A real control system - how to start designing - A real control system - how to start designing by Brian Douglas 253,715 views 5 years ago 26 minutes - Let's design a **control system**, the way you might approach it in a real situation rather than an academic one. In this video, I step ...

control the battery temperature with a dedicated strip heater

open-loop approach

load our controller code onto the spacecraft

change the heater setpoint to 25 percent

tweak the pid

take the white box approach taking note of the material properties

applying a step function to our system and recording the step

add a constant room temperature value to the output

find the optimal combination of gain time constant

build an optimal model predictive controller

learn control theory using simple hardware

you can download a digital copy of my book in progress
