Workplace Plus 3 with Grammar Booster

Workplace Plus, an innovative four-level standards-based English course, readies adults for self-sufficiency in the three principal areas of their lives: the workplace, the community, and the home. Workplace Plus integrates the CASAS life skill competencies and SCANS Competencies and Foundation Skills with a complete language syllabus and relevant and practical social language. The new Grammar Booster provides extra practice beyond each lesson. Workplace Plus 3, by Joan Saslow, is written for intermediate learners. It rapidly enables them to: understand spoken and written general employment-related language. communicate in their own words outside of an English class. understand the culture and behavioral expectations of their new environment and workplace. Workplace Plus is

correlated to the following national standards: SCANS Competencies and Foundation Skills, CASAS Life Skill Competencies, and EFF Content Standards. All correlations are downloadable from the Workplace Plus companion website.

Workplace Plus 3 with Grammar Booster Workbook

Workplace Plus readies adults for self-sufficiency in the three principal areas of their lives: the workplace, the community, and the home by weaving together three interdependent strands: workplace skills, life skills, and communicative competence.

Workplace Plus 4 with Grammar Booster Workbook

With a focus on valuable life skills, work skills, and language, this series of texts prepares adults to function successfully at work and within their community. Workplace Plus: Living and Working in English enables students to understand spoken and written employment-related language and to express themselves clearly in preparation for the culture and expectations of American society.

Living and Working in English

This updated edition provides clear, concise instruction on every form of business writing, from traditional business letters, reports, and memos to email and other electronic communications. The author emphasizes that effective business English begins with mastering grammar and sentence structure, and presents a brush-up review of grammar and correct English usage. She also advises on achieving an appropriate business style that conveys the writer's message succinctly without resorting to stilted, overly formal language or meaningless jargon. This book is perfect for the modern businessman since it's been updated for today's web-based world. Includes excellent examples of model business letters, rÃ©sumÃ©s, employment letters, interoffice memos, news releases, and business reports. Additional features include exercises with answers and essential advice for job interviews.

Widgets Inc.: A task-based course in workplace English is a business communication course for English as a second or foreign language (ESL/EFL) classes. It is the second edition of the course, which was originally published by Pearson Longman (Hong Kong: 2008). Students simulate being interns working for a fictional company called Widgets Inc. The course is designed to be compatible with a range of English proficiency levels (from CEFR A2 to C1), including mixed-level classes. It requires a class of 12 or more motivated adults who meet for between 22-45 hours (fifteen to thirty 90-minute periods). Students are placed into teams and follow a project-based product development cycle across 6 stages. Stage 1 introduces the company and a cast of fictional characters who interact with the class via online streamed video. Stage 2 is an R&D stage in which students brainstorm product ideas. In Stage 3, they are given several product ideas proposed by a different team, and must select the best one to go into production. In Stage 4, they are given another team's selected product and must perform market research on it. In Stage 5 they prepare a proposed marketing campaign for yet another product passed from a different team. Stage 6 is the conclusion, in which students prepare a resume and interview for a promotion within the company. Each stage is punctuated by a presentation and/or a writing task which is related to the stage's topic. Students are assessed via can-do statements built into the simulation as "employee evaluations" which include self, peer, and instructor assessments. The course features a task-complexity based syllabus rather than the traditional grammar syllabus or functional-notional syllabus.

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom

settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. *How People Learn* examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Workplace English 1 [Book Only]

Power and Politeness in the Workplace has become established as a seminal text for courses in language and professional communication. Co-authored by bestselling author Janet Holmes, this text provides insights into the way we all talk at work, including a wealth of material illustrating the way people communicate with each other in their ordinary everyday encounters in their workplaces. The analysis focuses, in particular, on how and why people "do" power and politeness in the workplace, and examines the discourse strategies involved in balancing the competing demands of meeting workplace objectives and getting things done on time with maintaining good collegial workplace relationships. Drawing on a large and very varied corpus of data collected in a wide range of workplaces, the authors explore specific types of workplace talk, such as giving advice and instructions, solving problems, running meetings and making decisions. Attention is also paid to the important contribution of less obviously relevant types of workplace talk such as humour and small talk, to the construction of effective workplace relationships. In the final chapter some of the practical implications of the analyses are identified. This Routledge Linguistics Classic is here reissued with a new preface from the authors, covering the methods of analysis, an update on the Language in the Workplace project and a look at the work in the context of recent research. *Power and Politeness in the Workplace* continues to be a vital read for researchers and postgraduate students in the fields of applied linguistics and communication studies.

Reflecting current practices in the teaching of writing, the exercises in this compilation were drawn from the journal "Exercise Exchange." The articles are arranged into six sections: sources for writing; prewriting; modes for writing; writing and reading; language, mechanics, and style; and revising, responding, and evaluating. Among the topics covered in the more than 75 exercises are the following: (1) using the Tarot in the composition class; (2) writing for a real audience; (3) writing and career development; (4) teaching the thesis statement through description; (5) sense exploration and descriptive writing; (6) composition and adult students; (7) free writing; (8) in-class essays; (9) moving from prewriting into composing; (10) writing as thinking; (11) values clarification through writing; (12) persuasive writing; (13) the relationship of subject, writer, and audience; (14) business writing; (15) teaching the research paper; (16) writing in the content areas; (17) writing from literature; (18) responding to literature via inquiry; (19) precision in language usage; (20) grammar instruction; (21) topic sentences; (22) generating paragraphs; (23) writing style; (24) peer evaluation; and (25) writing-course final examinations. The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration

Understanding Reading revolutionized reading research and theory when the first edition appeared in 1971 and continues to be a leader in the field. In the sixth edition of this classic text, Smith's

purpose remains the same: to shed light on fundamental aspects of the complex human act of reading--linguistic, physiological, psychological, and social--and on what is involved in learning to read. The text critically examines current theories, instructional practices, and controversies, covering a wide range of disciplines but always remaining accessible to students and classroom teachers. Careful attention is given to the ideological clash that continues between whole language and direct instruction and currently permeates every aspect of theory and research into reading and reading instruction. To aid readers in making up their own minds, each chapter concludes with a brief statement of "Issues." Understanding Reading: A Psycholinguistic Analysis of Reading and Learning to Read, Sixth Edition is designed to serve as a handbook for language arts teachers, a college text for basic courses on the psychology of reading, a guide to relevant research on reading, and an introduction to reading as an aspect of thinking and learning. It is matchless in integrating a wide range of topics relative to reading while, at the same time, being highly readable and user-friendly for instructors, students, and practitioners.

Praise for VIRTUAL TEAM SUCCESS "There's no school for this yet, but when the first is established, Virtual Team Success: A Practical Guide for Working and Leading from a Distance will certainly be the core curriculum." —JESSICA LIPNACK AND JEFFREY STAMPS, CEO and co-founders, NetAge "Virtual Team Success is a must have for anyone managing geographically-dispersed teams. DeRosa and Lepsinger bring experience and credentials to guide us all through the labyrinth of problems that so often derail virtual teams. As our global businesses become increasingly complex, I can't imagine a more timely or better resource." —JAY MOLDENHAUER-SALAZAR, vice president, talent management, The Gap "For global teams that want to be top-performing, Virtual Team Success should be their team handbook. It's loaded with tools, checklists, models, and practical recommendations for working and leading from a distance. This is the kind of book virtual teams really need to be successful. I've been waiting for a book like this and look forward to recommending it as a resource that can help improve the performance of our teams!" —KATHLEEN MCGUIRE, manager organizational development, Bayer Healthcare HR Global Leadership Development "Virtual teams are intended to make optimal use of expertise spread across the world, but performance excellence is the exception and mediocrity the rule. After extensive and careful study of real teams, DeRosa and Lepsinger have captured essential information, principles of operation, and tools in a highly readable volume that can help thoughtful readers elevate the performance of the teams significantly. The practical focus, collection of techniques and tools, and "how to" tips provide an essential foundation for anyone with virtual team responsibility. The organization of the book centered around challenges, differentiators, and lessons will facilitate finding answers to any problem the team faces. The RAMP model makes it easy to focus on what's important in enabling top performance." —MIKE BEYERLEIN, professor, Organizational Leadership, Purdue University

Eat food that's good for you. Good food helps your bones to grow. It makes you strong and it stops you getting sick.

Everyone needs food to live. It gives you energy to work and play. It also gives you nutrients to grow well and stay healthy. Do you eat a balanced diet with lots of different nutrients ?

Your body needs proteins to build muscles. Proteins are also important for healthy hair and fingernails. You can get lots of proteins from meat, fish and eggs. Dairy products, like milk, cheese and yogurt, also contain proteins. Many people don't eat animal products, but they can get proteins from plant products. Pulses, like beans and lentils, are rich in proteins. Many grains, nuts and seeds have proteins, too. Which of these foods do you eat?

of meat and fish have a lot of fats. Dairy products, like butter and cheese, have fats, too. You can also get fats from plant products like nuts, seeds and vegetable oils. Be careful! Too many fats can make you fat.

Your body also needs minerals. You need calcium for strong bones and healthy teeth. Dairy products, like milk and yogurt, are good sources of calcium. You also need iron for healthy blood. You can get iron from red meat and eggs, or from vegetables like broccoli and spinach. Salt is also an important

mineral, but be careful! Too much salty food is bad for you.

Most waste materials decompose. They break down into very small pieces. Food waste decomposes fast, but some waste materials decompose slowly. Paper materials take from two to five months to decompose. Some metal materials take from eighty to one hundred years, and plastic materials take maybe up to one thousand years. Some materials, like glass, never decompose.

The sun is a star. It's very, very hot! The sun has lots of heat and light. Heat and light from the sun come to Earth. The heat and light make Earth warm so we can live here. Light from the sun comes to Earth in eight minutes.

Some places are warm and sunny all year, and they have no seasons. Some places have seasons. In summer, there's more light from the sun, so it's warm. In winter, there's less light from the sun, so it's cold. Is it warm and sunny where you live?
