There's a wolf in Grandma's bed!

This is Little Red Riding Hood.

She always wears a pretty red cape.

One day, her mother says

Please go to Grandma's house Take this basket.

Suddenly, there is a wolf.

I have apples. I have bananas. And I have strawberries.

Where does your Grandma live? asks the wolf.

She lives at the end of the road. says Red

Hmm. Does she live alone asks the wolf.

"Pick some flowers for her. She'll like that" says the wolf.

Red picks flowers by the path.

While Red picks flowers, the wolf runs to Grandma's house.

He puts on Grandma's pajamas and cap.

He lies down in Grandma's bed.

The wolf jumps up!

Suddenly, Grandma arrives.

The Unbearable Bassington

"The Unbearable Bassington" by Saki (the pen-name of H. H. Munro) is one of many examples of the author's witty, bizarre, and perhaps a bit cynical writing style. Power Play

The fully revised and updated version of this classic text examines the link between three key obsessions of the 21st century: the media, sport and popular culture. Gathering new material from around the 2007 Rugby World Cup, the Beijing Olympics and the rise of new sports stars such as boxing's Amir Khan and cycling's Victoria Pendleton, the authors explore a wide range of sports, as well as issues including nationalism, gender, race, political economy and the changing patterns of media sport consumption. For those interested in media and sport the second edition combines new and original material with an overview of the developing field of media sport, and examines the way in which the media has increasingly come to dominate how sport is played, organized and thought about in society. It traces the historical evolution of the relationship between sport and the media and examines the complex business relationships that have grown up around television, sponsors and sport. Covers the following topics: the history of media in sport; television, sport and sponsorship; why sport matters to television; sports stars; sports journalism; fans and the audience; sport in the digital media economy.

The Terrible Old Man

"The Terrible Old Man" is a short story by H. P. Lovecraft, written on January 28, 1920, and first published in the *Tryout*, an amateur press publication, in July 1921. The Terrible Old Man is a strange elderly man "so old that no one can remember when he was young, and so taciturn that few know his real name". He lives alone in an ancient house on Water Street in the town of Kingsport. The Terrible Old Man reappears in the story "The Strange High House in the Mist" in a more benevolent role.

God of the Machine

The God of the Machine presents an original theory of history and a bold defense of individualism as the source of moral and political progress. When it was published in 1943, Isabel Paterson's work provided fresh intellectual support for the endangered American belief in individual rights, limited government, and economic freedom. The crisis of today's collectivized nations would not have surprised Paterson; in *The God of the Machine*, she had explored the reasons for collectivism's failure. Her book placed her in the vanguard of the free-enterprise movement now sweeping the world. Paterson sees the individual creative mind as the dynamo of history, and respect for the individual's God-given rights as the precondition for the enormous release of energy that produced the modern world. She sees capitalist institutions as the machinery through which human energy works, and government as a device properly used merely to cut off power to activities that threaten personal liberty. Paterson applies her general theory to particular issues in contemporary life, such as education, social welfare, and the causes of economic distress. She severely criticizes all but minimal application of government, including governmental interventions that most people have long taken for granted. *The God of the Machine* offers a challenging perspective on the continuing, worldwide debate about the nature of freedom, the uses of power, and the prospects of human betterment. Stephen Cox's substantial introduction to *The God of the Machine* is a comprehensive and enlightening account of Paterson's colorful life and work. He describes *The God of the Machine* as "not just theory, but rhapsody, satire, diatribe, poetic narrative." Paterson's work continues to be relevant because "it exposes the moral and practical failures of collectivism, failures that are now almost universally acknowledged but are still far from universally understood."

The Hunt for Zero Point

This riveting work of investigative reporting and history exposes classified government projects to build gravity-defying aircraft—which have an uncanny resemblance to flying saucers. The atomic bomb was not the only project to occupy government scientists in the 1940s. Antigravity technology, originally spearheaded by scientists in Nazi Germany, was another high priority, one that still may be in effect today. Now for the first time, a reporter with an unprecedented access to key sources in the intelligence and military communities reveals suppressed evidence that tells the story of a quest for a discovery that could prove as powerful as the A-bomb. *The Hunt for Zero Point* explores the scientific speculation

that a "zero point" of gravity exists in the universe and can be replicated here on Earth. The pressure to be the first nation to harness gravity is immense, as it means having the ability to build military planes of unlimited speed and range, along with the most deadly weaponry the world has ever seen. The ideal shape for a gravity-defying vehicle happens to be a perfect disk, making antigravity tests a possible explanation for the numerous UFO sightings of the past 50 years. Chronicling the origins of antigravity research in the world's most advanced research facility, which was operated by the Third Reich during World War II, *The Hunt for Zero Point* traces U.S. involvement in the project, beginning with the recruitment of former Nazi scientists after the war. Drawn from interviews with those involved with the research and who visited labs in Europe and the United States, *The Hunt for Zero Point* journeys to the heart of the twentieth century's most puzzling unexplained phenomena.

The Lost Heir (Wings of Fire #2)

Internationally renowned sociologist Arthur J. Vidich (1922-2006) was an active researcher and teacher whose career spanned the second half of the twentieth century. With a Critical Eye: An Intellectual and His Times recounts Vidich's career in the wider cultural context of his life and work. Providing a window into post-World War II intellectual life, the richness of the autobiography lies not only in Vidich's perspectives on the academic world but also in his personal and sociological observations about the world around him. Best known for his book Small Town in Mass Society (co-authored with Joseph Berman, 1958), Vidich taught for more than forty years at the New School for Social Research in New York. He published eighteen books, co-edited a book series with Robert Jackall, and was the founding editor of the International Journal of Politics, Culture, and Society. Vidich "provides a valuable lens ... on a profoundly important time in the formation of the modern social sciences, when the changes in the U.S. were having formative impacts on academe in other parts of the world," writes Robert J. Antonio, professor of sociology at the University of Kansas. "The autobiography is lucidly and unpretentiously written." Book jacket.

NEW YORK TIMES BESTSELLER • The riveting inside story of three heroic astronauts who took on the challenge of mankind's historic first mission to the Moon, from the bestselling author of *Shadow Divers*. "Robert Kurson tells the tale of Apollo 8 with novelistic detail and immediacy."—Andy Weir, #1 New York Times bestselling author of *The Martian* and *Artemis* By August 1968, the American space program was in danger of failing in its two most important objectives: to land a man on the Moon by President Kennedy's end-of-decade deadline, and to triumph over the Soviets in space. With its back against the wall, NASA made an almost unimaginable leap: It would scrap its usual methodical approach and risk everything on a sudden launch, sending the first men in history to the Moon—in just four months. And it would all happen at Christmas. In a year of historic violence and discord—the Tet Offensive, the assassinations of Martin Luther King, Jr., and Robert Kennedy, the riots at the Democratic National Convention in Chicago—the Apollo 8 mission would be the boldest, riskiest test of America's greatness under pressure. In this gripping insider account, Robert Kurson puts the focus on the three astronauts and their families: the commander, Frank Borman, a conflicted man on his final mission; idealistic Jim Lovell, who'd dreamed since boyhood of riding a rocket to the Moon; and Bill Anders, a young nuclear engineer and hotshot fighter pilot making his first space flight. Drawn from hundreds of hours of one-on-one interviews with the astronauts, their loved ones, NASA personnel, and myriad experts, and filled with vivid and unforgettable detail, *Rocket Men* is the definitive account of one of America's finest hours. In this real-life thriller, Kurson reveals the epic dangers involved, and the singular bravery it took, for mankind to leave Earth for the first time—and arrive at a new world. "Rocket Men is a riveting introduction to the [Apollo 8] flight. . . . Kurson details the mission in crisp, suspenseful scenes. . . . [A] gripping book."—The New York Times Book Review

The Changeling War

A war of the worlds has begun. One world, Earth, teems with life and technology, the other called Castle is a twisting maze of empty space and interconnected dwellings.

The Changeling War

Earth, teeming with life and technology, is about to meet the Castle, another world that is a twisting maze of interconnected dwellings and empty space.

The Changeling War

Two worlds. One teems with life and technology. It is called Earth. The other is a twisting maze of inter-connected dwellings and empty space. It is called the Castle. Both worlds know violence. Both know greed. And now, in our time, they are about to meet... May the best world win. From the powerful imagination of author Craig Shaw Gardner comes the tale of a sixteen-year-old Earth boy who does not yet know he is from another world—a Changeling, switched with a human child when he was still an infant. Nor does he know that he is about to be plunged into a war that will not only determine the future of Earth, his adoptive home, but also the strange world where he was born. Murder and magic. Treachery and terror. It is time to fight The Changeling War.

Isle of Winds

Isle of Winds is an engrossing high fantasy tale, following the adventures of Robin, a seemingly unremarkable boy who is swept up into a war between our world, and the Netherworld, a shadowy realm which lies beyond our own.

Return of the Changeling

The family's connection was so deep it undermined the Werewytch's reign. So, banished and brain-washed they spent cold decades apart, a lifetime in the dark. Then, at the thinning of the veil between the world of the fae and mankind, fate set them on a course for unification. It also became a date with an evil destiny far more powerful than they could imagine. This is the third book in The Changeling Saga, a story of magick and mystery. The series follows an enchanted Cornish dynasty as they uncover enemies, challenges, powers, artefacts and allies in a war against a toxic pandemic that transcends countries, continents and worlds.

With a little help from the Wise Man of Wistman's Wood, his eyes are opened to the secrets of the moors. And even when he is forced to leave his forest for Victorian London, his forest never leaves him...

“Funny, exciting, and ultimately epic. Wow. I can’t wait for the next one.” —Adam Gidwitz, author of the New York Times bestseller *A Tale Dark and Grimm* “Set in a magical world filled with incredible creatures from folklore, this fast-paced fantasy will keep readers turning the pages . . . A captivating series opener.” —Booklist, starred review *Magic is fading from the Wild Wood*. But when the night arrives to trade a human baby for a goblin one, something goes terribly wrong. After laying the changeling in a human infant’s crib, the goblin Kull is briefly distracted. By the time he turns back, the changeling has already perfectly mimicked the human child. Too perfectly: Kull cannot tell them apart, so he leaves both babies behind. Tinn and Cole are raised as human twins, neither knowing what secrets may be buried deep inside one of them. When they are thirteen years old, a mysterious message arrives, calling the brothers to be heroes and protectors of magic. The boys must leave their sleepy town and risk their lives in the Wild Wood, journeying through the Deep Dark to reach the goblin horde and uncover who they truly are. In this first book in a new fantasy-adventure series, the New York Times bestselling author of *Jackaby* takes readers on a journey of monsters, magic, and discovery.

The Changeling

Tethra is not like the other children in his village. Fourteen years ago, he was left on the banks of a river, swapped by the Hill Folk for a human woman's child, replacing the seventh son of Conan. Murna chose to raise him as her own, despite the dire warnings of their village leader. Raising a child of the Hill Folk will bring disaster upon the Epidii people. The dark days have arrived, bringing a poor harvest, a winter of plagues, and unsuccessful hunts. The Old One once again rallies the clan to cast Tethra out, this time with support turning against Tethra and Conan. To spare his father, Tethra runs away, and stumbles across some members of the Hill Folk, his own people, who take him in. As Tethra lives among them, however, he must decide if he is truly one of them, as his blood suggests, or if instead his real place is with the Epidii.

The Changeling

The full power of the freezing water crashed into them, knocking them off their feet, snatching Tara's breath away. She managed to hook one arm around the handrail, trying her best to hold onto Lucy with the other. As one side of the bridge collapsed, Lucy's feet scrabbled to keep a footing, but she slipped down the wooden planks. Tara lost her grip, but managed to grab Lucy's hand as she held it out. She was left dangling over the water. 'I can't hold on, Tara. Don't let me fall! Please don't let go!' Lucy begged, her hand beginning to slip from Tara's. There was no time to think. 'No, I won't let you go, Lucy.' With that, Tara let go of the handrail and they plunged together into the raging torrent. Tara realises there is something strange about herself when every time she goes into water her fingers begin to web and legs feel funny. But then her sister Niamh is a changeling, a fairy child exchanged for a human child ten years before. Now it's time for Niamh to return to her own world, and Tara and friends, Lucy and Jared, intend to go with her.

The Changeling: The Second Book of the Fey

Peter, a thirteen-year-old loner, is forced by his mother in England to spend two weeks of holiday with his recently widowed aunt on the Irish island of Inishbofin, or the Island of the White Cow. On the ferry across, he meets Siobhan. She's a year older. The island is suddenly struck by two tragedies, as two islanders have gone missing. On a walk, Peter meets two small men, who turn out to be the Irish fairy leprechauns. They inform Peter and Siobhan that they too are changelings, having been substituted at birth for normal babies. It is a time of great evil, and the Miasma of Evil is moving on to God-fearing citizens. The Miasma has recruited the terrifying Irish fairy horses, or Dullaghans, with their headless black riders. Peter and Siobhan become leaders in the fight, together with historic characters, including the sixteenth-century female pirate Grace O'Malley. They are transported by a Time Rail, which places them in the sixteenth century, where Peter has to rescue himself from Grace's pirates. The battle against the dreaded Miasma is getting close. Siobhan is found to be the incarnation of one of the Irish fairy's greatest warriors from the past. In a frightening climb on a storm-ravaged rock in the ocean, Peter has to rescue a magic harp to help defeat the evil invaders. Merriline, the great wizard, is seeking books of necromancy and their spells to defeat the Miasma. Siobhan has to fight the Miasma chief.

Changelings at Odds

Surprising, shocking, and powerfully written, New York Times bestselling author Kristine Kathryn Rusch's *The Changeling* continues the thrilling saga of the quest for power fought over generations. The hard-won peace on Blue Isle rests on an uneasy truce. But a stunning series of betrayals shatter not only that truce, but also any hope for the peaceful coexistence of the warrior Fey and the people of Blue Isle. In a pulse-pounding tour de force, where it becomes impossible to tell hero from villain, Kristine Kathryn Rusch's brilliant storytelling questions not only the balance of power, but the very nature of power itself. From a surprising opening salvo to a twist so powerful the rest of the series hinges on that one moment, this stunning masterpiece of shocking betrayal and heartbreaking loss furthers Rusch's mastery as the greatest storyteller of our time.
