The New Accounting Manual

Shows how to produce an accounting procedures manual using sources other than traditional book-keeping procedures such as activity-based costing, work simplification rules, process reengineering, information systems analysis and operational auditing.

Resources in Education

You can turn to this revised classic for a step-by-step plan to prepare pertinent and accurate accounting manuals, determine which formats to use, as well as maintain and update information. You'll get: Details on the general accounting manual Policy/procedure statement Forms manual Data processing manual User manual Information release system Packed with over 150 examples of actual documents, this Third Edition offers comprehensive guidance on repairing and maintaining effective accounting manuals. The core volume (ISBN 0471-253685) is supplemented annually. The 2002 Cumulative Supplement (ISBN 0471-249882) includes the following: A new chapter on dealing with the electronic manual- its advantages and shortcomings, as well as how to reformat a paper-based manual to take advantage of hypertext, on-line tutorials, and various help features. A new chapter on handling the production and distribution of the accounting manual An extensive list of detailed procedures that apply to accounting, human resources, and management information systems. The supplement

updates the core volume Brown/Design and Maintenance of Accounting Manuals, Third Edition (ISBN 0471-253685).

Design and Maintenance of Accounting Manuals 2002 Cumulative Supplement

This highly regarded reference is relied on by a considerable part of the accounting profession in their day-to-day work. This handbook is the first place accountants, auditors, bankers, lawyers, financial analysts, and other preparers and users of accounting information look to find answers to questions on accounting and financial reporting. The new edition will be updated to reflect the new FASB Codification, as well as including expanded coverage of fair value and guidance on developing fair value estimates, fraud risk and exposure, healthcare, and IFRS.

Books in Print

This book provides a comparative look at financial management systems from a family of systems point of view.

Accountants' Handbook, Special Industries and Special Topics

There are 37 revised or new accounting procedures and 28 accounting forms and reports in the 2004 Supplement. Here is a sample of some key additions: A revised procedure and form for routing incoming cash receipts through the mailroom. A new procedure for processing credit card payments through an Internet site. New procedures for verifying that all shipments have been invoiced and correctly priced. A new customer credit application form. A new procedure for processing sales returns, as well as an integrated sales return authorization form and a sales return credit calculation form. New procedures for the monthly close, including the calculation of revenue under the percentage of completion method, immediate recognition of losses under construction contracts, calculation of the bad debt reserve, recording gains or losses on asset sales, testing assets for value impairment, calculating the value of stock appreciation rights (with an accompanying form), and the amortization of premiums or discounts on debt.

Models of Public Budgeting and Accounting Reform Volume 2 Supplement 1

This Manual provides guidance to compilers of national accounts on the concepts, data sources, and compilation methods required for development of a system of quarterly national accounts. More and more countries are recognizing that quarterly national accounts are an essential tool for management and analysis of their economy. The Manual is intended particularly for compilers who already have a knowledge of annual national accounting concepts and methods, and provides techniques for the development of a consistent time series of annual and quarterly accounts. It serves as a complement to the System of National Accounts 1993, which has only a limited discussion of quarterly accounts, and will also prove useful as a tool for sophisticated users of quarterly national accounts.

Design and Maintenance of Accounting Manuals, 2004 Supplement

The GHG Protocol Corporate Accounting and Reporting Standard helps companies and other organizations to identify, calculate, and report GHG emissions. It is designed to set the standard for accurate, complete, consistent, relevant and transparent accounting and reporting of GHG emissions.

Quarterly National Accounts Manual

The Fourth Edition of this classic resource shifts from an exclusive university emphasis to include all businesses and industries, reflecting the changing demands of this dynamic field. Revised and updated material includes procedural reviews of internal controls, tests of conformance to acceptable accounting principles, and reviews of the application of rules and procedures to ensure consistency and reliability. You can turn to this revised standard for a step-by-step plan to prepare pertinent and accurate accounting manuals, determine which formats to use, as well as maintain and update information. Other contents include details on the general accounting manual, a policy/procedure statement, forms manual, data processing manual, user manual, and information release system. Packed with over 150 examples of actual documents, this Fourth Edition offers comprehensive guidance on repairing and maintaining effective accounting manuals.

AICPA Audit and Accounting Manual

This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

BSBCM207A
