Faithful Parents Faithful Children

My goal in this book is to bring Scripture to bear on the whole subject of education. Christian parents are increasingly aware of the educational and moral disasters stalking their children in the schools. Those same parents are often being encouraged by friends to home educate. Yet the questions keep nagging: Are we really able to teach our own children? Aren't my children to be salt and light? How will they be socialized? This book teaches clear Biblical principle regarding these and many other issues. May God's word and wisdom transform your life as it has mine. For Christian Civilization, Don Schanzenbach

Faithful Parents, Faithful Kids

From the actions and attitudes of parents whose children follow the Lord, others can learn how to instill Christian values in their children.

Faithful Parents, Faithful Kids

Parenting strategies you can be proud of You know the feeling. You got frustrated, desperate, or overwhelmed and you reacted before you could think it through. Whether it's a one-time thing or it becomes a habit, we all parent in ways we don't like. But it doesn't have to continue. Whether it's bribery, yelling, counting to three, or threats of punishment you didn't mean to make, reacting never feels good. But if you can learn to act with intentionality, you'll feel better about your choices and be grateful for the results. Dr. Kathy Koch (pronounced "cook"), author of Screens and Teens and 8 Great Smarts, will teach you proven strategies for training your child's heart and parenting in a way that honors God. She'll help you move your child from, "I can't, I won't," to "I can, I will, and I did." We can do better than "Because I said so." or "No screen time for 3 days." We can do better than mere behavior modification.

We can change our children's hearts and teach them to do what is good, godly, and right even when we're not around. Once you've learned to put these motivation strategies in place there's no more need to nag, you'll be astounded at what your kids will do without being asked. Dr. Kathy doesn't offer a quick-fix. Starting with the heart is all about changing what children believe in order to change their behavior. And learning to use this kind of motivation takes effort, consistency, and strategy, but it works. And it's never too late! If you're willing to commit to a little hard work up front, you'll enjoy your kids, your life, and yourself much more when you learn to start with the heart.

Start with the Heart

When the topic of homeschooling comes up, there often seem to be various assumptions as to why we homeschool our children, which are simply wrong, or, at the most, inadequate. Yes, the government schools have bullies; yes, the government schools might be bigger targets for armed shootings; and yes, the government schools (even the ones in good school districts) have kids or teachers who will teach our children language or experiences that we would rather them not learn that early in life (or at all). And while all those things are true and good reasons to educate our children at home, even if those problems were corrected, we--and many other parents--would still be committed to homeschooling our children. Why? The purpose of this book is to answer that question--and to answer it from the Scriptures.

The Heart of Home Schooling

Author Judy Zwirblis taught children in her home for more than twenty years. During this time, she noticed that the ordinary days of homeschooling were moments of the Lord's gentle touch, the teaching of His love. In *Treasured Tales of Homeschool*, she shares the signs, wonders, and miracles the Lord provided while she homeschooled her children. Each personal account reflects the purpose of family and how children learn their God-ordained destiny by knowing who they are in Christ. Using Zwirblis' personal and professional experiences, *Treasured Tales of Homeschool* provides witness to both the far-reaching problems in families and schools and how parents and grandparents can teach children according to the word of God and reap wonderful results. Filled with key biblical principles Zwirblis discovered while teaching her own boys and working with at-risk children, the stories share God encounters and spiritual insights into the heart of God. Praise for *Treasured Tales of Homeschool: My heart was warmed and my emotions touched as I read through Treasured Tales of Homeschool: An Inspiration for Parents* by Judy Zwirblis. Being an educator for more than thirty years, this book has encouraged me and reinforced my own conviction for Christian education through the life experiences of the Zwirblis family: lessons of fathering and mothering under the mighty hand of the Holy Spirit revealed such great biblical lessons of faith, challenge, nurture, trust, vision, and even letting go (Dr. Ronald L. Bernier, Senior Pastor, Master Builder Ministries and Headmaster, East Gate Christian Academy).

Why We Homeschool

Heartfelt Inspiration to Revive, Encourage, and Strengthen the Homeschooling Mom If you're on an airplane, you're instructed, in the event of a loss of cabin pressure, to put on your own oxygen mask before helping your child. The reason? If you don't have a supply of oxygen, you won't be able to help anyone else. The same is true for the rest of life: you can't give what you don't have. And as a homeschooling mom, you pour yourself out every day for the sake of your children. Yet how do you fill yourself up? Where do you get your spiritual oxygen? Now you can be filled and restored by the original Bible for homeschool moms—with a full year's worth of encouraging daily devotions placed alongside the beloved text of the King James Bible. These heartfelt, practical readings written by Janet Tatman, a former homeschooling mom, cover topics such as finding strength to keep motivated, avoiding burnout, staying focused and committed, navigating the needs of toddlers while educating siblings, managing schedules, delegating tasks and chores, setting boundaries, and most importantly, maintaining proper soul care while juggling educational and household responsibilities. The words of these devotions will breathe life into your soul so that you can successfully run the race. Features: • 365 daily meditations with prayers written by Janet Tatman, a veteran homeschooling mother with more than 25 years of experience homeschooling • The full text of the classic King James Version (KJV) Bible • Foreword from Vickie Farris, author, homeschool mom, and wife of Michael Farris, founder of the Homeschool Legal Defense Association • Topical index

Treasured Tales of Homeschool

Raising children is hard work. This is news to no one, especially home schooling families. Many are tempted to cut corners or even give up. But there is help and encouragement to be found. The Heart of Home Schooling will focus you on what really matters -- the primary importance of being faithful in the spiritual aspects of our home schooling -- not just the academics. Chris Klicka presents principles coming primarily from his and his wife Tracy's own experience training their seven children. Speaking from both his heart and many scriptural principles, Chris affirms that you do not home school for home schooling's sake, but for the glory and honor of God.

KJV, Homeschool Mom's Bible

The theme developed in this book is what it means to be a right-minded parent and a right-minded child. The former role involves being faithful to the changing function of parent, at the same time respecting the child's decision-making mind to choose its life experiences, and whether to perceive them through the eyes of the ego or the Holy Spirit. We know we have attained spiritual maturity when we no longer think of our parents or parental surrogates as authorities--on the level of content--but as brother and sister walking with us on the path that leads us home. Thus, both forms of this primary relationship can, if we so choose, exemplify Jesus' message of forgiveness: not seeing another's interests as separate from our own. WHAT IT MEANS TO BE A MAN Raising up men has never been easy, but today it seems particularly tough. The young and old need heroes to embody the eternal qualities of manhood: honor, duty, valor, and integrity. In *The Book of Man*, William J. Bennett points the way, offering a positive, encouraging, uplifting, realizable idea of manhood, redolent of history and human nature, and practical for contemporary life. Using profiles, stories, letters, poems, essays, historical vignettes, and myths to bring his subject to life, *The Book of Man* defines what a man should be, how he should live, and to what he should aspire in several key areas of life: war, work, leisure, and more. "Whether we take up the sword, the plow, the ball, the gavel, our children, or our Bibles," says Bennett, "we must always do it like the men we are called to be." *The Book of Man* shows how.

Home Schooling 101

THE CHRISTIAN LIFE IS ABOUT SERVING A PURPOSE GREATER THAN OURSELVES. DISCOVER THAT PURPOSE NOW! There is one thing we are to seek. One vision given for us to fulfill. A single mission that would serve as the goal for something so large as a nation, yet specific to us as individuals. There is one primary cause by which we are to define all that we are, all that we have, and all that we do. What we are to seek above all else is the Kingdom of God and His righteousness (Matt. 6:33) and to do the will of God on earth as it is in heaven (Matt. 6:10). A vital, governing institution for this mission is the family - in specific, the trustee family. It is the Christian family that holds this great Kingdom mission "in trust" and instills this mission in its members. It is the Christian family that serves as the first church, state, workplace, and school in which children are prepared for godly dominion. Therefore, Christian parents are called to establish Kingdom-driven families. They are to build a home for God - a house that is dedicated to the service of the King and His Kingdom. To aid in this calling, Christian author and education expert, Andrea Schwartz has carefully put together this collection of essays entitled *A House for God: Building a Kingdom-Driven Family*. Both your personal life and your family life will be challenged and transformed through the pages of this easy-to-read, insightful book on building a Kingdom-driven family.

School to Home

Why does the church teach? And what should it teach? In recent years, traditional Sunday school and education programs have declined in influence and effectiveness. Education in the church is often sidelined by other competing priorities, and our efforts become haphazard and random. As a result, many Christians have not learned the fundamental doctrinal content of the faith. As a response, a growing number of church ministries have moved toward an emphasis on Christian spiritual formation. But churches must hold together education and formation, the teaching of the faith and the forming of the faithful. In this comprehensive text, Gary Parrett and Steve Kang attend to both the content and process of educational and formational ministries. They set forth a thoroughly biblical vision for intentional teaching of the Christian faith, with a holistic concern for what and whom is taught as well as how and why. Fully apprised of developments in educational theory and pedagogy, Parrett and Kang propose a core curriculum for recovering the full scope of Christian proclamation and reinvigorating the teaching ministry of the church. Their vision has implications not merely for catechesis, but for preaching, worship, children's and youth ministry, and much more. The body of Christ can become all that God intends it to be, through intentional practices that foster personal and corporate formation. Here is guidance for individuals and congregations on that journey.

Your Future 'Other Half'

Parents today seem to be at a loss to know how to speak with their children about faith. They want to do something but fear doing theological damage, so they leave the teaching to the church. As a result, their children's knowledge and experience of faith are left to whatever religious education, worship, stewardship, and mission take place in their congregations. Even if these experiences outside the home are high-quality, they are not enough. *Making A Home For Faith* addresses the how-to's of being faithful parents who, in their words and actions, show what it means to live the Christian faith. Elizabeth Caldwell offers simple, straightforward, solid guidance to help parents monitor and nurture their children's faith development, respond to their children's questions, and present the best possible example of faithful living.

Teach Them Diligently

"A straightforward, practical guide that takes an anyone-can-do-this approach" (Kirkus Reviews), *The Brainy Bunch* outlines the Harding family's well-rounded method for producing college-ready kids by age twelve. Having six out of ten kids go to college is no small feat on its own, but having six kids in college before their teens—that's nothing short of incredible. "Never judgmental and not without humor," this "fascinating read" (Library Journal) is Kip and Mona Lisa Harding's story of producing exactly those extraordinary results. Kip and Mona Lisa are parents to an engineer (who earned her BS in mathematics at seventeen), an architect (who became the youngest member of the American Institute of Architects), a Navy physician (who earned her biology degree at seventeen), an entrepreneur (who earned an MS in computer science at seventeen), a sixteen-year-old college senior studying music theory and performance, a thirteen-year-old Middle Ages scholar with the highest average in his college class, and four others who are following fast in their siblings' footsteps! No wonder the family is so used to being asked: How did you do it? In an "impressive" (Publishers Weekly), down-to-earth narrative, Kip and Mona Lisa reveal with warmth and humility the strategies behind their family's amazing educational accomplishments. Filled with daily regimens, advice for providing children with fulfilling experiences that go beyond the home, and tips for making the transition to college, theirs is an inspirational real-life success story that anyone can achieve—whether you homeschool your children or not. Featured on the Today show and FOX, *The Brainy Bunch* is uplifting and ultimately relatable proof of what any family can accomplish through dedication, love, faith, and hard work.

Homeschooling For Dummies

Parents and Children consists of a collection of 26 articles from the original Parent's Review magazines to encourage and instruct parents. Topics include The Family; Parents as Rulers; Parents as Inspirers; Parents as Schoolmasters; The Culture of Character; Parents as Instructors in Religion; Faith and Duty (a secular writer has useful suggestions for using myths and stories to teach morals; along with the Bible, these can give examples of noble characters to emulate); Parents' Concern to Give the Heroic Impulse; Is It Possible?; Discipline; Sensations and Feelings Educable by Parents; What is Truth? (Dealing with Lying); Show Cause Why; A Scheme Of Educational Theory; A Catechism of Educational Theory; Whence and Whither; The Great Recognition Required of Parents; and The Eternal Child. Charlotte Mason was a late nineteenth-century British educator whose ideas were far ahead of her time. She believed that children are born persons worthy of respect, rather than blank slates, and that it was better to feed their growing minds with living literature and vital ideas and knowledge, rather than dry facts and knowledge filtered and pre-digested by the teacher. Her method of education, still used by some private schools and many homeschooling families, is gentle and flexible, especially with younger children, and includes first-hand exposure to great and noble ideas through books in each school subject, conveying wonder and arousing curiosity, and through reflection upon great art, music, and poetry; nature observation as the primary means of early science teaching; use of manipulatives and real-life application to understand mathematical concepts and learning to reason, rather than rote memorization and working endless sums; and an emphasis on character and on cultivating and maintaining good personal habits. Schooling is teacher-directed, not child-led, but school time should be short enough to allow students free time to play and to pursue their own worthy interests

Annual Report of the Pennsylvania Department of Agriculture

Excerpt from Third Annual Report of the Pennsylvania Department of Agriculture, 1897, Vol. 1 The destruction of the special report of this division by the burning of the State Capitol was a misfortune, but the almost unanimous passage of an act of the Legislature for reprinting it, furnished but another proof of the fact that an unusual and lasting interest has been awakened in our State on this subject. The special report of Dr. Rothrock shows that the division has over practical correspondents, and that a large number of blanks have been sent out asking for information relative to the amount of timber which has been cut during the year, the condition and value of that left standing and for information upon other topics relating to the forest interests of our State, and the replies already received to these circulars of inquiry clearly prove that Dr. Rothrock will be able to lay before our next Legislature information of such a practical character as will relieve the division from any mistaken criticism and show the wisdom of

the legislation secured last winter. Arrangements have been made to secure special reports from experts in relation to the relations of our forests to water powers which, owing to the rapid introduction of electricity as a power, are annually becoming more valuable and more worthy of protection. The study of the various fungi which causes more or less loss to our forests, shade and fruit trees has also had the attention of the division, and it has been the pleasure of the Department to heartily co-operate with Dr. Rothrock in this special direction. The Indians of Berks County, Pa., Being a Summary of All the Tangible Records of the Aborigines of Berks County, and Contaning Cuts and Descriptions O

Third Revised Edition During the Victorian Era in Berks County, Pennsylvania, a group of gentlemen and farmers shared their findings of the various Native American artifacts collected by them. David Benton Brunner, a schoolteacher, collector, and later Congressman, compiled the history of recorded native activity in the county and curated the best artifacts for display in this book, The Indians of Berks County. Originally published in 1881, this book contains dozens of woodcut illustrations by the author of the finest specimens, arranged by category. He notes the locations where the artifacts were found and by whom. He also includes a list of all significant collectors in the county, their locations, and the quantities of artifacts acquired by category. Brunner's book was revised in 1897 and now, again, for the first time in nearly 125 years. This revised third edition contains corrections and updates, a new foreword, the bibliography used by Brunner, an extensive index, and an afterword detailing some of the prominent collectors involved in the project besides the author. This book is a classic for relic collectors or those interested in Native American or colonial history.

Indians of Berks County, Pa

Excerpt from History of the Counties of Berks and Lebanon The writer made no attempt in this compilation, as can be done in regular history, in which causes and effects are minutely given, to preserve a consecutive chronological arrangement of facts; it was not his design to do so; he simply aimed at embodying in a convenient form, notices of the leading incidents that occurred in Berks and Lebanon, from their earliest settlements; and with that view, preserved, as far as practicable, original documents, letters, extracts, etc., knowing that there are always read with much interest by the great majority. The design of this work is to preserve the most interesting local facts relating to the Indians

who inhabited this region of country, the numerous sanguinary massacres committed by them; to give brief historical sketches of the first Swedish, Welsh, French, German, Irish, and English settlers, and as far as practicable, to preserve the names of those who resided a century ago, within the limits of these counties, and to occasionally intersperse biographical sketches of some of the pioneers or their immediate descendants, of ministers of the gospel, so far as they had been connected with the church in these counties, &c. How far this has been done, is left to the candid reader to say. Nothing has been left undone on the part of the compiler, to collect facts from authentic sources and arrange them according to the best of his judgment. "History, Manners, and Customs of the Indian Nations Who Once Inhabited Pennsylvania and the Neighbouring States" by John Gottlieb Ernestus Heckewelder is a remarkable historical exploration that immerses readers in the rich tapestry of Native American heritage in Pennsylvania and its surrounding regions. Heckewelder's meticulous research and deep respect for the subject matter shine through in this compelling work. As a Moravian missionary who lived among the Delaware and other Native American communities, he brings a level of authenticity and understanding that is truly commendable. This book not only provides a vivid and respectful account of the customs and traditions of these indigenous nations but also offers valuable insights into their interactions with European settlers, a perspective often absent from conventional historical narratives. For those intrigued by Native American history, early American settlers, or a more profound understanding of Pennsylvania's past, this book is an invaluable resource, presenting an often-overlooked facet of American history with clarity and reverence.

History of the Counties of Berks and Lebanon

America's wilderness was opened to permanent settlement by such wayfarers as the inveterate frontiersman Daniel Boone (DB). As the pioneers pushed against the frontier & across the continent, Boone's wandering spirit was there. His intrepid spirit was the mark of American resourcefulness & determination, & it is not surprising that the memory of the frontier experience has been burned into the national consciousness. DB was born in PA & there he grew up. A portion of the farm on which he lived & the ancient house that is part of it are preserved as the DB Homestead in Berks County. This document discusses DB in PA, & his family & Quaker heritage; the Boone Homestead & its neighbors, incl. Indians; & the DB Legend. Illustrations.

History of the Counties of Berks and Lebanon

In 1683, ten months after his arrival in America, William Penn wrote this now-famous sketch of Lenni Lenape Society. An acute observer, he was interested in all facets of Indian culture, and his account ranges from descriptions of the Indians' daily lives through discussions of their religious and moral views. Penn interpreted their mode of living with understanding, sympathy and, on occasion, even wistful envy. This edition includes the texts of several early Indian treaties and related documents.

History of the Counties of Berks and Lebanon

According to its public institutions, there are no Indians in Pennsylvania. This seems odd, considering the fact that many European settlers met Native Americans for the first time there, but in fact the state is amongst the few not to recognize and Native American nations and to have no reservations. Minderhout and Frantz sought out those who considered themselves Native Americans in Pennsylvania, despite their being "invisible" as a people to state government. The book examines the history of Native Americans in Pennsylvania and their status under the law, stereotypes and myths Indians face, their personal identity and spirituality, conflicts, organizations and events. The results clearly show what happens when people are marginalized out of official existence.

A cruise is a complete vacation, so it's important that you choose the one that's right for you. Frommer's Caribbean Cruises & Ports of Call is the most user-friendly, opinionated, and informative guide you can buy before you set sail. Unlike other guides that try to cover cruises around the entire world in one volume, we focus solely on the Caribbean, so we can bring you much more in-depth coverage. Unlike those used in other guides, our rating system is simple. We break down the essential elements of a cruise experience (dining, activities, children's activities, entertainment, service, overall enjoyment, and overall value), and rate them from "poor" to "outstanding." Photos of each ship combine with the text to give a better sense of the very real differences among the various lines. Most important, this is the only cruise guide that provides the real prices people pay for cruises, not just the rack rates. Other guides tell you that a seven-night cruise aboard Royal Caribbean's Brilliance of the Seas costs \$2,099. You can pay that if you want to, but only Frommer's tells you that the same cruise is selling for \$649. We give both the rack rates and the discount price for every cruise in the Caribbean. This feature alone makes Frommer's Caribbean Cruises and Ports of Call by far the most valuable trip-planning book among cruise guides. Our authors, noted cruise experts who've personally checked out every ship sailing the Caribbean, offer candid and unbiased opinions on them all. They are completely up to date, with all the latest developments and the newest ships. You'll also get complete coverage of 35 Caribbean port destinations, with advice on how to spend your limited time ashore.
