La tua vita e la mia

Federico ha quasi diciassette anni, vive in una bella casa a Busto Arsizio, i suoi genitori sono stimati professionisti, frequenta il Classico e trascorre il tempo libero tra l'oratorio San Filippo, le feste con gli amici e il cazzeggio sui social. Sempre a cavallo della sua inseparabile Graziella, ereditata dalla nonna. Riccardo i diciotto li ha già compiuti, vive in una zona popolare di Busto e la scuola l'ha lasciata. Non

ha mai conosciuto il padre, la mamma è ricoverata in un centro tumori, ha una sorellina di sette anni che adora - ricambiato - e della quale deve prendersi cura. Per aiutare la famiglia con i soldi fa il rider ma, quando capisce che ancora non basta, entra in brutti giri. Niente calcio, niente PlayStation, non ha né il tempo né la testa. Non si fida di nessuno perché nessuno gli ha mai fatto dono di niente. Due così dovrebbero cordialmente detestarsi (soprattutto se si innamorano della stessa ragazza, che sceglie Riccardo), e infatti è proprio quello che succede. Solo che poi don Andrea, il giovane parroco di San Filippo che gira in centro su un monoruota elettrico e che non disdegna Instagram per parlare al cuore dei suoi ragazzi, ci mette lo zampino. E forse non solo lui. Tra mille diffidenze reciproche, Federico e Riccardo iniziano a scrutarsi, poi si avvicinano, infine diventano amici inseparabili. Ma lo saranno per sempre? Don Alberto Ravagnani, divenuto popolare sui social per i suoi video su YouTube che parlano di fede, ci consegna una storia sincera, divertente e dura allo stesso tempo, che ha scritto grazie alla sua esperienza di vita tra i ragazzi e a una capacità unica di raccontare il loro mondo.

Brotherhood Of The Grape

Henry Molise, a fifty-year-old successful writer, returns to the family home to help with the latest drama; his elderly parents want to divorce. Henry's tyrannical, bricklaying father, Nick, despite being weakened by age and alcoholism, can still strike fear into the hearts of his sons. His mother, ill and devoutly Catholic, still has the power both to comfort and confuse her children. Nick has been offered some well-paid work to build a smokehouse in the hills, and Henry, realising this might be the last chance they have to reconcile things, agrees to lend a hand. What he doesn't appreciate is how much this journey is going to change his view of his father. The Brotherhood of the Grape is vintage Fante, brimming with love, death, violence and religion. Writing with great passion, Fante powerfully describes the damage that family can wreak upon us all.

Focusing on deep conflicts between the medical establishment and the working class, Martha Balschem chronicles a health education project in "Tannerstown," a pseudonym for a blue-collar neighborhood in northeast Philadelphia.

Cancer in the Community

This book puts immigration in the context of a new global economy, where increasing movement is vital if the West is to advance and the poor of the world are to grow richer. He argues that few of the fears about immigration are justified.

Wind energy is often portrayed as a panacea for the environmental and political ills brought on by an overreliance on fossil fuels, but this characterization may ignore the impact wind farms have on the regions that host them. Power Struggles investigates the uneven allocation of risks and benefits in the relationship between the regions that produce this energy and those that consume it. Jaume Franquesa considers Spain, a country where wind now constitutes the main source of energy production. In particular, he looks at the Southern Catalonia region, which has traditionally been a source of energy production through nuclear reactors, dams, oil refineries, and gas and electrical lines. Despite providing energy that runs the country, the region is still forced to the political and economic periphery as the power they produce is controlled by centralized, international Spanish corporations. Local resistance to wind farm installation in Southern Catalonia relies on the notion of dignity: the ability to live within one's means and according to one's own decisions. Power Struggles shows how, without careful attention, renewable energy production can reinforce patterns of exploitation even as it promises a fair and hopeful future.

La Nuova Italia

A private meeting, chance encounters, and a mysterious tour of Lisbon, in this brilliant homage to Fernando Pessoa. In this enchanting and evocative novel, Antonio Tabucchi takes the reader on a dream-like trip to Portugal, a country he is deeply attached to. He spent many years there as director of the Italian Cultural Institute in Lisbon. He even wrote Requiem in Portuguese; it had to be translated into Italian for publication in his native Italy. Requiem's narrator has an appointment to meet someone on a quay by the Tagus at twelve. But, it turns out, not twelve noon, twelve midnight, so he has a long

time to while away. As the day unfolds, he has many encounters—a young junky, a taxi driver who is not familiar with the streets, several waiters, a gypsy, a cemetery keeper, the mysterious Isabel, an accordionist, in all almost two dozen people both real and illusionary. Finally he meets The Guest, the ghost of the long dead great poet Fernando Pessoa. Part travelog, part autobiography, part fiction, and even a bit of a cookbook, *Requiem* becomes an homage to a country and its people, and a farewell to the past as the narrator lays claim to a literary forebear who, like himself, is an evasive and many-sided personality.

The New Untouchables

Are minor languages the lifeblood of cherished local identities or just passports with restricted validity, serving no purpose in today's transnational, global world? Italy's north-eastern region of Friuli is a case in point: in this area, around half a million people speak Friulian, a Romance language of the Rhaeto-Romance family, which is attested to in written texts since 1150 and acquired official minority language status in 1999. Geographically and politically off-centre, Friuli remained isolated for a long part of its history and developed a unique language that sustained a distinctive identity and culture. Starting from the nineteenth century, large-scale migration towards Northern Europe and the Americas brought Friulian into contact with other languages and contexts of use. The *Friulian Language: Identity, Migration, Culture* is the first comprehensive study in English of this little-known language to consider its history and the variety of its cultural manifestations from antiquity to the present day. The volume gathers together the work of ten contributors who are specialists in the fields of history (Fulvio Salimbeni), law (William Cisilino), linguistics (Paola Benincà, Franco Finco, Fabiana Fusco and Carla Marcato), literary studies (Rosa Mucignat and Rienzo Pellegrini), and migration (Javier P. Grossutti and Olga Zorzi Pugliese). The focus of the book is on Friulian, its varieties, its linguistic characteristics and its use in literature from fourteenth-century ballads to Pier Paolo Pasolini, and more recent poetry by Novella Cantarutti and others. Equal attention is given to the Friulians themselves, the social and political transformations of the region, and the experience of migration, in particular the case of high-skilled mosaic craftsmen from the Alpine foothills. Thanks to its multidisciplinary approach, the book sheds light on the questions of why Friulian has developed the way it has, what its significance as a minor language is, and how it can negotiate its relationship to other languages on a global scale.

author: Franz Kafka
Georg stand knapp neben seinem Vater, der den Kopf mit dem struppigen weißen Haar auf die Brust hatte sinken lassen. »Georg«, sagte der Vater leise, ohne Bewegung. Georg kniete sofort neben dem Vater nieder, er sah die Pupillen in dem müden Gesicht des Vaters übergroß in den Winkeln der Augen auf sich gerichtet. »Du hast keinen Freund in Petersburg. Du bist immer ein Spaßmacher gewesen und hast dich auch mir gegenüber nicht zurückgehalten. Wie solltest du denn gerade dort einen Freund haben! Das kann ich gar nicht glauben.

La domenica del Corriere supplemento illustrato del Corriere della sera

Socio-economic inequalities in health are present to a greater or lesser extent in all European countries and the available data suggests that the health gap is increasing. Many studies have been conducted to explain inequalities in health and from them much has been learnt about the different contributory factors. However, in practice it seems hard to translate the knowledge of causes into effective interventions and policies. *Reducing Inequalities in Health: a European Perspective*: * brings together an unrivalled collection of contemporary data on successful policies and interventions * compares differences in approach in several European countries * includes recent evaluation studies * discusses conceptual issues for research * provides examples of good and bad practice in Europe * draws out the policy and research implications for the future With contributions from leading researchers in 14 different European countries, this book provides a comprehensive source of reference for the reader interested in what really works in the field of health promotion and what sort of policies reduce the health gap.

Requiem: A Hallucination

A woman returns to South America to enjoy restored democracy, only to learn from her maid that she must not read newspapers because thinking is banned, should not open the windows because the army is holding maneuvers, can't have breakfast because it was stolen, and so on. Political satire by an Argentine writer, author of *Black Novel*.

That's right, you already know Italian--even if you never took a language course in your life! Many of the words you know in English are similar and often the same in Italian, such as *arte* and *delizioso*. And *pizza*, *bambino*, and *diva* have been part of our lexicon for so long you forget they were ever "foreign." *You Already Know Italian* is the easiest and fastest way to build your Italian vocabulary by using your prior knowledge as the foundation for language learning. Inside you will find chapters devoted to three types of words: familiar terms, identical and similar terms, and "falsely similar" terms. By studying these words, you will realize just how many Italian words you already know and how easy it is to pick up those terms that are close in meaning to their English counterparts. You will have a 5,000-word Italian vocabulary in no time at all! Look how much Italian vocabulary you already know: Familiar Italian terms: *Amore*--Love *Bandito*--Outlaw *Ciao*--Hello *Pasta*--Pasta *Simpatico*--Agreeable *Vino*--Wine Italian words identical or similar to English ones: *Computer*--Computer *Jazz*--Jazz *Leader*--Leader *Quota*--Quota *Uso*--Use *Virus*--Virus But beware these falsely similar words: *Ago*--Needle *Camera*--Room *Fatto*--Fact *Salto*--Jump *Stare*--To stand *Villano*--Inconsiderate

The Friulian Language

This is the first volume specifically dedicated to competition in inflection and word-formation, a topic that has increasingly attracted attention. Semantic categories, such as concepts, classes, and feature bundles, can be expressed by more than one form or formal pattern. This departure from the ideal principle "one form – one meaning" is particularly frequent in morphology, where it has been treated under diverse headings, such as blocking, Elsewhere Condition, P Gini's Principle, rivalry, synonymy, doublets, overabundance, suppletion and other terms. Since these research traditions, despite the heterogeneous terminology, essentially refer to the same underlying problems, this volume unites the phenomena studied in this field of linguistic morphology under the more general heading of competition. The volume features an extensive state of the art report on the subject and 11 research papers, which represent various theoretical approaches to morphology and address a wide range of aspects of competition, including morphophonology, lexicology, diachrony, language contact, psycholinguistics, sociolinguistics and language acquisition.

Narrative tra due sponde

Women's Oral History: The "Frontiers" Reader is an essential guide to the practice of gathering and interpreting women's oral accounts of their lives. During the 1970s, when women's history was just developing, the lack of historical information about women's lives was glaring. Oral history quickly emerged as a vital and necessary tool for documenting the lives and experiences of women, who rarely recorded it for themselves?much less for posterity. Standard models of practicing oral history, however, were inadequate to the job of organizing and interpreting women's lives, and new models that addressed the distinctiveness of the lives of women?in all of their diversity?were needed. As one of the earliest journals devoted to feminist scholarship in the United States, *Frontiers: A Journal of Women Studies* was in the vanguard of the emerging field of women's oral history when it published its first landmark issue on the subject in 1977. Three subsequent issues exploring the evolving field has secured *Frontiers'* reputation at the forefront of women's oral history. *Women's Oral History* includes nineteen essays, each addressing the particularity of women's lives and experience. The collection provides both "how to" interview guides and examples of current research in sections covering basic methodology and rationale; the myriad uses of women's oral history; and discoveries and insights gained from oral history applications. The essays raise thought-provoking questions, glean original insights about the lives of women and the practice of history, and call for women to write and record their own histories.

The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of

colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

Reducing Inequalities in Health

This book explores the topic of teacher cognition, making use of sociocultural theory as a framework to understand what teachers know, think, believe and do in their professional contexts through 'applied' conversation analysis. The author examines what teaching and learning mean to teachers by analyzing the interactional work they do with their students, considering when and why teachers make interactive decisions as well as how they utilize new technological tools to address their pedagogical objectives. After discussing how teachers construct identities and display emotions in the classroom, she presents suggestions for language teacher education and development, pedagogy improvement and teacher knowledge. This book will be of interest to language teachers and teacher trainers, as well as students and scholars of applied linguistics and sociocultural theory.

Poems deal with the ethical need to discover and portray the truth, the power of propaganda, and the experience of political repression.

'My father and I head towards a nervous breakdown as he attempts to erase three years of Communist indoctrination in the course of a single evening. I simply cannot comprehend that Lenin, the friend of all children, is now allegedly an arsehole.' When seven-year-old Mischka and her family flee the oppressive USSR for the freedom of Vienna, her world seems to divide neatly in two: there's life as she knew it before, and life as she must relearn it now. But even as she's busy dressing her new Barbie, perfecting her German and gorging on fresh fruit, Mischka is aware that there's part of her that can never escape her homeland, with its terrifying folktales, its insidious anti-Semitism and its old family secrets. As her parents' marriage splinters and her sister retreats into silence, Mischka has to find her own way of living when her head and her heart are in two places at once. There is darkness galore in this novel. But there is also much comedy to be had in its twisted enchanted tales. It is as seductive and unsettling as similar work by Angela Carter or Margaret Atwood, while it shares a geography with *Everything Is Illuminated* and *If I Told You Once*.

Competition in Inflection and Word-Formation

A dozen years after his last visit, Jeebleh returns to his beloved Mogadiscio to see old friends. He is accompanied by his son-in-law, Malik, a journalist intent on covering the region's ongoing turmoil. What greets them at first is not the chaos Jeebleh remembers, however, but an eerie calm enforced by ubiquitous white-robed figures bearing whips. Meanwhile, Malik's brother, Ahl, has arrived in Puntland, the region notorious as a pirates' base. Ahl is searching for his stepson, Taxliil, who has vanished from Minneapolis, apparently recruited by an imam allied to Somalia's rising religious insurgency. The brothers' efforts draw them closer to Taxliil and deeper into the fabric of the country, even as Somalis brace themselves for an Ethiopian invasion. Jeebleh leaves Mogadiscio only a few hours before the borders are breached and raids descend from land and sea. As the uneasy quiet shatters and the city turns into a battle zone, the brothers experience firsthand the derailments of war. *Crossbones* is a fascinating look at individuals caught in the maw of zealotry, profiteering and political conflict, by one of Africa's most highly acclaimed international writers.

Women's Oral History

Carl Schmitt's magnum opus, *Constitutional Theory*, was originally published in 1928 and has been in print in German ever since. This volume makes Schmitt's masterpiece of comparative constitutionalism

available to English-language readers for the first time. Schmitt is considered by many to be one of the most original—and, because of his collaboration with the Nazi party, controversial—political thinkers of the twentieth century. In *Constitutional Theory*, Schmitt provides a highly distinctive and provocative interpretation of the Weimar Constitution. At the center of this interpretation lies his famous argument that the legitimacy of a constitution depends on a sovereign decision of the people. In addition to being subject to long-standing debate among legal and political theorists in Western Europe and the United States, this theory of constitution-making as decision has profoundly influenced constitutional theorists and designers in Asia, Latin America, and Eastern Europe. *Constitutional Theory* is a significant departure from Schmitt's more polemical Weimar-era works not just in terms of its moderate tone. Through a comparative history of constitutional government in Europe and the United States, Schmitt develops an understanding of liberal constitutionalism that makes room for a strong, independent state. This edition includes an introduction by Jeffrey Seitzer and Christopher Thornhill outlining the cultural, intellectual, and political contexts in which Schmitt wrote *Constitutional Theory*; they point out what is distinctive about the work, examine its reception in the postwar era, and consider its larger theoretical ramifications. This volume also contains extensive editorial notes and a translation of the Weimar Constitution.

On December 7, 2010, Mario Vargas Llosa was awarded the Nobel Prize in Literature. His Nobel Lecture is a resounding tribute to fiction's power to inspire readers to greater ambition, to dissent, and to political action. "We would be worse than we are without the good books we have read, more conformist, not as restless, more submissive, and the critical spirit, the engine of progress, would not even exist," Vargas Llosa writes. "Like writing, reading is a protest against the insufficiencies of life. When we look in fiction for what is missing in life, we are saying, with no need to say it or even to know it, that life as it is does not satisfy our thirst for the absolute—the foundation of the human condition—and should be better." Vargas Llosa's lecture is a powerful argument for the necessity of literature in our lives today. For, as he eloquently writes, "literature not only submerges us in the dream of beauty and happiness but alerts us to every kind of oppression."

Report from the Besieged City & Other Poems

The small but tenacious Italian community of Brisbane ... that definition, taken from *Il Giornale Italiano* of 22 November 1933, is perhaps the one which best clarifies the identity of Italians living in Brisbane between 1870 and 1940. Although that community cannot in any way compare with those of Melbourne and Sydney in size, for tenacity it is second to none. From the beginning, in fact, it consisted of courageous and enterprising people who left a profound mark on the history of the Queensland capital.
