## Catland

A reincarnation of the ingenious 1829 panoramic guide to the River Thames, offering an authentic glimpse of Georgian London from that majestic watery vantage. This delightful book reproduces much of bookseller Samuel Leigh's rare, hand-colored, sixty-foot panorama of both banks of the River Thames between Westminster and Richmond, as well as his complete panorama of the City and Southbank as seen from the Old Adelphi buildings in the Strand. Together, they offer fascinating views of central London and the riverside villages in 1829, toward the end of the Georgian period. The journey takes us past all the waterside communities and villages of the day, each of which is introduced by a short history and with its stately homes, churches, and other structures clearly identified. An eight-page gatefold reproduces the view of the City of London from the Adelphi district. A gazetteer, also divided by village, provides additional information on the most interesting and important landmarks. This is a history of how one of the world's great cities has been shaped by the river that runs through it.

## Panorama of the Thames

Filled with photos, facts, and stats, this book is packed full of information about our 50 states. Put all 50 United States in a kid's hands with this unique panoramic sticker book. Each state is profiled in this book, and readers will learn about capitals, population, and other vital information. The back cover of the book folds out to show two maps of the USA—one political and one geographical. Kids can use the vinyl stickers to decorate their maps while learning all about our fascinating country.

## The 50 States

Let your imagination unfurl! This beautifully crafted fold-out coloring book features 15 unique coloring templates that allow you to bring a world of deep-sea beauty to life. Printed on premium weight matte paper and featuring an elastic closure, this book, with 32 accordion-folded panels, seamlessly unfurls to form a 20-foot panorama.

## Posh Panorama Adult Coloring Book: Oceans Unfurled

Take a piece of the city home with you! Revisit twelve of New York City's most famous sites with this delightful cutpaper, accordion-fold novelty. New York, New York — the city that never sleeps is known for its superlatives. ## The Twelve Days of Christmas

Moomins always sleep through the winter or they did until the year Moomintroll woke up and found he couldn't go back to sleep again. All the clocks had stopped, there was nothing to eat and no one to talk to at home, so he went out straight into the first snowdrift he had ever seen. The valley wasn't green any more, it was white and silent and very scary. But then Moomintroll spied some tracks in the snow and decided to follow them. Maybe he wasn't the only one awake in Moominvalley after all?

A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull, pages that could fold out, pop-up scenes, and even mechanical toys mounted on pages. Analyzing books for young children published between 1835 and 1914, *Playing with the Book* studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is, particularly in relation to children's literature and child readers. Novelty books promised (or threatened) to make reading a physical as well as intellectual activity, requiring the child to pull a tab or lift a flap to continue the story. These books changed the relationship between pictures, words, and format in both productive and troubling ways. Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century. She discovers that children ripped, tore, and colored in their novelty books—despite these books' explicit instructions against such behaviors. Richly illustrated with images of these ingenious constructions, *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight, thus reconfiguring our understanding of the phenomenology of reading.

From a pop-up master and an acclaimed poet and author comes a glorious celebration of the true spirit of Chanukah. Open this beautiful gift book and follow the Festival of Lights through place and time — from Herod's temple to a shtetl in Russia; from a refugee ship bound for the New World to an Israeli kibbutz. Inspired by Michael J. Rosen's reverent poem, Robert Sabuda's striking pop-ups depict each night's menorah in a different scene, using imagery such as desert tents, pushcart lanterns, olive trees, and a final panorama of skyscrapers. Sure to be a treasured family heirloom, this stunning collaboration showcases the spirit and resilience of a people in search of home.

## The Crown Jewels

Readers can learn how to tell time and why it matters with this cleverly humorous new picture book from the best-selling creators of 365 Penguins. Bear can't tell time and it's causing chaos for the human family he lives with. He botches breakfast, he's late for school, he swaps music with gym class, and he misses lunch, too. When his time-management skills land him in a sticky situation, the family decides enough is enough. Using a 12-piece pizza pie, they teach Bear how to read a clock. Suddenly, time is on Bear's side: he's punctual, aces his classes, and fills his schedule with volunteer work and sports practices. But it isn't long before this bear begins to burn out.... Jean-Luc Fromental's engaging writing and Joëlle Jolivet's signature retro design combine in this lighthearted and accessible book on the importance and how-tos of telling time.

### Emotional Landscapes

The first day of the battle of the Somme, 1 July 1916, was the most devastating event of the First World War for the British army. In *Zero Hour*, 14 superlatively photographed panoramas (each one a four-page gatefold, opening to nearly 1 metre wide) show the Somme's major sites as they look today. Taken from the exact viewpoints of the front-line British troops as they began their advance towards the German trenches at 7.30 a.m., these hauntingly peaceful present-day views are annotated (in the handwritten military style of the time) to show the lethal German defensive positions at the moment of the attack. Jolyon Fenwick's eerily compelling photographs are accompanied by detailed maps and vivid descriptions of the day's events, detailing their awful human loss: out of 116,000 British and Empire troops committed to the assault, by nightfall 57,470 had become casualties, and 19,240 were dead. *Zero Hour* is simultaneously a celebration of the renewing power of nature, and a powerful and unconventional reminder of the horrors of the past.

### The Jumblies

A vibrant, interactive peekaboo board book that little ones won't be able to resist.

### Barbie: From the Heart

From raucous stormy seas to a welcomingly vivid rainbow, weather's most exciting moments come to brilliant life in this fantastic new pop-up book. In her hugely successful books *Creatures of the Deep* and *What's in the Egg*, as well as her enormously popular series of greeting cards for the Museum of Modern Art, Maike Biederstaedt has established herself as one of the preeminent paper artists working today. Now Biederstaedt takes book engineering to new heights as she immerses readers in five electrifying weather scenarios. As each spread unfolds, a meticulously designed landscape emerges--a freighter balances like a nutshell between high waves in the sea; a tornado takes terrifying aim at a truck trying to outrun it; a rain-spewing storm cloud towers like a skyscraper over a farm house. Nature's delicate beauty emerges in the intricate shapes of a snowflake and in the luminous arc of a rainbow. Each page features an informative description of its weather event and the book closes with sobering commentary on the effects of climate change. A wondrous introduction to weather for budding climatologists, this is also an artistic tour de force that collectors will treasure.

### Paris Pop-up

Showcases the designs of pop-up creators from around the world, offering examples on how to construct them.
