The Palgrave Handbook of Global Perspectives on Emotional Labor in Public Service

The Palgrave Handbook of Global Perspectives on Emotional Labor in Public Service challenges traditional public administration theory and its disavowal of the emotive component to public service delivery. Providing a comprehensive and comparative overview of the current research in this previously understudied area, this handbook situates emotional labor within public service and establishes emotional labor within individual, organizational, cultural, and situational scenarios. With chapters spanning twelve different countries across six continents, this handbook provides groundbreaking survey research that probes the daily work experience of public servants, paying special attention to the relational aspect of public service delivery. It ultimately seeks to revise the current public service paradigm, and will be an invaluable resource to researchers, public managers, and international public service organizations as the first of its kind for the public administration market.

Sport in Films

Sport offers everything a good story should have: heroes and villains, triumph and disaster, achievement and despair, tension and drama. Consequently, sport makes for a compelling film narrative and films, in turn, are a vivid medium for sport. Yet despite its regularity as a central theme in motion pictures, constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries. In this collection, it is the critical study of film and its connections to sport that are examined. The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life. Among the themes and issues explored by the contributors are: Morality tales in which good triumphs over evil The representation and ideological framing of social identities, including class, gender, race and nationality The representation of key issues pertinent to sport, including globalization, politics, commodification, consumerism, and violence The meanings 'spoken' by films – and the various 'readings' which audiences make of them This is a timely collection that draws together a diverse range of accessible, insightful and ground-breaking new essays. This book was published as a special issue of Sport in Society.

Blindness

No food, no water, no government, no obligation, no order. Discover a chillingly powerful and prescient dystopian vision from one of Europe's greatest writers. A driver waiting at the traffic lights goes blind. An ophthalmologist tries to diagnose his distinctive white blindness, but is affected before he can read the textbooks. It becomes a contagion, spreading throughout the city. Trying to stem the epidemic, the authorities herd the afflicted into a mental asylum where the wards are terrorised by blind thugs. And when fire destroys the asylum, the inmates burst forth and the last links with a supposedly civilised society are snapped. This is not anarchy, this is blindness. 'Saramago repeatedly undertakes to unite the pressing demands of the present with an unfolding vision of the future. This is his most apocalyptic, and most optimistic, version of that project yet' Independent

Emotional Labor: Putting the Service in Public Service

Most public service jobs require interpersonal contact that is either face-to-face or voice-to-voice - relational work that goes beyond testable job skills but is essential for job completion. This unique book focuses on this emotional labor and what it takes to perform it. The authors weave a powerful narrative of stories from the trenches gleaned through interviews, focus groups, and survey data. They go beyond the veneer of service delivery to the real, live, person-to-person interactions that give meaning to public service. For anyone who has ever felt apathetic toward government work, the words of caseworkers, investigators, administrators, attorneys, correctional staff, and 9/11 call-takers all show the human dimension of bureaucratic work and underscore what it means to work "with feeling."

The Life and Works of Celestine Ukwu

Rudy Baylor is a newly qualified lawyer: he has one case, and one case alone, to save himself from his mounting debts. His case is against a giant insurance company which could have saved a young man's life, but instead refused to pay the claim until it was too late. The settlement could be worth millions of dollars, but there is one problem: Rudy has never argued a case in court before, and he's up against the most expensive lawyers that money can buy. 'The best thriller writer alive' Ken Follett, Evening Standard 'The suspense does not let up for a minute' Daily Telegraph 'He keeps us turning the pages until well after bedtime ... as exciting as a car chase with a load of dynamite thrown in' Daily Mail 'The book stays in the hands as if super-glued ... compelling' Sunday Express

The Rainmaker

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Achtung-Panzer!

The official book tie-in to the hilarious blockbuster film, including the complete screenplay, movie stills, and outrageous drawings that millions of fans will recognize from the film. From producers Judd Apatow and Shauna Robertson (The 40-Year-Old Virgin), screenwriters Evan Goldberg and Seth Rogen, and director Greg Mottola comes Superbad, a coming-of-age cautionary tale about two socially inept teenage boys about to graduate high school. Theirs is a ridiculously dependent friendship—but now they've gotten into different colleges and are forced to contemplate life apart. Evan (Michael Cera) is sweet, smart, and generally terrified. Seth (Jonah Hill) is foul-mouthed, volatile, and all-consumed with the topic of human sexuality. They are joined by their nerdy pal Fogell (Christopher Mintz-Plasse), whose fake ID as "McLovin" sets everything into motion. This is the story of their misguided attempts to reverse a lifelong losing streak with the ladies in one panic-driven night . . . that awful, humiliating night you cherish for the rest of your life. Exclusive to this must-have companion book: Introduction by producer Judd Apatow "Mr. Vagstastic's Guide to Buying Porn" Hilarious captioned drawings by David Goldberg The film's complete script Full cast and crew credits Also included is a section of

Superbad

This paper looks at the possible paths for policy and development in Indonesia under the leadership of the seventh president of Indonesia, Joko Widodo. The first part is a stocktake of the challenges that lie ahead. The stocktake assesses the state of play in five areas: the political system; economic challenges; government and administration; social issues; and foreign affairs. Then two possible scenarios of governance under the new administration are considered: an outward-looking reform path or an inward-looking resilience path. The country's seventh president, Joko Widodo, will need to decide whether to adopt one of these paths or select policies that combine elements from both the reform and the resilience paths.

A beautiful and compelling novel, Elif Shafak's *The Gaze* considers the damage which can be inflicted by our simple desire to look at others "I didn't say anything. I didn't return his smiles. I looked at him in the wide mirror in front of where I was sitting. He grew uncomfortable and avoided my eyes. I hate those who think fat people are stupid." An obese woman and her lover, a dwarf, are sick of being stared at wherever they go, and so decide to reverse roles. The man goes out wearing make up and the woman draws a moustache on her face. But while the woman wants to hide away from the world, the man meets the stares from passers-by head on, compiling his 'Dictionary of Gazes' to explore the boundaries between appearance and reality. Intertwined with the story of a bizarre freak-show organised in Istanbul in the 1880s, *The Gaze* considers the damage which can be inflicted by our simple desire to look at others. "Beautifully evoked" - The Times "Original and Compelling" - TLS "Plays with ideas of beauty and ugliness like they're Rubik's cubes" - Helen Oyeyemi "Entertaining and affecting" - Publishers' Weekly Elif Shafak is the acclaimed author of *The Bastard of Istanbul* and *The Forty Rules of Love* and is the most widely read female novelist in Turkey. Her work has been translated into more than thirty languages. She is a contributor for The Telegraph, Guardian and the New York Times and

her TED talk on the politics of fiction has received 500 000 viewers since July 2010. She is married with two children and divides her time between Istanbul and London.

This book constitutes the first full volume dedicated to an academic analysis of British football as depicted on film. From early single-camera silents to its current multi-screen mediations, the repeated treatment of football in British cinema points to the game's importance not only in the everyday rhythms of national life but also, and especially, its immutable place in the British imaginary landscape. Through close textual analysis together with production and reception histories, this book explores the ways in which professional footballers, amateur players and supporters (the devoted and the demonized) have been represented on the British screen. As well as addressing the joys and sorrows the game necessarily engenders, British football is shown to function as an accessible structure to explore wider issues such as class, race, gender and even the whole notion of 'Britishness'.

"Very short, highly anecdotal memoir of a machine gun officer's WWI adventures in France, the Balkans, and finally with Allenby across Arabia. Many of the anecdotes are entertaining, even moving. This book does a decent job reminding us that Allenby's army did most of the heavy lifting, while the threat of Lawrence's band on the flanks or cutting down a column on the move made the Turks quick to retreat rather than get boxed in at the end of the campaign. One is left wondering how many men from Gilbert's unit survived the whole war, first in the trenches of France, a few months of combat near Salonika, and finally enduring the very harsh conditions and lack of supply in the Middle East." --

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.
