Narrative and Critical History of America

Updated and enlarged, this groundbreaking collection surveys the major critical currents and approaches in drama, theater, and performance

Narrative and Critical History of America: The United States of North America

Provides historical coverage of the United States and Canada from prehistory to the present. Includes information abstracted from over 2,000 journals published worldwide.

Narrative and Critical History of America Edited by Justin Winsor

A definitive new reference on the major failures of American corporate governance at the start of the 21st century. Tracing the market boom and bust that preceded Enron's collapse, as well as the aftermath of that failure, the book chronicles the meltdown in the telecom sector that gave rise to accounting scandals globally. Featuring expert analysis of the Sarbanes-Oxley legislation that was adopted in response to these scandals, the author also investigates the remarkable market recovery that followed the scandals. An exhaustive guide to the collapse of the Enron Corporation and other financial scandals that erupted in the wake of the market downturn of 2000, this book is an essential resource for students, teachers and professionals in corporate governance, finance, and law.

A collection of seventeen short stories by well-known American authors from the early nineteenth century through the middle of the twentieth century.

The Story of American Bank Note Company

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. He can be reached online at www.newsdissector.com.

The British National Bibliography

Fox News is Robert's TV news channel; Rush Limbaugh is his radio station news. Those are the only two stations that tell the truth. Robert's short stories give him something to do. After writing two books, *Madam President* and *Madam President 2*, he decided to write some short stories. This is one of three books. Three books are complete, and he is still working on the fourth book. He hopes to put twenty-one stories in that book also. Living alone gets boring and lonely. He writes to kill the boredom. Some stories will make you laugh; others will have you crying. Robert is on his third keyboard. The first two are soaked in tears and shorted out. Happy tears and some from sad stories. Humor is the best medicine. He tries to get as much as he can in each story.

The Pictorial Story of America

Provides an in-depth overview of the Federal Reserve System, including information about monetary policy and the economy, the Federal Reserve in the international sphere, supervision and regulation, consumer and community affairs and services offered by Reserve Banks. Contains several appendixes, including a brief explanation of Federal Reserve regulations, a glossary of terms, and a list of additional publications.

We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Annual Report of the U.S. Military Prison, Fort Leavenworth, Kansas

Gunslingers, gamblers and outlaws vastly outnumbered sheriffs and marshals in the cattle towns of the Kansas frontier. Famous lawmen, such as Charlie Bassett, Wild Bill Hickok and Tom Smith, kept the peace by sheer force of personality and the integrity of the local lockup. The story of the state's settlement can be tracked in the fascinating development of these bastions of prairie justice. Makeshift jails of earlier times were replaced by limestone, brick and concrete structures with iron cells and elaborate locking systems. From the squirrel cage of Wichita to the iron jail of Lawrence City, tour these early Kansas prisons with author Gerald Bayens.
