Bloomsbury Crossword Solver

You don't have to be a crossword puzzle expert to enjoy solving easy puzzles or even more challenging ones. But when you sit down to work on any crossword grid, you'll likely enjoy yourself more if you keep these simple tips in mind. In this little book, I'll help you decode the clues that stop most of us from finishing our morning newspaper crossword puzzle. I'm talking about those crazy words you never seem to meet in the real world, but which turn up time and time again to ruin your morning solve. Don't worry. You won't forget them after you've seen them come to life in pictures, spent a few minutes reading their entertaining story, and browsed the typical crossword clues used to warn you that they may be lurking. But the obscure words you'll master in these colorful pages will prepare you for much more than crossword puzzles. You can use them to kick butt in Scrabble, Words With Friends, Lexulous, Text Twist, Spelling Bees, or a million other vocabulary games. Or, if you prefer, just intimidate your friends by casually sprinkling your dinner party conversations with words like RIA, EMIR, and OGEE. Oh, and in case you're wondering about the book's title: 'Crossword Ease' is a play on the term 'Crosswordese', which is the in-house lingo used by crossword puzzle aficionados to describe obscure words that turn up repeatedly in crosswords.

Solving Cryptic Crosswords

"The aim of this book is two-fold: first: to guide solvers and would-be solvers to advance towards the delights of the 'cryptic' variety, and second, to offer a succession of tips to those already in the promised land, on how to better approach such puzzles, and how to improve their existing skills. The 'rules of the game' are comparatively few and fairly easy to learn. In Cracking Cryptic Crosswords, Colin Dexter provides a personal and masterful guide to recognizing and interpreting the various types of crossword clue - the essential pre-requisite to success in filling in any crossword grid"--Publisher description.

Cracking Cryptic Crosswords

For many people cryptic crosswords appear overwhelming and just reading through the clues can seem like reading a foreign language. This book contains information on general solving strategies and reference tools, as well as a chapter on finding suitable cryptic crosswords for your level.

Decoding Cryptic Crosswords

For everyone who has been baffled, bemused and bewildered by those seemingly incomprehensible clues to cryptic crosswords Jack Dunwoody has put together a new book on solving Cryptic Crosswords by understanding how they are compiled, and learning what words mean in a Cryptic Sense as opposed to what they mean in a dictionary or thesaurus. Jack's goal in this book is to place the would-be solver on more even terms with the compiler and, having gained this unique insight into how a cryptic crossword compiler's mind works, thus enhance his or her prospect and enjoyment of solving cryptic puzzles. Jack was born in Comber, County Down, Northern Ireland in 1941 and was educated at Regent House School and Queens University, Belfast. His entire working career was spent in the IT industry, originally in his native Ireland, then in Tanzania and Kenya and finally in South Africa, where from 1975 to 2005 he held a number of managerial positions and directorships in Cape Town and Johannesburg. Jack married Kathleen in Ireland in 1963 before embarking on his first overseas posting in 1966. They live in Cape Town, South Africa and have two children, Jonathan in Durban, South Africa and Kellie in Wiltshire, UK; and five grandchildren, Bradley, Robyn, Grace, Jessica and Honor. Jack's first crosswords were encountered during schooldays and were invariably of the simple synonym variety, referred to as concise crosswords. Infrequent and private glances at the complicated clues of cryptic crosswords, however, did not offer a reasonable enough prospect of success. To an achievement-oriented youngster the risk of failure and the resultant blow to the ego count not be contemplated! His conversion to cryptic crosswords was therefore somewhat of an accident during an Air Training Corps camp in 1958 at Hornchurch in Essex. The accident was missing the last train from London, the place was Trafalgar Square, the reason was trying to pass the time until morning. An English cadet, in the same dilemma, proceeded to do the cryptic crossword in a discarded newspaper and had enough time (all night) and interest (they only had one newspaper) to explain the quirks employed by the cryptic compiler to baffle the uninitiated. And so began a love affair with cryptic crosswords that has followed Jack around the world. Jack has been compiling the weekly cryptic crosswords for South Africa's leading financial magazine FINWEEK since 2003, having been tasked then to deliver puzzles at a challenge level consistent with those of the London Financial Times. A number of cryptic crossword books were to follow and an ebook Cryptic Crosswords - How a Compiler Thinks. Although Jack is compiling his

puzzles in South Africa they follow all the characteristics of British cryptic puzzles constructed in the UK and he is generally regarded as South Africa's premier cruciverbalist.

Two Girls, One on Each Knee: A History of Cryptic Crosswords is an audaciously constructed book on the pleasures and puzzles of cryptic crosswords and their linguistic wordplay, from Alan Connor, the Guardian's writer on crosswords. On 21 December 2013, the crossword puzzle will be 100 years old. In the century since, it has evolved into the world's most popular intellectual pastime: a unique form of wordplay, the codes and conventions of which are open to anyone masochistic enough to get addicted. In Two Girls, One on Each Knee, Alan Connor celebrates the wit, ingenuity and frustration of setting and solving puzzles. From the beaches of D-Day to the imaginary worlds of three-dimensional puzzles, to the British school teachers and journalists who turned the form into the fiendish sport it is today, encompassing the most challenging clues, particular tricks, the world's greatest setters and famous solvers, PG Wodehouse and the torturers of the Spanish Inquisition, this is an ingenious book for lovers of this very particular form of wordplay. Note: The book begins with a puzzle in a standard 15-by-15 grid which incorporates all the basic clue types. The answers are also the chapter titles. Alan Connor writes twice-weekly about crosswords for the Guardian. He has contributed pieces about language for the BBC and the Guardian and works in radio and television, writing for Charlie Brooker, Caitlin Moran and Sue Perkins. His most recent writing was A Young Doctor's Notebook, a TV adaptation of Mikhail Bulgakov stories starring Daniel Radcliffe and Jon Hamm.
