Bad Choices Make Good Stories

The strange true story of the first influencer Oliver, a hacker living in Germany, meets Donna online. She's an American girl living in New York. After chatting and talking on the phone for months, he finally decides to surprise her with a visit. But he soon finds out that things are not what they appeared to be, and that this visit will change his life forever. "Nobody has ever killed themselves over a broken arm. But every day, thousands of people kill themselves because of a broken heart. Why? Because emotional pain hurts much worse than physical pain." -Oliver Markus Malloy, Bad Choices Make Good Stories "Don't ever think you're better than a drug addict, because your brain works the same as theirs.

You have the same circuits. And drugs would affect your brain in the same way it affects theirs. The same thought process that makes them screw up over and over again would make you screw up over and over as well, if you were in their shoes. You probably already are doing it, just not with heroin or crack, but with food or cigarettes, or something else you shouldn't be doing." -Oliver Markus Malloy, *Bad Choices Make Good Stories* "A must read. One of those rare books that sucks you in from the first to the last page." - Amazon Review (Alternate cover edition)

Bad Choices Make Good Stories: The Strange True Story of the First Influencer

Special Anniversary Omnibus: Get all three books for the price of one! _____ Part 1: Going to New York _____ The strange true story of the first influencer. Oliver, a hacker living in Germany, meets Donna online. She's an American girl living in New York. After chatting and talking on the phone for months, he finally decides to surprise her with a visit. But he soon finds out that things are not what they appeared to be, and that this visit will change his life forever. "Nobody has ever killed themselves over a broken arm. But every day, thousands of people kill themselves because of a broken heart. Why? Because emotional pain hurts much worse than physical pain." -Oliver Markus Malloy, *Bad Choices Make Good Stories* "Don't ever think you're better than a drug addict, because your brain works the same as theirs. You have the same circuits. And drugs would affect your brain in the same way it affects theirs. The same thought process that makes them screw up over and over again would make you screw up over and over as well, if you were in their shoes. You probably already are doing it, just not with heroin or crack, but with food or cigarettes, or something else you shouldn't be doing." -Oliver Markus Malloy, *Bad Choices Make Good Stories* "A must read. One of those rare books that sucks you in from the first to the last page." - Amazon Review _____ Part 2: The Heroin Scene in Fort Myers _____ America has a heroin problem. Oliver moves from New York to Florida. Battling with depression, he gets sucked into the seedy underworld of Fort Myers, where he encounters a number of female drug addicts. He empathizes with them because of his own traumatic past. Oliver feels compelled to try to help them escape the addict lifestyle, but learns the hard way that he is in way over his head. "A truly fascinating and unexpected look at the darker side of addiction." - A. Allyson, Goodreads _____ Part 3: Finding Happiness in Los Angeles _____ If you're a fan of Dave Chappelle or John Oliver, you'll love this book. After writing a book about his bizarre adventures in America's underbelly, Oliver finally finds love among his readers on Goodreads. "I think it will become a standard for people who are dealing with loved ones struggling with addictions." - B. Bridges, Amazon Review Dear Reader, You're a little late to the party. Where the hell have you been? This is already the third and final part of the trilogy, and you're only joining us now? Tsk tsk tsk. Let me get you up to speed on what you've missed so far: In book one, *Going to New York*, you missed the utterly fascinating, nay spellbinding saga of me growing up in Germany and later emigrating to New York. I was a brooding, troubled teenage hacker. Wow! Good stuff! It's almost like my life was the perfect kind of crazy to make a really awesome book! Anyway, being a teenage hacker came in handy later in life. I went from rags to riches thanks to my keen understanding of technology and how to use the web to my advantage. In New York I was married to Donna, a girl I had met online. She was an agoraphobic, prone to temper tantrums. And fun was had by all, which led to a divorce 16 years later. That's where the story gets really interesting. I began dating. It didn't go well. I was no good at it. OK, truth be told, I was really bad at it. Apparently I had terrible taste in women. A heroin-addicted hooker named Alice broke my heart and robbed me of my will to live. Doesn't sound very fun, does it? But it's a fun read, I promise. Dark, but fun. Mesmerizing even! Brokenhearted, I moved from New York to Florida. That's where the first book ends. The second book you missed (I'm not mad at you. I'm just disappointed.) is called *The Heroin Scene in Fort Myers*, which is a very fitting title, believe me. Sometimes I'm a slow learner, so I dated my way through the heroin scene in Florida, and I couldn't figure out for years why I wasn't finding any wife material. But oh how I tried. And tried. In all the wrong places. Pretty sad. I'm not proud of it. After years of sad pathetic sex with heroin addicts I was a wreck. My younger self wouldn't have even recognized me. Lucy and Veronica had turned me into a broken, humiliated shell of a man. My heart had been ripped out of my chest so many times, it was a miracle I hadn't killed myself yet. (Seriously, it's a fun read. I promise!) At the end of the book I had it up to here with heroin addicts. I told myself never again would I let myself be sucked in by the sweet lies of manipulative, fake love. The name of the final chapter was NO MO HO. No more whores. I needed to change my life before my life was going to kill me. I hopped on a plane, back to my native Germany, to lick my wounds and heal before returning to America. That's where the second book ended. And now, for our third and final act...

Unleash your children's passion for colouring with this wonderful princess book.!!! We present this wonderful children's colouring book that brings you no less than 70 illustrations in which the little ones will discover scenes from the lives of princesses and their daily activities, a book designed especially for girls between 3 - 9 years but also for boys why not The benefits of colouring 1. Develop motor skills 2. Develops hand-eye coordination 3. Self-expression 4. Develop attention and patience 5. Develop concentration 6. Develops self-confidence 7. Relaxation A little advice. For you, to colour, a princess or a frog or a unicorn can be a small thing. For your little one, it is a big thing! Give him the freedom to enjoy what he does. Don't interfere with his decisions by correcting his colours or insisting he doesn't overdo it. If you still feel like telling him these things, present them to him as a personal choice rather than an obligation. Don't interrupt him, let him concentrate and enjoy what he is doing! Prioritise quality over quantity. Buy him nice books that he likes and quality coloured pencils. Help him appreciate what he has and what he does! Appreciate his effort and support his joy! You can make a small exhibition of his colouring pages. At the end of the month or on another day of your choice, you can choose the best colouring pages together and display them for the whole family to enjoy! Your little one will be delighted! :) Do you like colouring too? It's an activity you can do together. With relaxation and good cheer! This colouring book features: Large 8.5 x 11 very good quality Single-sided pages so your little one can use markers without the nuisance of bleed-through 146 pages

Easy Coloring Book for Adults Inspirational Quotes

A wide-ranging, first-of-its-kind anthology of art and writing exploring how surveillance impacts contemporary motherhood. The tracking of our personal information, activities, and medical data through our digital devices is an increasingly recognizable field in which the lines between caretaking and control have blurred. In this age of surveillance, mothers' behaviors and bodies are observed, made public, exposed, scrutinized, and policed like never before. *Supervision: On Motherhood and Surveillance* gathers together the work of fifty contributors from diverse disciplines that include the visual arts, legal scholarship, ethnic studies, sociology, gender studies, poetry, and activism to ask what the relationship is between how we watch and how we are watched, and how the attention that mothers pay to their children might foster a kind of counterattention to the many ways in which mothers are scrutinized. A groundbreaking collection, *Supervision* is a project about vision (and supervision), and all the ways in which vision intersects with surveillance and politics, through motherhood and personal history as well as through the histories and relations of the societies in which we live. Contributors: Melina Abdullah, Jeny Amaya, Gemma, Anderson, Nurcan Atalan-Helicke, Sarah Blackwood, Lisa Cartwright, Cary Beth Cryor, Moyra Davey, Duae Collective, Sabba Elahi, Laura Fong Prosper, Regina José Galindo, Michele Goodwin, Alexis Pauline Gumbs, Lily Gurton-Wachter, Sophie Hamacher, Jessica Hankey, Keeonna Harris, Laëtitia Badaut Haussmann, Jennifer Hayashida, Kenyatta A.C. Boys' Life

Colors are all around us, but also within us. We not only have our favorite colours, our auras have their own color. Our chakras have their different colors. Tuning in to our colors rebalances our selves with nature and each other. Finding our right color has implications for the way we dress, how we decorate our homes, even the food we eat. Use the color inset and the exercises in this book to find the right colors for you in different situations. Become color intelligent, and live a glorious life of kaleidoscopic color rather than a monochrome existence.

Best Me Ever

Dementia and Alzhiemers coloring in book In recent years, the health benefits of coloring have been explored and studied. Seniors, especially those with dementia and alzhiemers, greatly benefit from neurological stimulation, and coloring in is one of the ways to achieve this much needed brain exercise. The benefits found throughout numerous studies may include: Reduction of stress and anxiety Improved motor skills and vision Improved sleep and focus Decision making skills It is important to note however, that different activities will work and be favoured by those with dementia differently - that is - some may love coloring, while others may hate it. This coloring book has been developed specifically for individuals with Dementia and Alzheimers, as well as any other seniors looking for a coloring in activity book. How does this book differ from other coloring books: This book only contains simple shapes and patterns. Rather than being specific objects or animals etc, this book contains shapes and patterns that encourage decision making - How can I make this page look good? Use of thick lines, making it easier for seniors to 'stay in the lines' Each page is repeated twice. For those who use the book in order, carers and family members will be able to track progress (I.e Coloring in may be messy to begin with, but improve throughout the book indicating improvement in cognitive function. Conversely, coloring in may be clean to begin with, and slowly get less coherent, indicating a decline in your loved ones health and indicating the need for greater assistance and care levels) It is recommended that a schedule is developed with these activities, to provide further structure to your loved one or patient. This may include a certain goal to meet (E.g. 1 Page per day) or an allocated time slot to color in. Consistency is key to improvement. Book Features: 60 Coloring in pages (30 designs repeated twice) Single sided print, allowing for use of texta and ink pen and preventing bleed through White paper Perfect bound book Softcover 8.5 x 11 inch
