Night of the Silent Drums

St. John, U.S. Virgin Islands formerly St. Jan, Danish West Indies Weeks passed and tensions mounted on St. Jan; and as more and more slaves escaped, one could hear more and more often the sounds of their drums, sending messages throughout the island in tongues meant only for African ears. And then one night the drums fell silent. The time had come. Rebellion was at hand. This is the story of daily life in 1733 on a tiny Caribbean Island only 24 square miles in area. The astonishing story of an isolated slave-sugar colony erupting in bloody rebellion and the inexorable destruction of the rebels is told by the author as he paints powerful portraits of the European and the African actors. He evokes a tangible sense of the land which he clearly knows so well. The slaves were the masters of communications within the islands. Their talking drums could even reach across the waters to St. Thomas. The slaves evaluated that the total Danish force against them was insufficient to hold them down. They did not know about the organized maritime power that could be transported from elsewhere to restore slavery. Freshly transported from Africa, they did not understand the system that had caught them up. When the rebellion failed most of the rebels killed themselves. No slave rebellion on a small Caribbean Island ever did succeed. The book is the timeless story of humanity in microcosm: a compelling picture of the evil and the good that men can do. The more powerfully so because it is a painstakingly, accurately detailed reconstruction of the real and true events. In 1935, John Lorenzo Anderson and his wife spent their honeymoon on the then almost inaccessible island of St. John. He heard fragments of the story of the slave rebellion. To say that he was intrigued is an understatement. He learned to read nine different languages all in 18th century handscript. He traveled widely in search of material which he found in several important collections of Danish or Danish West Indian documents such as the Danish Archives in Washington, D. C., the Moravian Church Archives in Bethlehem, Pennsylvania, the Bancroft Collection in Berkeley, California and the Royal Danish Library, Copenhagen, Denmark.

"Provocative and well written . . . a must-read for any scholar interested in African identity, the transatlantic slave trade, and resistance." —American Historical Review Although they came from distinct polities and peoples who spoke different languages, slaves from the African Gold Coast were collectively identified by Europeans as "Coromantee" or "Mina." Why these ethnic labels were embraced and how they were utilized by enslaved Africans to develop new group identities is the subject of Walter C. Rucker's absorbing study. Rucker examines the social and political factors that contributed to the creation of New World ethnic identities and assesses the ways displaced Gold Coast Africans used familiar ideas about power as a means of understanding, defining, and resisting oppression. He explains how performing Coromantee and Mina identity involved a common set of concerns and the creation of the ideological weapons necessary to resist the slavocracy. These weapons included obeah powders, charms, and potions; the evolution of "peasant" consciousness and the ennoblement of common people; increasingly aggressive displays of masculinity; and the empowerment of women as leaders, spiritualists, and warriors, all of which marked sharp breaks or reformulations of patterns in their Gold Coast past. "One of the book's greatest strengths is the ways in which Rucker painstakingly traces how ethnic labels were appropriated, recast, and ultimately employed as a means to establish community bonds and resist oppression . . . Chapters that focus on the creation of the Gold Coast diaspora, religion, and women make for a captivating text that will be of interest to graduate students and specialist readers. Recommended." —Choice

The Quelbe Commentary 1672-2012

"Maracatu Atômico" is the first academic work to investigate the manguê movement, one of Brazil's most vital pop culture trends of the last thirty years, and the related "new music scene" of Northeast Brazil. Contending with the widespread poverty and social problems, manguê places a renewed value on the local environment and its myriad folk traditions while embracing modern, global pop influences and technology. The book provides historical and ethnographic accounts of the movement, analyzes salient examples of folk and pop fusion music, and enters recent debates about postmodernity, globalization, and "world music" in an attempt to understand better how local musicians in one "Third World" region interact within a more global cultural system.

Volume 3 looks at various aspects of slave societies in the region from the seventeenth to the nineteenth centuries. Throughout the tortuous history of the Caribbean, nothing exceeded in fundamental importance the twin experiences of slavery and the plantation system, the defining episodes of Caribbean social reality. Topics addressed include: European 'settler colonies,' the sugar revolutions, forms of resistance, the influence of creolization and religious beliefs, and the place of the Maroon communities. Knight also examines the internal and external forces that led to the eventual collapse of the Caribbean slave system.

SLAVERY, SMALLHOLDING AND TOURISM explores the political economy of development in the British Virgin Islands -- from plantations, through the evolution of a smallholding economy, to the rise of tourism. The study argues that the demise of plantation economy in the BVI ushered in a century of imperial disinterest persisting until recently, when a new 'monocrop' -- tourism -- became ascendant. Using an historical and anthropological approach, O'Neal reveals that the trend toward reliance on tourism and other dependent industries echoes for many BVI Islanders -- the 'Belongers' -- their heritage. Part of the Classic Dissertation Series from Quid Pro Books, the book adds a new Foreword by Vassar's Colleen Ballerino Cohen and additional commentary by UC-Irvine's Bill Maurer, who shows how even the emergence of a financial services industry may be understood through the insights that O'Neal presents in his study. Quality eBook formatting features active Contents, linked notes, original tables and maps, and Index.

Maracatu Atomico

Through a lyrical script and the creative use of lighting and sound, one woman, the Narrator, succeeds in evoking a host of characters as this allegorical tale of oppression and liberation plays itself out. On a

'cold and starless night' a young pregnant widow, Nandi, arrives in Tin Town, a bleak, drought-stricken place ruled by silence and fear. Little do the inhabitants know that Nandi is carrying the baby who will, in time, change that. Taken in by Umkhulu (grandfather), whose father established the tin bucket factory that gave the town its name, Nandi gives birth to Nomvula, the Little Drummer Girl. Umkhulu remembers a past when 'people were free to sing and dance', when the rain came and the townsfolk held up their tin buckets to catch the precious, life-giving drops. And then came the Silent Sir and his spokesman, the Censor, and the town went silent. As the singing and dancing and drumming dried up, so did the rain. The tin bucket factory closed, taking with it the life and purpose of Tin Town's inhabitants. Only the Little Drummer Girl can bring back that life, but at enormous personal cost. In Tin Bucket Drum, Neil Coppen achieves a small miracle. Through his lyrical script and the creative use of lighting and sound, one woman, the Narrator, succeeds in evoking a host of characters as this allegorical tale of oppression and liberation plays itself out. It is a story that offers a host of lessons for many places and many times.

Night Drums

What poltergeist accounts through the ages reveal about our own worldviews • Provides a wide array of case studies from ancient Greece and Rome to medieval Europe to the modern world • Explores the relationship between poltergeists and troubled adolescence • Looks beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses Stories of poltergeists and their mischievous and sometimes violent actions--knocking, stone or chair throwing, moving objects with invisible hands, and slamming or opening doors--are a constant through the ages. What changes is how we interpret this activity. For our pagan ancestors this phenomenon was caused by helper spirits whose manifestations revealed their unhappiness with a household. The medieval Christian church demonized these once helpful spirits and held exorcisms to expel them from the houses they haunted--which proved effective less than half the time. The Age of Enlightenment cast these incidents as clever hoaxes, and many still believe this today. But poltergeist manifestations continue to appear and often defy attempts to debunk them as pranks. What then is behind this phenomenon? Exploring accounts of poltergeists from ancient Greece and Rome, medieval Europe, and the modern world, Claude Lecouteux finds that while our interpretations of poltergeists may change, the manifestations always follow a similar course and evolution. He shows how modern scientific studies of poltergeist manifestations have found a strong tie between these visitations and the presence of a troubled adolescent in the house. Looking beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses, the author shows how these unhappy spirits serve as confirmation of the supernatural beings that share the earth with us and of our relationship with the natural and unseen world, a relationship we must take care to keep in balance.

Right-Wing Women

Endlessly fascinating, often moving, and a must read for anyone interested in the cultures of Siberia. Adele Barker, Comparative Cultural and Literary Studies, University of Arizona The history and contemporary transformation of south Siberia is illuminated through this exploration of the shamanic revival in the Turkic Republics of Tuva and Khakassia. Based on extensive field-work and including folktales, legends, and shamanic poems that elucidate spiritual traditions as well as descriptions of local rituals, *Singing Story, Healing Drum* is at once travel narrative, autobiography, history, and ethnology. Kira Van Deusen weaves together traditional scholarship and a personal account of her travels through Siberia and contacts with scholars, shamans, and storytellers active in reviving traditional culture. Highlighting the importance of oral literature and music, *Singing Story, Healing Drum* guides the reader through the often confusing phenomena of the shamanic revival, both in Russia and abroad.

Veronica Cecil was twenty-five years old when her husband was offered a job at a large multi-national company in the Congo. Filled with enthusiasm for their new life, the couple and their eleven-month-old son set off for an African adventure. Very soon, however, Veronica began to realise that life in the Congo was not what she had imagined. Food shortages were an everyday occurrence; she felt like an outsider at the club in Léopoldville, which only the Belgians and other expats frequented; and flickers of violence were starting to erupt everywhere. Six months later Veronica and her family were sent to Elizabetha, a remote palm oil plantation on the banks of the Congo River. But even here paradise didn't last. Civil war broke out, and the rebels captured the neighbouring town of Stanleyville and took all the whites hostage. Despite the fact that Veronica was on the verge of giving birth, the situation was so dangerous that she and her toddler had to be evacuated. Leaving her husband and all their possessions behind, she and her son began on a two-day journey through the jungle. But on the plane back to Leopoldville, the first labour pains began... Praise for *Letters From Abroad*, written and read by Veronica Cecil, BBC Radio 4: '... absolutely enthralling' *Daily Telegraph*; 'Blending her personal memories with the wider picture, Miss Cecil effortlessly packs more into her quarter hour than many an hour long documentary...' *Daily Mail*.

Tales from the Time Loop

Tales from the Time Loop is the most comprehensive book yet written about the global conspiracy that emerges more clearly every day. David Icke has been warning for well over a decade of the plan for a world fascist state, a global version of Nazi Germany, in which the people will be prisoners of a Big Brother dictatorship founded on the suppression of the most fundamental freedoms and total control and surveillance. Today there is a gathering awareness that he was right. People are realising that Big Brother is no longer "coming." He's here.

Things from the Flood 90s Era Rpg, Hardback

"Simon Stålenhag is back. In his new art book Things From The Flood, Stålenhag continues the stories of Tales From the Loop, memories of a Nordic childhood infused with strange machines and weird creatures from other dimensions. In Things From The Flood, Stålenhag moves his focus from the '80s to the '90s, the decade of great change when the outside world truly came to Scandinavia. These are tales of the trials of youth, of schoolyard hazings, of first kisses, of finding yourself -- and robots."

Things from the Flood

'Gorgeously creepy and strangely human' - National Public Radio It started on Christmas Day in 1994. Dark water suddenly rose from the land, invading our homes and lives. They say it came from the depths inside the Loop. Whatever it was the Flood changed everything. Nothing would ever be the same again. Simon Stalenhag takes us to an extraordinary world, a world of fear and discovery, in a story told through his gut-punchingly spare narrative and lush illustrations. Stories told in both words and haunting illustrations, THINGS FROM THE FLOOD captures a not-too-distant reality that is both haunting and imminent: addressing the many ways developing technology and nature can create havoc and wonder in our world... and the hope we might still find in that future. Perfect for fans of everything from STRANGER THINGS to JURASSIC PARK to JUMANJI, Things from the Flood is an incredible, unmissable work of genius. PRAISE for SIMON STALENHAG 'Tales has the magic. It's got the robots, the weirdness, the dinosaurs. But most of all, it has the wonder. No one who picks this book up will be the same person when they put it down again' NPR on Tales from the Loop 'No words to describe this novel in pictures. Stahlenhag defined a whole new aesthetic for scifi in the 21st century' Damien

Walter on The Electric State 'A chilling, unforgettable visual and narrative experience' Locus on The Electric State Stalenhag's 'stories crawl into my brain and mess with my memory of history, time and place' NPR on The Electric State

"I really loved it...Appalachian Trials is full of specific tactical tips for mental preparation, which is key well beyond the AT." - Tim Ferriss, author of New York Times Best Selling The 4-Hour Workweek and The 4-Hour Body Each year, it is estimated that more than 2,000 people set out to thru-hike the Appalachian Trail, yet seven in ten ultimately fall short of their goal. Given the countless number of how-to books and websites offering information about logistics, gear, and endurance training, one would think that more people would finish this 2,200 mile trek. Why then, do so many hikers quit prematurely? After successfully thru-hiking the AT in five months with zero prior backpacking experience, author, Zach Davis, is convinced he's discovered the answer. Aspiring thru-hikers, Davis tells readers, are preparing the wrong way- sweating on the StairMaster, meticulously plotting each re-supply box, or obsessing over the a synthetic or down sleeping bag or perfect pair of socks. While the AT undoubtedly presents extraordinary physical challenges, it is the psychological and emotional struggles that drive people off the trail. Conquering these mental obstacles is the key to success. This groundbreaking book focuses on the most important and overlooked piece of equipment of all- the gear between one's ears. Filled with first-hand, touching yet humorous vignettes and down-to-earth advice that both instructs and inspires, Appalachian Trials gives readers the mental road map they'll need to hike from Springer Mountain to Mt. Katahdin. In Appalachian Trials readers will learn: Goal setting techniques that will assure hikers reach Mt. Katahdin The common early stage pitfalls and how to avoid them How to beat "the Virginia Blues" The importance of and meaning behind "hiking your own hike" 5 strategies for unwavering mental endurance The most common mistake made in the final stretch of the trail Tips for enjoying rather than enduring each of the five million steps along the journey Strategies for avoiding post-trail depression and weight gain In addition, the Bonus Section of Appalachian Trials includes: A thorough chapter on gear written by thru-hiker of the AT and Pacific Crest Trail, and professional backpack gear reviewer Information about the trail's greatest and most unknown risk and how to guard against it 9 tips for saving money before and during your thru-hike A thorough FAQ section including information ranging from how to obtain sponsorship, to the best stove for the trail, to avoiding chafing, and much more

World-renowned visionary artist John Harris' unique concept paintings capture the Universe on a massive scale, featuring everything from epic landscapes and towering cities to out-of-this-world science fiction vistas. This collection focuses on his wide variety of futuristic art, as well as his striking covers for a variety of esteemed SF authors, including Arthur C. Clarke, John Scalzi, Ben Bova, Hal Clement, Jack McDevitt, Frederik Pohl, Orson Scott Card's Enders books and many more.

The Art of John Harris

Foss's groundbreaking and distinctive science fiction art revolutionized paperback covers in the 1970s and 80s. Dramatically raising the bar for realism and invention, his trademark battle-weary spacecraft, dramatic alien landscapes and crumbling brutalist architecture irrevocably changed the aesthetic of science fiction art and cinema. Featuring work for books by Isaac Asimov, E. E. 'Doc' Smith, Arthur C. Clarke, A. E. Van Vogt and Philip K. Dick, and film design for Ridley Scott and Stanley Kubrick, this volume brings together many rare and classic images that have never been seen or reprinted before. The first comprehensive retrospective of Chris Foss's SF career. "Chris Foss' name has become pre-eminent among sf artists... He is in love with the monstrous, with angular momentum, with inertia-free projectiles and irresistible objects." — Brian Aldiss "[Foss] creations are real machines, not just an artist's dreams. They combine the two elements so essential to science fiction: realism and a sense of wonder... A medieval goldsmith of future eons." — Alejandro Jodorowsky

Orthe - half-civilized, half-barbaric, home to human-like beings who live and die by the code of the sword. Earth envoy Lynne Christie has been sent here to establish contact and to determine whether this is a world worth developing. But first Christie must come to understand that human-like is not and never can be human, and that not even Orthe's leaders can stop the spread of rumors about her, dark whisperings that could cost Christie her life. And on a goodwill tour to the outlying provinces, these evil rumors turn to deadly accusations. Christie is no offworlder, Church officials charge: she is a treacherous and cunning descendant of Orthe's legendary Golden Witchbreed - the cruel, ruthless race that once enslaved the whole planet. Suddenly, Christie finds herself a hunted fugitive on an alien world, where friend and foe alike may prove her executioners. And her only chance of survival lies in saving Orthe from a menace older than time...

At the edge of the galaxy, there is a giant supercomputer known as the Lighthouse. The only brain powerful enough to navigate ships through a sargasso of naturally occurring wormholes, potentially cutting months or even years off a spaceship's journey. Three humans, one alien, and a nanny bot have manned the remote station for years in relative peace until the arrival of Captain Kongre and his band of cutthroat pirates threatens the future of civilization and reveals that each of the Lighthouse crew has been hiding a shocking secret. He who controls the Lighthouse controls this part of the galaxy. From the team that brought you THE MARKED and SONATA comes this double-sized sci-fi thriller set on the high seas of space, based on the work of master storyteller JULES VERNE.

Black Nerd Problems

"In the aftermath of a deadly outbreak bearing similarities to the Tanganyika Laughter Epidemic, a city at the tip of Africa is losing its mind-complete with hallucinations, paranoia, and good old-fashioned ghost sightings. Is it the result of secret government experiments, an episode of mass hysteria, the effects of trauma, a sign of the end times? In a quarantined city in which the inexplicable has already occurred, rumors, superstitions, and conspiracy theories abound. In these strange days, Faith works as a full-time corpse collector and a freelance truthologist, putting together disparate pieces of information to solve others' problems. But after Faith agrees to help an orphaned girl find the girl's abducted baby brother, she begins to wonder whether the boy is even real. Meanwhile, Sans, a ponyjacker in the human hair trade, is so distracted by a glimpse of his dream woman that he lets a bag of money he owes his gang partners go missing-leaving him desperately searching for both and soon questioning his own sanity. Over the course of a single week, the paths of Faith, Sans, and a cast of other hustlers-including a data dealer, a drug addict, a sin eater, and a hyena man-will cross and intertwine as they move about the city, looking for lost souls, uncertain absolution, and answers that may not exist. Part ghost story, part whodunit, part palimpsest, THE DOWN DAYS is a rollicking exploration of the mutability of memory, the subjectivity of perception, and the notion that truth is ultimately in the eye of the beholder"--

The Down Days

Winner of the 41st International 3-Day Novel Writing Contest Alan is unsure if he is dead or dreaming, he only knows that he is stuck in a loop. He finds himself being forced to walk along a straight path through an unending pine forest where any deviation from the path causes him to black out and begin again. Dipping in and out of an endless purgatorial walk, Alan relives key moments in his life where he missed the opportunity to learn, escape, and change: The death of his mother, an abusive relationship with his father, and the opportunity to connect with his only real friend, a neighbour he never speaks to named Edgar. The Loop chronicles the life of an alcoholic who is unable to escape his past to explore the ways in which abuse can shape someone into their abuser and the ways trauma can transfer from one generation to the next. How much of who we are is who we are? How much of it is someone else? What if this has all happened before?

The Loop

"Space is vast, dark, and not your friend. Gamma rays and neutrino bursts erupt from dying stars to cook you alive, black holes tear you apart, and the void itself boils your blood and seizes your brain. Try to scream and no one can hear you - hold your breath and you rupture your lungs. Space isn't as empty as you'd think, either - its frontiers are ever expanding. Rival governments wage a cold war of aggression while greedy corporations vie for valuable resources. Colonists reach for the stars and gamble with their lives - each new world tamed is either feast or famine. And there are things lurking in the shadows of every asteroid - things strange and different and deadly. Things alien. This is the official ALIEN tabletop roleplaying game - a universe of body horror and corporate brinkmanship, where synthetic people play god while space truckers and marines serve host to newborn ghoulish creatures. It's a harsh and unforgiving universe and you are nothing if not expendable. Stay alive if you can"--Back cover.

Alien RPG

An unstoppable anthology of crime stories culled from Black Mask magazine the legendary publication that turned a pulp phenomenon into literary mainstream. Black Mask was the apotheosis of noir. It was the magazine where the first hardboiled detective story, which was written by Carroll John Daly appeared. It was the slum in which such American literary titans like Dashiell Hammett and Raymond Chandler got their start, and it was the home of stories with titles like "Murder Is Bad Luck," "Ten Carets of Lead," and "Drop Dead Twice." Collected here is best of the best, the hardest of the hardboiled, and the darkest of the dark of America's finest crime fiction. This masterpiece collection represents a high watermark of America's underbelly. Crime writing gets no better than this. Featuring • Deadly Diamonds • Dancing Rats • A Prize Fighter Fighting for His Life • A Parrot that Wouldn't Talk Including • Dashiell Hammett's The Maltese Falcon as it was originally published • Lester Dent's Luck in print for the first time

Soon to be an HBO original series, Watchmen, the groundbreaking series from award-winning author Alan Moore, presents a world where the mere presence of American superheroes changed history--the U.S. won the Vietnam War, Nixon is still president, and the Cold War is in full effect. Considered the greatest graphic novel in the history of the medium, the Hugo Award-winning story chronicles the fall from grace of a group of superheroes plagued by all-too-human failings. Along the way, the concept of the superhero is dissected as an unknown assassin stalks the erstwhile heroes. This edition of Watchmen, the groundbreaking series from Alan Moore, the award-winning writer of V For Vendetta and Batman: The Killing Joke, and features art from industry legend Dave Gibbons, with high-quality, recolored pages found in Watchmen: Abslolute Edition.

In Nothing Much Happens Kathryn Nicolai offers a healthy way to ease the mind before bed: through the timeless appeal of classic bedtime stories. These calming tales take place in and around a fictional city, each one revealing those small, sweet moments of joy that may be found in the commonplace. As the

unnamed, gender-neutral narrators recount their days they evoke the distinct comforts offered by each of the four seasons and gently lull their reader towards sleep. From celebrating nature and revelling in the joy of being home alone to the pleasure of getting lost in the stacks of the library and picking out the best of the end-of-season tomatoes at the farmer's market, this treasury offers something for everyone. Using her decades of experience as a meditation and yoga teacher, Kathryn Nicolai creates a world for you to slip into, one rich in sensory experience that quietly teaches mindfulness and self-compassion, soothes frayed nerves, and builds solid habits for nurturing sleep.

Star Trek Adventures - Beta Quadrant

In a post-apocalyptic America that has shattered into a hundred perpetually warring fiefdoms, anyone with a loud voice and a doomsday weapon can be king (and probably has been). Duncan Archer--con man, carpetbagger, survivor--has found a way to somehow successfully navigate the end of the world, with its giant killer robots, radioactive mutants, mad scientists, rampant nanotechnology, armed gangs, sea monsters, and 101 unpleasant ways to die. But when he meets Captain James Barrow, a former OSS agent and the most wanted man in the world, Duncan finds himself a reluctant hero caught up in a whole new level of weird, rollicking adventure... And the second most wanted man in the world. *Tales from the Radiation Age* is a throwback to the pulp-origins of science fiction, painting a vision of the future that's richly detailed, wildly imaginative--and altogether too easy to imagine.
