You have used up 5/14 of your vacation days. Approximately what percentage of your vacation days have you already used?

You work at a bakery and have to pay 36 cents for each pound of flour you buy. You decide to buy 14/4 pounds of flour today. How much will you have to pay?

You are a pharmacist and own a local drug store. Last week, you filled 250 prescriptions in 40 hours. Assuming that each prescription takes the same amount of time, how many minutes should it take you to fill a single prescription?

You run a local company that makes concrete. When making one particular kind of concrete, you have to add 2 units of sand for every 3 units of cement powder. You are making a batch of this concrete that has 66 units of cement powder. How many units of sand should you add?

In your job as a lab assistant, you must fill a tank with a chemical. The volume of the tank is 60 cubic

yards. Reports on the chemical are completed in cubic feet. How many cubic feet of chemical will you need in order to fill the tank? (1 cubic yard = 27 cubic feet)

You work as a technician that measures the wear on tractor tires. In order to determine the rate of wear, you must first determine the circumference of each tire. The tire you are currently measuring has a diameter of 46.5 inches. What is the circumference? (circumference = $3.14 \times \text{diameter}$)

You are a nutritionist who advises clients and sells supplements to them. A box containing the supplements weighs 8 pounds and 5 ounces when full. The box itself weighs 7 ounces when it is empty. Each supplement weighs 0.75 ounces. About how many supplements should be in the box? 1 pound = 16 ounces

You work as a medical assistant whose weight- loss clients are participating in an international trial. All of the clients' weights are taken in pounds. However, you need to convert the weights to kilograms. Which formula should you use? [1 kilogram = 2.2 pounds]

Your company processes dairy products. Milk is stored in a spherical storage tank that is 72 inches across on the inside. The tank is now 80% full of milk. What is the volume in gallons of the milk in the tank?

Step 1 - Calculate in cubic inches the volume of the sphere when it is full.

The Workkeys practice test problems are free samples from our Workkeys Math Practice Book.
