Este libro nos presenta proyectos artesanales para acercarnos a la forma del mandala y a su poder creativo, a la vez que fomenta la unión de las ventajas armonizadoras de los diseños con las tareas manuales y artísticas.

Papel maché

El papel es versátil, barato y fácil de obtener. Es fácil trabajar con él y, como lo demuestra Labeen Ishaque, sirve para crear un sinnúmero de elegantes y prácticos complementos para el hogar. A partir del legado y las técnicas del antiguo Oriente, La Casa de Papel nos enseña cómo emplear el papel en el hogar moderno. Utilizando los más diversos materiales, desde papel de seda hasta cartón corrugado, la autora nos ofrece un acercamiento nuevo y sugerente a las técnicas tradicionales de recortar, superponer, plegar y moldear. Sus diseños demuestran la enorme versatilidad de este material e incluyen desde una sencilla vasija de papel maché y un cuenco hecho con periódico hasta un sofisticado móvil de origami, un tapiz de cartulina estampada e incluso un reloj hecho con cartón. La historia del papel y de las diversas técnicas con las que se ha empleado en la decoración de interiores sirven de referencia para elaborar veinte hermosos objetos decorativos. Cada uno de ellos va acompañado de instrucciones sencillas y hermosas fotografías.

El papel maché en la artesanía mexicana

La cartapesta es el término italiano para designar la técnica que emplea trozos de papel, ya sea de periódico, de cocina o similar, cortados a mano y unidos con cola blanca, colocados sobre una base o un molde. Con dicha técnica y este libro, ¡hacer figuras alucinantes de forma barata y fácil está al alcance de todos! En este manual se recoge un catálogo de muchas y variadas manualidades, hechas con cariño, acompañadas de instrucciones y consejos de los autores. Gracias a los 100 ejercicios prácticos que encontrará en él, podrá realizar: • La mejor pasta de papel para modelar • Letras y nombres en 3D • Todo tipo de armas para jugar con los niños: cascos, espadas, escudos • Accesorios para disfraces • Huchas, cofres • Incensarios • Figuras • Disfraces completos Sin duda, este es el libro con el que podrá hacer realidad todos los diseños que tenga en mente. ¡Deje volar su imaginación!

Principios Y Técnicas Para la Elaboración de Material Didáctico. Niños de 0 a 6 Años

Siempre es mejor tarde que nunca. Una novela feel-good con grandes dosis de humor que cuenta las experiencias de tres nannies de más de cincuenta años que se reúnen cada lunes en un café para compartir sus respectivas historias de desespero. Tras una conversación con su madre, Clara, cansada de su profesión de secretaria en una escuela, decide probar suerte con una idea: montar una agencia de au-pairs para mujeres a partir de los cincuenta años. Clara percibe que hay muchas mujeres con ganas de adquirir nuevas vivencias, y cuya experiencia con niños puede ser útil para muchas familias. Sin embargo, antes de enviarlas al extranjero prefiere empezar en Alemania, así que sus tres primeras candidatas pasarán tres meses en Berlín cuidando los niños de tres familias, una experiencia que les cambiará la vida y con la que podrán, por fin, descubrirse a sí mismas.

Artesanías y manualidades con Mandalas

Trabajar con papel maché es muy fácil, resulta barato y no perjudica al medio ambiente. A los niños les encanta hacer una pasta de papel maché con recortes de papel y engrudo, mezclarla, amasarla y probar a modelar divertidas formas. Las posibilidades son innumerables. Se comienza con formas

sencillas, como por ejemplo una bola, que puede terminar convertida en una cabeza. Una capa fina de papel maché sirve para hacer letreros o colgantes. Con un poco de práctica se obtienen también formas de mayor complejidad. A objetos como globos, cuencos o pequeños cacharros se les puede dar otro aspecto adornándolos con papel maché. Botellas o tarrinas de yogur o postres sirven de base para la realización de otros objetos. Una vez secas y colocadas las diferentes piezas, éstas se pintan. Gracias a las innumerables posibilidades que ofrece el trabajar con papel maché no hay límites para la fantasía.

Los pequeños «hacen»/«crean» arte para conocer, explorar, experimentar y, en definitiva, descubrir su mundo. El arte les permite descubrir el misterio, la creatividad, la alegría, la frustración. Lo que para ellos importa es el proceso del arte, no el resultado. El libro contiene más de 200 procesos completos de experiencia artística, ordenados por estaciones del año y divididos en meses. Las ideas plásticas son de dibujo, pintura, modelado de masa y arcilla, artesanía y construcción. Los trabajos, perfectamente descritos y secuenciados, pueden ser utilizados del modo más conveniente para cada contexto.

El volumen Didáctica del Dibujo: Artes plásticas y visuales cubre el vacío de bibliografía publicada sobre los procesos de enseñanza y aprendizaje de las materias de Educación plástica y visual, Dibujo técnico, y más aún, la falta referida a las materias propias del bachillerato en su modalidad de Artes. Se trata de la selección, la ordenación y la codificación del conocimiento y su evaluación, es decir, los desarrollos teórico-prácticos de la enseñanza y el aprendizaje de las artes plásticas y visuales, sus contextos y sus entornos de uso, junto con los conocimientos de los procesos creativos de los estudiantes, sus características y sus ritmos de aprendizaje. Temas centrales: Creatividad: proyecto de investigación, innovación y evaluación. La organización del aula: espacio de interacción y comunicación. La isla oculta no es otro libro más sobre Cuba, un país que forma parte de nuestro imaginario colectivo desde su Revolución, sino una colección de crónicas que nos lleva a sus lugares menos conocidos con una mirada conmovedora, triste y a la vez pícara. Un puzle del último lustro de Cuba que muestra otra isla, acaso subterránea. Jiménez Enoa forma parte de una nueva camada de narradores cubanos. Pese a que el Gobierno le retuvo el pasaporte hasta 2022 como réplica a su actividad periodística, siguió describiendo con franqueza aquello que veían sus ojos y ganó diversos premios internacionales de periodismo. El autor vive ahora una suerte de exilio en Barcelona y nos ofrece uno de los libros definitivos sobre la Cuba reciente. SOBRE EL AUTOR Abraham Jiménez Enoa (La Habana, 1988) es columnista en The Washington Post. Ha publicado reportajes y artículos de opinión en The New York Times, BBC World, Al Jazeera, Vice News, El País y Revista Gatopardo, entre otros medios. Cofundó El Estornudo, primera revista cubana independiente dedicada al periodismo narrativo. Ganó el Premio Libertad de Prensa Internacional del Comité para la Protección de los Periodistas (CPJ), el Sigma Delta Chi Awards de The Society of Professional Journalists y el de la Sociedad Interamericana de Prensa (SIP)

Materiales para la reforma. Educación secundaria obligatoria

Las acciones artísticas son un proceso de vida imprescindible para el bienestar personal y social. Movilizan los procesos de creación trazando itinerarios improvisados hacia el descubrimiento, el conocimiento y la apertura. Establecen espacios que acogen la confluencia de formas de ser y estar en el mundo. Conforman una fusión de placeres desde la más temprana edad, más allá de la apropiación de valores estéticos estereotipados. A pesar de los grandes beneficios que el arte puede aportar al ámbito educativo, su presencia en los currículos de todos los niveles docentes: Infantil, Primaria,

Secundaria es deficitaria. Además, en los planes de estudios universitarios como los Grados de Maestro de Infantil y de Primaria, Educación Social, Pedagogía, etc., donde futuros profesionales pueden llegar a aplicarlo de forma interdisciplinar, también se encuentra marginada. La subestimación de la educación artística queda totalmente injustificada ante una sociedad que de forma progresiva demanda, cada vez más, aptitudes creativas. Este hecho otorga una atención especial al arte como medio de enseñanza, no solamente como un fin en sí mismo y requiere una revisión del estatus que mantiene en los circuitos educativos formales. Desde esta perspectiva, el contenido de “Interacciones artísticas en espacios educativos y comunitarios” pretende dar a conocer diversas perspectivas de trabajo donde los medios artísticos: Cine, Video, Música, Danza inclusiva, Artes Plásticas se configuran en la construcción de escenarios que impulsen la conexión entre cultura, arte contemporáneo y educación hacia un avance social y comunitario. Queda ahora agradecer a todas las personas que han participado en las diferentes experiencias que se describen en el texto y dedicárselo a quienes creen en los enriquecedores vínculos entre el Arte, la Educación y la Cultura.

La bisutería, inicialmente concebida como imitadora de la joyería con materiales no preciosos, ha evolucionado de tal manera que la frontera entre estas dos artes es cada vez más difusa. La bisutería, tan de moda en nuestros días, debe su éxito a la gran variedad de piezas que se comercializan, a la vistosidad de los acabados y a su precio asequible. Los materiales son fáciles de encontrar y de trabajar y resultan muy económicos. En este libro se explica de forma amena y sencilla, con fotografías paso a paso, cómo realizar atractivas y actuales piezas de bisutería con algunos de los materiales más versátiles que se encuentran en el mercado, como el alambre de cobre esmaltado, el fieltro, la arcilla polimérica, la tela y el papel. Cada apartado se complementa con una variada galería de piezas, elaboradas con los materiales y las técnicas explicados.

Aunque en la actualidad solo existen siete especies de tortugas marinas, la atención que han recibido durante décadas ha sido desproporcionada en comparación con otros animales con una diversidad de especies mucho mayor. Estudiantes, científicos e investigadores, organizaciones conservacionistas y comunitarias, oficinas de gobiernos locales, provinciales/estatales y nacionales, y organizaciones internacionales, el público general, todos estos sectores -de diferentes maneras- están implicados con estos quelonios marinos. Las tortugas marinas son conocidas como “megafauna carismática”, o bien “especies bandera”. Por razones culturales, sociales y también psicológicas, estos reptiles mantiene relaciones singulares con personas de todo el mundo; inclusive, estampillas postales oficiales de varios países sin salida al mar celebran la diversidad y atracción de estos quelonios marinos. Las tortugas marinas reciben un trato especial, aunque otros animales podrían asumir mayor relevancia ecológica o económica. Con este trato especial, las especies bandera son capaces de fomentar mayores avances en favor de la conservación de diversos animales de diferentes clases, incluyendo especies marinas que han sufrido sobreexplotación, especies en peligro y destrucción de sus hábitats. En resumen, las tortugas marinas tienen un impacto desproporcionadamente grande en las interrelaciones entre los seres humanos y su mundo. El objetivo de este libro es mostrar y explicar varios ejemplos de cómo estos reptiles han funcionado como especie bandera en diferentes países y sociedades, y con esta información promover un mejor aprovechamiento de estas herramientas únicas para mejorar la relación entre las personas y nuestro mundo.

Les presentamos el número 33 de su revista HORIZONTUM, dedicado a México con motivo del mes patrio. Por ello, realizamos un especial en materia económica con el recuento de los principales indicadores de los últimos meses en los que se dio paso hacia la ‘nueva normalidad’. Como siempre, iniciamos con las perspectivas económicas y políticas de la mano de nuestros distinguidos colaboradores Federico Rubli y Gerardo Nieto, respectivamente. Éste último escribe, además, sobre un estudio realizado por la OIT ante la situación laboral de los jóvenes en la pospandemia. En el contexto actual, participamos en una charla virtual para tratar el tema del T-MEC, en vigor desde el pasado mes de julio. También, volteamos hacia nuestro vecino del norte para analizar las próximas elecciones del 3 de noviembre y si será Joe Biden el nuevo inquilino de la Casa Blanca o Donald Trump podrá cumplir un segundo mandato. En otros temas, platicamos con tres expertos en distintas áreas: Alejandro Diego, director de un estudio de animación 100% mexicano y triunfador en Hollywood; Graciela Álvarez Hoth, considerada entre las 100 mexicanas más poderosas en este 2020; y Renato Rodríguez, experto en economía digital y tecnología blockchain. Por su parte, la colaboración de la Dra. Bertha Sotres resalta el trabajo del mexicano Mario Molina, Premio Nobel de Química, en la protección del medio ambiente. El Dr. Horacio Rafael escribe sobre cómo los mexicanos reaccionan ante los momentos de crisis. Mientras que el maestro Ortiz Yustis habla de cómo las leyes digitales en México podrían dañar el patrimonio de los empresarios. Como en cada número contamos con la participación de AABA México, que nos invita a viajar con ellos y, para muestra, habla de su última excursión al Monte Sinaí y el Monasterio de Santa Catalina. En su sección, Marco Uriel dedica unas palabras a México y a su riqueza, arte y cultura, las cuales lo hacen un país de contrastes y magia. En la sección cultural tuvimos el honor de entrevistar a cuatro distinguidas directoras de importantes museos en México para hablar sobre la situación actual de sus recintos y la reapertura hacia lo que será #MUSEOSEGURO. En esta

ocasión, la Dra. Sotres puso en alto la cultura de nuestro país al dedicar varias páginas al gran escritor Octavio Paz y al Muralismo mexicano. Finalmente, entrevistamos desde Washington, D.C. a la directora del Instituto Cultural Mexicano que cumplió 30 años promoviendo la cultura de nuestro país en esa región de EE. UU. La portada de este número la debemos al artista yucateco Elbert Tun, quien llena de color sus lienzos para reflejar la parte amable de la vida de este gran México. Queridos lectores, queremos darles las gracias por acompañarnos en un número más, y ser con nosotros testigos del acontecer económico y cultural de México.

1984 se desarrolla en Londres: su protagonista, Winston Smith, decide rebelarse ante un gobierno totalitario que controla cada uno de los movimientos de sus ciudadanos y castiga incluso a aquellos que delinquen con el pensamiento. Consciente de las terribles consecuencias que puede acarrear la disidencia, Winston se une a la ambigua Hermandad por mediación del líder O'Brien. Sin embargo, nuestro protagonista va comprendiendo que ni la Hermandad ni O'Brien son lo que aparentan, y que la rebelión quizá sea un objetivo inalcanzable. Orwell adelantó en esta novela de ficción distópica de 1949 muchos elementos de la sociedad actual: la dependencia tecnológica, la desinformación y manipulación de los hechos, el control de nuestros datos y de nuestra vida de un Estado vigilante, cámaras por todas partes, las redes sociales y el fomento del odio... todo esto está escrito en esta novela. Por su magnífico análisis del poder y de las relaciones y dependencias que crea en los individuos, 1984 es una de las novelas más inquietantes y atractivas del siglo XX.

Interacciones artísticas en espacios educativos

Este eBook ampliación del que se editó en 1999, constituye una guía para conocer las tecnologías usadas para el reciclaje de residuos. En una época que apunta al progresivo agotamiento de las materias primas y al incremento desmesurado del consumo, la presente obra pasa revista a toda una serie de posibilidades de recuperar materiales de los residuos de manera respetuosa con el medio ambiente. La publicación se estructura en tres partes. En la primera, después de una necesaria introducción sobre el impacto que en el medio ambiente ha podido provocar el mal uso de la tecnología, también se expone como la tecnología puede contribuir a remediar el daño, y así se definen las tecnologías disponibles para el reciclaje de residuos y se señalan los límites de aplicación dentro de un contexto respetuoso con el medio ambiente. La segunda parte, pasa revista a la lista de residuos, de acuerdo con la clasificación establecida por el Catálogo Europeo de Residuos y, atendiendo básicamente a su naturaleza orgánica o inorgánica, así como a las posibilidades de reciclaje que ofrecen de acuerdo con las tecnologías descritas anteriormente. La tercera parte, la más extensa, dedica un capítulo a cada una de las gamas de materiales reciclados que pueden lograrse con residuos industriales, residuos domiciliarios (RSU), fangos de depuradora, residuos mineros, biomasa residual, etc. Cada uno de estos capítulos, hasta un total de diez, está lleno de ejemplos prácticos de reutilización de residuos. También se hace mención al estado de la tecnología mundial sobre tratamiento de residuos, sí como sus previsibles tendencias. Finalmente, la obra incluye un glosario, con más de 3.000 entradas, que constituye un diccionario de terminología ambiental muy útil para efectuar consultas rápidas.

Libérate de la fibromialgia y alivia el dolor persistente

Más de 3000 términos especializados en ciencia y tecnología ambiental. Es posible que el lector no encuentre el significado habitual de la palabra buscada. Esto se debe a que los autores, siempre que ha sido posible, han empleado el término usado en su acepción ambiental.

Terapia de desarrollo

Como una suerte de desafío a la antropología clásica, la presente investigación muestra que las perspectivas intimistas pueden contribuir al entendimiento de los fenómenos sociales. El punto de partida es la historia personal de la autora y el método empleado implica el reconocimiento de un problema compartido con la alteridad que se propone abordar. No se trata de un relato autobiográfico sino de un intento por encontrar, en el diálogo con el otro, respuestas al propio devenir individual y colectivo. El objetivo es explicar cómo los habitantes de una colonia popular de la periferia de la Ciudad de México se organizan para hacer frente a las vicisitudes que ponen en riesgo su vida en la cotidianidad, y establecer cuáles son los factores que intervienen en el hecho de que algunos individuos logren alcanzar cierta movilidad social y otros no. Se describe el modo en que los colonos se han organizado para satisfacer sus necesidades básicas y resolver su desfavorable situación. Se propone la existencia de un modelo socioeconómico, extendido en la comunidad, fundado en la transformación de la unidad doméstica en una unidad de producción. Se exploran las posibilidades de los habitantes de la colonia para lograr la movilidad social mediante el estudio. Finalmente se plantea que —aun cuando en buena medida han sido los jóvenes quienes han impulsado la transformación de la sociedad, ya sea para reafirmar los vínculos comunitarios o para construir nuevas identidades— son ellos, en la actualidad, los que más se esfuerzan por recuperar los valores comunitarios y producir nuevas formas para su expresión.
