Le Manoir - Liam et la carte d'éternité Partie 1

Pourquoi Liam, 15 ans, a-t-il été envoyé au manoir ? Et qui en sont ses étranges occupants ? Découvrez-le dans la première adaptation en bande dessinée du best-seller d'Evelyne Brisou-Pellen !

Le manoir saison 1, Tome 01

Après une grave maladie, Liam, 15 ans, est envoyé en convalescence dans un manoir isolé. Cette maison de repos, où il n'y a ni téléphone ni électricité, semble aussi abriter une section psychiatrique. En effet, l'un des pensionnaires se prend pour Léonidas, roi de Sparte ; un autre pour un pirate ; une jeune fille s'habille comme au Moyen Âge et une autre comme au XIXe siècle. Liam apprend enfin que des malades dangereux sont enfermés dans une pièce secrète de la maison. Il cherche à s'enfuir du manoir, sans succès. Il renonce finalement à ce projet, d'autant qu'il a sympathisé avec Cléa, une jeune fille de son âge, qui semble profondément triste, mais saine d'esprit. Peu à peu, Liam va comprendre que le manoir abrite des fantômes, et que chacun d'eux doit régler un problème avant de pouvoir partir dans l'au-delà. Un jour, le garçon découvre dans le bureau du directeur du manoir une "carte d'éternité". Sur cet écran géant, on voit en temps réel ce qui se passe partout dans le monde. Liam est le seul à pouvoir remonter le temps en agissant sur cette carte. Il va ainsi aider plusieurs pensionnaires à résoudre le problème qui les retient au manoir...

Le manoir saison 2 , tome 02

Suivant la trace du fantôme d'une mystérieuse jeune fille, les exilés du manoir arrivent en Irlande. La jeune fille s'appelle Sandice et a reçu une bien curieuse éducation. Craignant qu'ils ne découvrent qui elle est, elle refuse de partager le refuge fantôme qu'elle s'est reconstitué - la dépendance d'un ancien couvent qu'on surnomme « l'antre des secrets ». Double malchance, les chevaux de la bande s'enfuient sans raison apparente. Ils ne s'arrêtent qu'au château de Blarney... et refusent d'en bouger ! Malgré leur incompréhension, les exilés vont devoir s'y installer, même si le lieu appartient au monde des vivants et les laisse donc à la merci de n'importe quel fantôme gris. Ils vont bientôt découvrir qu'ils ne se retrouvent pas dans ce château par hasard, et que Sandice entend des voix - qui mèneront Liam sur une piste tout à fait inattendue.

Le manoir saison 2

Les exilés du manoir trouvent refuge dans la forteresse fantôme de la Bastille. Y vivent déjà les fantômes de nombreux prisonniers, dont un très célèbre, le Masque de fer. Mais la bande du manoir accueille aussi une fillette née au siècle passé. Les quelques indices qu'elle laisse échapper les emmènent en Bretagne, non loin de la forêt de Brocéliande. Contre toute attente, ils vont être aidés dans leur enquête par un jeune homme du monde des vivants aux troublantes qualités de médium... Une fois de plus, ils devront agir sans Liam qui, grâce à la carte d'éternité, est parti sur les pas d'Alexandre le Grand à la recherche d'un mystérieux cimetière des éléphants...

Sissy Dreams: From Boyfriend to Girlfriend

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Alfred Jarry

This long-awaited biography of Alfred Jarry reconstructs a life both "ubuesque" and pataphysical. When Alfred Jarry died in 1907 at the age of thirty-four, he was a legendary figure in Paris—but this had more to do with his bohemian lifestyle and scandalous behavior than his literary achievements. A century later, Jarry is firmly established as one of the leading figures of the artistic avant-garde. Even so, most people today tend to think of Alfred Jarry only as the author of the play *Ubu Roi*, and of his life as a string of outlandish "ubuesque" anecdotes, often recounted with wild inaccuracy. In this first full-length critical biography of Jarry in English, Alastair Brotchie reconstructs the life of a man intent on inventing (and destroying) himself, not to mention his world, and the "philosophy" that defined their relation. Brotchie alternates chapters of biographical narrative with chapters that connect themes, obsessions, and undercurrents that relate to the life. The anecdotes remain, and are even augmented: Jarry's assumption of the "ubuesque," his inversions of everyday behavior (such as eating backward, from cheese to soup), his exploits with gun and bicycle, and his herculean feats of drinking. But Brotchie distinguishes between Jarry's purposely playing the fool and deeper nonconformities that appear essential to his writing and his thought, both of which remain a vital subterranean influence to this day.

Scars of Sweet Paradise

Janis Joplin was the skyrocket chick of the sixties, the woman who broke into the boys' club of rock and out of the stifling good-girl femininity of postwar America. With her incredible wall-of-sound vocals, Joplin was the voice of a generation, and when she OD'd on heroin in October 1970, a generation's dreams crashed and burned with her. Alice Echols pushes past the legacy Joplin-the red-hot mama of her own invention—as well as the familiar portrait of the screwed-up star victimized by the era she symbolized, to examine the roots of Joplin's muscianship and explore a generation's experiment with high-risk living and the terrible price it exacted. A deeply affecting biography of one of America's most brilliant and tormented stars, *Scars of Sweet Paradise* is also a vivid and incisive cultural history of an era that changed the world for us all.

Yvain

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for

the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

LIFE All in the Family

'All in the Family' quickly did more than become a top-rated, Emmy Award-winning series that promoted a positive, progressive agenda. This revolutionary show about a reactionary man helped foster an openness in culture. It transformed the very nature of what could be broadcast into our homes, and paved the way for other shows with working-class as well as racially diverse protagonists. During 'All in the Family's nine seasons on CBS, creators Norman Lear and Bud Yorkin used their series as a televised soapbox to masterfully portray the upheavals and concerns racking the United States. Half a century later, its humor and message remain prescient, as it plumbs problems that still vex our families and society, and seeks to understand and explain the very soul of America.

Gary Giddins has been called "the best jazz writer in America today" (Esquire). Louis Armstrong has been called the most influential jazz musician of the century. Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

"*After the Hunt*, Chef John D. Folse's eighth cookbook, explores man's hunting history from cave man through American colonization. Travel through time as ancient man learns to create tools, nets and traps for hunting then, cultivates a gluttonous taste for wild game delicacies and grand game banquets that continue for days. From China to Egypt from Greece to Rome, the hunt was a revered sport that prepared men for war. Visit game parks of the noblemen and review the hunting privileges that were reserved for the aristocracy alone. Through Medieval Europe to the Renaissance the hunt was immortalized in paintings, tapestries, china, furniture, symphonies and song. Marion Zimmer Bradley

This literary companion surveys the young adult works of American author Marion Zimmer Bradley, primarily known for her work in the fantasy genre. An A to Z arrangement includes coverage of novels (*The Catch Trap*, *Survey Ship*, *The Fall of Atlantis*, *The Firebrand*, *The Forest House* and *The Mists of Avalon*), the graphic narrative *Warrior Woman*, the Lythande novella *The Gratitude of Kings*, and, from the *Darkover* series, *The Shattered Chain*, *The Sword of Aldones* and *Traitor's Sun*. Separate entries on dominant themes--rape, divination, religion, violence, womanhood, adaptation and dreams--comb stories and longer works for the author's insights about the motivation of institutions that oppress marginalized groups, especially women.

The Field Day Anthology of Irish Writing

Contributions to this book probe the contexts--both social and spiritual--from which select iconic figures emerge and discover how to present themselves as innovators and cultural leaders as well as draw material into forms that subsequent generations consider innovative or emblematic. The overall import of the book is to locate producers of culture such as authors, poets, singers, and artists as leaders both in their respective genres and of culture and society more broadly through the influence exerted by their works.

Cultural Icons and Cultural Leadership

A telling look at today's "reverse" migration of white, middle-class expats from north to south, through the lens of one South American city. Even as the "migration crisis" from the Global South to the Global North rages on, another, lower-key and yet important migration has been gathering pace in recent years--that of mostly white, middle-class people moving in the opposite direction. Gringolandia is that rare book to consider this phenomenon in all its complexity. Matthew Hayes focuses on North Americans relocating to Cuenca, Ecuador, the country's third-largest city and a UNESCO World Heritage Site. Many began relocating there after the 2008 economic crisis. Most are self-professed "economic refugees" who sought offshore retirement, affordable medical care, and/or a lower-cost location. Others, however, sought adventure marked by relocation to an unfamiliar cultural environment and to experience personal growth through travel, illustrative of contemporary cultures of aging. These life projects are often motivated by a desire to escape economic and political conditions in North America. Regardless of their individual motivations, Hayes argues, such North-South migrants remain embedded in unequal and unfair global social relations. He explores the repercussions on the host country--from rising prices for land and rent to the reproduction of colonial patterns of domination and subordination. In Ecuador, heritage preservation and tourism development reflect the interests and culture of European-descendent landowning elites, who have most to benefit from the new North-South migration. In the process, they participate in transnational gentrification that marginalizes popular traditions and nonwhite mestizo and indigenous informal workers. The contrast between the migration experiences of North Americans in Ecuador and those of Ecuadorians or others from such regions of the Global South in North America and Europe demonstrates that, in fact, what we face is not so much a global "migration crisis" but a crisis of global social justice.

In this study, which is first of all a folk-lore study, we pursue principally an anthropo-psychological method of interpreting the Celtic belief in fairies, though we do not hesitate now and then to call in the aid of philology; and we make good use of the evidence offered by mythologies, religions, metaphysics, and physical sciences.

Until the 1960s, the Ayoreo people of Paraguay's Chaco region had remained uncontacted by the world. But as development encroached on their territory, the Ayoreo began to experience rapid cultural change. Paola Canova looks at one aspect of this change in *Frontier Intimacies*: the sexual practices of Ayoreo women, specifically the *curajodie*, or single women who exchange sex for money or material goods with non-Ayoreo men, often Mennonite settlers. Weaving personal anecdotes into her extensive research, Canova shows how the advancement of economic and missionary frontiers has reconfigured gender roles, sexual ethics, and notions of desire in the region. Ayoreo women, she shows, have reappropriated their sexual practices, approaching intimate liaisons on their own terms and seeing the involvement of money not as morally problematic but as constitutive of sexual encounters. By using their sexuality to construct an intimate frontier operating according to their own logics, Canova reveals,

Ayoreo women expose the fractured workings of frontier capitalism in spaces of rapid transformation. Inviting broader examination of the ways in which contemporary frontier economies are constructed and experienced, *Frontier Intimacies* brings a captivating new perspective to the economic development of the Chaco region.

Palomitáy is an orphanage in highland Peru that provides a home for unmarried mothers as young as twelve years old. In their ordinary lives, these young women encounter diverse social expectations and face moral dilemmas. They endeavor to create a 'good life' for themselves and their children in a context complicated by competing demands, economic uncertainties, and structured relations of power. Drawing on a year of qualitative on-site research, Krista E. Van Vleet offers a rich ethnography of Palomitáy's young women. She pays particular attention to the moral entanglements that emerge via people's efforts to provide care amid the inequalities and insecurities of today's Peru. State and nonstate participants involved in the women's intimate lives influence how the women see themselves as mothers, students, and citizens. Both deserving of care and responsible for caring for others, the young women must navigate practices interwoven with a range of a racial, gendered, and class hierarchies. Groundbreaking and original, *Hierarchies of Care* highlights the moral engagement of young women seeking to understand themselves and their place in society in the presence of circumstances that are both precarious and full of hope.

What are the most popular names of the Ambo people in Namibia? Why do so many Ambos have Finnish first names? What do the African names of these people mean? Why is the namesake so important in Ambo culture? How did the nation's long struggle for independence affect personal naming, and what are the latest name-giving trends in Namibia? This study analyses the changes in the personal naming system of the Ambo people in Namibia over the past 120 years, starting with 1883, when the first Ambos received biblical and European names on baptism. The central factors in this process were the German and South African colonisation and European missionary work on the one hand, and the rise of African nationalism on the other. Eventually, this clash between African and European naming practices led to a new, dynamic naming system which includes elements of both African and European origin. "Within the field of onomastics, i.e. the scientific study of names, this study is a remarkable and extremely important one. ... I suspect that it will become a major and standard reference work in the future, not only regarding Ambo anthroponymy, but anthroponymy in general, particularly where cultures interact." Professor S. J. Neethling, University of the Western Cape, South Africa

During the past decade a significant international research effort has been directed towards understanding the composition and regulation of the precorneal tear film. This effort has been motivated by the recognition that the tear film plays an essential role in maintaining corneal and conjunctival integrity, protecting against microbial challenge and preserving visual acuity. In addition, research has been stimulated by the knowledge that alteration or deficiency of the tear film, which occurs in countless individuals throughout the world, may lead to desiccation of the ocular surface, ulceration and perforation of the cornea, an increased incidence of infectious disease, and potentially, pronounced visual disability and blindness. To promote further progress in this field of vision research, the International Conference on the Lacrimal Gland, Tear Film and Dry Eye Syndromes: Basic Science and Clinical Relevance was held in the Southampton Princess Resort in Bermuda from November 14 to 17, 1992. This meeting was designed to assess critically the current knowledge and 'state of the art' research on the structure and function of lacrimal tissue and tears in both health and disease. The goal of this conference was to provide an international exchange of information that would be of value to basic scientists involved in eye research, to physicians in the ophthalmological community, and to pharmaceutical companies with an interest in the treatment of lacrimal gland, tear film or ocular surface disorders (e. g. Sjogren's syndrome).

Hierarchies of Care

This book focuses on the archaeology of the hunter-gatherer societies that inhabited Europe in the millennia between the Last Ice Age and the spread of agriculture, between 10,000 and 5,000 years ago. Traditionally viewed as a period of cultural stagnation, new data now demonstrate that this was a period of radical change and innovation. This was the period that witnessed the colonization of extensive new territory at high latitudes and high altitudes following postglacial climatic change, the development of seafaring, and the synthesis of the technological, economic, and social capabilities that underpinned the later development of agricultural and urban societies.
