New York Crosswalk Coach PLUS Grade 8 ELA with Answer Key

Effective and practical coaching strategies for new educators plus valuable online coaching tools Many teachers are only observed one or two times per year on average—and, even among those who are observed, scarcely any are given feedback as to how they could improve. The bottom line is clear: teachers do not need to be evaluated so much as they need to be developed and coached. In *Get Better Faster: A 90-Day Plan for Coaching New Teachers*, Paul Bambrick-Santoyo shares instructive tools of how school leaders can effectively guide new teachers to success. Over the course of the book, he breaks down the most critical actions leaders and teachers must take to achieve exemplary results. Designed for coaches as well as beginning teachers, *Get Better Faster* is an integral coaching tool for any school leader eager to help their teachers succeed. *Get Better Faster* focuses on what's practical and actionable which makes the book's approach to coaching so effective. By practicing the concrete actions and micro-skills listed in *Get Better Faster*, teachers will markedly improve their ability to lead a class, producing a steady chain reaction of future teaching success. Though focused heavily on the first 90 days of teacher development, it's possible to implement this work at any time. Junior and experienced teachers alike can benefit from the guidance of *Get Better Faster* while at the same time closing existing instructional gaps. Featuring valuable and practical online training tools available at <http://www.wiley.com/go/getbetterfaster>, *Get Better Faster* provides agendas, presentation slides, a coach's guide, handouts, planning templates, and 35 video clips of real teachers at work to help other educators apply the lessons learned in their own classrooms. *Get Better Faster* will teach you: The core principles of coaching: Go Granular; Plan, Practice, Follow Up, Repeat; Make Feedback More Frequent Top action steps to launch a teacher's development in an easy-to-read scope and sequence guide It

also walks you through the four phases of skill building: Phase 1 (Pre-Teaching): Dress Rehearsal Phase 2: Instant Immersion Phase 3: Getting into Gear Phase 4: The Power of Discourse Perfect for new educators and those who supervise them, *Get Better Faster* will also earn a place in the libraries of veteran teachers and school administrators seeking a one-stop coaching resource.

Get Better Faster

Americans have long recognized that investments in public education contribute to the common good, enhancing national prosperity and supporting stable families, neighborhoods, and communities. Education is even more critical today, in the face of economic, environmental, and social challenges. Today's children can meet future challenges if their schooling and informal learning activities prepare them for adult roles as citizens, employees, managers, parents, volunteers, and entrepreneurs. To achieve their full potential as adults, young people need to develop a range of skills and knowledge that facilitate mastery and application of English, mathematics, and other school subjects. At the same time, business and political leaders are increasingly asking schools to develop skills such as problem solving, critical thinking, communication, collaboration, and self-management - often referred to as "21st century skills." *Education for Life and Work: Developing Transferable Knowledge and Skills in the 21st Century* describes this important set of key skills that increase deeper learning, college and career readiness, student-centered learning, and higher order thinking. These labels include both cognitive and non-cognitive skills- such as critical thinking, problem solving, collaboration, effective communication, motivation, persistence, and learning to learn. 21st century skills also include creativity, innovation, and ethics that are important to later success and may be developed in formal or informal learning environments. This report also describes how these skills relate to each other and to more traditional academic skills and content in the key disciplines of reading, mathematics, and science. *Education for Life and Work: Developing Transferable Knowledge and Skills in the 21st Century* summarizes the findings of the research that investigates the importance of such skills to success in education, work, and other areas of adult responsibility and that demonstrates the importance of developing these skills in K-16 education. In this report, features related to learning these skills are identified, which include teacher professional development, curriculum, assessment, after-school and out-of-school programs, and informal learning centers such as exhibits and museums.

Personalized Learning

What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of *Understanding by Design* offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

Education for Life and Work

This book brings together leading scholars from around the world to provide their most influential thinking on instructional feedback. The chapters range from academic, in-depth reviews of the research on instructional feedback to a case study on how feedback altered the life-course of one author. Furthermore, it features critical subject areas - including mathematics, science, music, and even animal training - and focuses on working at various developmental levels of learners. The affective, non-cognitive aspects of feedback are also targeted; such as how learners react emotionally to

receiving feedback. The exploration of the theoretical underpinnings of how feedback changes the course of instruction leads to practical advice on how to give such feedback effectively in a variety of diverse contexts. Anyone interested in researching instructional feedback, or providing it in their class or course, will discover why, when, and where instructional feedback is effective and how best to provide it.

Give your fourth grader a fun-filled way to build and reinforce spelling skills. Spectrum Spelling for grade 4 provides progressive lessons in prefixes, suffixes, vowel sounds, compound words, easily misspelled words, and dictionary skills. This exciting language arts workbook encourages children to explore spelling with brainteasers, puzzles, and more! Don't let your child's spelling skills depend on spellcheck and autocorrect. Make sure they have the knowledge and skills to choose, apply, and spell words with confidence—and without assistance from digital sources. Complete with a speller's dictionary, a proofreader's guide, and an answer key, Spectrum Spelling offers the perfect way to help children strengthen this important language arts skill.

The Cambridge Handbook of Instructional Feedback

The Workbook consists solely of self-study exercises, with answers included, providing students the opportunity to explore and practice grammar independently. It is keyed to explanatory grammar charts in both the Student Book and the Chartbook. Understanding and Using English Grammar is a classic developmental skills text for intermediate to advanced English language learners.

MyPerspectives

In this multisensory phonics technique, students first learn the sounds of letters, and then build these letter-sounds into words. Visual, auditory and kinesthetic associations are used to remember the concepts. Training is recommended.

"Rachel Macy Stafford's post 'The Day I Stopped Saying Hurry Up' was a true phenomenon on The Huffington Post, igniting countless conversations online and off about freeing ourselves from the vicious cycle of keeping up with our overstuffed agendas. Hands Free Mama has the power to keep that conversation going and remind us that we must not let our lives pass us by." --Arianna Huffington, Chair, President, and Editor-in-Chief of the Huffington Post Media Group, nationally syndicated columnist, and author of thirteen books <http://www.huffingtonpost.com/> DISCOVER THE POWER, JOY, AND LOVE of Living "Hands Free" If technology is the new addiction, then multi-tasking is the new marching order. We check our email while cooking dinner, send a text while bathing the kids, and spend more time looking into electronic screens than into the eyes of our loved ones. With our never-ending to-do lists and jam-packed schedules, it's no wonder we're distracted. But this isn't the way it has to be. In July 2010, special education teacher and mother Rachel Macy Stafford decided enough was enough. Tired of losing track of what matters most in life, Rachel began practicing simple strategies that enabled her to momentarily let go of largely meaningless distractions and engage in meaningful soul-to-soul connections. She started a blog to chronicle her endeavors and soon saw how both external and internal distractions had been sabotaging her happiness and preventing her from bonding with the people she loves most. Hands Free Mama is the digital society's answer to finding balance in a media-saturated, perfection-obsessed world. It doesn't mean giving up all technology forever. It doesn't mean forgoing our jobs and responsibilities. What it does mean is seizing the little moments that life offers us to engage in real and meaningful interaction. It means looking our loved ones in the eye and giving them the gift of our undivided attention, leaving the laundry till later to dance with our kids in the rain, and living a present, authentic, and intentional life despite a world full of distractions. So join Rachel and go hands-free. Discover what happens when you choose to open your heart—and your hands—to the possibilities of each God-given moment.

A perfect Common Core tie-in, The Hope Chest includes nonfiction backmatter with period photographs, historical notes about the suffrage movement, and a Voting in America timeline. It's also a New York State Curriculum title for fourth grade. Eleven-year-old Violet has one goal in mind when she runs

away from home: to find her sister, Chloe. Violet's parents said Chloe had turned into the Wrong Sort of Person, but Violet knew better. The only problem is that Chloe's not in New York anymore. She's moved on to Tennessee where she's fighting for the right of women to vote. As Violet's journey grows longer, her single-minded pursuit of reuniting with her sister changes. Before long she is standing side-by-side with her new friends—suffragists, socialists, and colored people—the type of people whom her parents would not approve. But if Violet's becoming the Wrong Sort of Person, why does it feel just right? This stirring depiction of the very end of the women's suffrage battle in America is sure to please readers who like their historical fiction fast-paced and action-packed. American Girls fans will fall hard for Violet and her less-than-proper friends.

The Gillingham Manual

This book provides a research-based framework for making differentiated instruction work in the primary grades. It includes scientifically validated techniques for teaching each component of the beginning reading program. The authors describe how to use assessment to form differentiated small groups and monitor student progress; plan which skills to target and when; and implement carefully selected instructional strategies. Vivid classroom examples illustrate what differentiated instruction looks like in action in each of the primary grades. For additional helpful resources, including classroom-ready lesson plans, teachers can purchase the complementary volume, *How to Plan Differentiated Reading Instruction: Resources for Grades K-3*.

Test with success using Spectrum Word Study and Phonics for grade 6! The lessons encourage creativity and strengthen phonics skills by focusing on digraphs, diphthongs, syllabication, acronyms, figures of speech, and dictionary skills. The book features full-color illustrations, provides essential tools for achieving reading fluency, and includes an answer key. Today, more than ever, students need to be equipped with the skills required for school achievement and success on proficiency tests. This 168-page book aligns with state and national standards, is perfect for use at home or in school, and is favored by parents, homeschoolers, and teachers.

How the Other Half Lives

Spectrum(R) Writing for kindergarten guides students through each step of the writing process as they write sentences, personal stories, descriptions, how-to instructions, book reports, and more. Spectrum(R) Writing workbooks guide students as they write for a variety of purposes, including writing to tell a story, writing to provide information, and writing to state an opinion. Lessons support current state standards. Step-by-step instructions help with planning, drafting, revising, proofreading, and sharing writing. A Writer's Handbook reinforces grammar and language skills, and a complete Answer Key is included. Engaging, open-ended writing projects combined with standards-based learning make these workbooks an essential resource for school success. Spectrum, the best-selling workbook series, is proud to provide quality educational materials that support your students' learning achievement and success.

The Hope Chest

The Sea-Wolf is a psychological adventure novel by American novelist Jack London about a literary critic, survivor of an ocean collision, who comes under the dominance of Wolf Larsen, the powerful and amoral sea captain who rescues him. The Sea Wolf tells the story of a soft, domesticated protagonist, in this novel's case an intellectual man named Humphrey van Weyden, forced to become tough and self-reliant by exposure to cruelty and brutality. The story starts with him aboard a San Francisco ferry, called Martinez, which collides with another ship in the fog and sinks. He is set adrift in the Bay, eventually being picked up by Wolf Larsen. Larsen is the captain of a seal-hunting schooner, the Ghost. Brutal and cynical, yet also highly intelligent and intellectual (though highly biased in his opinions, as he was self-taught), he rules over his ship and terrorizes the crew with the aid of his exceptionally great physical strength. Van Weyden adequately describes him as an individualist,

hedonist, and materialist. Larsen does not believe in the immortality of the soul, he finds no meaning in his life save for survival and pleasure and has come to despise all human life and deny its value. Being interested in someone capable of intellectual disputes, he somewhat takes care of Van Weyden, whom he calls 'Hump', while forcing him to become a cabin boy, do menial work, and learn to fight to protect himself from a brutal crew. A key event in the story is an attempted mutiny against Wolf Larsen by several members of the crew. The organizers of the mutiny are Leach and Johnson. Johnson had previously been beaten severely by Larsen, and Leach had been punched earlier while being forced to become a boat-puller, motivating the two. The first attempt is by sending Larsen overboard; however, he manages to climb back onto the ship. Searching for his assailant, he ventures into the sleeping quarters, located beneath the main deck, the only exit being a ladder. Several, at least seven men, take part in the mutiny and attack Larsen. Larsen however, demonstrating his inhuman endurance, strength, and conviction, manages to fight his way through the crew, climb the ladder with several men hanging off him, and escape relatively unharmed. Van Weyden is promoted as mate, for the original mate had been murdered. Larsen later gets his vengeance by torturing his crew, and constantly claiming that he is going to murder Leach and Johnson at his earliest convenience, being the hunting season is done, as he can't afford to lose any crew. He later allows them to be lost to the sea when they attempt to flee on a hunting boat.

Differentiated Reading Instruction

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

Notice & Note

These new model core teaching standards outline what all teachers across all content and grade levels should know and be able to do to be effective in today's learning contexts. They are a revision of the 1992 model standards, in response to the need for a new vision of teaching to meet the needs of next generation learners. This document incorporates changes from a public feedback period in July 2010.

The Other End of the Leash

An updated and expanded edition of the international bestseller Most of us have no idea what's really going on inside our heads. Yet brain scientists have uncovered details that every business leader, parent, and teacher should know — for instance, that physical activity helps to get your brain working at its best. How do we learn? What do sleep and stress do to our brains? Why is multitasking a myth? Why is it so easy to forget — and so important to repeat new information? In *Brain Rules*, Dr John Medina, a molecular biologist, shares his lifelong interest in brain science, and how it can influence the way we teach our children and the way we work. In each chapter, he describes a brain rule — what scientists know for sure about how our brains work — and offers transformative ideas for our daily lives. In this expanded edition — which includes additional information on the brain rules and a new chapter on music — you will discover how every brain is wired differently, why memories are volatile, and how stress and sleep can influence learning. By the end, you'll understand how your brain really works — and how to get the most out of it.

A challenging year of standards lies ahead. With the new Finish Line English Language Arts, Third Edition, your students can get the extra support they need to master the Common Core-based standards you teach every day. Finish Line supplements your core basal program with instruction and practice that are concise and simply presented. The workbook is divided into units that parallel the strands in the Common Core State Standards (CCSS) for ELA at grade level. Finish Line features a gradual release model--from teacher-led instruction to individual student work--in a four-part lesson format: Skill Introduction, Focused Instruction, Guided Practice, and Independent Practice. The book includes a full unit of writing standards for students to practice the writing process, learn how to answer open-ended questions, and apply grammar and usage conventions. Much like Common Core-based standards and assessments, the book requires students to do close reading of rigorous text. Unit reviews include traditional item types and item types found on Common Core assessments. A glossary includes terms that appear in boldface throughout the book.

Artful Sentences

The annotated teacher's edition for Finish Line New York Math includes instructions for using the student book; objective for each lesson; student book pages with correct answers, CCLS correlation, and Depth of Knowledge (DOK) for each item; answer rationales for items in the Independent Practice; extension activity/hands-on activity; vocabulary for each lesson; scoring rubrics; and connections to the Standards for Mathematical Practice.

Creative Curriculum

The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of performance.

InTASC Model Core Teaching Standards

Need more standards support in your lesson plans? Finish Line New York ELA is the perfect fit with step-by-step instruction to help students take on the challenging nature of New York's Common Core Learning Standards (CCLS). This next generation of Finish Line includes 300+ pages of focused practice and a new lesson format. The gradual release model is extended to four parts to promote deeper learning: Skill Introduction, Focused Instruction, Guided Practice, and Independent Practice. Guided questions model the thought process. Language Arts/Writing is integrated into the book. A full unit of writing standards helps students practice the writing process, learn how to answer open-ended questions, and apply grammar and usage conventions. Much like New York's standards and assessments, students are required to do close reading of rigorous text. Reviews include PARCC-type items, as well as multiple-choice, open-ended, and multipart questions. Finish Line is designed to supplement core basal programs, including ReadyGEN(tm) and Common Core Code X(tm).

Amsco's Algebra Two and Trigonometry

This all-new series has been built around the Common Core State Standards and is 100% aligned. Perfect for early implementers of these new standards, our all-new Common Core Clinics follow the structure and demands of the CCSS and pinpoint every required standard.

Tracfone
What Are the Benefits of Tracfone
This Is a Really Great Way To Stay Connected to Your Family and if You Don't Already Have a Smart
Phone I Would Start Here this Is a Really Important Time To Make Sure You Have a Connection
to Everyone That's Important to You I You Know We Miss Our Family We Miss Our Friends and a
Smartphone Can Really Make a Difference Seeing Your Grandmother's Face or Seeing Your Dad's
Face or Seeing Your Kids Faces Pop Up or Your Grandchildren Pop Up on a Video It's So Much More
Real It's So Much More Heartwarming

And Yes You Can Absolutely Shoot High-Definition Video Here You Have Your Front 5 Megapixel Camera Rear 8 Megapixel Camera with Flash We're Even Including this Great Little Holder for You It's Called the Clicker so It Flattens Out and Then Whenever You Need It You Pop It Open You Can Put Your Hand Right through Here Really Easy To Use and Look It's Even a Little Stand I've Been Using this for Netflix so You Can Use It either Direction either Orientation So Really Convenient Fun Handy Way To Hold Your Phone Yes We Include the Car Charge or the Wall Charger Because They Have the Best Phones They Also Have the Prettiest TVs this Is like that Samsung Television Right in the Palm of Your Hand Super High-End Technology That Doesn't Break the Bank and Again You're Never GonNa Get a Bill with this Sarah so It Really Is Incredible this Even Has Expandable Memory So if You Fill Up the 16 Gigabytes with All the Different Apps You're Downloading or You're Doing Your Pictures Your High-Definition Video all of that if You Want To Add Memory You're GonNa Be Able To Add up to 400 Gigabyte Memory Cards

It's Time To Get a Tracfone I'm Telling You this Is the Secret They Don't Want You To Know about So Jump On in I Would Hate for You Miss Out on this You Can Activate Them any Time So if You Want To Just Get a Couple and Set Them Aside You're Not Sure if They're GonNa Be for You or Your Kids or Your Mom Your Dad Maybe It's Your Neighbor that You Check on and You Want Them To Have a Cell Phone It's Really Important that during the Time like this Lori that We Have a Connection That We Have Someone To Contact during this Incredible at Impressing at a Time That We're Living in a Phone Is Really Your Best Friend It's It's the Best Security You Could Ever Have

You Could Be Surfing the Internet You Could Be Doing Google Do Which Is a Face-to-Face Video Chatting App You Can Download Skype on this Duo Is Preloaded Skype You Will Need To Get out of the Google Play Store but this Is Loaded with that Store so You Can Go In and Search for Anything You Want this Has Voice Activation Too So if You Want To Set Reminders To Do Things You Can Do that if You Want To Voice Text You Can Do that Turn by Turn Gps Navigation When You're out of the House It Really Is a Do-It-all Phone Really Doesn't Break the Bank

We're Working from Home the Kids Are Learning from Home We're Skyping We're Web Chatting We're Staying Connected with Friends and Family Maybe You're Doing Work Interviews Maybe You're Writing Your Graduate Thesis on a Computer if You Don't Have a Fast Updated or Upgraded Computer There's Never Been a Better Time To Get One and We Can Get You One Today We Also Have 12 Month Financing on this One As Well That'll Get Your Monthly Payments Down to \$ 33 and Change and that's Also a Great Advantage on the Hsn Credit Card but Let's Tell You all about It Let's Introduce You to Aaron Berger He's Here as Our Electronic Expert while He's Here Virtually Here Virtual Hugs to You Aaron Berger We'll Come Back and See You My Friend Thank You Virtual Hugs for You Too and to Everybody Who's Sticking with Us and Watching Us and Shopping with Us Thank You Thank You So Much from the Bottom of Our Hearts

So You Can Have some Fun Picking Your Favorite Color or if You're Thinking Gosh this Would Be Great for the Kid that Teenagers the College Student You're Working from Home and Maybe the Computer That You're Working with Is Slow To Start Up or Maybe It's Stuttering or Maybe It Doesn't Download or Maybe Just Can't Quite Connect to the Internet like It Used to It's Lost Its Speed Its Lost Its Efficiency We've Got these Great Colors for You this One's Called Rose Gold Isn't That Beautiful It's a Nice Soft Sort of like a Jewelry Color Sort of a Rose Gold We Also Have a Great Silver Here That's Also Done with Sort of a Sheen and a Finish to It the Blue Has Kind of a Matte Finish and It's Kind Of Textured that's a Nice Classic Blue Color Right There and Then Check Out this Color I'm Going To Hold Up the Color That I Believe We're Calling

It's Quieter and It's Faster We Have Faster Boot Up Time Your Applications Load More Quickly You Have a Better Battery Life There's no Moving Parts in this Computer It's More Durable and It's Quieter that's Why It's a Faster Computer It's Not Just like Oh It Happens To Be Faster It's Faster because the Technology in It You Know Kind Of Looks Similar to a Computer You've Seen Before Is Entirely Different in that Way so It's Much Much Faster Amd of Course Is a Company That Is Known for Graphics They're Known for Great Gaming

Yeah I Heard Him Correctly a Fewer than 300 Now Remaining in the Copper a Rose Gold Is Very Pretty Here We've Got the Silver if You Want the Blue We Have 60 Left so that's Going To Be Final Call on the Blue There and Then of Course There's the Copper but a Wonderful Time To Jump In Is Right Now because We CanNot Keep any Computers in Stock Here I Think More than Ever We Realize How Important It Is To Have One That's Fast and Reliable

You'd Like To Have the Street Lights on Well Having the Street Lights on Is a Great Thing on Your Computer in Fact I'll Leave Them on Nearly All the Time It's Just Easier To See So Backlit Keyboard That Is the Kind of Thing by the Way That You Normally Spend a Ton of Money on It I Asked Our Computer Buyer Chris Oh Maybe a Year or So Ago Hey We're GonNa Have any More Backlit

Keyboard than Brand Other than Hp Anytime Soon and His Answer Was those Computers those Manufacturers We Have To Sell Them for over a Thousand Dollars on Air It's Been Very Infrequent that You Get a Computer in a Lower Price Range like this That Has a Backlit Keyboard but Hp-Our Number One Vendor

So if You Want To Expand the Memory I Will Point Out I've Only Done One Computer Ever It Had More Solid-State Memory than this One 512 Gigabyte Solid State Drive So this Has a Lot of Built-In Storage Memory Already for Storing Movies and Music and Games and All that Kinda Stuff but if You Wanted To There's an Sd Card Slot You Could Expand the Memory There of Course You Can Also Share Files that Way Photos and that Sort of Thing Two More Usb Ports on this Side

Right Now We Really Kind Of Be Having a Living without Our Webcam so It Certainly Keeps Us Connected and We're Sure Well for You Too You're Right I Also Love the Screen Size It's a Nice Big Screen Size without Being Too Big like You Can Still Take It with You Right You Can Take It to the Dining Room You Can Take It to the Bedroom You Could Take It to the Living Room You Could Take It to the Front Porch You Could Take It to the Back Yard That's Really the Only Places We Can Go Right Now but Hopefully Very Very Soon in the Future
