Bangkit dan Runtuhnya Khilafah Bani Umayyah

Para sejarawan Islam telah membukukan riwayat perjalanan umat dengan begitu amanah. Buku Bangkit dan Runtuhnya Khilafah Bani Umayyah karya Prof. Dr. Abdussyafi Muhammad Abdul Lathif ini adalah salah satu permata dibidang sejarah Islam. Dengan membacanya, semoga kaum Muslimin bisa meneladani para pendahulunya, dan dapat melanjutkan penulisan sejarahnya dengan tinta emas. Buku referensi sejarah Islam ini menguraikan: 1. Proses pendirian Khilafah Bani Umayyah. 2. Riwayat hidup keempat belas khalifah Dinasti Umayyah 3. Lika-liku perjalanan Khilafah Bani Umayyah selama kurang lebih 90 tahun. 4. Perluasan wilayah Negara Islam selama era Khilafah Bani Umayyah. 5. Metode dan strategi penyebaran Islam selama era Khilafah Bani Umayyah. 6. Sistem administrasi dan tata negara yang berkembang oleh Khilafah Bani Umayyah. 7. Berbagai gerakan anti Dinasti Umayyah. 8. Proses keruntuhan Khilafah Bani Umayyah. - Pustaka Al-Kautsar Publisher - Dilarang keras mem-PDF-kan, mendownload, dan memfotokopi buku-buku Pustaka Al-Kautsar. Bangkit Dan Runtuhnya Khilafah Bani Abbasiyah

Khilafah Bani Abbasiyah adalah rentang sejarah yang sangat panjang dari sebuah sistem pemerintahan Islam yang berlangsung selama 524 tahun. Khilafah ini, dengan segala peristiwa-peristiwa besar yang dilaluinya. Khilafah Bani Abbasiyah yang berpusat di Baghdad ini telah membentangkan sayap kekuasaannya sampai ke Asia Tengah, ke wilayah yang disebut dengan Transoxania (Maa waraa An-Nahr). Daulah ini juga masih tetap eksis, meskipun ada beberapa daulah-daulah lain yang berdiri di wilayah Maghribi dan di wilayah lainnya. Pada masa-masa akhirnya, daulah ini juga bersentuhan dengan Kesultanan Saljuk atau Daulah Bani Saljuk, dengan beragam corak dan pola interaksinya. Sebagai sebuah pemerintahan dengan rentang waktu yang cukup panjang, Khilafah Bani Abbasiyah juga mengalami masa keemasan dan masa kegelapan. Pada masa keemasan, khalifah dari daulah ini begitu besar perannya dalam ilmu pengetahuan dan peradaban Islam. Di Baghdad misalnya, berdiri baitul Hikmah, sebuah perpustakaan yang cukup besar, dengan beragam jenis ilmu pengetahuan yang ada dalam jutaan koleksi buku dan manuskripnya. Belum lagi peninggalan-peninggalan dalam bentuk artefak-artefak sejarah yang memberikan gambaran betapa pada masa lalu daulah ini begitu memiliki pengaruh besar di dunia Islam. Khilafah Bani Abbasiyah runtuh seiring dengan invasi Hulagu Khan, seorang pemimpin bangsa Mongol yang dikenal mempunyai misi menguasai negeri-negeri Muslim. Keruntuhan daulah ini adalah tragedi besar dalam sejarah Islam. Apalagi, Baghdad sebagai mercusuar peradaban Islam pada masa itu, ikut diluluhlantahkan. Selain pemaparan sejarah yang apik, buku ini juga memberikan analisa terkait faktor-faktor yang menyebabkan daulah ini runtuh. Pemaparan tersebut bisa menjadi pelajaran penting bagi umat Islam saat ini. - Pustaka Al-Kautsar Publisher - Dilarang keras mem-PDF-kan, mendownload, dan memfotokopi buku-buku Pustaka Al-Kautsar. Apocalypse 2012

Is the world really coming to an end in 2012? The answer frighteningly is 'maybe', according to the Bible, the I Ching, the Mayans, meteorologists and volcanologists. Apocalypse 2012 is cheerful sceptic Laurence E Joseph's investigation into the 2012 Doomsday phenomenon. Journalist and science writer Laurence E Joseph is our incisive and witty guide unravelling the religious, astrological and mystical prophecies behind the potentially earth-shattering events of 2012. And at the core of this book is Joseph's investigation into the growing number of scientific researchers trying to figure out why conditions around our planet are becoming so bizarre. His adventures include: / Hooking up with the Voluntary Human Extinction Movement whose cheerful motto 'Live Long and Die Out' is now available as a tattoo. / Meeting the scientists who are trying to figure out why the present state of the sun is so worrisome -- is it just going through a phase or is something major going on? / Visiting Yellowstone National Park to see whether the seething supervolcano could soon stop civilisation dead in its tracks./

Exploring the possibility of a terrorist attack that could plunge the whole Northern Hemisphere into the equivalent of a nuclear winter.

Islam in European Thought

Louis Massignon, H.A.R. Gibb, Marshall Hodgsons and T.E. Lawrence are discussed in a collection of essays that focuses on the relationship between European and Islamic thought and culture from the late eighteenth to the twentieth century.

Muhammad in the Bible

This authoritative study of the Arabians and the Arabic-speaking peoples is a valuable source of information on Arab history. Suitable for both scholars and the general reader, it unrolls one of the richest and most instructive panoramas in history, telling with insight the story of the rise of Islam in the Middle Ages, its conquests, its empire, its time of greatness and of decay. For this revised tenth edition, Walid Khalidi's timely preface emphasises that now, more than ever, this magisterial work is of vital importance to the on-going attempts to bridge the Arab/Western cultural divide.

History of the Arabs, Revised

This long-awaited translation of Johannes Pedersen's Danish work *Den Arabiske Bog* (1946) describes in vivid detail the production of books in medieval Islam, and outlines the role of literature and scholarship in Islamic society. Originally published in 1984. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Arabic Book

Publisher Description

Suharto

Chronicles the history of Islam from the birth of Mohammed to the independence of former Soviet Muslim States, covering a wide variety of themes, including philosophy, arts, and architecture.

Historical Atlas of Islam

In a book written with the poignancy and beauty appropriate to its subject matter, the author opens by reminding us that the essence of a society is in a sense identical with its history. Classical Islam also serves as a reminder that in the case of Islam, despite its triumphs on the fields of battle, telling its history is the only way open to us to render that essence accessible and show it from all sides. The work offers a grand narrative of a faith that offers an interpretation of the world, a way of life, and a style of thinking, that goes far beyond institutional or political supports. The relevance of this historical perspective is beyond dispute. The period from 610 A.D. when Muhammad received his call until the conquest of Baghdad by the Mongols in 1258 is known as the classical period of Islam. This was the period of the great expansion of Islam both as a political structure and as a religious and intellectual community. It established the base for the development of the high Islamic civilization of North Africa, the Near East, Persia, and India, as well as further expansion of the Islamic religious and intellectual community throughout the world. This book presents an authoritative history of the period written by one of the world's leading experts on the subject. Classical Islam examines the relationships, both cultural and political, between the Islamic world and the Mediterranean countries and India and elaborates on the economic, social, and intellectual factors and forces that shaped the Muslim world and molded its interactions with infidels. The work is written in a clear and direct narrative form, emphasizing simultaneously the major intellectual trends and the political events and tendencies of the formative period in Islamic history that still resonates today.

Classical Islam

The ascendancy of neo-liberalism in different parts of the world has put social democracy on the defensive. Its adherents lack a clear rationale for their policies. Yet a justification for social democracy is implicit in the United Nations Covenants on Human Rights, ratified by most of the world's countries. The covenants commit all nations to guarantee that their citizens shall enjoy the traditional formal rights; but they likewise pledge governments to make those rights meaningful in the real world by providing social security and cultural recognition to every person. This new book provides a systematic defence of social democracy for our contemporary global age. The authors argue that the claims to legitimation implicit in democratic theory can be honored only by social democracy; libertarian democracies are defective in failing to protect their citizens adequately against social, economic, and environmental risks that only collective action can obviate. Ultimately, social democracy provides both a fairer and more stable social order. But can social democracy survive in a world characterized by pervasive processes of globalization? This book asserts that globalization need not undermine social democracy if it is harnessed by international associations and leavened by principles of cultural respect, toleration, and enlightenment. The structures of social democracy must, in short, be adapted to the exigencies of globalization, as has already occurred in countries with the most successful social-democratic practices.

In Pursuit of the Power of Islam

In this adventure based on a true story, a Scottish soldier captured in the Napoleonic Wars converts to Islam and joins forces with the Ottoman Empire. 1807, Egypt. It is the height of the Napoleonic Wars. 6,000 British soldiers have invaded Alexandria in a bid to wrest the control of the country from the Ottoman Empire. Among their number is Private Thomas Keith of the 78th Highlanders. After the initial successful occupation of the city, however, the tide of the Alexandria campaign begins to turn against the British. At the Battle of El Hamed, Keith is captured by the Ottoman forces. While a prisoner of war, Keith is introduced to Islam and falls in love with the religion, making the decision to convert to the faith and join the Ottoman army. His conversion and skill with a sword impress the Ottoman general, who sends him to train with the Bedouin cavalry. So begins Keith's unlikely journey up the ranks of the Ottoman military, which ultimately saw him become Emir of the Holy City of Medina . . . Praise of Blood and Sand: "[A] stirring native. . . . In this veteran British author's hands, what might have become merely a harsh tale of violence in the deserts of Arabia becomes a memorable, sensitively rendered story." —Publishers Weekly "An astonishing, exciting story with great imaginative power." —The Daily Telegraph "The tone is dark and thoughtful, the detail carefully observed, and the flavor unmistakably exotic." —The Lady

The Theory of Social Democracy

The Javanese text being published here is not appearing in print for the first time: more than half a century ago it was published by B.J.O. Schrieke in his doctoral thesis *Ret Boek van Bonang* ("The Book of Bonang") (1916). In Schrieke's work, however, the emphasis fell on the historical introduction to the text rather than on the text itself, the edition of which is not free of shortcomings. Moreover, the analysis of the contents of the text appended to it could not make up for a complete translation. For the lack of a new edition and complete translation of this old and important text has not been made before now is due to the small number of scholars of Javanese - and the even smaller number of those among them who concern themselves with the Muslim works of Javanese literature. In short, it is the pioneering character which the study of Indonesian literatures still largely possesses that has caused people to be contented with preliminary surveys of this extensive field of study; it is true that a number of welcome milestones have been erected, but it can in no way be said that the charting of the whole field is yet complete. After the first publication of a text and summary of its contents people are only too readily inclined to proceed to other projects, more attractive because of their novelty.

The Admonitions of Seh Bari

Civil Islam tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence.

In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a "New Order" regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.

The paper analyzes the bearing of Islamic teachings on the conduct of fiscal policy. It is shown that Islamic teachings do not prescribe any rigid system of public finance. The major emphasis is on the state's responsibility to assure at least a basic minimum standard of living for all citizens. The paper deals with issues related to evolution of fiscal policies best suited to achieve this and other Islamic socio-economic objectives in the specific framework of Islamic teachings. The implications of such a system for growth, monetary stability, resource allocation, and pattern of income distribution are also examined.

A life of the prophet Muhammad by bestselling author Karen Armstrong. 'Armstrong has a dazzling ability: she can take a long and complex subject and reduce it to its fundamentals, without over-simplifying' SUNDAY TIMES 'One of our best living writers on religion' FINANCIAL TIMES 'Not just a sympathetic book that would dispel the misconceptions and misgivings of its western readers, but also a book that is of considerable importance to Muslims' MUSLIM NEWS Most people in the West know very little about the prophet Muhammad. The acclaimed religious writer Karen Armstrong has written a biography which will give us a more accurate and profound understanding of Islam and the people who adhere to it so strongly. Muhammad also offers challenging comparisons with the two religions most closely related to it - Judaism and Christianity.

Persatuan Islam

This book makes the Qur'an accessible to the English-speaking student who lacks the linguistic background to read it in the original Arabic by offering accessible translations of, and commentary on, a series of selected passages that are representative of the Islamic scripture. Mustansir Mir, Director of the Center for Islamic Studies at Youngstown State University, offers clear translations and analysis of 35 selected passages of the Qur'an that will help students understand what kind of book the Qur'an is, what the scripture says, and how it says it.

Public Finance in Islam

Examining the close relationship between religious beliefs and political doctrine in Islamic countries, this introductory book offers a clear account of how Islamic political thought has developed from the politico-religious structure established by Mohammed and his immediate successors.

Muhammad

This slim volume presents a practical introduction to the essential beliefs, practices, and moral rectifications mentioned in the Sacred Law. The primary text is Ahmed ibn Zayn al-Habashi's *Al-Risalah al-Jami'ah* which has been a popular introductory text during the last four centuries. The text is read by students in the Middle East, Southeast Asia and, recently, North America and Europe. This edition includes the Arabic text, its translation, and notes drawn from the translator's other works. Readers of this text will learn the essential creed, acts of worship, and moral behavior that are considered personal obligations for all Muslims. They will also learn why these particular things are important. The notes are designed to equip students for personal practice and to prepare them for more advanced studies.

The Muslim world

'Whoever lives in our country, speaks our language, is brought up in our culture and takes pride in our glory is one of us.' Thus ran a declaration of modern leaders of Arab states. But what exactly is an Arab, and what has been their place in the course of human history? In this well-established classic, Professor Lewis examines the key issues of Arab development - their identity, the national revival which cemented the creation of the Islamic state, and the social and economic pressures that destroyed the Arab kingdom and created the Islamic empire. He analyses the forces which contributed to that empire's eventual decline, and the effects of growing Western influence. Today, with the Arab world facing profound social and political challenges, it constitutes an essential introduction to the Arabs and their history.

Understanding the Islamic Scripture

Militant Islam provides a sociological framework for understanding the rise and character of recent Islamic militancy. It takes a systematic approach to the phenomenon and includes analysis of cases from around the world, comparisons with militancy in other religions, and their causes and consequences. The sociological concepts and theories examined in the book include those associated with social closure, social movements, nationalism, risk, fear and 'de-civilising'. These are applied within three main themes; characteristics of militant Islam, multi-layered causes and the consequences of militancy, in particular Western reactions within the 'war on terror'. Interrelationships between religious and secular behaviour, 'terrorism' and 'counter-terrorism', popular support and opposition are explored. Through the examination of examples from across Muslim societies and communities, the analysis challenges the popular tendency to concentrate upon 'al-Qa'ida' and the Middle East. This book will be of interest to students of Sociology, Political Science and International Relations, in particular those taking courses on Islam, religion, terrorism, political violence and related regional studies.

Islamic Militancy

Originally published in 1913, this book contains the English translation of Reinhardt's Dozy's notable work, *Histoire des Musulmans d'Espagne*. First published in 1861, this comprehensive work chronicles the extensive history of Islam in Spain. The introduction by the translator provides a useful overview of Reinhardt's Dozy's life and career. This comprehensive work will be of interest to those studying the history of Islam and Spain.

Islamic Political Thought

Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with *Qu'ran and Woman*, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. *Qu'ran and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues

lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

The Encompassing Epistle

This is a survey of Muslim economic thinking in the last two decades of the 20th century in Arabic, Urdu and English.

Arabs in History

This volume examines the writings of ten Muslim intellectuals, working in the Muslim world and the West, who employ contemporary critical methods to understand the Qur'an. Their work points to a new trend in Muslim interpretation, characterised by a direct engagement with the Word of God while embracing intellectual modernity in a global context. The volume situates and evaluates their work and responses to it among Muslim and non-Muslim audiences.

Militant Islam

Second edition of the history of Islamic political thought that traces its roots from early Islam to the current age of Fundamentalism (622 AD to 2010 AD).

Spanish Islam

This book provides in-depth discussions of Islamic thought across the twentieth century, encompassing the breadth of self-expression in Muslim communities world-wide. It explores key themes in modern Islamic thinking, including the social origins and ideological underpinnings of the late nineteenth- early twentieth-century Islamic reformist project, nationalism in the Muslim world, Islamist attitudes towards democracy, the science of Islamic economics, Islamist notions of family and the role of women, Muslim perceptions and constructions of the West, and aspects of Muslim thinking on Christians and Jews. - Publisher.
