 19th-century London. London, 1862: a city of stinking fog and dark, winding streets. Adelaide McKee, a former prostitute, arrives on the doorstep of veterinary doctor John Crawford, a man she met once seven years earlier and the father of her only child, long presumed dead. She has recently learned that the girl lives - but her life and soul are sought by a ghostly vampire. And this is no ordinary spirit; the bloodthirsty wraith is that of John Polidori, Lord Byron's doctor... Sweeping from high society to grimy slums, from elegant West End salons to the pre-Roman catacombs beneath St. Paul's, *Hide Me Among the Graves* blends the historical and the supernatural in a unique and dazzling novel.

Three Days to Never

Supernatural Adventure from a Master of Modern Fantasy The magical King of the West has been killed in California, and his assassin is one of the multiple personalities in the head of Janis Cordelia Plumtree—but which one? One of them is a streetwise pickpocket. Another is dead, and can only speak in quotes from Shakespeare. And another seems to be the unquiet ghost of her father. And there are many others. Sid Cochran is a one-time winemaker who blames his wife's suicide on the wine-god Dionysus, and believes that Dionysus is now pursuing him. Cochran and Plumtree escape together from a mental hospital in Los Angeles, and—pursued by ghosts, gangsters, and a crazy psychiatrist—set out for San Francisco and the wine country to try to restore the dead King of the West to life. But the god Dionysus himself is a player in this perilous game—and not on their side. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Tim Powers: "Powers writes in a clean, elegant style that illuminates without slowing down the tale. . . . [He] promises marvels and horrors, and delivers them all."—Orson Scott Card "Other writers tell tales of magic in the twentieth century, but no one does it like Powers."—The Orlando Sentinel ". . . immensely clever stuff.... Powers' prose is often vivid and arresting . . . Tim Powers

A New Novel From Award-Winning Master of Fantasy and Science Fiction Tim Powers. A modern ghost story as only Tim Powers can write it. Something weird is happening to the Los Angeles freeways—phantom cars, lanes from nowhere, and sometimes unmarked offramps that give glimpses of a desolate desert highway—and Sebastian Vickery, disgraced ex-Secret Service agent, is a driver for a covert supernatural-evasion car service. But another government agency is using and perhaps causing the freeway anomalies, and their chief is determined to have Vickery killed because of something he learned years ago at a halted Presidential motorcade. Reluctantly aided by Ingrid Castine, a member of that agency, and a homeless Mexican boy, and a woman who makes her living costumed as Supergirl on the sidewalk in front of the Chinese Theater, Vickery learns what legendary hell it is that the desert highway leads to—and when Castine deliberately drives into it to save him from capture, he must enter it himself to get her out. *Alternate Routes* is a fast-paced supernatural adventure story that sweeps from the sun-blinded streets and labyrinthine freeways of Los Angeles to a horrifying other world out of Greek mythology, and Vickery and Castine must learn to abandon old loyalties and learn loyalty to each other in order to survive as the world goes mad around them. Down and Out in Purgatory

"As this novella begins, a trio of academics have just entered a deserted California cemetery late at night, bringing with them a number of arcane devices aimed at achieving an equally arcane purpose. These three men, professors in the "Consciousness Research" department at Cal Tech University, have come together to perform a seemingly impossible task. Their goal: to open a door between the world of the living and the world of the dead, and to capture the ghost of the recently deceased scientist Armand Vitrielli. For their own desperate reasons, they hope to avail themselves of the secrets Vitrielli left behind at the time of his death. Their experiment, naturally, fails to come off exactly as planned. A door between the worlds does, in fact, open, letting in something - someone - completely unexpected, and setting in motion a chain of events that will reverberate throughout the narrative."--Amazon

Set in Los Angeles, Powers' intricate story shows how Sydney's loneliness and alcoholism leaves him vulnerable to someone (or something) that is not what it appears to be.

These commonplace objects serve as catalysts for an extraordinary-- and unpredictable-- adventure. Without warning, Blanzac finds himself traversing a 'circle of discontinuity' that leads from the present day to the San Francisco of 1957. Caught up in that circle are an ancient Sumerian deity, a forgotten Beat-era poet named Sophie Greenwald, and an apocalyptic cult in search of the key to absolute non-existence" -- from publisher's web site.

Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.
