Differential Aptitude Tests

As per this circular, the C.B.S.E. will undertake Aptitude Test twice, once at the end of Class IX and then at the end of Class X. The Aptitude Tests along with other school records and CCE would help teachers, students and parents in deciding the choice of subjects in Class XI. The present series of books, 'Know Your Aptitude' for Classes IX and X covers all aspects of aptitude testing required at these levels. Each of these books has been divided into two units, namely General Aptitude Test and Scholastic Aptitude Test. General Aptitude Test comprises the following topics : 1. Visual Reasoning 2. Numerical Reasoning 3. Verbal Analysis 4. Sequential Reasoning 5. Spatial Recognition 6. Three-D 7. Systems 8. Vocabulary 9. Aptitude Profiling and Selection of Subjects 10. Aptitude Tests Scholastic Aptitude Test comprises four Scholastic Aptitude Tests in each of the following subjects : 1. Mathematics 2. Science 3. Social Science 4. English By going through these books, the learner will be able to (i) know what to study (ii) identify his/her weaknesses and overcome them (iii) actually improve his/her mental ability (iv) develop speed and (v) gain confidence. By working through these tests, the learner can build an Aptitude Profile. Using this Aptitude profile the learner can select the right subject for further course of study. In other words, these books are of great use in selecting the right subject for further study. These books provide one of the most scientifically designed tests to know the aptitude of the learner and his/her abilities to study a particular subject. Suggestions for the improvement of the books are most welcome. — The Publishers

IQ and Aptitude Tests

Contrary to the popular belief, sales people don't rely on "the gift of the gab" to be successful. Actually, the opposite is true. The best sales professionals spend far more time asking and listening than they do talking and selling. They ask questions of their customers; they ask questions of their colleagues, and they ask questions of their managers. If Oxford defines curiosity as the strong desire to know or learn something, then by that definition, sales people are curious by nature. In fact, that's how sales professionals learn to be professional in the first place. This is a collection of practical answers to questions sales people ask most. Written by Susan A. Enns, a professional sales coach with a proven track record of sales excellence over her 30 plus year career. Her accomplishments include consecutively being the top sales rep in Canada, managing the top sales branch, and achieving outstanding sales growth in a national channel sales organization. She has written several books about sales and sales management and has created numerous automated sales tools. Her work has been published in several locations numerous times and has sold on five separate continents. As such, over the years, Susan has been asked many questions by many sales people. After a while, she saw that sales people, regardless of their experience, the products they sell, the industries in which they operate, or the countries where they sell, all share similar curiosities. In other words, although the wording may be different when asked in an email or when asked in person, sales people all ask the same questions, the most common of which are answered in this ebook. As the old saying goes, the only stupid questions are the ones unasked. As a sales professional, you should never be afraid to "Ask the Sales Coach" because you will learn so much from the answers! - "Susan really knows the selling world. She's honest, articulate, bright, giving, highly competent, personable and a top professional. Welcome her. It's the right thing to do." - "Our company hired Susan as our sales coach. She has helped me make more appointments, close more deals and make more money. The 3 most important concepts in sales. I would recommend any sales force hire her to help boost business sales". - "Susan ...understands the sales process intimately and is able to create a management process around it that drives sales people to accomplish their goals." - "Susan knows her stuff. She brings many years of great sales experience and success to anyone who wished to improve their skills in sales. She is very personable, and is not afraid to tell it like it is. I would recommend anyone (and I have) to Susan, her website, her books if you want to become a better sales person." - "Thanks for the training... I made my quota this year in May!"

IT Consultant Diploma - City of London College of Economics - 12 months - 100% online / self-paced

This biography of an outstanding figure in the post-World War II British school system offers new and important insights into the history of education. Detailing Newsom's ideas about the type of schooling children would need after the war, it is shown how he quickly coordinated the country's welfare and education services as many thousands of evacuees escaped to Hertfordshire from the German bombing raids on London. His success at a time of accentuated demand for social reform is made apparent, explaining his radical school designs which were linked to liberal child-centered teaching approaches. Attention is paid to those areas of education particularly close to Newsom's heart--the arts, outdoor camps and expeditions, and the reconciliation of war-torn nations through overseas exchanges.
