Corse

L'ASSOCIATION CUCINA CORSA a pour vocation de pratiquer et de transmettre une cuisine confectionnée uniquement à partir de produits du terroir. Les recettes qu'elle vous propose sont empruntées à la tradition insulaire mais peuvent aussi être très modernes. Pour ces dernières, on utilisera des produits nouvellement introduits dans l'île, tels que la nectarine, ou remis au goût du jour, comme la Tomme Corse, commercialisée par des coopératives ou de gros producteurs. Vous aurez également la surprise de rencontrer des associations d'ingrédients plus inattendues chez nous : par exemple, des viandes ou des légumes au miel, alors que celui-ci était autrefois uniquement utilisé pour les préparations sucrées. Il ne s'agit pas d'une restauration de prestige mais plutôt d'une cuisine conservant un caractère familial. Ces recettes se veulent en effet accessibles au plus grand nombre par leur facilité d'exécution. Si, en Corse, les secrets familiaux de cuisine se transmettaient de mère en fille et rarement aux étrangers, Cucina Corsa veut au contraire vous faire connaître le plus grand nombre de recettes, leurs secrets, leurs aromates et ingrédients. A vous ensuite de montrer votre savoir-faire, votre tour de main en matière de dosage et de cuisson.

Greece: The Cookbook is the definitive work on the rich and fascinating cooking of modern Greece. Greece: The Cookbook is the first truly comprehensive bible of Greek food in English. Rapidly increasing in popularity, Greek food is simple to prepare, healthy and delicious, and, more than most other cuisines, bears all the hallmarks of the rich cultural history of the land and sea from which it is drawn. It is the original Mediterranean cuisine, where olive oil, bread, wine, figs, grapes and cheese have been staples since the beginnings of Western civilization. With hundreds of simple recipes by Vefa Alexiadou, the authoritative grand dame of Greek cookery, the book also includes information on regional specialities, local ingredients and the religious and historical significance of the dishes, and is illustrated with 230 colour photographs. Grand Livre De Cuisine: Alain Ducasse's Culinary Encyclopedia

In the closing years of the fourteenth century, an anonymous French writer compiled a book addressed to a fifteen-year-old bride, narrated in the voice of her husband, a wealthy, aging Parisian. The book was designed to teach this young wife the moral attributes, duties, and conduct befitting a woman of her station in society, in the almost certain event of her widowhood and subsequent remarriage. The work also provides a rich assembly of practical materials for the wife's use and for her household, including treatises on gardening and shopping, tips on choosing servants, directions on the medical care of horses and the training of hawks, plus menus for elaborate feasts, and more than 380 recipes. The Good Wife's Guide is the first complete modern English translation of this important medieval text also known as *Le Ménagier de Paris* (the Parisian household book), a work long recognized for its unique insights into the domestic life of the bourgeoisie during the later Middle Ages. The Good Wife's Guide, expertly rendered into modern English by Gina L. Greco and Christine M. Rose, is accompanied by an informative critical introduction setting the work in its proper medieval context as a conduct manual. This edition presents the book in its entirety, as it must have existed for its earliest readers. The Guide is now a treasure for the classroom, appealing to anyone studying medieval literature or history or considering the complex lives of medieval women. It illuminates the milieu and composition process of medieval authors and will in turn fascinate cooking or horticulture enthusiasts. The work illustrates how a (perhaps fictional) Parisian householder of the late fourteenth century might well have trained his wife so that her behavior could reflect honorably on him and enhance his reputation.

Visionary baker Chad Robertson unveils what's next in bread, drawing on a decade of innovation in grain farming, flour milling, and fermentation with all-new ground-breaking formulas and techniques for making his most nutrient-rich and sublime loaves, rolls, and more—plus recipes for nourishing meals that showcase them. “The most rewarding thing about making bread is that the process of learning never ends. Every day is a new study . . . the possibilities are infinite.”—from the Introduction More than a decade ago, Chad Robertson's country levain recipe taught a generation of bread bakers to replicate the creamy crumb, crackly crust, and unparalleled flavor of his world-famous Tartine bread. His was the recipe that launched hundreds of thousands of sourdough starters and attracted a stream of understudies to Tartine from across the globe. Now, in *Bread Book*, Robertson and Tartine's director of bread, Jennifer Latham, explain how high-quality, sustainable, locally sourced grain and flours respond to hydration and fermentation to make great bread even better. Experienced bakers and novices will find Robertson's and Latham's primers on grain, flour, sourdough starter, leaven, discard starter, and factoring dough formulas refreshingly easy to understand and use. With sixteen brilliant formulas for naturally leavened doughs—including country bread (now reengineered), rustic baguettes, flatbreads, rolls, pizza, and vegan and gluten-free loaves, plus tortillas, crackers, and fermented pasta made with discarded sourdough starter—*Bread Book* is the wild-yeast baker's flight plan for a voyage into the future of exceptional bread.

Territory and Function

In the thirteenth *River Cottage Handbook*, Steven Lamb shows how to cure and smoke your own meat, fish and cheese. Curing and smoking your own food is a bit of a lost art in Britain these days. While our European neighbours have continued to use these methods on their meat, fish and cheese for centuries, we seem to have lost the habit. But with the right guidance, anyone can preserve fresh produce, whether living on a country farm or in an urban flat – it doesn't have to take up a huge amount of space. The *River Cottage* ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, it's easy to take good-quality ingredients and turn them into something sensational. *Curing & Smoking* begins with a detailed breakdown of any kit you might need (from sharp knives to sausage stuffers, for the gadget-loving cook) and an explanation of the preservation process – this includes a section showing which products and cuts are most suitable for different methods of curing and smoking. The second part of the book is organised by preservation method, with an introduction to each one, and comprehensive guidance on how to do it. And for each method, there are, of course, many delicious recipes! These include chorizo Scotch eggs, salt beef, hot smoked mackerel, home-made gravadlax ... and your own dry-cured streaky bacon sizzling in the breakfast frying-pan. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs as well as illustrations, this book is the go-to guide for anyone who wants to smoke, brine or air-dry their way to a happier kitchen.
