### The Covid Bounce

Healing from a life-changing crisis can be an incredible struggle, and recovering from a globally traumatic event like the Covid-19 pandemic might seem nearly insurmountable. But in truth, each person holds the power to internalize new life lessons and emerge from the pandemic stronger than before. This book provides the knowledge and tools for looking inward, assessing personal transitions spurred by the coronavirus and paving the way for a brighter post-pandemic life. Written by a behavioral therapist, this book is divided into three sections that address different psychological responses to Covid-19. Sections provide insights on mindfulness, journaling, communication skills, support systems and the importance of rituals and routines. An emphasis is placed on managing both physical and mental health and navigating pitfalls that can impact personal progress. A special section on the pandemic's effect on children and adolescents explores how caregivers can manage their own emotional responses. Finally, the book concludes with a straightforward recovery process that will provide renewal and purpose in the face of life's uncertainties.

When writing workshops first blossomed in classrooms, its hallmarks were genuine curiosity, individual choice, quality conversations, and engaging children's literature. A joyous hum of intention, creativity, and craft enlivened the school day. Today's teachers are often faced with a range of obstacles, as new initiatives are embraced, mandates handed down, and scripted programs are purchased. Sometimes teachers must sacrifice the original principles of the writing workshop and lose the creative venue they provide. Above and Beyond the Writing Workshop is filled with original writing challenges designed to bring back the spirit of the original writing workshop model and encourage teachers to enhance it with invention, innovation, and inspiration. Teaching creative writing is not only possible,

but an important process in their instruction. Author Shelley Harwayne invites teachers to keep the workshop spirit alive by: Encouraging professional conversations on classroom ideas and methods between colleagues; Developing writing cues that allow young writers to be inquisitive, outspoken, and independent; Showing how high quality writing can make a difference; Offering an inspired and stimulating outlet for students to express their passions. Harwayne's book will help teachers encourage students to write the world around them, which can generate more critical thinking and make for a more well-rounded child.
