Vampires and Vampirism

This book is an attempt to collate the myths and stories of vampires across Europe, spanning from Babylonia to Bulgaria. It also tries to examine whether such a creature could exist in real life based on scientific considerations.

Vampires and Vampirism

DIVStudy examines vampire lore in fantastic detail, addressing such issues as how vampires came into existence, vampirish behavior, vampire-like ancient myths, and vampires in modern literature. /div

Children of the Night

A century after Bram Stoker made the Vampire one of the most potent images in all literature, the cult of the undead is as alive as ever. Not only on celluloid and in the pages of fiction, but in the S&M clubs of New York City, in Midwest high schools and English pubs, across the forests of Puerto Rico and the jungles of Malaysia, the creature walks among us. In Children of the Night Tony Thorne provides the ultimate account of the history, meaning, and resonance of the Vampire, drawing on explorations in Eastern Europe, new theories of the origin of the Vampire and exclusive interviews with contemporary living Vampires, the very latest incarnations of a phenomenon which simply will not die.

Vampires and Vampirism

The Greek Church at one time taught that the bodies of persons upon whom the ban of excommunication had been passed did not undergo decomposition after death until such sentence had been revoked by the pronouncement of absolution over the remains, and that, while the bodies remained in this uncorrupted condition, the spirits of the individuals wandered up and down the earth seeking sustenance from the blood of the living. The non-corruption of a body, however, was also held to be one of the proofs of sanctity; but, in this case, the body preserved its natural colour and gave an agreeable odour, whereas the bodies of the excommunicated generally turned black, swelled out like a drum, and emitted an offensive smell. Very frequently, however, when the graves of suspected vampires were opened, the faces were found to be of ruddy complexion and the veins distended with blood, which, when opened with a lancet, yielded a supply of blood as plentiful, fresh, and free as that found in the veins of young and healthy living human beings. For many centuries in the history of Greek Christianity there was scarcely a village that had not its own local vampire stories which were related by the inhabitants and vouched for by them as having either occurred within their own knowledge or been related to them by their parents or relatives as having come within their personal observation or been verified by them.

The Vampire's Bedside Companion

The Vampire's Bedside Companion is a riveting compendium of new facts and fiction on the 'undying' theme of vampirism. Here is a new theory on the genesis of Dracula (surely literature's most compelling and macabre figure?); thoughts on allusions to vampirism in Wuthering Heights; first-hand experience of Vampires in Hampstead, London; publication for the first time of the story of a fifteenth-century Vampire Protection medallion that Montague Summers presented to the author; an account by a professor of English at Dalhousie University of a visit to 'Castle Dracula' in Transylvania - The Vampire's Bedside Companion contains these and a wealth of other hitherto unpublished material on a subject that is of enduring interest: The Vampire Legend. To many people, vampires are creatures only of legend and fantasy with no reality outside the pages of books. Others, who have studied the folklore of many countries and the continuing reports of vampirism, maintain that there is extensive evidence not only that vampires once existed but that, in fact, they still do exist. In this fascinating book the author, himself an acknowledged expert on the Occult, presents true accounts of vampire infestation in England, America, Ireland, Hungary, China and France. Records of vampires and vampirism are, he claims, as old as the world and as recent as yesterday. Four new, existing and authentic vampire fictional stories by Peter Allan, Crispin Derby, Richard Howard and James Turner complete this compelling companion for dark nights, solitude and howling winds! Illustrated with my striking photographs, The Vampire's Bedside Companion also contains original and evocative drawings by Geoffrey Bourne-Taylor. It is a must for all students of the occult and every reader of the macabre.

The Book of Vampires

Compiled from a wealth of references and records, the book presents a fascinating mix of science and the supernatural. Readers will discover that tales of vampires were whispered not only in the quiet villages of Central Europe but also in Russia, the Middle East, India, the British Isles, and even America.

Vampires Today

This book, about real vampires and the communities they have formed, explores the modern world of vampirism in all its amazing variety. Long before Dracula, people were fascinated by vampires. The interest has continued in more recent times with Anne Rice's Lestat novels, Buffy the Vampire Slayer, the HBO series True Blood, and the immensely popular Twilight. But vampires are not just the stuff of folklore and fiction. Based upon extensive interviews with members of the Atlanta Vampire Alliance and others within vampire communities throughout the United States, this fascinating book looks at the details of real vampire life and the many expressions of vampirism as it now exists. In Vampires Today: The Truth about Modern Vampirism, Joseph Laycock argues that today's vampires are best understood as an identity group, and that vampirism has caused a profound change in how individuals choose to define themselves. As vampires come "out of the coffin," as followers of a "religion" or "lifestyle" or as people biologically distinct from other humans, their confrontation with mainstream society will raise questions, as it does here, about how we define "normal" and what it means to be human.

Vampires and Vampirism

"Vampires and Vampirism" is one of the more interesting works on the subject penned less than two decades after the release of Bram Stoker's "Dracula." More than a treatment of Romanian and similar lore, it speaks of some Asian demons and spirits as well as lore from Russia and other locales. Covering some then-contemporary poetry and literature on the subject as well as treating on ancient cultures and their own inclusion of blood drinking or disembodied ghouls, Wright's work is of great value to the cryptozoologist, occultist, and history buff alike.

Vampires and Vampirism

"These seventeen mesmerizing tales, each one creepier than the next, will delight vampire and other horror fans." —Library Journal For those who enjoy stories that frighten and tales that create disquieting chills, this anthology presents stories of vampires and other deadly, twisted creatures that may look as ordinary as anyone. These others, as portrayed in these disturbing, eerie tales by some of the finest horror writers in the field today, may not sink fangs into necks, but in a variety of different ways can just as effectively drain one's essence, suck out one's life, steal one's soul. With tales by award-winners Laird Barron, Elizabeth Bear, Kathe Koja, Margaret Lanagan, Bill Pronzini, Barbara Roden, Lisa Tuttle, Kaaron Warren, and others, *Blood and Other Cravings* will slake the thirst for great horror fiction in any reader.

Blood and Other Cravings

Riveting study of vampirism in Europe — from vampires in Greek and Roman lore to their presence in Saxon England, Hungary, Czechoslovakia, Russia, Romania, Bulgaria, and even modern Greece.

The Vampire in Lore and Legend

Dudley Wright's fascinating work offers an academic treatment of the history of vampires. He traces the legend of vampires through history and around the world, making stops at Hungary, Britain, Russia, and various parts of what was then referred to as the Orient. He offers a collection of stories from these regions as well, so readers can draw their own conclusions. Dudley Wright (1868-1950) is also an interesting character of note. He was born in England, and traveled throughout the world studying religions and other belief systems. He was a professional journalist and wrote for a variety of publications. He became the Assistant Editor of the *Freemason* and Masonic Editor of the *Times of London*, and other Masonic works. He spent a lot of his research on looking for a common thread to all religions, and wrote for numerous religious journals, such as *Spiritual Power*, the *Homiletic Review*, and the *Bible Review*. He flirted with various religious, including Buddhism and Catholicism, but he converted to Islam and ultimately returned to the Ahmadiyya movement.

Vampires and Vampirism

Montague Summers (1880-1948) did a fantastic job researching the folklore and beliefs about vampires in many civilizations reading many books in different languages, including Greek, Latin, German, Italian (dialects), French, and English, to create one of the best works about vampires ever written and published. The author, a member of the Roman Catholic clergy, wrote numerous books about witches, vampires, werewolves, and other related subjects too. *The Vampire, his Kith and Kin: The History of Vampirism* is definitively a great book.

The Vampire, His Kith and Kin: - The History of Vampirism

The figure of the vampire has existed within the history of many cultures for thousands of years. While the true nature of the vampire is shrouded in mystery, its image is also prey to the often inconsistent or inaccurate stereotypes found in literature and film. This text presents a collection of writings that attempt to define the main characteristics of the vampire and to explore whether or not vampires truly exist among us.

Vampires

Vampires are the most fearsome and fascinating of all creatures of folklore. For the first time, detailed accounts of the vampire and how its tradition developed in different cultures are gathered in one volume by eminent folklorist Alan Dundes. Eleven leading scholars from the fields of Slavic studies, history, anthropology, and psychiatry unearth the true nature of the vampire from its birth in graveyard lore to the modern-day psychiatric patient with a penchant for drinking blood. *The Vampire: A Casebook*

takes this legend out of the realm of literature and film and back to its dark beginnings in folk traditions. The essays examine the history of the word “vampire;” Romanian vampires; Greek vampires; Serbian vampires; the physical attributes of vampires; the killing of vampires; and the possible psychoanalytic underpinnings of vampires. Much more than simply a scary creature of the human imagination, the vampire has been and continues to haunt the lives of all those who encounter it—in reality or in fiction.

The Vampire

Why have vampires become such a feature of modern culture? Can vampire-like conditions be explained by medical research? Is there a connection between vampirism and Freud? *The Psychology of Vampires* presents a captivating look at the origins of vampires in myth and history, and the psychological theories which try to explain why they fascinate us. It traces the development of vampires from the first ever vampire tale, written by John Polidori in 1819, to their modern cultural legacy. Together with historical detail about Polidori's eventful life, the book also examines the characteristics of vampires, and explores how and why people might identify as vampires today. From sanguinarians who drink blood, to psychic vampires who suck the energy from those around them, *The Psychology of Vampires* explores the absorbing connections between vampirism and psychology, theology, medicine and culture.

The Psychology of Vampires

This book explores the modern world of vampirism. Based on interviews, it looks at the many expressions of vampirism, from lifestyle vampires, who adopt the culture and admire the gothic image, to 'real' vampires who believe they are a separate race and need to consume blood and psychic energy in order to survive.

Vampires Today

“The Vampire - His Kith and Kin” is a 1928 work by English clergyman and author Montague Summers. Within it, Summers discusses the vampire phenomena from a Catholic point of view, offering an a veritably academic study of the subject. Contents include: “The Origins of the Vampire”, “The Generation of the Vampire”, “The Traits and Practice of Vampirism”, “The Vampire in Assyria, the East, and Some Ancient Countries”, and “The Vampire in Literature”. Augustus Montague Summers (1880 – 1948) was an English clergyman and author most famous for his studies on vampires, witches and werewolves—all of which he believed to be very much real. He also wrote the first English translation of the infamous 15th-century witch hunter's manual, the “*Malleus Maleficarum*”, in 1928. Other notable works by this author include: “*A Popular History of Witchcraft*” (1937), “*Witchcraft and Black Magic*” (1946), and “*The Physical Phenomena of Mysticism*” (1947).

The Vampire

For the last three hundred years, fictions of the vampire have fed off anxieties about cultural continuity. Though commonly represented as a parasitic aggressor from without, the vampire is in fact a native of Europe, and its “metamorphoses,” to quote Baudelaire, a distorted image of social transformation. Because the vampire grows strong whenever and wherever traditions weaken, its representations have multiplied with every political, economic, and technological revolution from the eighteenth century on. Today, in the age of globalization, vampire fictions are more virulent than ever, and the monster enjoys hunting grounds as vast as the international market. *Metamorphoses of the Vampire* explains why representations of vampirism began in the eighteenth century, flourished in the nineteenth, and came to eclipse nearly all other forms of monstrosity in the early twentieth century. Many of the works by French and German authors discussed here have never been presented to students and scholars in the English-speaking world. While there are many excellent studies that examine Victorian vampires, the undead in cinema, contemporary vampire fictions, and the vampire in folklore, until now no work has attempted to account for the unifying logic that underlies the vampire's many and often apparently contradictory forms. Erik Butler holds a PhD from Yale University and has taught at Emory University and Swarthmore College. His publications include *The Bellum Gramaticale* and *The Rise of European Literature* (2010) and a translation with commentary of *Regrowth* (Vidervuks) by the Soviet Jewish author Der Nister (2011).

Metamorphoses of the Vampire in Literature and Film

Possibly the most comprehensive book ever published on one of the world's oldest, and most terrifying, legends. The vampire is one of the most potent and enduring symbols of the supernatural, as deathless as Bram Stoker's perennially popular creation Count Dracula. As this entertaining and encyclopaedic work reveals, vampires were around for centuries before Count Dracula appeared. Legends about vampires are found in folklore throughout the world, dating back to ancient times and over the years they have never lost their power to inspire fear. Combining erudition with readability Leonard Ashley presents vampire lore from around the world, gathering together many unexpected facts about the dead and 'undead', about hangings and summonsings, and reports of manifestations that cannot be lightly dismissed. Whether you are incredulous, sceptical or simply curious you will find this darkly enjoyable survey irresistible. Its listings of films and books make it a valuable resource for fans while its wealth of rare illustrations are fascinating.

Complete Book of Vampires

"An excellent collection" of vampire stories, from authors such as Harlan Ellison, Dan Simmons, Gahan Wilson, Tanith Lee, and Fritz Leiber (Publishers Weekly). Renowned editor Ellen Datlow has gathered seventeen variations on vampirism ranging from classically Gothic to postmodern satire, from horrific to erotic. These stories reflect the evolution of vampire literature from Bram Stoker to Anne Rice and beyond, resulting in a deeper exploration of their inner lives. Expanding the concept of vampirism to include the draining of a person's will or life force, Datlow's collection transcends the traditional "black capes and teeth marks on the neck" to reinvent an eternally fascinating subgenre of horror. In Harlan Ellison's "Try a Dull Knife," an empath stumbles bleeding into a nightclub, on the run from emotional vampires. A Broadway actress steals the emotions of her fellow performers in ". . . To Feel Another's Woe" by Chet Williamson. And in "The Sea Was Wet as Wet Could Be," Gahan Wilson offers his own surreal twist on Lewis Carroll's "The Walrus and the Carpenter," as two strangers on a beach lure intoxicated picnickers to a different kind of picnic . . . Blood Is Not Enough includes contributions by Dan Simmons, Gahan Wilson, Garry Kilworth, Harlan Ellison, Scott Baker, Leonid Andreyev, Harvey Jacobs, S. N. Dyer, Edward Bryant, Fritz Leiber, Tanith Lee, Susan Casper, Steve Rasnic Tem, Gardner Dozois and Jack Dann, Chet Williamson, Joe Haldeman, and Pat Cadigan.

Blood Is Not Enough

The first book to explore the origins of the vampire slayer "A fascinating comparison of the original vampire myths to their later literary transformations." —Adam Morton, author of *On Evil* "From the Balkan Mountains to Beverly Hills, Bruce has mapped the vampire's migration. There's no better guide for the trek." —Jan L. Perkowski, Professor, Slavic Department, University of Virginia, and author of *Vampires of the Slavs* and *The Darkling: A Treatise on Slavic Vampirism* "The vampire slayer is our protector, our hero, our Buffy. But how much do we really know about him—or her? Very little, it turns out, and Bruce McClelland shows us why: because the vampire slayer is an unsettling figure, almost as disturbing as the evil she is set to destroy. Prepare to be frightened . . . and enlightened." —Corey Robin, author of *Fear: The History of a Political Idea* "What is unique about this book is that it is the first of its kind to focus on the vampire hunter, rather than the vampire. As such, it makes a significant contribution to the field. This book will appeal to scholars and researchers of folklore, as well as anyone interested in the literature and popular culture of the vampire." —Elizabeth Miller, author of *Dracula* and *A Dracula Handbook* "Shades of Van Helsing! Vampiologist extraordinaire Bruce McClelland has managed that rarest of feats: developing a radically new and thoroughly enlightening perspective on a topic of eternal fascination. Ranging from the icons of popular culture to previously overlooked details of Balkan and Slavic history and folk practice, he has rethought the borders of life and death, good and evil, saint and sinner, vampires and their slayers. Excellent scholarship, and a story that never flags." —Bruce Lincoln, Caroline E. Haskell Professor of History of Religions, University of Chicago, and author of *Theorizing Myth: Narrative, Ideology, and Scholarship*, *Authority: Construction and Corrosion*, and *Death, War, and Sacrifice: Studies in Ideology and Practice*

Slayers and Their Vampires

J's Regret

Seminar paper from the year 2013 in the subject English Language and Literature Studies - Literature, grade: 1,7, Free University of Berlin (Institut für Englische Philologie), course: Cultural Studies: Life after Death, language: English, abstract: Vampires – Ever since, they exist in human belief. During the ages the image of the vampire underwent a massive change. Simply regarding the different genres in which the cinematic vampire appears it becomes clear that those changes are primarily based on the changes in society. The following is aimed at describing these changes and exploring their causes by analyzing the vampire's characteristics in its relation to the respective cultural background. First, the origin of the vampire myth will be discussed. Furthermore the most popular literary character originating from the Gothic horror genre, Count Dracula by Bram Stoker, will be examined to point out the changes of the vampire image as well as the cultural message behind the figure Dracula. The paper will take an additional look at the development of the concept of the vampire and the underlying cultural trends by analyzing the early cinematic vampires Count Orlok from *Nosferatu* and Dracula by Tod Browning. Finally, the work will create a reference to the present image of the vampire by analyzing Edward Cullen, the protagonist in Stephenie Meyer's *Twilight*. The result of the analysis is intended to reflect the changeableness of the vampire concept as well as show to what extent the vampire can be used as a medium to represent the respective societal needs, trends and changes.

Vampirism. An Evolution from Myth to Societal Hype

Against the social and economic upheavals that characterized the nineteenth century, the border-bending *Nosferatu* embodied the period's fears as well as its forbidden desires. This volume looks at both the range among and legacy of vampires in the nineteenth century, including race, culture, social upheaval, gender and sexuality, new knowledge and technology. The figure increased in popularity throughout the century and reached its climax in *Dracula* (1897), the most famous story of bloodsuckers. This book includes chapters on Bram Stoker's iconic novel, as well as touchstone texts like John William Polidori's *The Vampyre* (1819) and Sheridan Le Fanu's *Carmilla* (1872), but it also focuses on the many "Other" vampire stories of the period. Topics discussed include: the long-war veteran and aristocratic vampire in Varney; the vampire as addict in fiction by George MacDonald; time discipline in Eric Stenbock's *Studies of Death*; fragile female vampires in works by Eliza Lynn Linton; the gender and sexual contract in Mary Elizabeth Braddon's "Good Lady Ducayne;" cultural appropriation in Richard Burton's *Vikram and the Vampire*; as well as Caribbean vampires and the racialized Other in Florence Marryat's *The Blood of the Vampire*. While drawing attention to oft-overlooked stories, this study ultimately highlights the vampire as a cultural shape-shifter whose role as "Other" tells us much about Victorian culture and readers' fears or desires.

Vampires

To the vampire, there is neither heaven nor hell. He is a primeval paradox walking between the worlds - the living dead. Once a man, now an anti-god. His anti-life is marked by violence, and a thirst for blood, passion and terror. He is the horror that hides in the shadows, breaking and destroying all the rules, receding to the deepest atavism. An inhabitant of limbo, glorious limbo, this is the vampire. The vampire's geographic occurrences embodies everything, from the Balkans to Egypt, to the furthest Amazon rainforests and of course, out to the distant galaxies. Civilizations as diverse as the Sumerians, the Babylonians, the Hebrews, the Hindus, Mayans and Aztecs all lived with the phenomenon of vampirism. This book is regarding: -Origins of the vampire and occurrences throughout the world -What makes someone become a vampire, how to destroy him and defend yourself -Some cases of vampirism -Astral travel, etheric double and subtle bodies -Witchcraft and vampirism-Mummies, Egypt and post-mortem feeding -Lycanthropy -Qabalah and vampirism -Christianity, Satanism and vampirism -Vampiric rituals -Vampire and Sex -Chupacabras. Vampires

THE VAMPIRE, His Kith and Kin examined the reasons for the old belief in Vampirism, its growth and dissemination in many lands, and its crystallization into a permanent and determinate legend. This new volume, *The Vampire in Europe*, uniform with the other, deals with the subject from a historical point of view and presents the evidence which gave rise to the theories. This evidence, drawn from little-known authors, musty chronicles, and the obscurer occultists, is in many cases derived from official sources, civil and ecclesiastical. The first chapter treats of Vampirism in ancient Greece and Rome. Accounts of the extraordinary outbreaks of Vampirism in England during the twelfth and thirteenth centuries have been gathered from Geoffrey of Monmouth and William of Newburgh. Particular attention is paid to the alleged irritation which gave rise to so much literature in the early eighteenth century, while the curious situation in modern Greece is fully discussed. Included in this critical edition are the authoritative text, rare contextual and source materials, illustrations, criticism, contemporary reviews, and Greek and Latin translations. A biographical note is also included.

The Vampire in Europe

"There's no book available on the vampire culture today with the range, depth, and diversity of Belanger's *Vampires in Their Own Words*."—Katherine Ramsland, author of *Piercing the Darkness* and *The Science of Vampires* "Belanger gives empathetic access to an emergent new magical-religious community...An important sourcebook for both the scholar and inquiring public."—J. Gordon Melton, Director, Institute for the Study of American Religion, and author of *The Vampire Book: The Encyclopedia of the Undead* *The Code of Silence Has Been Broken* For this anthology, vampire Michelle Belanger convinced nearly two dozen real-life vampires to break the code of silence that has kept their fascinating subculture shrouded in secrecy. Sometimes provocative, sometimes surprisingly down-to-earth, these candid firsthand accounts come from both psi vampires who feed on energy and sanguine vampires who drink actual blood. Their true stories shed light on a variety of topics, including awakening to vampirism, the compulsion to feed and feeding practices, donor ethics and etiquette, and vampire traditions and codes of behavior.

Vampires in Their Own Words

Do vampires exist among us? Of course. For centuries, an underground society of vampires has thrived in darkness, hidden from the public gaze and forever shrouded in secrecy--until now. Plunge deep into the heart of vampirism as renowned vampire expert Arlene Russo dispels centuries-old myths and unearths shocking revelations, from the startling discovery that Prince Charles is a direct descendant of Vlad the Impaler to the fascinating evidence that Robin Hood was a vampire. Be entranced by dozens of true accounts, real-life stories, and candid interviews with actual vampires who reveal their strange rituals and intriguing practices. Sink your teeth into the truth as you learn how modern-day vampires feed on blood and psychic energy, how they awaken to their true nature, where they live, and a horde of other chilling facts that will leave you beguiled and begging for more. "We vampires are here. And we have been watching you humans for quite some time . . ."

Vampire Nation

Seminar paper from the year 2002 in the subject English Language and Literature Studies - Literature, grade: 2 (B), University of Frankfurt (Main) (Institute for England and American Studies), 6 entries in the bibliography, language: English, abstract: Thinking about the success of the scaring black-and-white movies with the famous vampire 'Dracula' in the 1950's, the popularity of 'The Small Vampire' Rüdiger in the 1980's or the effect of modern versions like 'Interview with the Vampire' or 'Buffy – the Vampire Slayer' nowadays, it appears that people never get enough from mystic, sometimes a little bit horrified stories about vampires, wolves and werewolves, dark castles, everlasting life & beauty and more things, which could neither be explained nor proved in reality. The British prose author and feminist philosopher of English literature Angela Carter (*1940 – 1992) knew the great fascination of folkloric material like fairy tales and superstitious legends well; and she made it to one of her favourite subjects of her literary work. With numerous, renewed fairy tales, novels, short stories, plays and verses she satisfied peoples' desire for gothic and surrealistic stories diverting them from every-day-life. Due to the fact that the British Broadcasting Corporation's radio plays had flourished in Britain after the Second World War and a lot of people enjoyed listening to them, Angela Carter paid attention to this sub-genre of drama and wrote several radio plays, too. Her first radio play Vampirella - broadcasted on 20th July 1976 in Radio 3 - was born as such. Even a quick listening (or rather reading) of the radio play reveals, that the serio-comedy Vampirella offers a lot of interesting aspects which cannot be seen immediately, but should be recognised by all means. This interpretation focuses on its peculiarities, which originate from the problematic theme of Vampirism on the one hand and the composite art of the young medium radio on the other hand. Moreover, it is a text-centred interpretation that analyses the text and not the author's intention or the individual impression. Beginning with the obvious, the formal interpretation of structural features as time, place, action and characters and the radiophonic elements, the analysis will shift to the central themes and conflicts of the radio play. Above all the topic of Vampirism as a (Timeless) Image will appear again and again. Having been provided with various quotations from Vampirella it should be possible to get a sense of Angela Carter's unmistakable style and to imagine the female-interpreted story in mind, although the real radio listening experience is missing.

Vampirism as a (Timeless) Image : Interpretation of Angela Carter's Radio Play Vampirella

'Legends of Blood' looks at the myths and beliefs of ancient Greece and Egypt; the medieval witch craze and its links with vampirism and lycanthropy; the association between vampirism and alchemy; eastern European vampirism; Gothic literature; the modern vampire in literature and film; the popular image of the vampire and the survival of the myth.

The House of the Vampire

Essay from the year 2014 in the subject English Language and Literature Studies - Literature, , language: English, abstract: Vampires. We are all familiar with this word, but do we really know what it means? Fangs, immortality, darkness? They are something greater than these. There is a reason why we, humans are drawn to them for more than a century now. Nowadays glimmering handsome teen-vampires are becoming more famous with every movie and book released. Well, to maintain the popularity of them, it is necessary to modernize the vampires so they will keep in good with the subsequent generations. Since the release of Twilight , vampires started to become more human-like, considering their feelings. Their abilities remained supernatural, but they lost their demonic features, which they used to have in the 18th – 19th century. With immortality and their transformation into caring creatures comes the conception of eternal love, so it is not surprising that the main target group in the 21st century became teenage girls and young women. They seem to be satisfied with these renewed demons and their romantic stories. However, it was not the reason why people started to love these creatures. Now, I am going to explain where vampires come from and what they used to be like in the first literary works where they were mentioned.

The Science of Vampires

She wants security. He wants freedom. Together their love could destroy the world. Ten years after the outbreak of the V2000 virus turns the majority of humans into a mutated Vampire sub-species, the last remaining true humans are the world's hottest commodity. In this new world, it's The Society that rules. Being the only female Vampire Lord in America isn't easy. Being thrust into the role of CEO is even harder. Danika Chekov refuses to let her father's legacy die. She's resolved to keep everything under her tight control. But after she's almost killed, she's forced to purchase a human guardian. Mason is human, or so the Vampires think. He's determined to protect his secret, but Lord Danika buys him before he can make his escape. Their passion for each other threatens everything they want most. And when Mason's true nature is exposed, the results could be devastating. 90,150 Words

The Path of Vampires. From Legends to Literature

"Comprehensive bibliography (1000+ items) is preceded by three critical essays, two by the editor and one by Devendra P. Varma, a scholar of Dracula and vampirism. A timely release considering the upsurge of interest in this field, and well done." --Goodreads.

Los Anunnaki de Nibiru

Muchos hallazgos históricos y bíblicos no incluidos en la Biblia canónica, ahora han salido a la luz. El acceso a los textos como la Perdido Libro de Enoch, los de Nag Hamadi Evangelios y el Libro de los Jubileos, entre otros es ahora ampliamente disponible y, cuando se sintetiza y se correlacionó con los documentos existentes, como la Biblia y Qu 'corrían, méritos repensar los orígenes y la intención de la civilización occidental. Prepárese para un viaje profundo creencia desafiante a través de la antigua Persia, Sumeria, Grecia, y la Atlántida; de Roma a los Estados Unidos, la sede de la Nueva Atlántida. Este libro no es como cualquier otro en el campo: esperar que la perspectiva aérea volando-guerrero de un piloto de helicóptero de ataque del Ejército, el filtro de BS de un ingeniero eléctrico, una medicina desafiante Estructural Integrador occidental, y el jugador didgeridoo todo el sur de California al mismo tiempo. Energía y materia, arrastre el sonido, los métodos de diseño de control esclavo utilizando el espectro electromagnético, la vida eterna, la gravedad, y el DMT se abordan en el presente documento. dejadas haber creado a la humanidad, que se describe en un lenguaje altamente sofisticado. Fue en Sudáfrica, donde se dio lugar a la idea de crear un trabajador primitivo, es decir, la humanidad, para operar las minas de oro, la construcción de templos proporcionar mano de obra, y por lo general sirven todos los caprichos de los Antiguos Astronautas de Nibiru concibieron. Muchos de los Niburians, referenciados en el Génesis bíblico como los Elohim, conocido por los sumerios como los Anunnaki, fueron entronizados como dioses en Mesopotamia. Quizás es apropiado para los occidentales para estudiar los orígenes históricos y religiosos de los reyes y semidioses de Sumer, la primera cultura para proporcionar evidencia de la lengua de la escritura cuneiforme, con ningún antecedente. No sólo eran los registros mundanas, que se detallan como estaban, mantienen en tablillas de arcilla, decenas de miles de los cuales sobreviven hasta nuestros días, pero la historia y experiencia directa las cuentas de algunos de los habitantes famosos, como el rey Gilgamesh de Uruk, nos introducen en "Los que desde el Cielo a la Tierra vinieron". Los astronautas Anunnaki provenían de un planeta, Nibiru, en nuestro propio sistema solar, cuyo apogeo reside en una órbita elíptica retrógrada 3600 más allá de Plutón. Según sus registros, probablemente utilizando espectroscopia como hacen los científicos de hoy, localizaron el oro en el planeta Tierra. Debido a una atmósfera no en Nibiru, Anu su rey, envió a su científico preeminente y su hijo primogénito, Enki, en una misión espacial a la Tierra para recuperar el oro suficiente que pueda ser ionizado en una capa de la atmósfera, como un escudo contra la radiación solar minas de oro Anunnaki en Africa se han encontrado y fechado de carbono. Las operaciones mineras se estaban produciendo en el momento exacto y la ubicación que el "Eve Estudio Genetico" indica: orígenes genéticos de Womankind están innegablemente vinculados a la operación de extracción de oro de Enki. Usando el accountm sumeria muchas de las minas, casas y templos utilizados por los trabajadores primitivos y dioses, nuestros verdaderos antepasados se han encontrado en Africa. Anunnaki Homeworld

The Anunnaki is a legendary race that appears in the oldest documents preserved by mankind. They are said to inhabit an outermost planet that orbits our sun in an extremely elliptical orbit. Each time this planet gets near to the earth it creates planetary cataclysms. Many researchers claim it will be returning soon. The work of Zecharia Sitchin, author of the Earth Chronicles series of books, focuses on the Anunnaki and their previous visits. Many have asked Sitchin, "When will this planet return?" He never gave an exact date, but said it was more than halfway back. Jason Breshears gives an exact year, and does so confidently, due to his extensive research. He delves not only into historical records, as Sitchin had done, but also uses scientific cycles and mathematical formulas that relate to our concepts of planetary time and orbits. The historical records, chronologically presented by Breshears, help in identifying cyclical patterns. He also employs advanced geometry, interprets complex crop circle patterns, and uses biblical prophecy in support of some of the astronomical events he has predicted. He does not cover much on the mythical aspects of the Anunnaki gods themselves, but focuses more on the actual sciences that can predict their return. Ancient stories and carefully documented proof are two different things. For these reasons, this book is highly recommended.

Shadows of the Anunnaki: Origins on Nibiru

Shadows of the Anunnaki, inspired by the writings of Zechariah Sitchin, concerns the ancient astronauts, the Anunnaki or gods of old, from the planet Nibiru. The novel brings to light another group of beings the gods brought with them. To Earthlings the Alad Udu Lama were shadowy beings who accompanied the Anunnaki and dispensed good fortune. But who were they really? Why were they created? And what was their secret mission here on Earth? In this first book of the Shadows trilogy, these beings step out of the mists of time into a historical fantasy filled with political intrigue, adventure and romance.

Anunnaki Gods No More

Humankind has been attempting to answer complex questions for thousands of years. Is there a God? Where do we come from? Is there life somewhere else? Are we alone? Who created us? Is there an afterlife? Is there hell? In the early 1800s, over thirty thousand tablets were found in the ancient biblical city of Nineveh that included the Assyrian palace reliefs, the library of Ashurbanipal, and the Enuma Elish (also known as the Seven Tablets of Creation) that tell the story of the formation of the world and humanity and of the Anunnaki, gods who arrived from the heavens to create the human race. In a comprehensive study, Sonny Ramirez reveals translations of the findings as well as new discoveries in a passionate search for the truth about the origins of humankind as he attempts to piece together the Anunnaki connection and ultimately discover whether the gods of Earth, men, and Nibiru are still with us today. Anunnaki Gods of Earth and Nibiru share and analyze ancient texts that will encourage others to open their minds, imagine the unimaginable, and dream of the possibilities that an endless universe can hold.

Anunnaki to AI: The Hidden History of Mankind

What do all books about the Anunnakis have in common? The answer doesn't really matter because in this book Shafak GokTurk brings a different perspective on the subject, one that will take you to another dimension of reality in our world. Ever wonder how humankind was able to make such tremendous progress over the last 2,000 years? Why is leadership of the world shifting from East to West in politics, economics, and technology? GokTurk makes significant claims that will answer some of these questions and may radically change your viewpoint on the world. Unlike some authors who claim the Anunnakis left our world, GokTurk historically and methodically proves that they remain and have had a significant impact on our lives. The two main groups of Anunnaki—Enlil and Enki—are still active and have always been. A shift of power from one to the other that will reshape our world in the near future is imminent. Will this shift of power bring peace and prosperity, or are we destined to take a turn for the worse? Reading this book will enlighten you about various topics: who Admiral Byrd had a conversation with; Who is Shem to the great Rumi? What are the messages that these people were trying to give us? Do Anunnakis take humans into their society by allowing them to live forever? Purchase the book now to see the world order from a new perspective, as we come closer to meeting our true ancestors in 2060 (?).

Anunnaki

Anunnaki: False Gods extends Zecharia Sitchin's translations from clay tablets that underlie the Bible. Ten thousand years ago, scribes in ancient Sumer (Iraq) wrote on these tablets what they said the Anunnaki gods (tall people from the sky) dictated. Sitchin asked Dr. Lessin to keep public attention on his legacy by creating an educational program. The Anunnaki are Homo sapiens like us but who live hundreds of thousands of years. They said they rocketed to Iraq 450,000 years ago from a planet called Nibiru to harvest gold to send back (via Mars) to Nibiru to powder into an atmospheric shield. They mined abundant gold in Africa until, 300,000 years ago, their miners mutinied. To replace the mutineers, Anunnaki geneticists created short-lived slaves, called Adamites, adapted from their own genome but modified with a bit of clay, copper and genes from an intelligent hominoid, Homo erectus (Bigfoot's ancestor) already living in Africa. Two hundred thousand years ago, Enki, their Chief Scientist, begat a line of Earthlings called Adapites with two Adamite girls. Fifty thousand years ago Enki and an Adamite beauty begat Noah, who carried Enki's longevity genes and ruled the Iraqi city of Sharuppak. Enki saved Noah and many of his subjects from the Deluge of 13,000 years ago. The Anunnaki had Noah's people and other flood survivors proliferate and build cities in the Middle East and Egypt with up to 50,000 inhabitants. The Anunnaki ruled the new civilizations as gods with descendants of Noah's sons as intermediaries. The Anunnaki gave us the best and the worst of planet-wide civilization--kings, historians, taxes, temples, priests, bicameral congresses, record-keeping, law codes, library catalogs, furnaces, kilns, wheeled vehicles, paved roads, medicines, cosmogony, cosmology, festivals, beer, food recipes, art, music, music instruments, music notes, dance, textiles, and multicolored apparel. Sumerian schools taught mathematics, architecture, theology, writing, grammar, botany, zoology, geography. They displayed but did not pass on a world-wide energy grid, air, submarine and interplanetary transport vehicles and advanced computers. They also gave us hierarchy, misogyny, violence, greed, slavery, debt and war that featured genocide and weapons of mass destruction. In 2024 BCE Anunnaki ruined their eastern Mediterranean cities with nuclear blasts and fallout storms. Most of the Anunnaki returned to Nibiru by 311 BCE. But some stayed. They and their descendants (the power elite) rule us to this day. They and their spawn created and perpetuate exclusive, hostile nations and religions to keep us divided. They addicted us to credit institutions to keep us slaving. Their tales of their stay

on Earth before they made our ancestors, as well as what our forefathers directly saw, imprinted us with the values of their hierarchic, male-run, master-slave-enemy mentality. We assumed values of extraction, pollution, monetary monopoly and obsession with gold. Fortunately, the Lessins contend, the genetics team that created us also gave us the capacity and preserved the histories Sitchin and others translated so we can overcome the liabilities they left us.

Anunnaki Theory Authenticated with a New Twist

Giant Humans, the Anunnaki from the planet Nibiru, bred, blessed, cursed and challenged us. They came for gold to rocket back to Nibiru, powder, and float into their atmosphere to shield it from temperature extremes and radiation. We exist because they grafted Homo erectus genes into their genome. They gave us computers, rockets, submarines, free electricity, longevity treatment, and gene spicing. We imitated the technology we saw them use. They gave us literacy, physics, laws, math, cosmology, astronomy, biology, medicine, metallurgy, brick-making, music, instruments, architecture, geology, cities, schools, canals, ships, cartography, and contracts. They gave savants advanced knowledge to share with us now. But they trained us to compete and hurt rivals, made us slave in armies, homes, and jobs. They imprinted dominator-consciousness on us. The Anunnaki shortened our lives, imprinted us to obsess on status and greed, and inflicted royals, religions, racism, sexism, slavery, taxes, gold lust, debt, murder, war, propaganda, and ignorance on us. Nibiran King Anu ignored the treaty his predecessor signed that designated Marduk (Satan) A Nibiru's next ruler. Marduk ran Earth until a new Nibiran King (Nannar) sent agents to Earth to wrest it from him. They now promise peace, free energy, and quantum computing. They hype harmony, urge understanding, emphasize empathy, and advocate disclosure. They returned to Earth to dawn Prince Enki's (Aquarian) Age when we embrace individuality and unity free from the god-spell, nation-bane, materialist-compulsion, master-slave curse, god-devotee hypnosis, boss-worker hex, and lord-tenant model they imposed.

Anunnaki

For as long as we can remember there has been a serious astronomical uncertainty known as planet Nibiru or planet X or the planet of the Anunnaki. Fear of its arrival has caused many to move from their homes and places of employment and onto so-called 'safe areas.' Yet, Nibiru refuses to show up. 2000, 2012, 2016 all have been tagged as the year of the arrival of the Destroyer. For those that are desperately seeking Nibiru: Are we blessed? We think, yes. The kind of Nibiru you crave does not exist. The kind of Nibiru we bring, is our friend. For all others: If you have heard of Nibiru, this book is for you. If you haven't, more so. This is the book that finally unmask the Anunnaki gold thieves. This is the first book that explains why hatred rules on Earth. We bring the real lifespans of the people of the time of Adam to the time of Noah. Those 3-digit ages are wrong. This title will tell you a new story about Heaven, starting with the time when Earth was a moon in orbit around a super planet whose name you know, along with moon Heaven - yes, 'moon Heaven' - the little world that gave human theater to the stories written on the Sumerian tablets and in the Book of Genesis, including the origins of both the Anunnaki and Mankind. You need to prepare for the pages that describe how, by reading between the lines, this author discovered the startling possibility that we might be the progeny of a species of human hermaphrodites that inhabited moon Earth before the sun became a bright star. Anunnaki Evolution of the Gods

Complete description of the Anunnaki life on Nibiru "Ne.Ne.Ru" Ashtari. Is there any possibility that a mysterious planet inhabited by and/or fashioned by the Anunnaki, could traverse through our universe, unnoticed by scientists? Absolutely! Could this planet be Ashtari-Ne.Be.Ru? Yes! Is Ashtari-Ne.Be.Ru the legendary Nibiru? Yes, but not as it has been portrayed and depicted by other best-selling authors! Is Nibiru, all of the following: Ne.Be.Ru, Jupiter, Mercury, Marduk, Ashtari, a stargate, a Ba'ab, a space-time station, a crossing station in space, the planet of the Anu.Na.Ki? Yes, and much more! Did the Akkadian/Sumerian Epic of Creation (Enuma Elish) mention Nibiru "Ne.Be.Ru"? Yes. Was Nibiru "Ne.Be.Ru" mentioned as a planet or a star? It was mentioned as a celestial body, as well as a deity, a point or a station in the space used to cross or traverse the universe. This book explores all the possibility and much more.

The Colors of Armageddon

THIS BOOK WILL TRASH THE MATRIX THAT SPOILS THE PLANETET Homo Sapien giants from the planet Nibiru created short-lived slave--that's us--from their genome to work goldmines. We called them "Anunnaki--Gods-From-The-Sky. They taught us violence, greed, slavery, debt. Their Chief Scientist begat Noah with an Earthling. Since the Deluge, Anunnaki have ruled through Noah's descendants. Most Anunnaki returned to Nibiru after they nuked Canaan and Sinai and accidentally radiated Iraq. Some Anunnaki stayed to run Earth. They and their power elite still control us, playing us off against each other with wars, nations, empires, religions and debt. Anunnaki, Legend of the Gods, helps us perceive the perverse perspective they perpetrated will not prevail. Peruse this volume, see the matrix they made. Nullify the Anunnaki Legacy and we can create a civilized world that honors everyone's consciousness.

The Whole Truth about Nibiru Ne. Be. Ru-Ashtari

A new sky message has arrived. The message is from the Lord of Water, God of Earth, Skygod. Hesper Sky Hector is the recipient. This is the complete message: Manunnaki is to explore the evidence that the gods of mythology are responsible for today's social injustice and racial profiling. Hesh is to see past the skin color. Hesh is to understand how the gods expect humanity to exterminate itself with nuclear weapons. Hesh various creation ideologies are to evolve into one religion. Hesh eyes are to focus on the sky. Hesh is to find the clouds and evolve within them. Manunnaki is to develop Free Rise. Only when the Skygod rules become one law, may waterworld Earth find relief. Only then will Manunnaki find peace among the stars. The root of all Manunnaki evil is the coin. Lose the coin. Become servants, not masters. Mastery is design for your species to control other species, not to be applied within. 'Planet Heaven' initiated The Chronicles of Moon Earth. The idea is to disclose 35-year-old research leading to the possibility that in the remote past Earth was a moon revolving around planet Nibiru, a member of a different solar system. There was a second moon around this planet, called Heaven. Both 'Heaven and Earth' are the main pieces of the story of Genesis. This is a revelation! The main sources of Hesper Sky's study have been the Sumerian tablets, the Scriptures, and the Babylonian writer Berossus. But there's more: with Climate Change and other surface perils, Earth is telling you, "I have to move on, you have to move up." Get it? The clouds are calling you. Floating air cities is that call. So, the Hesper Sky is introducing the Free Rise Reactor model. A concept that one day might help you live in the sky, improve transportation and electrical energy production. More yet: The Hesper Sky is unmasking the ancient astronaut gold thieves called 'the gods of mythology.' This is the first work that explains how the gods turned the color of your skin into the hatred that rules on Earth. The Hesper Sky brings the real lifespans of the people of the time of Adam to Noah. Those 3-digit age years have got to be wrong! Like Noah living for 950 modern-day Earth years. Don't you believe it, Rose! This book will tell you a new story about Heaven and Earth, starting with the time before the current sun became the star of turn. Prepare for the pages that describe how, by reading between the lines, Hesper Sky Hector discovered we might be the progeny of a species of human hermaphrodites that inhabited ancient moon Earth. Could they be the species the gods genetic/surgically mutilated to create Adam and Eve? These ancient surgeons were the alien 'gods' that flew in Earth's air space on incredible machines, perhaps powered by free rise reactors. No one has gone that deep into your past. No one! So, yeah, you might want to join Skygod and his servant, the Hesper Sky!

Anunnaki Legacy of the Gods

Dr. Lessin explains the Anunnaki's involvement in human history. The giant olden gods, folks with high tech & their heirs chain us to short, hard lives. The "gods"rocketed here from the planet Nibiru & bred with Homo Erectus to create us as short term slaves & soldiers. We praised them & killed in their names: Allah = the Sumerian Nannar, Yahweh = Enlil , Adanai = Enki. Read this book & transcend the "gods"religions.

Anunnaki

From the dark shadows of Neptune and Pluto, suddenly, an unknown planet emerges, which, after a cycle lasting thousands of years, has returned to our solar system and is visible from Earth as a small star. With her arrival, Nibiru, as the ancients in pre-historic times called her, brings a horror that will afflict the earthlings as, never before. Those, whom our ancestors considered gods, have returned to reclaim their legacy. No weapon can withstand this invasion, which is not of a material nature and will mercilessly strike the non-physical part of man - his soul! An American scholar, specialized in ancient languages, discovers an obscure inscription and image on a clay tablet from ancient Sumer, where mention is made of the return of the gods, who existed at the very beginning of humanity. This discovery opens his eyes to the indescribable terrifying truths, leading to an on madness bordering awareness that takes its toll and leads to his death. His son, aided by a wise Indian shaman, begins an almost impossible battle against unknown, sinister, threatening powers that attack humanity at its core. Thousands of humans are being evicted from their corporeal body. When these completely unknown entities approach the inhabitants of the White House and attack the president, one fears the worst. A possible salvation of mankind is hidden in mysterious images and petroglyphs on the Gateway of the Sun in Tiwanaku, Bolivia. A journey, full of strange and terrifying events, leads the two men to bewildering, unfathomable answers to questions far beyond their intellect. In Siloam Springs, a small town in the United States, a fierce battle takes place, in which a little boy with incredible psychic powers, hopefully, can turn the tide, provided that both men could wrest the truth from the darkness of oblivion: the unknown past of mankind.... Roué Hupsel enjoys a great reputation as a creator of radio shows in Suriname, South America. In 2002 he began writing short stories. Since then, he has won several literary prizes. In 2004 his debut thriller BLINDE MUREN (BLIND WALLS) was published, for which he received the prestigious SCHADUWPRIJS 2005 for the most exciting debut thriller in the Dutch language, by the Society of Dutch Crime Authors. The Colors of Armageddon

Este es el libro que usted y yo hemos estado esperando desde que escribí mi primer libro, Los Anunnaki de Nibiru, publicado el 4 de agosto de 2013. Los problemas y preguntas que esta investigación planteó con los lectores se estudiaron cuidadosamente para determinar dónde estaba el vínculo entre las revelaciones pasadas. Sobre la cuenta de génesis sudafricana de la humanidad y hoy. ¿Cómo se procede después de descubrir que los Anunnaki diseñaron al hombre moderno para suplantar a la fuerza laboral que trajeron a la Tierra desde Nibiru? Este conocimiento cambia todo lo que hemos sido obligados a creer como la verdad. Un tema comenzó a surgir dadas las lecciones obtenidas de los escritos sagrados accedidos. La naturaleza profunda del material provisto en este libro tomó tiempo para estudiar, comprender, procesar las lecciones y assimilarlas en un mensaje coherente que retoma donde lo dejó el lector en los Anunnaki de Nibiru. Los lectores formularon preguntas como "Si los Anunnaki crearon a la humanidad, ¿quién los creó?" La respuesta nos lleva de regreso a la FUENTE de nuestra realidad. ¿Estamos evolucionando física y conscientemente hacia un arquetipo utilizado en nuestro diseño biológico? ¿A dónde nos dirigimos como especie y en qué medida nuestros creadores genéticos están dando forma al resultado? ¿Los remanentes Anunnaki están intentando establecer un gobierno mundial único, revelando la naturaleza severa opresiva de alguna entidad maligna que anima a los Señores Oscuros? Parece que las fuerzas del mal se están abriendo camino con la población obrera primitiva a medida que reina la destrucción en los titulares. En mi búsqueda para encontrar el camino que conduce a la ascensión fuera de las condiciones del planeta prisión en la que nos encontramos, no se encontró ningún mapa. La verdad, como siempre ha sido para los participantes en el escenario de la vida, es una tierra sin caminos. Solo a través de una búsqueda profunda, examinando las lecciones a nivel espiritual, se puede acceder a la sabiduría buscada. La

guía profunda y oportuna, inscrita como códigos de leyes de construcción de personajes de los pilares gemelos de la legendaria ciudad de Atlantis de Enki-Poseidón, es la clave de nuestra ascensión. Ahora es el momento de explotar el techo de cristal de la opresión, aumentando la conciencia de nuestro estado obrero primitivo, sin darse cuenta de la intervención que convirtió a un bárbaro peludo de la tierra de Khem en un graduado de una escuela de misterio, abriendo el portal vigilado en la Tierra para regresar a la Fuente de toda la creación. Las Escuelas de Misterios a lo largo del Nilo, establecidas por el primer Al-Khemist, Thoth el Atlante, instruyeron a candidatos altamente calificados en la ciencia antigua de la creación continua. Algunos graduados conocidos incluyen Platón y Pitágoras. Thoth, también conocido como Ningishzida en los registros cuneiformes sumerios, tenía muchos nombres en culturas separadas por miles de años. También conocido como nombres (AKA) para él, causa una gran consternación en las religiones abrahámicas. Ningishzida, Thoth el Atlante, Thrice El Gran Hermes, Yehoshua (Jesús bíblico) y Melchizedek son solo algunos. Thoth fue uno de los inmortales que eligió participar para ayudar a la humanidad a salir de su prisión de percepción en cuarentena. La combinación de estudios genealógicos, teología bíblica, teoría de los antiguos astronautas, desarrollos geopolíticos y una profunda comprensión científica de las propiedades y la naturaleza de la luz condujo a un resultado inesperado, una revelación profunda destinada a mis seguidores. El mensaje y los criterios detallados sobre cómo participar en la ascensión del Gran Año se presentan al lector de una manera fácil de entender, dada la naturaleza compleja de nuestra realidad. La presentación me revigorizó para escribir este libro, simultáneamente al momento del gran sacri

The Anunnaki Countdown

Ancient Legends, myths, and religions from around the world have spoken of gods and angels, not always in the spiritual sense, but actual flesh and blood beings interacting with mankind. Many of these ancient cultures had vast knowledge of mathematics and astronomy, attributing their knowledge as being handed down from the gods. Who were these god-like beings, known to one of the oldest civilizations, the Sumerians, as the Anunnaki? This two-part graphic novel starts with an amazing discovery in the present day that takes us back hundreds of thousands of years. Follow the Anunnaki on their ancient astronaut journey From Nibiru to Earth and their interactions with humanity's genesis.

In The Beginning

MARDUK: ANUNNAKI KING OF EARTH By Sasha Alex Lessin, Ph.D. (Anthropology) & Janet Kira Lessin CEO, Aquarian Radio Marduk, Our secret Anunnaki ruler, says he'll make amends for suffering he caused. Anu, legal successor to planet Nibiru King Lahma, signed a treaty with King Alalu who slew Lahma. Anu quit as Lahma's successor and agreed to let his and Alalu's grandson Marduk succeed Alalu. Anu however reneged. He abrogated the treaty, deposed Alalu and denied Marduk Nibiru's Crown. Marduk rocketed to Earth where he joined his father Enki, Chief Scientist, Earth Goldmining Expedition (the Anunnaki). Marduk didn't rule Nibiru; he only, for awhile, ruled the Astronaut Corps (Igigi) on Mars. He wed a Hybrid (Sarpanit) whose ancestors his dad created. He built Babylon for both Anunnaki and Hybrids in Iraq. Marduk backed the Igigi after they abducted hybrid women following his wedding. He helped settle them on Earth. The Igigi and the lineages they bred with the slave-women, allied with him, settled in Jerico, Canaan and Egypt. In 3450 BCE Anunnaki Commander Enlil-Yahweh had his son Ninurta bomb Marduk's Babylon. In 2924 BCE Ninurta nuked the Expedition's Sinai Spaceport to deny it to Marduk. Marduk's brother Nergal bombed Sodom, Gomorra and the Salt Sea's south bank to kill Marduk's son Nabu. To Enlil's shock, a radioactive storm blew from the bombs he'd ordered dropped and also killed his Sumerian Earthlings. Enlil left Earth rule to Marduk.

This is the first work that explains how the gods turned the color of your skin into the hatred that rules on Earth. The Hesperus Sky brings the real lifespans of the people of the time of Adam to Noah. Those 3-digit age years have got to be wrong! Like Noah living for 950 modern-day Earth years. Don't you believe it, Rose! This book will tell you a new story about Heaven and Earth, starting with the time before the current sun became the star of turn. Prepare for the pages that describe how, by reading between the lines, Hesperus Sky Hector discovered we might be the progeny of a species of human hermaphrodites that inhabited ancient moon Earth. Could they be the species the gods genetic/surgically mutilated to create Adam and Eve? These ancient surgeons were the alien 'gods' that flew in Earth's air space on incredible machines, perhaps powered by free rise reactors. No one has gone that deep into your past. No one! So, yeah, you might want to join Skygod and his servant, the Hesperus Sky!

Marduk King of Earth

The theme was inspired by reality and perceived reality as well as the events I went through and experienced. The heroine of the book is René, an Eastern-European woman in her thirties, who lives alone with her daughter. She has been looking for answers in all her life. She has always felt herself an outsider, which the people around her also made her feel. She has never found her place, she has had the gut feeling that she does not belong to this world. Lots of people consider her a lunatic, so they avoid her or cut off all contact with her. She has been tortured by dreams that happened in previous ages hundreds of years ago. As he grows up, they become more and more realistic, which provoke more and more intense feelings in her. Having grown up as an orphan, she does not know about her origins, she knows nothing about her past. Her doubts culminate when her daughter reaches the age of ten, because only then does René realize that her daughter is carrying similar burdens. Both of their dreams are about the same thing but from a different perspective. They are involved as different characters. They experience each dream as if it had happened to them earlier, which makes it more and more difficult for them to separate from reality. René's senses become stronger, however, she has no idea how her perceived reality will form a new shape soon. She has the gut feeling that something fateful is about to happen to them, which she cannot prevent. In the meantime, at a faraway place in the universe, Planet Nibiru is struggling with serious problems. As a result, it has to send a reconnaissance team. The ruler of Planet Nibiru is dying, without a successor, reconnoiters have to seek a possible Chosen One, who might be capable of filling the ruler's position. After several years of search, they detect an increasing signal, which comes from Earth, and which used to characterize the royal family. The fate of their lives and their future are in René's and her daughter's hand, as they soon realize

that they both possess the abilities of the Chosen One and also how all this could have happened. The lives of René and her daughter suddenly change 180 degrees, when the reconnoitrers of Nibiru, who have never been seen before, appear on the Earth to take them to their Planet. Unfortunately, the mission does not go smoothly, because the Russian and the American Armies also detected the aliens' arrival, and they want to know at any cost, why the aliens came to the Earth. The Pentagon sends a military plane to Hungary, Eastern-Europe, where they last detected the aliens' presence. Scientists also participate in the mission, but their main goal is to get what the aliens came for. René is assisted by three scientists, who are alien-researchers, but this is not enough to leave the earth. Soon after leaving the earth, they are attacked by the mercenaries of Nibiru's ancient enemy, therefore René and the reconnoitrers of Nibiru are bound to stay on the Earth. In order to repair the spaceshuttle, they have to penetrate into two secret terrestrial bases, which are in Antarctica and New-Mexico. Moreover, these bases are not human-controlled. They have to face an exciting and perilous journey, however, in the meantime, a several thousand years old secret is revealed. During their journey René and her daughter finally believe that they have a place in the world, they can get the answer to the questions where they are from', where they are going' and what their mission is'. The peaceful nation of Nibiru, the Annunakis find our heroine, thus starts René's fantastic and irreversible metamorphosis, which might happen to any of us. After plenty of excitement, action, and miraculous events, the heroines reach Nibiru, where they are warmly welcomed, and René occupies her place as the new ruler of Nibiru. The book is both exciting and entertaining, and is based on scientific information, due to which a whole new world

Anunnaki and Ulema-Anunnaki Vault of Forbidden Knowledge and Universe Greatest Secrets

The companion volume to The Earth Chronicles series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

The Lost Book of Enki

The Earth Chronicles series, in six voumes, deals with the history and prehistory of Earth and humankind. Each book in the series, based upon information written on clay tablets by the ancient civilizations of the Near East, records the fantastic and real battles that occurred between the original creator gods over control of planet Earth. Asserting the premise that mythology is not fanciful but the repository of ancient memories, The Earth Chronicles series suggests that the Bible ought to be read literally as a historic/scientific document, and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called "Planet X." The subsequent volume, The Stairway to Heaven, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye-witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. In The Wars of Gods and Men, the third volume of his series, Zacharia Sitchin recounts events closer to our times, concluding that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion.The Wars of Gods and Men additionally embraces Canaanite, Hittite, and Hindu sources to include in these investigations the incidents of The Great Flood, the Tower of Babel, and the upheaval of Sodom and Gomorrah. Sitchin's unique reexamination of ancient mysteries explains these past cataclysmic events in the history of humanity, opening insights into our future.

Nibiru y la NASA

An encyclopedic compendium of the myths and actual events from humanity's ancient civilizations that reveal the influence of visitors from the 12th planet--the Anunnaki • Offers easy access to the myriad characters and subjects covered by the seven books of The Earth Chronicles series • Provides alphabetical listings to the terminology of ancient civilizations concerning their gods, kings, cultures,

and religions • Contains detailed summations, commentaries, and instructions for locating topics within all the author's books The Earth Chronicles series, a historical and archaeological adventure into the origins of mankind and planet Earth, began with the publication of the bestselling The 12th Planet. The series is based on the premise that the myths from the world's earliest civilizations were in fact recollections of actual events and that the gods of ancient peoples were visitors to Earth from another planet--the Anunnaki, inhabitants of the 12th planet. The series' books include The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days, all products of the author's unmatched study of the ancient records of Sumer, Babylonia, Assyria, Israel, and Egypt and the civilizations of pre-Columbian America. Unearthing the hidden history of Earth and mankind, the series uses the past to unveil the meaning of the prophesied future. Zecharia Sitchin has created an encyclopedic compendium of the key figures, sites, concepts, and beliefs to provide a unique navigational tool through this entire opus. Entries are coded to indicate at a glance their cultural origin and contain summations, commentaries, and guidance for locating the topics within all of his books, including Genesis Revisited, Divine Encounters, The Lost Book of Enki, The Earth Chronicles Expeditions, and Journeys to the Mythical Past.

The Anunnaki and Ulema-Anunnaki Vault of Forbidden Knowledge and the Universe's Greatest Secrets. Book 1

“Quizás, el título de este libro le sugiera a los lectores la exposición de cierto vaticinio filosófico – religioso, relacionado con la horripilante destrucción apocalíptica de todo cuanto existe alrededor nuestro y la creación inmediata de una nueva realidad. Por otro lado, en el mejor de los casos, podría sugerir la extensa y fastidiosa redacción de una trivial novela de ciencia ficción. Felizmente, estos temas no constituyen el eje central de este trabajo, aunque es necesario reconocer que en determinadas ocasiones se consideran algunas cuestiones apocalípticas, pero son analizadas desde un punto de vista diametralmente opuesto al referido anteriormente. En realidad, la presente obra puede calificarse, con bastante aproximación, como un resumen biográfico, donde se exponen las principales condiciones que me condujeron a dilucidar un fascinante universo de nuevas verdades, que en mi opinión, constituyen la piedra angular para alcanzar un grado de desarrollo muy superior al actual en la vertiginosa evolución científica-tecnológica de la humanidad.”

The Wars of Gods and Men

Masters of the horse, the Scythians and Sarmatians opened the Eurasian Steppe to nomadic civilizations like it had never seen before. For the first time, a group of tribes sharing a common culture called the Steppe their home, adapting themselves to its harshness.

Blue Blood, True Blood

This definitive guide connects a diverse range of new and existing theories about the Anunnaki, while exploring their possible connection to humanity's past, present, and future. Over 6,000 years ago, the world's first civilization, the Sumerians, were recording stories of strange celestial gods who they believed came from the heavens to create mankind. These gods, known as the Anunnaki, are often neglected by mainstream historians. The Sumerians themselves are so puzzling; scholars have described their origin as “The Sumerian Problem.” With so little taught about the ancient Sumerians in our history books, alternative theories have emerged. This has led many to wonder, about the true story behind the Sumerians and their otherworldly gods, the Anunnaki. Lynn traces the evolution of these Mesopotamian gods throughout the Ancient Near East, analyzing the religion, myth, art, and symbolism of the Sumerians, investigating: Who are the Anunnaki? How accurate are the current Sumerian text translations, and how do we know for sure who to believe? Is there a connection between the Anunnaki

and other ancient gods? Where are the Anunnaki now? Will their possible return spell the end of our world?

The Earth Chronicles Handbook

It happened more than 450,000 years ago. Beings from outer space came to planet Earth in search of resources: fuel for a distant planet. It all began in Sumer, in ancient Mesopotamia. You may think this is an outlandish story by someone who has not slept for some days, but everything you will read is well documented in the most ancient writings known to mankind: the Enuma Elish, Atrahasis, the Epic of Gilgamesh, and many more. These writings, made in cuneiform on clay, have served as a source of inspiration for books of such importance as Genesis and Exodus in the Bible... although over time, the true knowledge has been mutated or mutilated for ideological or religious reasons. Over many years of research, Cediel has been able to verify that the facts are clear and undeniable...it just happens that they are so difficult to believe that science prefers not to accept them, because they do not conform to the historical paradigm. Finally, after years of research, and motivated by a shamanic experience, he has decided to committed his ideas to print: The Verne Code is the result. The Verne Code speaks of penicillin before Fleming, air travel before the first modern plane, of ancient maps of great precision charting places only discovered in the 20th century, of the human genome before Craig Venter, of cloning before Dolly the sheep, of nuclear explosions before Hiroshima and Nagasaki, about the quest for immortality before Geron Corporation; a treasure trove of ancient secrets waiting to be discovered. In The Verne Code, Cediel shows evidence of the extraterrestrial origin of humankind, and argues that the writings of the most ancient civilizations are reliable sources of evidence to allow us to draw objective conclusions. The Verne Code is an exciting journey from the knowledge that existed in the most remote antiquity, to the frontiers of current scientific knowledge. The result is an anthropogenesis, a cosmogenesis, a theory of aging and a breakthrough theory on Atlantis. Cediel also explains the importance of the Sun and anticipates the intellectual and spiritual paradigm that will rule in the next astrological age of Aquarius-Leo. Cediel denounces the state of hypnotic sleep in which mankind finds itself. He affirms the need for humanity to wake up from its dreams so you can be truly free, and master of your destiny. The author claims that we today are witness to a huge manipulation of history, just at the time in history when there is apparently the greatest freedom for the individual. Everything you know is wrong. "People must believe that they are free and not manipulated in order to be able to handle them efficiently." This is the motto of those whose objective is to reduce the vibration of the human race. Only those who realize this will be in a position to stop being manipulated, as only those who realize that they are asleep can wake up. A psycho-neural code has been implanted in our brains so that we believe we are free; we believe we belong to the tribe, the philosophical system, or the movement that will allow us to be free once and for all...but the reality is very different: the intelligence that is fed and powered by the dream of humans has infiltrated the forums and places where humans go to stop being manipulated...evil...yes...but true.....WELCOME TO THE UNIVERSE MATRIX."

Un nuevo pensamiento universal

The Stage of Time will bring you through an adventurous exploration into understanding the secrets of consciousness, ancient history, and the very nature of reality itself. Conspiracy theories or conspiracy facts, you decide what's real based on the evidence. Once you read The Stage of Time, your perspective on reality may never be quite the same way again. This book includes: -Details about the ancient civilizations that once existed around the world and the events which led to their disappearance. -Translations from ancient texts that include: The Atrahasis, Enuma Elish, Sumerian King List, Eridu Genesis, Code of Hammurabi, Emerald Tablets, and more. -The eagle and the serpent, cataclysms during the last ice age, and the influences of the Anunnaki. -Secrets of consciousness, reincarnation, spirituality, and sentient life in the universe.

Inanna Returns

Examines the Anunnaki gods' evolving relationships with humanity, their power struggles, and the details of their nuclear war on Earth • Analyzes the crisis and rationale behind the Anunnaki decision to nuke 5 cities in the Jordan plain, resulting in the obliteration of Sumerian civilization • Draws upon the work of Zecharia Sitchin, the Book of Genesis, Sumerian clay tablets, and archaeological evidence

such as ancient radioactive skeletons • Examines the Anunnakis' lack of higher consciousness, their reliance on technology, their sacred power objects and sacred geometry, and the possibility of Anunnaki bases on Mars in the distant past The detonation of nuclear weapons in the 20th century was not the first time humanity has seen such terrible destruction. Drawing upon the work of Zecharia Sitchin, the Book of Genesis, Sumerian clay tablets, and archaeological evidence such as ancient radioactive skeletons, Chris Hardy reveals the ancient nuclear event that destroyed the Sumerian civilization and the power struggles of the "gods" that led up to it. The author explains how the Anunnaki came to Earth from the planet Nibiru seeking gold to repair their ozone layer. Using genetic engineering, they created modern humanity to do their mining work and installed themselves as our kings and our gods. Anunnaki god Enki had a fatherly relationship with the first two humans. Then Enlil, Enki's brother, took over as Commander of Earth, instating a sole-god theocracy and a war against the clan of Enki and humanity for spoiling the Anunnaki bloodlines through interbreeding. This shift imposed a blackout not only of the very human nature of the Anunnaki "gods" but also of humanity's own ancient past on Earth. Two of Enlil's attacks against the Enki clan and humanity are described in the stories of the Deluge and the Tower of Babel. His final attempt, after coercing the Assembly of the Gods into voting yes, was the nuclear bombing of 5 cities of the Jordan plain, including Sodom and Gomorrah, which resulted in the destruction of the Sumerian civilization and the Anunnakis' own civilization on Earth, including their space port in the Sinai. The author reveals how, after each attempt, humanity was saved by Enki, chief scientist Ninmah, and Enki's son Hermes. The author explores how the Anunnakis' reliance on technology and their recurrent wars caused them to lose touch with cosmic consciousness. And she reveals how we will be doomed to repeat this dynamic until humanity awakens to our true origins.

Intro

Thanks Sunny for your comment!

TW: Child SA throughout episode (will be time stamped)

TW: Child SA- Larry King Live 1993

Check out her book! "Uncultured: A Memoir"

Her new degree!!!

History of The Children of God Cult

Her grandfather met Satan and chose to join

"The Sacred Assumption" Ends justify the means

Mormon purity culture vs COG "love is sex" culture

What happens when a group tries to control sex

TW: R*pe- Comic book and a dangerous game

The adults being ok with child SA

TW: Child SA- How her mother's teen pregnancy shaped the cult

They re-brand, change their name and become child trafficking business

An "End Times Rap" with Daniella as a child

Did Daniella's mom know it was wrong?

The rules and environment she had to grow up with

TW: Physical child abuse

Taking back the narrative and profiting!

A punishing game of telephone & curiosity

Daniella making stellar parenting choices! Breaking the cycle

The "do-over" baby- Her mother getting another chance

TW: Child SA- Did the new female leader really want to make it safer for children?

All the places Daniella lived- educated herself to freedom

One of Daniella's first happy memories with mom

How has it been unwinding the programming?

TW: Child SA- Re-writing her virginity story

Coming to America aka "Babylon the Whore", being sent to Mexico, then escaping back to the US

Enrolling in school for the FIRST time, as a high schooler

It's not so easily "Cult vs Not Cult"

Patron Q: Any physical issues persisting?
