The House of Impossible Loves

La casa de los amores imposibles / The House of Impossible Love

Una mágica novela sobre las trampas del deseo, la tragedia del amor y los lazos indestructibles de la familia. Las mujeres Laguna han cargado con una terrible maldición desde el principio de su linaje: una tras otra sufren mal de amores y sólo dan a luz niñas que perpetúan esta cruel herencia. Pero cuando después de décadas de pasiones prohibidas y amores trágicos nace el primer varón, se abre la puerta de la esperanza. ¿Será este el fin de la maldición? ENGLISH DESCRIPTION An “exuberant” (El Mundo) debut novel of a family bound by searing passions, an earthy magic, and a very unusual curse The Laguna women suffer from an odd affliction: each generation is condemned to tragic love affairs and to give birth only to girls who are unable to escape the cruel fate of their mothers. One fateful hunting season in their small Castilian town, a young landowner arrives and begins a passionate affair with Clara Laguna, the latest in the family line, daughter of a one-eyed woman known as “the Laguna witch.” He leaves her pregnant with yet another daughter, but the seeds of change are sown. Eventually the long-awaited son—Santiago, the great-great grandson of Clara—is born. A window of hope is opened, but is the curse truly over? Introducing a cast of memorable, eccentric characters from a bearded, mute female cook to the local do-gooding priest and the indelible Laguna women themselves, The House of Impossible Loves is a feat of imaginative storytelling that marks the arrival of a talented new novelist.

Honey on the Page

An unprecedented treasury of Yiddish children's stories and poems enhanced with original illustrations While there has been a recent boom in Jewish literacy and learning within the US, few resources exist to enable American Jews to experience the rich primary sources of Yiddish culture. Stepping into this void, Miriam Udel has crafted an exquisite collection: Honey on the Page offers a feast of beguiling original translations of stories and poems for children. Arranged thematically—from school days to the holidays—the book takes readers from Jewish holidays and history to folktales and fables, from stories of humanistic ethics to multi-generational family sagas. Featuring many works that are appearing in English for the first time, and written by both prominent and lesser-known authors, this anthology spans the Yiddish-speaking globe—drawing from materials published in Eastern Europe, New York, and Latin America from the 1910s, during the interwar period, and up through the 1970s. With its vast scope, Honey on the Page offers a cornucopia of delights to families, individuals and educators seeking literature that speaks to Jewish children about their religious, cultural, and ethical heritage. Complemented by whimsical, humorous illustrations by Paula Cohen, an acclaimed children's book illustrator, Udel's evocative translations of Yiddish stories and poetry will delight young and older readers alike.

The Only Road

"Twelve-year-old Jaime makes the treacherous journey from his home in Guatemala to his older brother in New Mexico after his cousin is murdered by a drug cartel"--

The Inclusionary Turn in Latin American Democracies

This volume analyzes how enduring democracy amid longstanding inequality engendered inclusionary reform in contemporary Latin America.

Epistemologies of the South

This book explores the concept of 'cognitive injustice': the failure to recognise the different ways of knowing by which people across the globe run their lives and provide meaning to their existence. Boaventura de Sousa Santos shows why global social justice is not possible without global cognitive justice. Santos argues that Western domination has profoundly marginalised knowledge and wisdom that had been in existence in the global South. She contends that today it is imperative to recover and valorize the epistemological diversity of the world. *Epistemologies of the South* outlines a new kind of bottom-up cosmopolitanism, in which conviviality, solidarity and life triumph against the logic of market-ridden greed and individualism.

Finding Latinx

Latinos across the United States are redefining identities, pushing boundaries, and awakening political-ly in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how "Latinx" has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

The Smitten Kitchen Cookbook

There is a half-galley kitchen in New York with just a single counter, a tiny stove, pans stacked high in the corner - yet it has conjured up stews and slaws, salsas and pestos, tatins and cheesecakes. All to-die-for. This is Deb Perelman's kitchen. Deb is an ordinary home cook who believes food should be a pleasure and deliciousness a guarantee. So she founded her award-winning blog, where she concocts, tweaks and obsessively tests the best imaginable recipes for the everyday cook.

The Effects of Early Social-Emotional and Relationship Experience on the Development of Young Orphanage Children

Undertaken at orphanages in Russia, this study tests the role of early social and emotion experience in the development of children. Children were exposed to either multiple caregivers who performed routine duties in a perfunctory manner with minimal interaction or fewer caregivers who were trained to engage in warm, responsive, and developmentally appropriate interactions during routine care. Engaged and responsive caregivers were associated with substantial improvements in child development and these findings provide a rationale for making similar improvements in other institutions, programs, and organizations.

Narrow But Endlessly Deep

On 11 September 1973, the Chilean Chief of the Armed Forces Augusto Pinochet overthrew the Popular Unity government of Salvador Allende and installed a military dictatorship. Yet this is a book not of parties or ideologies but public history. It focuses on the memorials and memorialisers at seven sites of torture, extermination, and disappearance in Santiago, engaging with worldwide debates about why and how deeds of violence inflicted by the state on its own citizens should be remembered, and by whom. The sites investigated — including the infamous National Stadium — are among the most iconic of more than 1,000 such sites throughout the country. The study grants a glimpse of the depth of feeling that survivors and the families of the detained-disappeared and the politically executed bring to each of the sites. The book traces their struggle to memorialise each one, and so unfolds their idealism and hope, courage and frustration, their hatred, excitement, resentment, sadness, fear, division and disillusionment. 'This is a beautifully written book, a sensitive treatment of the issues and lives of those who have faced a great deal of loss, most often as unsung heroes, in what are now recognized as Chilean sites of memory. The book is a testament to people who have not been asked to speak, until Peter Read and Marivic Wyndham ask them to tell their stories. They do not shy away from hard tensions about memorialization, the difficulties of challenging a powerful state and the long and arduous struggles to ensure less powerful voices are heard.' — Professor Katherine Hite, Frederick Ferris Thompson Chair of Political Science, Vassar College, USA.

Should We Eat Meat?

Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat's role in human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the "massive carnivory" of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of "rational meat eating", where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. Should We Eat Meat? is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and regulatory and policy making bodies around the world.

Global Trends 2030

This important report, Global Trends 2030-Alternative Worlds, released in 2012 by the U.S. National Intelligence Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional instability in the Middle East and South Asia - new technologies that could solve the problems caused by the

megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system. Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.

Our Lady of Controversy

Months before Alma López's digital collage *Our Lady* was shown at the Museum of International Folk Art in 2001, the museum began receiving angry phone calls from community activists and Catholic leaders who demanded that the image not be displayed. Protest rallies, prayer vigils, and death threats ensued, but the provocative image of la Virgen de Guadalupe (hands on hips, clad only in roses, and exalted by a bare-breasted butterfly angel) remained on exhibition. Highlighting many of the pivotal questions that have haunted the art world since the NEA debacle of 1988, the contributors to *Our Lady of Controversy* present diverse perspectives, ranging from definitions of art to the artist's intention, feminism, queer theory, colonialism, and Chicano nationalism. Contributors include the exhibition curator, Tey Marianna Nunn; award-winning novelist and Chicana historian Emma Pérez; and Deena González (recognized as one of the fifty most important living women historians in America). Accompanied by a bonus DVD of Alma López's *I Love Lupe* video that looks at the Chicana artistic tradition of reimagining la Virgen de Guadalupe, featuring a historic conversation between Yolanda López, Ester Hernández, and Alma López, *Our Lady of Controversy* promises to ignite important new dialogues.

Feminism and the Politics of Childhood

Feminism and the Politics of Childhood offers an innovative and critical exploration of perceived commonalities and conflicts between women and children and, more broadly, between various forms of feminism and the politics of childhood. This unique collection of 18 chapters brings into dialogue authors from a range of geographical contexts, social science disciplines, activist organisations, and theoretical perspectives. The wide variety of subjects include refugee camps, care labour, domestic violence and childcare and education. Chapter authors focus on local contexts as well as their global interconnections, and draw on diverse theoretical traditions such as poststructuralism, psychoanalysis, posthumanism, postcolonialism, political economy, and the ethics of care. Together the contributions offer new ways to conceptualise relations between women and children, and to address injustices faced by both groups. Praise for *Feminism and the Politics of Childhood: Friends or Foes?* 'This book is genuinely ground-breaking.' Val Gillies, University of Westminster 'Feminism and the Politics of Childhood: Friends or Foes? asks an impossible question, and then casts prismatic light on all corners of its impossibility.' Cindi Katz, CUNY 'This provocative and stimulating publication comes not a day too soon.' Gerison Lansdown, Child to Child 'A smart, innovative, and provocative book.' Chandra Talpade Mohanty, Syracuse University 'This volume raises and addresses issues so pressing that it is surprising they are not already at the heart of scholarship.' Ann Phoenix, UCL

State and Nation Making in Latin America and Spain

The growth of institutional capacity in the developing world has become a central theme in twenty-first-century social science. Many studies have shown that public institutions are an important determinant of long-run rates of economic growth. This book argues that to understand the difficulties and pitfalls of state building in the contemporary world, it is necessary to analyze previous efforts to

create institutional capacity in conflictive contexts. It provides a comprehensive analysis of the process of state and nation building in Latin America and Spain from independence to the 1930s. The book examines how Latin American countries and Spain tried to build modern and efficient state institutions for more than a century - without much success. The Spanish and Latin American experience of the nineteenth century was arguably the first regional stage on which the organizational and political dilemmas that still haunt states were faced. This book provides an unprecedented perspective on the development and contemporary outcome of those state and nation-building projects.

Addressing Tipping Points for a Precarious Future

Tipping points are zones or thresholds of profound changes in natural or social conditions with very considerable and largely unforecastable consequences. Tipping points may be dangerous for societies and economies, especially if the prevailing governing arrangements are not designed either to anticipate them or adapt to their arrival. Tipping points can also be transformational of cultures and behaviours so that societies can learn to adapt and to alter their outlooks and mores in favour of accommodating to more sustainable ways of living. This volume examines scientific, economic and social analyses of tipping points, and the spiritual and creative approaches to identifying and anticipating them. The authors focus on climate change, ice melt, tropical forest drying and alterations in oceanic and atmospheric circulations. They also look closely at various aspects of human use of the planet, especially food production, and at the loss of biodiversity, where alterations to natural cycles may be creating convulsive couplings of tipping points. They survey the various institutional aspects of politics, economics, culture and religion to see why such dangers persist.

Networks of Outrage and Hope

Networks of Outrage and Hope is an exploration of the new forms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks supported by the Internet and wireless communication. In this new edition of his timely and important book, Manuel Castells examines the social, cultural and political roots of these new social movements, studies their innovative forms of self-organization, assesses the precise role of technology in the dynamics of the movements, suggests the reasons for the support they have found in large segments of society, and probes their capacity to induce political change by influencing people's minds. Two new chapters bring the analysis up-to-date and draw out the implications of these social movements and protests for understanding the new forms of social change and political democracy in the global network society.

Global Trends 2030

This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

Arts of Living on a Damaged Planet

Living on a damaged planet challenges who we are and where we live. This timely anthology calls on twenty eminent humanists and scientists to revitalize curiosity, observation, and transdisciplinary conversation about life on earth. As human-induced environmental change threatens multispecies livability, Arts of Living on a Damaged Planet puts forward a bold proposal: entangled histories, situated narratives, and thick descriptions offer urgent "arts of living." Included are essays by scholars in anthropology, ecology, science studies, art, literature, and bioinformatics who posit critical and creative tools for collaborative survival in a more-than-human Anthropocene. The essays are organized around two key figures that also serve as the publication's two openings: Ghosts, or landscapes haunted by the violences of modernity; and Monsters, or interspecies and intraspecies sociality. Ghosts and Monsters are tentacular, windy, and arboreal arts that invite readers to encounter ants, lichen, rocks, electrons,

flying foxes, salmon, chestnut trees, mud volcanoes, border zones, graves, radioactive waste—in short, the wonders and terrors of an unintended epoch. A New History of Iberian Feminisms

A New History of Iberian Feminisms is both a chronological history and an analytical discussion of feminist thought in the Iberian Peninsula, including Portugal, and the territories of Spain - the Basque Provinces, Catalonia, and Galicia - from the eighteenth century to the present day. The Iberian Peninsula encompasses a dynamic and fraught history of feminism that had to contend with entrenched tradition and a dominant Catholic Church. Editors Silvia Bermúdez and Roberta Johnson and their contributors reveal the long and historical struggles of women living within various parts of the Iberian Peninsula to achieve full citizenship. A New History of Iberian Feminisms comprises a great deal of new scholarship, including nineteenth-century essays written by women on the topic of equality. By addressing these lost texts of feminist thought, Bermúdez, Johnson, and their contributors reveal that female equality, considered a dormant topic in the early nineteenth century, was very much part of the political conversation, and helped to launch the new feminist wave in the second half of the century.

This Bridge Called My Back

As an overseas department of France, Guadeloupe is one of a handful of non-independent societies in the Caribbean that seem like political exceptions—or even paradoxes—in our current postcolonial era. In *Non-Sovereign Futures*, Yarimar Bonilla wrestles with the conceptual arsenal of political modernity—challenging contemporary notions of freedom, sovereignty, nationalism, and revolution—in order to recast Guadeloupe not as a problematically non-sovereign site but as a place that can unsettle how we think of sovereignty itself. Through a deep ethnography of Guadeloupean labor activism, Bonilla examines how Caribbean political actors navigate the conflicting norms and desires produced by the modernist project of postcolonial sovereignty. Exploring the political and historical imaginaries of activist communities, she examines their attempts to forge new visions for the future by reconfiguring narratives of the past, especially the histories of colonialism and slavery. Drawing from nearly a decade of ethnographic research, she shows that political participation—even in failed movements—has social impacts beyond simple material or economic gains. Ultimately, she uses the cases of Guadeloupe and the Caribbean at large to offer a more sophisticated conception of the possibilities of sovereignty in the postcolonial era.

Working Mother

Ask any woman whose mother has died, and she will tell you that she is irrevocably altered, as deeply changed by her mother's death as she was by her mother's life. Although a mother's mortality is inevitable, no book had discussed the profound, lasting and far-reaching effects of this loss - until *Motherless Daughters*, which became an instant classic. Over twenty years later, it is still the book that women of all ages look to for comfort and understanding when their mothers die, and the book that they continue to press into each other's hands. Building on interviews with hundreds of mother-loss survivors, the author's personal story of losing her mother and recent research in grief and psychology, *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women.

***** 'Motherless Daughters is a timeless source of consolation and information for all who grieve the death of their mother. It highlights that we bear this loss by remembering, not forgetting our mother.' JULIA SAMUEL, author of *Grief Works* 'Anyone who has lost their mother should read this remarkable, tender book, full of insight and consolation. This is one of those exceptional books that has the power to change your life.' CLOVER STROUD, author of *The Wild Other* 'Nothing has helped me make more sense of myself than *Motherless Daughters*; it's the book I go back to again and again, and find something new in it every time.' DECCA AITKENHEAD 'Intelligent, brave, consoling and wise . . . an essential and illuminating must-read for anyone who has lost a mother or loves someone who did.' CHERYL STRAYED, author of *Wild* 'This book has helped me heal my heart. Finding myself in the stories of other motherless daughters let me know I was not alone. If you have lost your mom - this book is essential.' ROSIE O'DONNELL 'Absorbing . . . insightful . . . a moving and valuable treatment of a neglected subject.' NEW YORK TIMES BOOK REVIEW

Motherless Daughters

JANUARY 1 CURRENT STATUS: No job, no boyfriend, no permanent place to live, no car, and most of my clothes are held together with staples and duct tape. Bank account almost wiped out. Many of my former associates have expressed a desire that I never darken their doorways again for legal and financial reasons. She-Hulk got us got us kicked out of the Avengers Mansion. People keep posting videos online of her New Year's Eve shenanigans: twirling flaming telephone poles in Times Square, climbing the Empire State Building while dangling Anderson Cooper, dancing wildly at parties, and commandeering a motorcycle cop's ride to do wheelies across the Brooklyn Bridge. Saying there are two sides to Jennifer Walters's personality is an understatement. When she hasn't morphed into a 650-pound, crime-fighting, hard-partying superhero, she's a single lawyer trying to get her act together. Hilarious and action-packed, *The She-Hulk Diaries* tells her story, as she juggles looking for Mr. Right and climbing the corporate ladder by day with battling villains and saving the world by night. Maybe she'll finally take on a case that will define her career. Maybe she won't meet one Mr. Right, but two, and she'll have to choose. Maybe bad guys will stop trying to destroy the planet so she can read her Perez Hilton in peace.
