Occupy Spoon River

The dead arise from their sleep in the cemetery of a small town to tell their individual stories about an entire community caught in a web of scandal, sin, and vice in the early twentieth century

Spoon River Anthology

As the first full-length critical study of Edgar Lee Masters, *Beyond Spoon River* is important not only for its reevaluation of this American poet and his work but also for its valuable insights into central questions of aesthetics, regionalism, and the nature and meaning of literary influence. The inordinate popularity of *Spoon River Anthology* has for many years unfairly restricted Masters' reputation as a "one-book phenomenon," although between 1911 and 1942 he wrote over fifty other books—most of which were neglected or misinterpreted precisely because they attempted a large-scale rewriting of what he felt had been obscured or distorted in the Anglo-American tradition. Masters' wide reading in the whole of western literature shaped his own attitudes, themes, and style, and his detailed accounts of that reading and its effect on his work form the basis for this reinterpretation of his place in American poetry in this century. After reviewing Masters' own statements on literary influence and his role as a critic, Primeau devotes the main body of his study to the major influences on Masters' work—the Greeks, Goethe, Emerson, Whitman, Shelley, and Browning. For Masters, the composite of all these influences provided a corrective to the poetry and criticism of his time, which he little admired. Primeau concludes by exploring Masters' midwestern heritage in the light of recent reinterpretations of regionalism.

Soil Report

From the fall of Cahokia in the early fourteenth century to the ascendancy of the young United States in the early nineteenth century, Jacob Lee reinterprets the history of early North America by tracing the key role major midcontinental rivers and social networks played in linking Indian nations and European empires in a long, shared history of conquest and resistance. Long before Europeans set foot on the shores of North America, Siouan peoples from the Great Plains, Algonquians from the Great Lakes, and Muskogean from the South traded with and fought each other in the heart of the midcontinent. Starting in the early 1600s, the Illinois became the dominant power in the region, constructing a network of allies that stretched from Lake Superior to Arkansas. They were at the height of their power in 1673 when the first French explorers, Jolliet and Marquette, appeared in the region. Between the seventeenth and nineteenth centuries, the major empires in North American history--France, Britain, Spain, and the US--claimed part or all of the region. When Americans came on the scene and began to remake the midcontinent, they overturned the patterns of 150 years of interaction between Indians and Europeans.--

Beyond Spoon River

Covering topics as diverse as economic modeling, craft specialization, settlement patterns, agricultural and subsistence systems, and the development of social ranking, *Cahokia and the Hinterlands* explores cultural interactions among Cahokians and the inhabitants of other population centers, including Orendorf and the Dickson Mounds in Illinois and Aztalan in Wisconsin, as well as sites in Minnesota, Iowa, and at the confluence of the Mississippi and Ohio rivers. Proposing sophisticated and innovative models for the growth, development, and decline of Mississippian culture at Cahokia and elsewhere,

this volume also provides insight into the rise of chiefdoms and stratified societies and the development of trade throughout the world.

Spoon River Area Assessment: Geology

Relazioni preparate per il 9. International congress of anthropological and ethnological sciences, tenuto a Chicago, Ill., nel 1973.

I Hear America ...

Edited and produced by university students, *The New Star Chamber and Other Essays* offers a compelling critique of corporate capitalism and American imperialism. In print again for the first time since 1904, this edition includes an introduction and historical annotations throughout.

Masters of the Middle Waters

Drawn from all of Edgar Lee Masters's diaries correspondence, and the unpublished chapters of his 1936 autobiography, this is the first full-length biography of the celebrated author of "Spoon River Anthology"

Cahokia and the Hinterlands

The orthodox view of the Mississippian social world hinges on the ideas that chiefdoms--dominance based hierarchical societies in the Eastern Woodlands of North America--vied for power, often violently but at times cooperatively, through political and economic avenues. These chiefdoms represented something of a feudal state in prehistoric North America, which lasted up to the contact period with Europeans around 1500 A.D. In *From Cahokia to Larson to Moundville*, noted archaeologist A. Martin Byers challenges these assumptions and offers a contrasting view by deconstructing the chiefdom model and offering instead an autonomous social world that focused on spiritual renewal and sacred rituals. Byers presents his case through the archaeological record of Cahokia, Larson, and Moundville's monumental earthworks and, in doing so, reveals the Mississippian social community to be more complex, and more cooperative, than previously envisioned. A. Martin Byers, now retired, was a research associate in the Department of Anthropology at McGill University in Montreal.

Early Native Americans

Archaeologists across the Midwest have pooled their data and perspectives to produce this indispensable volume on the Native cultures of the Late Woodland period (approximately A.D. 300?1000). Sandwiched between the well-known Hopewellian and Mississippian eras of monumental mound construction, the Late Woodland period has received insufficient attention from archaeologists, who have frequently characterized it as consisting of relatively drab artifact assemblages. The close connections between this period and subsequent Mississippian and Fort Ancient societies, however, make it especially valuable for cross-cultural researchers. Understanding the cultural processes at work during the Late Woodland period will yield important clues about the long-term forces that stimulate and enhance social inequality. *Late Woodland Societies* is notable for its comprehensive geographic coverage; exhaustive presentation and discussion of sites, artifacts, and prehistoric cultural practices; and critical summaries of interpretive perspectives and trends in scholarship. The vast amount of information and theory brought together, examined, and synthesized by the contributors produces a detailed, coherent, and systematic picture of Late Woodland lifestyles across the Midwest. The Late Woodland can now be seen as a dynamic time in its own right and instrumental to the emergence of complex late prehistoric cultures across the Midwest and Southeast.

Comprehensive Master Plan for the Management of the Upper Mississippi River Basin

In ancient Roman times rituals were performed to sanctify the ground on which new cities were founded. With this invocation, space could then be occupied. In her brilliant new collection, Alice Major's poems concern themselves with human occupation: how we occupy cities; how we occupy ourselves as citizens, workers and thinkers; how we occupy mythologies and metaphors; and how we occupy the passage of our lives. Written largely in a public voice, these poems invoke human preoccupations that resonate through landscapes of time and space.

The New Star Chamber and Other Essays

The richness and the range of Native American spirituality has long been noted, but it has never been examined so thoroughly, nor with such an eye for the amazing interconnectedness of Indian tribal ceremonies and practices, as in *An Archaeology of the Soul*. In this monumental work, destined to become a classic in its field, Robert Hall traces the genetic and historical relationships of the tribes of the Midwest and Plains--including roots that extend back as far as 3,000 years. Looking beyond regional barriers, *An Archaeology of the Soul* offers new depths of insight into American Indian ethnography. Hall uncovers the lineage and kinship shared by Native North Americans through the perspectives of history, archaeology, archaeoastronomy, biological anthropology, linguistics, and mythology. The wholeness and panoramic complexity of American Indian belief has never been so fully explored--or more deeply understood.

Edgar Lee Masters

Surveys the homes and birthplaces of famous Americans, including Mark Twain, Abraham Lincoln, John Wayne and John F. Kennedy.

Translating Beowulf: Modern Versions in English Verse

An examination of English verse translations of Beowulf, including Seamus Heaney's version alongside other influential renditions.

Translating Beowulf

An examination of English verse translations of Beowulf, including Seamus Heaney's version alongside other influential renditions.

Beowulf

This reprint of Morgan's popular and well-respected 1952 modern English translation of the Anglo-Saxon epic captures a taut expression of the poem's themes of danger, voyaging, displacement, loyalty, and loss. Morgan provides a fluid, modern voice from this medieval masterwork while retaining a clear authenticity, making it highly accessible to the contemporary reader.

Beowulf

A unique parallel edition of Beowulf with the original Anglo-Saxon and Gummere's celebrated poetic translation on facing pages. "The whole thing is sombre, tragic, sinister, curiously real. ... It is laden with history, leading back into the dark heathen ages beyond the memory of song, but not beyond the reach of imagination" - J. R. R. Tolkien. The epic Anglo-Saxon poem Beowulf had "a deep and detailed impact on what Tolkien wrote - from his earliest poem of Middle-earth (1914), right through The Hobbit ... and The Lord of the Rings." - John Garth author of Tolkien and the Great War. "The story of Beowulf, Grendel, Grendel's mother and the Dragon [is] surely the basic story of all literature ... It is an epic that summons up a world whose trappings have long since disappeared, the trappings of the warrior ethos, and morality of almost prehistoric Germanic times; but the essential 'message' has not changed. It is about courage and resolve, about duty and responsibility, about honour and achievement; but it is also about the transitoriness of things, and the inevitability of death, however glorious the life. It is both a celebration of humanity and an elegy. The poem Beowulf is one of the glories of European literature." - Magnus Magnusson. Beowulf, the greatest work of Anglo-Saxon literature, and "one of the glories of European literature," is set in the mists of Scandinavia, interweaving history and myth. It has been translated into English over seventy times, has been widely studied, and has influenced the popular imagination through Tolkien's Hobbit and Lord of the Rings. The young hero, Beowulf, receiving reports that a monster has been terrorising the neighbouring Danes nightly in their sumptuous mead hall Heorot, sails to their aid with a small band of warriors. The Danish King Hrothgar, amazed at his courage, honours him with a celebratory feast, after the shadowy monster Grendel strikes. Beowulf, a man of suprahuman strength, though unarmed, fatally wounds Grendel, and later defeats his terrifying mother. Beowulf returns to Geatland, becomes King, and ruling with wisdom equalling his courage and strength, establishes peace for fifty years. However, an enterprising slave steals a jewelled cup from a sleeping dragon's hoard, whereupon the enraged dragon emerges spewing flames, killing villagers, and destroying homes. Beowulf, defender of his people, seeks the dragon in its lair; however, once the fire-breathing dragon emerges, he is abandoned by all but the young Wiglaf. The two ultimately slay the dragon, but only at the cost of a mortal injury to Beowulf. Beowulf, who has triumphed gloriously in life and died tragically, is given a funeral equal to any of the heroes of The Iliad or The Aeneid. This

dual-language edition will be enjoyable for general readers, and invaluable for students who would like to read Beowulf in either Anglo-Saxon or modern English, while dipping into the other language to deepen pleasure or comprehension. It provides an enjoyable experience of the epic poem Beowulf.

Beowulf

A New York Times Bestseller. Composed toward the end of the first millennium of our era, Beowulf is the elegiac narrative of the adventures of Beowulf, a Scandinavian hero who saves the Danes from the seemingly invincible monster Grendel and, later, from Grendel's mother. He then returns to his own country and dies in old age in a vivid fight against a dragon. The poem is about encountering the monstrous, defeating it, and then having to live on in the aftermath. In the contours of this story, at once remote and uncannily familiar at the beginning of the twenty-first century, Seamus Heaney finds a resonance that summons power to the poetry from deep beneath its surface.

The Word Exchange: Anglo-Saxon Poems in Translation

More than 70 of today's most celebrated poets, including Seamus Heaney, Robert Pinsky and Molly Peacock, present new translations of Anglo-Saxon poetry that give life to medieval English voices ranging from weary sailors and forlorn wives to farmers and drunken louts.

Beowulf

Out from marshes, beneath misty tors, Grendel came skulking, God's wrath upon him. The terrible ravager intended to steal man-pieces in that mighty house. He moved in darkness toward the drinking-hall ... Before Game of Thrones, The Lord of the Rings, and Wagner's Ring Cycle, there was Beowulf, the original high-fantasy epic tale of heroes, monsters, dragons, and political upheaval. In a new rendition of the Old English poem, Matthew Hutchinson shares a fresh and stirring adaption intended for anyone who loves bloody tales of adventure and courage. By preserving the rhythmic dynamism of the original language and combining the swashbuckling verve of the hero's dual quests to save a kingdom and slay a dragon, Hutchinson provides energetic insight into this classic piece of English literature. Included are some thoughts on translating Beowulf, reflections on names mentioned in the poem, genealogical charts, and a list of suggested reading. Whether you are new to the poem or an avid Beowulfian, you are sure to find pleasure in this moving translation, which combines the rugged alliterative measure of the original with the directness and accessibility of modern English.

Beowulf

Includes the Junius manuscript, Exeter book, Vercelli book, Beowulf and Judith, metrical psalms of Paris Psalter and the meters of Boethius, poems of the Anglo-Saxon chronicle, riddles, charms, and a number of minor additional poems.

The Complete Old English Poems

Presents the prose translation of the Old English epic that Tolkien created as a young man, along with selections from lectures on the poem he gave later in life and a story and poetry he wrote in the style of folklore on the poem's themes.

Beowulf

The acclaimed verse translation of the timeless epic tale of bravery and battle—the enduring saga of the hero Beowulf and the monster Grendel—the first true masterpiece of English literature. “There are lots of translations of Beowulf floating around, some prose, some poetry, but none manages to capture the feel and tone of the original as well as this one.” — Dick Ringler, Professor of English and Scandinavian Studies, University of Wisconsin-Madison “No self-respecting college professor will want his students to be without it. . . . Renditions in modern English haven't taken the poetry of the original very seriously—but what a shock now that someone has! With the subtle rules of alliteration, stress, and pause in place—and with a translator bold enough to invent his own vigorous and imaginative compound nouns—the poem suddenly takes flight and carries us to the highest mountains of achievement.” (Booklist)

The Earliest English Poems

It may be the oldest surviving long poem in Old English and is commonly cited as one of the most important works of Old English literature. A date of composition is a matter of contention among scholars; the only certain dating pertains to the manuscript, which was produced between 975 and 1025. The author was an anonymous Anglo-Saxon poet, referred to scholars as the "Beowulf poet". The poem is set in Scandinavia. Beowulf, a hero of the Geats, comes to the aid of Hrothgar, the king of the Danes, whose mead hall in Heorot has been under attack a monster known as Grendel. After Beowulf slays him, Grendel's mother attacks the hall and is then also defeated. Victorious, Beowulf goes home to Geatland and later becomes king of the Geats. After a period of fifty years has passed, Beowulf defeats a dragon, but is fatally wounded in the battle. After his death, his attendants cremate his body and erect a tower on a headland in his memory.

Beowulf

This is a community translation of the earliest English epic poem. Beowulf tells the story of a mythical hero in northern Europe in, perhaps, the sixth century. Alongside his story, multiple other shorter narratives are told and many other voices are heard, making it a rich and varied account of the poet's views of heroism, conflict, loyalty and the human condition. The poem is widely taught in schools and universities, and has been adapted, modernized, and translated dozens of times, but this is the first large-scale polyvocal translation. Readers will encounter the voices of over two-hundred individuals, woven together into a reading experience that is at once productively dissonant, yet strangely coherent in its extreme variation. We hope that it turns the common question "Why do we need yet another translation?" on its head, asking instead, "How can we hear from more translators?," and "How can previously unheard, or marginalised voices, find space, like this, in the world of Old English Studies?" With this in mind we invite a new generation of readers to try their own hand at translating Beowulf in the workbook space provided opposite this community translation. It is often through the effort of translating that we see the reality of the original.

Beowulf

Unique and beautiful, Beowulf brings to life a society of violence and honor, fierce warriors and bloody battles, deadly monsters and famous swords. Written by an unknown poet in about the eighth century, this masterpiece of Anglo-Saxon literature transforms legends, myth, history, and ancient songs into the richly colored tale of the hero Beowulf, the loathsome man-eater Grendel, his vengeful water-hag mother, and a treasure-hoarding dragon. The earliest surviving epic poem in any modern European language. Beowulf is a stirring portrait of a heroic world—somber, vast, and magnificent.

Beowulf by All

A stunning experimental translation of the Old English poem "Beowulf," over 30 decades old and woefully neglected, by the contemporary poet Thomas Meyer, who studied with Robert Kelly at Bard, and emerged from the niche of poets who had been impacted by the brief moment of cross-pollination between U.K. and U.S. experimental poetry in the late 1960s and early 1970s, a movement inspired by Ezra Pound, fueled by interactions among figures like Ed Dorn, J.H. Prynne, and Basil Bunting, and quickly overshadowed by the burgeoning Language Writing movement. Meyer's translation -- completed in 1972 but never before published -- is sure to stretch readers' ideas about what is possible in terms of translating Anglo-Saxon poetry, as well as provide new insights on the poem itself. According to John Ashberry, Meyer's translation of this thousand-year-old poem is a "wonder," and Michael Davidson hails it as a "major accomplishment" and a "vivid" recreation of this ancient poem's "modernity."

The Translations of Beowulf A Critical Bibliography

Marshall masterfully retells the earliest poem in the Anglo-Saxon language in simple prose, creating a rousing adventure about a monster-slaying hero that is suitable for readers ages 8 and older.

Beowulf and Other Old English Poems

R.M. Liuzza's translation of Beowulf, first published by Broadview in 1999, has been widely praised for its accuracy and beauty. The translation is accompanied in this edition by genealogical charts, historical summaries, and a glossary of proper names. Historical appendices include related legends, stories, and religious writings from both Christian and Anglo-Saxon traditions. These texts help readers to see

Beowulf as an exploration of the politics of kingship and the psychology of heroism, and as an early English meditation on the bridges and chasms between the pagan past and the Christian present. Appendices also include a generous sample of other modern translations of Beowulf, shedding light on the process of translating the poem. This new edition features an updated introduction and an expanded section of material on Christianity and paganism.

Beowulf

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Featuring essays from some of the most prominent voices in early medieval studies, *Dating Beowulf* playfully redeploys the word 'dating', which usually heralds some of the most divisive critical impasses in the field, to provocatively phrase a set of new relationships with an Old English poem. The volume argues for the relevance of the early Middle Ages to affect studies and vice-versa, offering a riposte to antifeminist discourse and opening avenues for future work by specialists in the history of emotions, literary theorists, students of Old English literature and medieval scholars alike. To this end, the essays embody a range of critical approaches from queer theory to animal studies and ecocriticism to actor-network theory.

The Story of Beowulf

A lengthy introduction discussing historical background accompanies the poem about the monster slayer Beowulf.

Beowulf - Second Edition

John Milton put a twist on the story of Adam and Eve--in the process he created what some have called one of the greatest literary works in the English Language. It has inspired music, art, film, and even video games. But it's hundreds of years old and reading it today sometimes is a little tough. BookCaps is here to help! BookCaps puts a fresh spin on Milton's classic by using language modern readers won't struggle to make sense of. The original English text is also presented in the book, along with a comparable version of both text. We all need refreshers every now and then. Whether you are a student trying to cram for that big final, or someone just trying to understand a book more, BookCapsTM can help. We are a small, but growing company, and are adding titles every month.

Dating Beowulf

The comparative study of the literatures of Ireland and Scotland has emerged as a distinct and buoyant field in recent years. This collection of new essays offers the first sustained comparison of modern Irish and Scottish poetry, featuring close readings of texts within broad historical and political contextualisation. Playing on influences, crossovers, connections, disconnections and differences, the 'affinities' and 'opposites' traced in this book cross both Irish and Scottish poetry in many directions. Contributors include major scholars of the new 'archipelagic' approach, as well as leading Irish and Scottish poets providing important insights into current creative practice. Poets discussed include W. B. Yeats, Hugh MacDiarmid, Sorley MacLean, Louis MacNeice, Edwin Morgan, Douglas Dunn, Seamus Heaney, Ian Hamilton Finlay, Michael Longley, Medbh McGuckian, Nuala ni Dhomhnaill, Don Paterson and Kathleen Jamie. This book is a major contribution to our understanding of poetry from these islands in the twentieth and twenty-first centuries.

Beowulf

Poetry is supposed to be untranslatable. But many poems in English are also translations: Pope's *Iliad*, Pound's *Cathay*, and Dryden's *Aeneis* are only the most obvious examples. The *Poetry of Translation* explodes this paradox, launching a new theoretical approach to translation, and developing it through readings of English poem-translations, both major and neglected, from Chaucer and Petrarch to Homer and Logue. The word 'translation' includes within itself a picture: of something being carried across. This image gives a misleading idea of goes on in any translation; and poets have been quick to dislodge it with other metaphors. Poetry translation can be a process of opening; of pursuing desire, or succumbing to passion; of taking a view, or zooming in; of dying, metamorphosing, or bringing to life. These are the dominant metaphors that have jostled the idea of 'carrying across' in the history of poetry translation into English; and they form the spine of Reynolds's discussion. Where do these metaphors originate? Wide-ranging literary historical trends play their part; but a more important factor is what goes on in

the poem that is being translated. Dryden thinks of himself as 'opening' Virgil's Aeneid because he thinks Virgil's Aeneid opens fate into world history; Pound tries to bring Propertius to life because death and rebirth are central to Propertius's poems. In this way, translation can continue the creativity of its originals. The Poetry of Translation puts the translation of poetry back at the heart of English literature, allowing the many great poem-translations to be read anew.

Paradise Lost in Plain and Simple English (A Modern Translation and the Original Version)

This volume contributes to the study of early English poetics. In these essays, several related approaches and fields of study radiate outward from poetics, including stylistics, literary history, word studies, gender studies, metrics, and textual criticism. By combining and redirecting these traditional scholarly methods, as well as exploring newer ones such as object-oriented ontology and sound studies, these essays demonstrate how poetry responds to its intellectual, literary, and material contexts. The contributors propose to connect the small (syllables, words, and phrases) to the large (histories, emotions, faiths, secrets). In doing so, they attempt to work magic on the texts they consider: turning an ordinary word into something strange and new, or demonstrating texture, difference, and horizontality where previous eyes had perceived only smoothness, sameness, and verticality.

Modern Irish and Scottish Poetry

The fascinating untold story of digital cash and its creators—from experiments in the 1970s to the mania over Bitcoin and other cryptocurrencies Bitcoin may appear to be a revolutionary form of digital cash without precedent or prehistory. In fact, it is only the best-known recent experiment in a long line of similar efforts going back to the 1970s. But the story behind cryptocurrencies like Bitcoin and its blockchain technology has largely been untold—until now. In *Digital Cash*, Finn Brunton reveals how technological utopians and political radicals created experimental money to bring about their visions of the future: to protect privacy, bring down governments, prepare for apocalypse, or launch a civilization of innovation and abundance that would make its creators immortal. Filled with marvelous characters, stories, and ideas, *Digital Cash* is an engaging and accessible account of the strange origins and remarkable technologies behind today's cryptocurrency explosion.

Beowulf in Our Time

R.D. Fulk is Chancellor's Professor of English at Indiana University, Bloomington. --Book Jacket.

The Poetry of Translation

"An excellent collection... breaks new ground in many areas. Should make a substantial impact on the discussion of the contemporary influence of Anglo-Saxon Culture". Conor McCarthy, author of *Seamus Heaney and the Medieval Imagination* Britain's pre-Conquest past and its culture continues to fascinate modern writers and artists. From Henry Sweet's *Anglo-Saxon Reader* to Seamus Heaney's *Beowulf*, and from high modernism to the musclebound heroes of comic book and Hollywood, Anglo-Saxon England has been a powerful and often unexpected source of inspiration, antagonism, and reflection. The essays here engage with the ways in which the Anglo-Saxons and their literature have been received, confronted, and re-envisioned in the modern imagination. They offer fresh insights on established figures, such as W.H. Auden, J.R.R. Tolkien, and David Jones, and on contemporary writers such as Geoffrey Hill, Peter Reading, P.D. James, and Heaney. They explore the interaction between text, image and landscape in medieval and modern books, the recasting of mythic figures such as Wayland Smith, and the metamorphosis of *Beowulf* into *Grendel* - as a novel and as grand opera. The early medieval emerges not simply as a site of nostalgia or anxiety in modern revisions, but instead provides a vital arena for creativity, pleasure, and artistic experiment. Contributors: Bernard O'Donoghue, Chris Jones, Mark Atherton, Maria Artamonova, Anna Johnson, Clare A. Lees, Sian Echard, Catherine A.M. Clarke, Maria Sachiko Cecire, Allen J. Frantzen, John Halbrooks, Hannah J. Crawforth, Joshua Davies, Rebecca Anne Barr

The Shapes of Early English Poetry

This dual-language edition of *Beowulf* is for the general readers' enjoyment of the poem as well as a study guide for students of English language and literature. To meet this dual purpose, the book provides the two texts running in parallel. The general readers can enjoy the poem by reading the translation; but the serious students of English can lean on the translation as a prop while studying the

original text line after line. For the students of Old English, who wish to attain a thorough understanding of the original lines, the Textual and Explanatory Notes will be an indispensable apparatus: these notes discuss diverse scholarly interpretations on the problematic phrases and lines before the translator offers his own opinion.

Digital Cash

Presents a new translation of the Anglo-Saxon epic chronicling the heroic adventures of Beowulf, the Scandinavian warrior who saves his people from the ravages of the monster Grendel and Grendel's mother.

Sounding Lines

Beowulf by All is a community translation of the earliest English epic poem, produced for the first time in workbook form to encourage readers to create their own personal translations.

The Beowulf Manuscript

Beowulf, an Anglo-Saxon poem of epic scope, dates back to the year 850 and marks the beginning of the English literary tradition. This revised edition of Michael Alexander's acclaimed verse translation makes accessible to modern readers the story of the Scandinavian hero Beowulf-slayer of the monster Grendel and Grendel's mother-who becomes a king of Greatland in old age and is mortally wounded in combat with a dragon. A richly allusive narrative, blending history with legend and folklore, Beowulf portrays an epic conflict of feast and feud, generosity and vengeance, life and death. In this new edition for Penguin Classics, Michael Alexander provides a new introduction, bibliography, notes, maps, an index of proper names, genealogical tables, and a fully revised text.

Anglo-Saxon Culture and the Modern Imagination

The classic story of Beowulf, hero and dragon-slayer, appears here in a new translation accompanied by genealogical charts, historical summaries, and a glossary of proper names. These and other documents sketching some of the cultural forces behind the poem's final creation will help readers see Beowulf as an exploration of the politics of kingship and the psychology of heroism, and as an early English meditation on the bridges and chasms between the pagan past and the Christian present. A generous sample of other modern versions of Beowulf sheds light on the process of translating the poem.

Beowulf in Parallel Texts

Beowulf is the conventional title of an Old English heroic epic poem consisting of 3182 alliterative long lines, set in Scandinavia, commonly cited as one of the most important works of Anglo-Saxon literature. It survives in a single manuscript known as the Nowell Codex. Its composition by an anonymous Anglo-Saxon poet is dated between the 8th and the early 11th century.

The Translation of Beowulf

Enhancing Heaney's masterful bestselling translation of this classic Old English poem, Niles's illustrations help modern-day readers visualize the story by bringing it to life.

Beowulf a New Verse Translation Bilingual Edition

A detailed and passionate argument suggesting that Beowulf originated in the pre-Viking kingdom of 8th-century East Anglia. Where did Beowulf, unique and thrilling example of an Old English epic poem come from? In whose hall did the poem's maker first tell the tale? The poem exists now in just one manuscript, but careful study of the literary and historical associations reveals striking details which lead Dr Newton to claim, as he pieces together the various clues, a specific origin for the poem. Dr Newton suggests that references in Beowulf to the heroes whose names are listed in Anglo-Saxon royal genealogies indicate that such Northern dynastic concerns are most likely to have been fostered in the kingdom of East Anglia. He supports his thesis with evidence drawn from East Anglian archaeology, hagiography and folklore. His argument, detailed and passionate, offers the exciting possibility that he has discovered the lost origins of the poem in the pre-Viking kingdom of 8th-century East Anglia. SAMNEWTON was awarded his Ph.D. for work on Beowulf.
