The Silverado Squatters

Robert Louis Stevenson's unconventional 1880 honeymoon in an abandoned silver mining camp on the shoulder of Mount St. Helena provides the backdrop for this wonderful narrative of late 19th century California. "Squatting" for two months during a California summer with his new wife, Fanny Vandegrift, The Silverado Squatters provides readers with insight into life in the Napa Valley--with descriptions of the "experiments" with local wine growing, his visit to a petrified forest, his first use of the telephone, and the characters of the local people. Stevenson used his memories of this California honeymoon to create much of the descriptive detail found in 1883's Treasure Island.

The Silverado Squatters

The Silverado Squatters By Robert Louis Stevenson, 1883 The scene of this little book is on a high mountain. There are, indeed, many higher; there are many of a nobler outline. It is no place of pilgrimage for the summary globe-trotter; but to one who lives upon its sides, Mount Saint Helena soon becomes a center of interest. It is the Mont Blanc of one section of the Californian Coast Range, none of its near neighbors rising to one-half its altitude. It looks down on much green, intricate country. It feeds in the spring-time... We are delighted to publish this classic book as part of our extensive Classic Library collection. The Silverado Squatters

The Silverado Squatters (1883) is Robert Louis Stevenson's travel memoir of his two-month honeymoon trip with Fanny Vandegrift (and her son Lloyd Osbourne) to Napa Valley, California, in 1880. In July 1879, Stevenson received word that his future American wife's divorce was almost complete, but that she was seriously ill. He left Scotland right away and travelled to meet her in Monterey, California, (his trip detailed in *The Amateur Emigrant* (1894) and *Across the Plains* (1892)). Broken financially, suffering from a lifelong fibrinous bronchitis condition, and with his writing career at a dead end, he was nursed back to health by his doctor, his nurse, and his future wife, while living briefly in Monterey, San Francisco, and Oakland. His father having provided money to help, on May 19, 1880, he married the San Francisco native, whom he had first met in France in 1875, soon after the events of *An Inland Voyage*. Still too weak to undertake the journey back to Scotland, friends suggested Calistoga, in the upper Napa Valley, with its healthy mountain air.

The Silverado Squatters

"The scene of this little book is on a high mountain. . . . As I recall the place-the green dell below; the spires of pine; the sun-warm, scented air . . . I slowly awake to a sense of admiration, gratitude, and almost love." -Robert Louis Stevenson, *The Silverado Squatters* *The Silverado Squatters* (1888), by Robert Louis Stevenson, describes experiences the author shared with his fiancée, Fanny, after he travelled from Scotland to California to help her recover from a serious illness. Once married, they traveled to the Napa Valley where, short on funds, they spent their honeymoon in an abandoned bunkhouse in a rundown mining camp. The book is part of a trilogy that also includes *Across the Plains* and *The Amateur Emigrant* and is based on a journal where the author recorded his observations and the couple's daily experiences (including being among the first to use a telephone).

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

It is the Mont Blanc of one section of the Californian Coast Range, none of its near neighbors rising to one-half its altitude. It looks down on much green, intricate country. It feeds in the spring-time many splashing brooks. From its summit you must have an excellent lesson of geography: seeing, to the south, San Francisco Bay, with Tamalpais on the one hand and Monte Diablo on the other; to the west and thirty miles away, the open ocean; eastward, across the corn-lands and thick tule swamps of Sacramento Valley, to where the Central Pacific railroad begins to climb the sides of the Sierras; and northward, for what I know, the white head of Shasta looking down on Oregon. . . .

The Silverado Squatters

Robert Louis Stevenson (born Robert Lewis Balfour Stevenson; 13 November 1850 - 3 December 1894) was a Scottish novelist, poet and travel writer, most noted for *Treasure Island*, *Kidnapped*, *Strange Case of Dr Jekyll and Mr Hyde*, and *A Child's Garden of Verses*. Born and educated in Edinburgh, Stevenson suffered from serious bronchial trouble for much of his life, but continued to write prolifically and travel widely in defiance of his poor health. As a young man, he mixed in London literary circles, receiving encouragement from Andrew Lang, Edmund Gosse, Leslie Stephen and W. E. Henley, the last of whom may have provided the model for Long John Silver in *Treasure Island*.

was interested in Californian wine. Indeed, I am interested in all wines, and have been all my life, from
the raisin wine that a schoolfellow kept secreted in his play-box up to my last discovery, those notable
Valtellines, that once shone upon the board of Cæsar. Some of us, kind old Pagans, watch with dread

the shadows falling on the age: how the unconquerable worm invades the sunny terraces of France,
and Bordeaux is no more, and the Rhone a mere Arabia Petraea.

CHAPTER III—NAPA WINE).

"The Hunter's Family". The Hunter's Family is quite a large race of people... in America, for whom we scarcely seem to have a parallel in England. Of pure white blood, they are unknown or unrecognizable in towns; inhabit the fringe of settlements and the deep, quiet places of the country; rebellious to all labour, and pettily thievish, like the English gipsies; rustically ignorant, but with a touch of wood-lore and the dexterity of the savage. Whence they came is a moot point. At the time of the war, they poured north in crowds to escape the conscription; lived during summer on fruits, wild animals, and petty theft; and at the approach of winter, when these supplies failed, built great fires in the forest, and there died stoically by starvation.

The Hunter's Family). How the days passed and what pleasure we took in them, of what there was to do and how we set about doing it, in our mountain hermitage. The house, after we had repaired the worst of the damages, and filled in some of the doors and windows with white cotton cloth, became a healthy and pleasant dwelling-place, always airy and dry, and haunted by the outdoor perfumes of the glen. Within, it had the look of habitation, the human look. You had only to go into the third room, which we did not use, and see its stones, its sifting earth, its tumbled litter; and then return to our lodging, with the beds made, the plates on the rack, the pail of bright water behind the door, the stove crackling in a corner, and perhaps the table roughly laid against a meal,—and man's order, the little clean spots that he creates to dwell in, were at once contrasted with the rich passivity of nature.

à 474 English: Claxson, 474 (The Silverado Squatters by Robert Louis Stevenson)

The Silverado Squatters (1883) is Robert Louis Stevenson's travel memoir of his two-month honeymoon trip with Fanny Vandegrift (and her son Lloyd Osbourne) to Napa Valley, California, in 1880. In July 1879, Stevenson received word that his future American wife's divorce was almost complete, but that she was seriously ill. He left Scotland right away and travelled to meet her in Monterey, California, (his trip detailed in *The Amateur Emigrant* (1894) and *Across the Plains* (1892)). Broken financially, suffering from a lifelong fibrinous bronchitis condition, and with his writing career at a dead end, he was nursed back to health by his doctor, his nurse, and his future wife, while living briefly in Monterey, San Francisco, and Oakland. His father having provided money to help, on May 19, 1880, he married the San Francisco native, whom he had first met in France in 1875, soon after the events of *An Inland Voyage*. Still too weak to undertake the journey back to Scotland, friends suggested Calistoga, in the upper Napa Valley, with its healthy mountain air. They first went to the Hot Springs Hotel in Calistoga, but unable to afford the 10 dollars a week, they spent an unconventional honeymoon in an abandoned three-story bunkhouse at a derelict mining camp called "Silverado" on the shoulder of Mount Saint Helena in the Mayacamas Mountains. There they managed to "squat" for two months during a pleasant California summer, putting up makeshift cloth windows and hauling water in by hand from a nearby stream while dodging rattlesnakes and the occasional fog banks so detrimental to Stevenson's health. *The Silverado Squatters* provides some interesting views of California during the late 19th century. Stevenson uses the first telephone of his life. He meets a number of wine growers in Napa Valley, an enterprise he deemed "experimental," with growers sometimes even mislabelling the bottles as originating from Spain in order to sell their product to sceptical Americans. He visits the oldest wine grower in the valley, Jacob Schram, who had been experimenting for 18 years at his Schramsberg Winery, and had recently expanded the wine cellar in his backyard. Stevenson also visits a petrified forest owned by an old Swedish ex-sailor who had stumbled upon it while clearing farmland-the precise nature of the petrified forest remained for everyone a source of curiosity. Stevenson also details his encounters with a local Jewish merchant, whom he compares to a character in a Charles Dickens novel (probably Fagin from *Oliver Twist*), and portrays as happy-go-lucky but always scheming to earn a dollar. Like Dickens in *American Notes* (1842), Stevenson found the American habit of spitting on the floor hard to get used to. His experiences at Silverado were recorded in a journal he called "*Silverado Sketches*," parts of which he incorporated into *Silverado Squatters* in 1883 while living in Bournemouth, England, with other tales appearing in "*Essays of Travel*" and "*Across the Plains*." Many of his notes on the scenery around him later provided much of the descriptive detail for *Treasure Island* (1883). The Robert Louis Stevenson State Park now encompasses the area where the Stevensons stayed. The entrance to the park is at the summit of State Route 29. A new trail has been constructed in recent years. The "Silverado Museum" in St. Helena, California, is dedicated to Stevenson.... Joseph Dwight Strong, Jr. (1853-1899) was an artist from the United States.... Robert Louis Balfour Stevenson (13

November 1850 - 3 December 1894) was a Scottish novelist, poet, essayist, and travel writer. His most famous works are *Treasure Island*, *Kidnapped*, *Strange Case of Dr Jekyll and Mr Hyde*, and *A Child's Garden of Verses*....

The Silverado Squatters-Classic Edition(Annotated)

Robert Louis Stevenson (1850-1894) traveled to California in 1879 in pursuit of Fanny Van de Grift Osbourne, the Oakland woman with whom he had fallen in love in France. The two were married in the spring of 1880 and honeymooned in a cabin at Silverado, a mining ghost town on Mt. St. Helena. In the next fourteen years, Mrs. Stevenson nursed her husband while he produced the verses, stories, and books of travel and adventure that made him famous. *Silverado* (1888) tells the story of the newlywed Stevensons' trip to Silverado. Stevenson writes of their journey from San Francisco up the Napa Valley to Calistoga and then up the mountain to their goal. He describes their neighbors, and recounts tales of the town in its glory days as a silver mining camp.

The Silverado Squatters

Stevenson has penned his eccentric honeymoon trip to a deserted mining camp in Napa Valley with his new wife Fanny and her son Lloyd. The book substantiates author's harmonized style mingling with distinct and original vision and conscientious handling of English language. Weird characters with primitive wilderness and jagged country filled with horrendous animals enrapture reader's mind.

Edinburgh

The scene of this little book is on a high mountain. There are, indeed, many higher; there are many of a nobler outline. It is no place of pilgrimage for the summary globe-trotter; but to one who lives upon its sides, Mount Saint Helena soon becomes a centre of interest. It is the Mont Blanc of one section of the Californian Coast Range, none of its near neighbours rising to one-half its altitude. It looks down on much green, intricate country. It feeds in the spring-time many splashing brooks. From its summit you must have an excellent lesson of geography: seeing, to the south, San Francisco Bay, with Tamalpais on the one hand and Monte Diablo on the other; to the west and thirty miles away, the open ocean; eastward, across the corn-lands and thick tule swamps of Sacramento Valley, to where the Central Pacific railroad begins to climb the sides of the Sierras; and northward, for what I know, the white head of Shasta looking down on Oregon.

The artist died in 1920... The Amateur Emigrant (in full: The Amateur Emigrant from the Clyde to Sandy Hook) is Robert Louis Stevenson's travel memoir of his journey from Scotland to California in 1879-1880. It is not a complete account, covering the first third, by ship from Europe to New York City. The middle leg of the trip is documented in Across the Plains (1892) with the final part covered in The Silverado Squatters (1883). The Amateur Emigrant was written in 1879-80 and was not published in full until 1895, one year after his death. In July 1879, Robert Louis Stevenson received word that his future American wife's (Fanny Vandegrift) divorce was almost complete and she was ready to remarry, but that she was seriously ill. He left Scotland right away to meet her in her native California. Leaving by ship from Glasgow, Scotland, he determined to travel in steerage class to see how the working classes fared. At the last minute he was convinced by friends to purchase a ticket one grade above the lowest, which he was later thankful for after seeing the conditions at the bow of the boat, but he still lived among the lower classes. Stevenson described the crowded weeks in steerage with the poor and sick, as well as stowaways, and his initial reactions to New York City, where he spent a few days. Filled with sharp-eyed observations, it brilliantly conveys Stevenson's perceptions of America and Americans. It also provides a very detailed and enjoyable account of what it was like to travel to America as an emigrant in the 19th century, during a time of mass migrations to the New World. Details such as the bedding arrangements, daily food rations, relationships with the crew and with higher grade ticket holders, passengers of other nationalities, entertainment, children - all provide a rich and colorful tapestry of life on board the ship. The work was never published in full in Stevenson's lifetime. It shocked the sensibilities of his middle-class friends and family that he was so close with rough people. Certain passages were considered too graphic by the publisher, and also by Stevenson's father Thomas Stevenson, who bought all the copies of the already printed travelogue, judging it beneath his son's talent. However The Amateur Emigrant is a remarkable revelation of the intermingled complexities of class, race and gender in late Victorian England. Andrew Noble (1991) says it was Stevenson's greatest work, due to his

willingness to confront the difficult social conditions of his time. Across the Plains (1892) is the middle section of Robert Louis Stevenson's three-part travel memoir which began with The Amateur Emigrant and ended with The Silverado Squatters. The book contains 12 chapters, each a story or essay unto itself. The title chapter is the longest, and is divided into 7 subsections. It describes Stevenson's arrival at New York as an immigrant, along with hundreds of other Europeans, and his train journey from New York to San Francisco in an immigrant train. Stevenson describes the train as having three sections: one for women and children, one for men, and one for Chinese. He notes that while the Europeans looked down on the Chinese for being dirty, in fact the Chinese carriages were the freshest and their passengers the cleanest. The Silverado Squatters (1883) is Robert Louis Stevenson's travel memoir of his two-month honeymoon trip with Fanny Vandegrift (and her son Lloyd Osbourne) to Napa Valley, California, in 1880.... Robert Louis Balfour Stevenson (13 November 1850 - 3 December 1894) was a Scottish novelist, poet, essayist, and travel writer.

A Summer in the Wilderness

Spanning the years 1840-1875, *Beyond the Boundaries* focuses on the settlement of Upper Michigan's Keweenaw Peninsula, telling the story of reluctant pioneers who attempted to establish a decent measure of comfort, control, and security in what was in many ways a hostile environment. Moving beyond the technological history of the period found in his previous book *Cradle to the Grave: Life, Work, and Death at the Lake Superior Copper Mines* (OUP 1991), Lankton here focuses on the people of this region and how the copper mining affected their daily lives. A truly first-rate social history, *Beyond the Boundaries* will appeal to historians of the frontier and of Michigan and the Great Lakes region, as well as historians of technology, labor, and everyday life.

SUMMER IN THE WILDERNESS

A study of America's changing attitude toward wilderness, discussing efforts to protect the Alaskan wilderness, trends in wilderness management, and the international perspective.

A Summer in the Wilderness

Details a century and a half of copper mining along Upper Michigan's Keweenaw Peninsula, from the arrival of the first incorporated mines in the 1840s until the closing of the last mine in the mid-1990s.

A Summer in the Wilderness

The WPA Guide to the Minnesota Arrowhead Country, first published in 1941, offers a lively and detailed introduction to the northeastern part of the state, long famed for the breathtaking beauty of its landscape, the colorful variety of its ethnic groups, and the worldwide impact of its industries-now with a new introduction by Cathy Wurzer. Cathy Wurzer is the host of Morning Edition on Minnesota Public Radio and cohost of Almanac on Twin Cities Public Television. She has been honored with four Emmys for her work on Almanac.

Beyond the Boundaries

William H. Edwards (1822-1909) was an American entomologist and naturalist whose work made a significant contribution to scientific study. First published in 1847, this is Edwards' personal account of his famous expedition to the Amazon basin. It relates his voyage from New York, short residence in the city of Pará and exploration of the local jungle. An expert observer, Edwards describes in fascinating detail the animals, plants and geography of the region, communicating his delight at each discovery. Highlights of the volume include vivid depictions of encounters with anacondas and electric eels, exotic fruits and birds, and observations on the customs of the local Portuguese and native populations. Intended for use by both the naturalist and the general reader, this book will captivate anyone interested in the history of travel and exploration, as well as the development of scientific study in the tropics.

Wilderness and the American Mind

On 13 August 1990 members of the Mille Lacs Band of Ojibwe filed a lawsuit against the State of Minnesota for interfering with the hunting, fishing, and gathering rights that had been guaranteed to them in an 1837 treaty with the United States. In order to interpret the treaty the courts had to consider historical circumstances, the intentions of the parties, and the treaty's implementation. The Mille Lacs Band faced a mammoth challenge. How does one argue the Native side of the case when all historical documentation was written by non- Natives? The Mille Lacs selected six scholars to testify for them. Published here for the first time, Charles Cleland, James McClurken, Helen Tanner, John Nichols, Thomas Lund, and Bruce White discuss the circumstances under which the treaty was written, the personalities involved in the negotiations and the legal rhetoric of the times, as well as analyze related legal conflicts between Natives and non- Natives. Justice Sandra Day O'Connor delivered the 1999 Opinion of the [United States Supreme] Court.

Hollowed Ground

Ruth Edgerton Douglass's diary recounts her winter journey from Detroit to Wisconsin and then her life through autumn and into the following winter on Isle Royale, where her husband had been hired to supervise a mining operation. She shares something of the contrast between the city life she had known and the backwoods existence she came to lead with her husband.

The WPA Guide to the Minnesota Arrowhead Country

National parks like Yellowstone, Yosemite, and Glacier preserve some of this country's most cherished wilderness landscapes. While visions of pristine, uninhabited nature led to the creation of these parks, they also inspired policies of Indian removal. By contrasting the native histories of these places with the links between Indian policy developments and preservationist efforts, this work examines the complex origins of the national parks and the troubling consequences of the American wilderness ideal. The first study to place national park history within the context of the early reservation era, it details the ways that national parks developed into one of the most important arenas of contention between native peoples and non-Indians in the twentieth century.
