Alpha Squad: Friends & Foes

Sometimes doing the right thing... means risking everything. Excited to receive his very first assignment, Alpha Squad recruit Adam King is ready to jump head-first into the action. With the small town of Sevenoaks experiencing violent attacks on the local population, it's up to Alpha Squad to find the cause. But when suspicions fall on the local shifter refugee camp, and especially Felicity Weir who volunteers there, Adam is forced to reevaluate his priorities. With his inner bear insisting she is his mate and the squad's reputation hanging on a successful first mission, Adam is torn. How can he do his job when he's unable to endanger the woman who appears to be their prime suspect? Determined to help the displaced individuals streaming in from Europe build a new life for themselves, bear shifter Felicity Weir is forced to take matters into her own hands. Having looked after the shifter refugees camping near Sevenoaks, Felicity cannot accept that one of her kind would be capable of such violence. With the attacks and the mood in Sevenoaks growing more and more hostile, Felicity has no choice but to investigate the deaths herself... before tension toward these newcomers, and by proxy, towards her, ruins the only chance these people have at a fresh start. With the local police hot on their heels, Felicity and Adam join forces. But will they be able to prove her innocence before public opinion is irreparably poisoned against the shifters? Or will their chances for a happy future together be completely destroyed? Join Alpha Squad in this steamy paranormal romance you won't want to put down. If you like Alpha City by Bryce Evans or Bear Patrol by Scarlett Grove, then you will love the Alpha Squad Series by Lorelei Moone!

Alpha Squad

Why can't shifters and humans just get along...It has only been a few months since humanity found out about the various shifters that live among them. This brave new world is not without its challenges; neither for the humans or the shifters. Alpha Squad is formed to help law enforcement agencies deal with shifter related matters, and not a moment too soon! Follow the brave men and women of the squad as they try to come to terms with their new reality, catch criminals and find love along the way. Join Alpha Squad in this steamy paranormal romance you won't want to put down. If you like Alpha City by Bryce Evans or Bear Patrol by Scarlett Grove, then you will love the Alpha Squad Series by Lorelei Moone! Boot Camp Bear shifter Eric King is asked to join Alpha Squad; a task force meant to promote cooperation between shifters and humans in law enforcement, but there are problems: Is Alpha Squad even a serious initiative? And how will he focus on his training when his inner bear insists that the squad leader is his mate? Friends & Foes Alpha Squad has received its very first assignment and bear shifter Adam King is excited to jump head-first into the action. Upon investigating a string of seemingly shifter related murders, he finds himself torn between his job and the local police's main suspect; Felicity Weir; female bear shifter and Adam's fated mate... Infiltrator For the past six months, Thomas Blackwood has been serving two masters: he's been an active part of Alpha Squad, but only on his old alpha's say-so.

When he finds himself stuck in between two sets of clashing orders, he must make a choice: who does he truly serve? And what would the woman of his dreams, Private Callahan, think of him if she knew he was a traitor? Showdown Upon joining Alpha Squad, bear shifter hybrid Sean McMillan realizes there's a lot more to being a shifter than occasionally sprouting some fur. His first mission: a double murder. That shouldn't be too hard for the experienced former police detective, but he didn't count on coming across lab assistant Erin Reid who shows an unusual amount of interest in him. Strangely, the feeling is mutual...

Alpha Squad: Friends & Foes

Duty and fate collide, leaving Adam to face an impossible choice Alpha Squad deploy on their first mission: to investigate the violent attacks on the small town of Sevenoaks before anyone else gets hurt. All evidence points to the nearby shifter refugee camp and local volunteer, Felicity. Where everyone sees a suspect, his inner bear recognizes his true mate. Fellow bear shifter, Felicity, has dedicated her life to helping others. She refuses to accept that the murderer is one of her own. With the violence escalating and the town turning more and more hostile, she starts to investigate the case herself. Adam goes rogue to help her. Evidence against the shifter refugees piles up, and the local police are closing in. Can they figure out whodunnit before it's too late, both for the people of Sevenoaks, as well as their own happily ever after? Join Alpha Squad in this steamy paranormal murder mystery romance which will keep you turning pages right to the end. If you like Alpha City by Bryce Evans or Bear Patrol by Scarlett Grove, then you will love the Alpha Squad Series by Lorelei Moone!

Grime Kids

An explosive insider account of grime, from subculture to international phenomenon. ***** A group of kids in the 2000s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. DJ Target grew up in Bow under the shadow of Canary Wharf, with money looming close on the skyline. The 'Godfather of Grime' Wiley and Dizzee Rascal first met each other in his bedroom. They were all just grime kids on the block back then, and didn't realise they were to become pioneers of an international music revolution. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. Grime has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names.

Halo: The Fall of Reach

The New York Times bestselling origin story of the Master Chief—part of the expanded universe based on the award-winning video game series Halo! The twenty-sixth century. Humanity has expanded beyond Earth's system to hundreds of planets that colonists now call home. But the United Earth Government and the United Nations Space Command is struggling to control this vast empire. After exhausting all strategies to keep seething colonial insurrections from exploding into a full-blown interplanetary civil war, the UNSC has one last hope. At the Office of Naval Intelligence, Dr. Catherine Halsey has been hard at work on a top-secret program that could bring an end to the conflict...and it starts with seventy-five children, among them a six-year-old boy named John. And Halsey could never guess that this child will eventually become the final hope against an even greater peril engulfing the galaxy—the inexorable confrontation with a theocratic military alliance of alien races known as the Covenant. This is the electrifying origin story of Spartan John-117—the Master Chief—and of his legendary, unstoppable heroism in leading the resistance against humanity's possible extinction.

Marine Rifle Squad MCIP 3-10A.4i

Marine Corps Interim Publication MCIP 3-10A.4i Marine Rifle Squad June 2019 Marine Corps Interim Publication (MCIP) 3-10A.4i, Marine Rifle Squad, contains tactics, techniques, and procedures for rifle squad employment and captures lessons learned from recent decades of conflict. It covers a range of missions that Marine rifle squads deal with today or may deal with tomorrow. Despite this

extended coverage, MCIP 3-10A.4i is not intended to be all-encompassing. There are many aspects of rifle squad operations that are not detailed herein because a specific publication already exists for that purpose; to cover it would be redundant. It also does not address force structure and weapon system changes anticipated over the next several years unless sufficient experimentation and testing have already been conducted to generate best practices that are ready to be codified in doctrine. This publication does serve, however, as the basic warfighting squad publication and is to be used in conjunction with the appropriate infantry platoon, company, and battalion publications, as well as other publications that relate to the conduct of ground operations. This publication is intended for Marine Corps infantry company and below leadership, to include units serving as provisional infantry. It is a foundational document that assists in the preparation and execution of squad-level operations in the current operational environment in order to accomplish their assigned missions. Scoring off the Field

Tennyson Clark is getting a life. First step: quitting her job as assistant to Dominic Anderson, star quarterback for the Washington Warriors, her best friend...and the man she's been secretly in love with for years. But since the gorgeous, if overprotective playboy has only ever seen her as his BFF, she's finally ready to relinquish her tattered fantasy and move on. Enter steps two and three: new job and new man. Football is Dominic's life, and with his contract soon up for renewal, all his focus needs to be on the game. But Tennyson—dependable, logical Tennyson—is making that next to impossible with her mysterious new job and her sudden interest in online dating. He doesn't do relationships. But the thought of another man touching her sexier-than-hell curves has him suddenly wanting more from his best friend. Indulging in hot, dirty, what's-my-name sex with no strings and lots of benefits is simple, uncomplicated...until it's not. Aurora's End

The squad you love is out of time. Prepare for the thrilling finale in the epic, bestselling Aurora Cycle series about a band of unlikely heroes who just might be the galaxy's last hope for survival. Is this the end? What happens when you ask a bunch of losers, discipline cases and misfits to save the galaxy from an ancient evil? The ancient evil wins, of course. Wait . . . Not. So. Fast. When we last saw Squad 312, they were working together seamlessly (aka, freaking out) as an intergalactic battle raged and an ancient superweapon threatened to obliterate Earth. Everything went horribly wrong, naturally. But as it turns out, not all endings are endings, and the team has one last chance to rewrite theirs. Maybe two. It's complicated. Cue Zila, Fin and Scarlett (and Magellan!) making friends, making enemies and making history? Sure, no problem. Cue Tyler, Kal and Auri joining forces with two of the galaxy's most hated villains? Um, okay, yeah. That too. Actually saving the galaxy, though? Now that will take a miracle.

Rise & Fall

Action. Comedy. Romance. And that one weird guy. After an attack by the Coalition leaves THIRDS Team Leader Sloane Brodie critically injured, agent Dexter J. Daley swears to make Beck Hogan pay for what he's done. But Dex's plans for retribution are short-lived. With Ash still on leave with his own injuries, Sloane in the hospital, and Destructive Delta in the Coalition's crosshairs, Lieutenant Sparks isn't taking any chances. Dex's team is pulled from the case, with the investigation handed to Team Leader Sebastian Hobbs. Dex refuses to stand by while another team goes after Hogan, and decides to put his old HPF detective skills to work to find Hogan before Theta Destructive, no matter the cost. With a lengthy and painful recovery ahead of him, the last thing Sloane needs is his partner out scouring the

city, especially when the lies-however well intentioned-begin to spiral out of control. Sloane is all too familiar with the desire to retaliate, but some things are more important, like the man who's pledged to stand beside him. As Dex starts down a dark path, it's up to Sloane to show him what's at stake, and finally put a name to what's in his heart.

Piper Skye is rock 'n' roll. She's party all night, sleep all day. She's get wild and be free. Or she would be if she had the time. And the energy. And not being so awkward would probably help, too. As the owner of a thriving dessert business, Piper spends her days at school and her nights elbow deep in batter and frosting. She's confident her hard work and sacrifice will pay off as long as she stays focused and sticks to the plan. Jake Hyde is a workaholic with a jaded outlook on life. Surrounding himself with employees he considers his brothers, he long ago made the decision that his custom garage would be his focus. Fate, as it often does, has other ideas. Plus, a killer sense of humor. Thrown together by coincidence, the gruff mechanic and the sweet as sin baker have instant sparks. Suddenly, all of their carefully made plans have taken a giant freakin' left turn. And they do it on the back of a Harley.

The Russian Way of War

"My name is Rylee and I am a Tracker." When children go missing, and the Humans have no leads, I'm the one they call. I am their last hope in bringing home the lost ones. I salvage what they cannot. Bringing my allies together as war approaches is my number one concern. But that means I have to play nice with a vampire who is blackmailing me. If I don't, I'm screwed and my family is dead. But I don't play nice. And I have a backup plan. Kinda. Throw in some new weapons being developed that work around supernaturals, and I have more problems than I can handle on my own. Good thing I have a kick ass team. Even if they are on the other side of the world from me. Starring the irresistible, ass-kicking heroine Rylee Adamson, Tracker is the sixth book in USA Today bestselling author Shannon Mayer's sexy, exciting, and laugh-out-loud series, a dangerously addictive paranormal romance.

Like sharks, epidemic diseases always lurk just beneath the surface. This fast-paced history of their effect on mankind prompts questions about the limits of scientific knowledge, the dangers of medical hubris, and how we should prepare as epidemics become ever more frequent. Ever since the 1918 Spanish influenza pandemic, scientists have dreamed of preventing catastrophic outbreaks of infectious disease. Yet, despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. From the Spanish flu and the 1924 outbreak of pneumonic plague in Los Angeles to the 1930 'parrot fever' pandemic and the more recent SARS, Ebola, and Zika epidemics, the last 100 years have been marked by a succession of unanticipated pandemic alarms. Like man-eating sharks, predatory pathogens are always present in nature, waiting to strike; when one is seemingly vanquished, others appear in its place. These pandemics remind us of the limits of scientific knowledge, as well as the role that human behaviour and technologies play in the emergence and spread of microbial diseases.

The Pandemic Century

Includes a foreword by Major General David A. Rubenstein. From the editor: "71F, or "71 Foxtrot," is the AOC (area of concentration) code assigned by the U.S. Army to the specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways and in

many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists "do for a living." In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the "grey-beards" of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health, well being, and performance of Soldiers and their families."

Clan rivalries erupt amid turmoil in an untold story set immediately after the events of James Cameron's 2009 blockbuster film *Avatar*! Jake Sully maintains his position as leader of the Omatikaya Na'vi tribe, but with their Hometree destroyed, he begins to doubt his place among them. As the Na'vi and human feud persists, tensions between the tribes begin to escalate as longstanding family animosities ignite--spawning treachery and betrayal! Writer Jeremy Barlow (AVP: Thicker than Blood, *Star Wars*: Darth Maul--Son of Dathomir) and artist Josh Hood (The Green Goblin, *Star Trek*: Mirror Broken, *Ghost Rider*) bridge the gap between *Avatar* and the highly anticipated sequel, *Avatar 2*, in this story of family, sacrifice, and survival! Collects *Avatar: The Next Shadow* #1-#4.

The 71F Advantage

First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, "marked a real turning point . . . and proved that a war can be won by airpower alone." Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower--the members of the 40th Expeditionary Operations Group. Their descriptions--a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot--provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.

Avatar: The Next Shadow

In the new *Leopard* novel by the #1 New York Times bestselling author of *Cat's Lair* and *Leopard's Prey*, passions explode like wildfire when a young woman's feral instincts are ignited by a man who's too dangerous not to desire . . . A simple request for Siena Arnotto: deliver a gift to her grandfather's friend. One look at Elijah Lospostos, hard-bodied and stripped to the waist, and Siena succumbs to a feline stirring she never felt before, and to Elijah's reckless and pleasurable demands. But when that pulse-throbbing moment ends in the murder of an unexpected intruder, Elijah accuses the shaken and confused Siena of setting him up. Then Siena discovers the truth of her *Leopard* heritage, of the secrets in her grandfather's inner circle, and the sinister plot of revenge that has put her in jeopardy. When Siena's grandfather is assassinated, she realizes the only man she can trust is Elijah. Now as her *Leopard* rises from within, Siena and Elijah share not only an animal instinct for survival--but a desire so raw and wild it may be the only thing that can save them.

Halo: First Strike

The #1 Sunday Times and International Bestseller from 'the most influential public intellectual in the Western world right now' (New York Times) What are the most valuable things that everyone should know? Acclaimed clinical psychologist Jordan Peterson has influenced the modern understanding of personality, and now he has become one of the world's most popular public thinkers, with his lectures on topics from the Bible to romantic relationships to mythology drawing tens of millions of viewers. In an era of unprecedented change and polarizing politics, his frank and refreshing message about the value of individual responsibility and ancient wisdom has resonated around the world. In this book, he provides twelve profound and practical principles for how to live a meaningful life, from setting your house in order before criticising others to comparing yourself to who you were yesterday, not someone else today. Happiness is a pointless goal, he shows us. Instead we must search for meaning, not for its own sake, but as a defence against the suffering that is intrinsic to our existence. Drawing on vivid examples from the author's clinical practice and personal life, cutting edge psychology and philosophy, and lessons from humanity's oldest myths and stories, 12 Rules for Life offers a deeply rewarding antidote to the chaos in our lives: eternal truths applied to our modern problems.

The 5AM Club

Features the electronic book "Disaster on Green Ramp: The Army's Response" by Mary Ellen Condon-Rall of the Center of Military History in Washington, D.C. Discusses a plane crash and massive fire at Pope Air Force Base, North Carolina, that killed or injured more than 100 paratroopers in 1994.

A woman on the run must confront her dark past at her family's home in Cincinnati in this thrilling novel of romantic suspense from New York Times bestselling author Karen Rose. Psychologist Faith Corcoran is desperate to escape the stalker who's made her life a nightmare for the past year—desperate enough to run to the one place that has been her nightmare far longer. Her recent inheritance of her grandmother's old house in Cincinnati offers sanctuary in which she can start her life anew, but requires that she face the dark memories that still resonate to this day. But she has no idea how close to home her fears still are... Two college girls have gone missing in the area, and FBI Special Agent Deacon Novak is called to work on the case. When his inquiry unexpectedly leads him to Faith, he finds a beautiful and brave woman he can't help but fall for. Soon they'll discover that this seemingly simple investigation is anything but. Reaching back decades into Faith's own past, it will shatter everything she believes to be true and will give terrifying new meaning to flesh and blood.

12 Rules for Life

The extraordinary new Lucas Davenport thriller from the number one New York Times-bestselling author and Pulitzer Prize winner John Sandford. 'He knows where the bodies are buried.' A familiar expression, often said with a laugh. But in Lucas Davenport's line of work, it's sometimes all too true.... When a county deputy is called out to an abandoned farmhouse in the cornfields of Minnesota by a couple of terrified teenagers, he finds that a body has been stuffed down a cistern. And then another, and another. By the time Lucas Davenport is called in, the police are up to fifteen bodies, and counting. And when Lucas begins to investigate, he makes some disturbing discoveries of his own. The victims have been killed over a great many years, one every summer, regular as clockwork. How could this have happened without anybody noticing? Because one thing was for sure: The killer has to live close by. He is probably even someone they see every day...

Disaster On Green Ramp: The Army's Response

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 194 countries and 14 territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide.

Closer Than You Think

"This book walks each of us through the reality checks we need in order to have the marriage we want!" —Shaunti Feldhahn, social researcher and best-selling author of *For Women Only* In today's workplace, women are often rewarded for having type A personalities: driven, demanding, ambitious, and strong. Yet when it comes to their marriages, those same traits can backfire. After all, no one goes into marriage hoping for a promotion. What is a wife to do? April Cassidy knows this struggle firsthand. She thought she was a great Christian wife and begged God to make her passive husband into a more loving, involved, godly leader. Instead, God opened her eyes to changes that she needed to make, such as laying down her desire for control and offering genuine, unconditional respect—not just love—to her husband. Cassidy's conclusions may be as startling to readers as they were to her, but *The Peaceful Wife* shares how she and many others have learned to reorient their lives to biblical commands—resulting in healthier, happier marriages. In the end, you'll find *The Peaceful Wife* a powerful path to God's design for women to live in full submission to Christ as Lord.

Field of Prey

Explosive, revealing, and intelligent, *The Red Circle* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from *The Killing School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF*. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan.

Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.

Freedom in the World 2011

"Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war occurs gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

The Peaceful Wife

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

The Red Circle

An apocalyptic cult member, a jazz buff in Tokyo, a woman on a holy mountain, a burnt-out lawyer, a Mongolian gangster, a redundant spy, a despondent 'zookeeper', a nuclear scientist, a ghostwriter, a ghost, and a New York DJ are all tenuously connected. All of them have tales to tell, and all must play their part as they are caught up in the inescapable forces of cause and effect.

Dictionary of the British English Spelling System

An account of sordidness and redemption by the Dartmouth fraternity member whose Rolling Stone profile blew the whistle on the frat's inhumane hazing practices. Always trust the brotherhood. Always protect your pledge brothers. What happens in the house stays in the house. Before attending Dartmouth, the worst thing Andrew Lohse had ever done was skip school to attend a John McCain rally. Growing up in suburban New Jersey, he was the typical American honor student: straight-As, on the lacrosse team, president of the Model U.N. He dreamed of following in his grandfather's footsteps and graduating from the Ivy League. When he arrived at Dartmouth, however, he found not the prestigious college of years past, but a wasteland of privilege and moral entropy. And when he rushed Sigma Alpha Epsilon, the fraternity that inspired the rival house in Animal House, Lohse's once-perfect life, as well as his goals, began to crumble around him. Lured by free booze and friendly brothers, Andrew pledged Sigma Alpha Epsilon, and soon his life became a dangerous cycle of binge drinking and public humiliation. From chugging vinegar to swimming in a pool of human waste, Lohse's pledge class endured cruelty and psychological coercion in the hopes of obtaining a bid. Although Andrew succeeded in joining the fraternity, the pattern of abuse continued—except over time, he became the abuser. Told by a contemporary Holden Caulfield, this is a shocking exposé of America's most exclusive institutions and a cautionary tale for modern times.

Ghostwritten

#1 New York Times bestselling author Ilona Andrews is back with the newest book in the exciting Hidden Legacy series—the thrilling conclusion to her trilogy featuring fierce and beautiful Prime magic user Catalina Baylor. An escaped spider, the unexpected arrival of an Imperial Russian Prince, the senseless assassination of a powerful figure, a shocking attack on the supposedly invincible Warden of Texas, Catalina's boss... And it's only Monday. Within hours, the fate of Houston—not to mention the House of Baylor—now rests on Catalina, who will have to harness her powers as never before. But even with her fellow Prime and fiancé Alessandro Sagredo by her side, she may not be able to expose who's responsible before all hell really breaks loose.

His Last Command

This manual provides guidance for the organization, planning, and conduct of the full range of military operations on urbanized terrain. This publication was prepared primarily for commanders, staffs, and subordinate leaders down to the squad and fire team level. It is written from a Marine air-ground task force perspective, with emphasis on the ground combat element as the most likely supported element in that environment. It provides the level of detailed information that supports the complexities of planning, preparing for, and executing small-unit combat operations on urbanized terrain. It also provides historical and environmental information that supports planning and training for combat in built-up areas
