Guión

One of the twentieth century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

During that half-century, Florentino has fallen into the arms of many delighted women, but has loved none but Fermina. Having sworn his eternal love to her, he lives for the day when he can court her again. When Fermina's husband is killed trying to retrieve his pet parrot from a mango tree, Florentino seizes his chance to declare his enduring love. But can young love find new life in the twilight of their lives? Gabriel Garcia Marquez, winner of the 1982 Nobel Prize for Literature and author of *One Hundred Years of Solitude*, started his literary career with the publication of *The Story of a Shipwrecked Sailor*. . . 'On February 22 we were told that we would be returning to Columbia' In 1955 eight crew members of *Caldas*, a Colombian destroyer, were swept overboard. Velasco alone survived, drifting on a raft for ten days without food or water. Marquez retells the survivor's amazing tale of endurance, from his loneliness and thirst to his determination to survive. *The Story of a Shipwrecked Sailor* was Marquez's first major work, published in a Colombian newspaper, *El Espectador*, in 1955 and then in book form in 1970. 'The story of Velasco on his raft, his battle with sharks over a succulent fish, his hallucinations, his capture of a seagull which he was unable to eat, his subsequent droll rescue, has all the grip of archetypal myth. Reads like an epic' *Independent* 'A master storyteller' *Daily Mail* 'Garcia Marquez is a retailer of wonders' *Sunday Times*

Strange Pilgrims is a collection of unforgettable stories about distinctive South American individuals in Europe from the Nobel laureate Gabriel Garca Marquez author of *One Hundred Years of Solitude* and *Love in the Time of Cholera*. 'The first thing Senora Prudencia Linero noticed when she reached the port of Naples was that it had the same smell as the port of Riohacha' The twelve stories here tell of Latin Americans adrift in Europe: a bereaved father in Rome for an audience with the Pope carries a box shaped like a cello case; an aging streetwalker waits for death in Barcelona with a dog trained to weep at her grave; a panic-stricken husband takes his wife to a Parisian hospital to treat a cut and never sees her again. Combining terror and nostalgia, surreal comedy and the poetry of the commonplace, *Strange Pilgrims* is a triumph of storytelling by our most brilliant writer. 'Celebratory and full of strange relish at life's oddness, the stories draw their strength from Marquez's generous feel for character, good and bad, boorish and innocent' William Boyd 'The most important writer of fiction in any language' Bill Clinton 'Often touching, often funny, always unexpected, the experience is as enriching as travel itself' *New Statesman*

You have in your hands the most rigorous, complete and readable book ever written about the fascinating science of human sexuality. This book goes beyond the well-worn sexual education advice and the usual evolutionist psychology. After *The Brain Snatcher*, Pere Estupinyà comes back with the first popular science book on sex aimed at a wide audience. While there are some tips for the more adventurous, there is also a wealth of new information to be discovered. Distancing himself from the many books on advice or techniques, Estupinyà brings sex to another dimension by combining popular beliefs and science. Do you want proof that our decision-making in the "heat of the moment" is less rational than we think? Did you know that mind and vagina each go their own way? Are you interested in learning about the effects of yoga on sexual pleasure? Did you know about the attempts in the 60s to "cure" homosexuals with electric shock therapy, the chemical analysis of female ejaculation, or the fundamental relationship between the sympathetic and parasympathetic nervous system? The author has spoken directly with asexual and intersexual individuals, fetishists, multi-orgasmic women, women who never have orgasms through penetration, and men who have no refractory period. He has also

participated in sadomasochistic events; learned tantric techniques with a couple of coaches, spoken with porn performers at Barcelona's Bagdad, and attended workshops in which a woman teaches how to have orgasms with your mind and breathing. The result is an incredible miscellany of information that appeals to both the scientific community and the curious.

Gabriel García Márquez's novel *One Hundred Years of Solitude* seemed destined for obscurity upon its publication in 1967. The little-known author, small publisher, magical style, and setting in a remote Caribbean village were hardly the usual ingredients for success in the literary marketplace. Yet today it ranks among the best-selling books of all time. Translated into dozens of languages, it continues to enter the lives of new readers around the world. How did *One Hundred Years of Solitude* achieve this unlikely success? And what does its trajectory tell us about how a work of art becomes a classic? *Ascent to Glory* is a groundbreaking study of *One Hundred Years of Solitude*, from the moment García Márquez first had the idea for the novel to its global consecration. Using new documents from the author's archives, Álvaro Santana-Acuña shows how García Márquez wrote the novel, going beyond the many legends that surround it. He unveils the literary ideas and networks that made possible the book's creation and initial success. Santana-Acuña then follows this novel's path in more than seventy countries on five continents and explains how thousands of people and organizations have helped it to become a global classic. Shedding new light on the novel's imagination, production, and reception, *Ascent to Glory* is an eye-opening book for cultural sociologists and literary historians as well as for fans of García Márquez and *One Hundred Years of Solitude*.

This book offers discussion and analysis of the subtle writing of Nobel Laureate Gabriel García Márquez - a traditionalist who draws from classic Western texts, a Modernist committed to modernizing the conservative literary tradition in Colombia and Latin America, an internationally recognized major writer of the 1960s Boom, the key figure in popularizing what has been called "magic realism" and, finally, a Modernist who has occasionally engaged in some of the strategies of the postmodern. The author demonstrates that García Márquez is above all a committed and highly accomplished Modernist fiction writer who has successfully synthesized his political vision in his writing and absorbed a vast array of cultural and literary traditions. Drawing on García Márquez's interviews with Williams and others over the years, the book also explores the importance of the non-literary, the presence of oral tradition and the visual arts, thus providing a more complete insight into García Márquez's strategies as a Modernist with heterogeneous aesthetic interests, as well as an understanding of his social and political preoccupations. The Story of a Shipwrecked Sailor

This volume offers a critical study of a representative selection of Latin American women writers who have made major contributions to all literary genres and represent a wide range of literary perspectives and styles. Many of these women have attained the highest literary honours: Gabriela Mistral won the Nobel Prize in 1945; Clarice Lispector attracted the critical attention of theorists working mainly outside the Hispanic area; others have made such telling contributions to particular strands of literature that

their names are immediately evocative of specific currents or styles. Elena Poniatowska is associated with testimonial writing; Isabel Allende and Laura Esquivel are known for the magical realism of their texts; others, such as Juana de Ibarbourou and Laura Restrepo remain relatively unknown despite their contributions to erotic poetry and to postcolonial prose fiction respectively. The distinctiveness of this volume lies in its attention to writers from widely differing historical and social contexts and to the diverse theoretical approaches adopted by the authors. Brígida M. Pastor teaches Latin American literature and film at the University of Glasgow. Her publications include *Fashioning Cuban Feminism and Beyond*, *El discurso de Gertrudis Gómez de Avellaneda: Identidad Femenina y Otredad*; and *Discursos Caribenhos: Historia, Literatura e Cinema*. Lloyd Hughes Davies teaches Spanish American Literature at Swansea University. His publications include *Isabel Allende, La casa de los espíritus* and *Projections of Peronism in Argentine Autobiography, Biography and Fiction*.

This remarkable first novel depicts life in the small Mexican town of Ixtepec during the grim days of the Revolution. The town tells its own story against a variegated background of political change, religious persecution, and social unrest. Elena Garro, who has also won a high reputation as a playwright, is a masterly storyteller. Although her plot is dramatically intense and suspenseful, the novel does not depend for its effectiveness on narrative continuity. It is a book of episodes, one that leaves the reader with a series of vivid impressions. The colors are bright, the smells pungent, the many characters clearly drawn in a few bold strokes. Octavio Paz, the distinguished poet and critic, has written that it "is truly an extraordinary work, one of the most perfect creations in contemporary Latin American literature."

Architecture and Modern Literature

A passionate tale of love, freedom, and conquest from the New York Times bestselling author of *The House of the Spirits*, Isabelle Allende. Born into a poor family in Spain, Inés Suárez, finds herself condemned to a life of poverty without opportunity as a lowly seamstress. But it's the sixteenth century, the beginning of the Spanish conquest of the Americas. Struck by the same restless hope and opportunism, Inés uses her shiftless husband's disappearance to Peru as an excuse to embark on her own adventure. After learning of her husband's death in battle, she meets the fiery war hero, Pedro de Valdivia and begins a love that not only changes her life but the course of history. Based on the real historical events that founded Chile, Allende takes us on a whirlwind adventure of love and loss seen through the eyes of a daring, complicated woman who fought for freedom.

The Book of Embraces

I Twenty-five years ago, at the Conference on the Comparative Reception of Darwinism held at the University of Texas in 1972, only two countries of the Iberian world-Spain and Mexico-were represented.' At the time, it was apparent that the topic had attracted interest only as regarded the "mainstream" science countries of Western Europe, plus the United States. The Eurocentric bias of professional history of science was a fact. The sea change that subsequently occurred in the historiography of science makes 1972 appear something like the antediluvian era. Still, we would like to think that that meeting was prescient in looking beyond the mainstream science countries-as then perceived-in order to test the variation that ideas undergo as they pass from center to periphery. One thing that the comparative study of the reception of ideas makes abundantly clear, however, is the weakness of the center/periphery dichotomy from the perspective of the diffusion of scientific ideas. Catholics in mainstream countries, for example, did not handle evolution much better than did their coreligionaries on the fringes. Conversely, Darwinians in Latin America were frequently better placed to advance Darwin's ideas in a social and political sense than were their fellow evolutionists on the Continent. The Texas meeting was also a marker in the comparative reception of scientific ideas, Darwinism aside. Although, by 1972, scientific institutions had been studied comparatively, there was no antecedent for the comparative history of scientific ideas.

In *Living to Tell the Tale* Gabriel Garcia Marquez - winner of the 1982 Nobel Prize for Literature and author of *One Hundred Years of Solitude* - recounts his personal experience of returning to the house in which he grew up and the memories that this visit conjured. 'My mother asked me to go with her to sell the house' Gabriel Garcia Marquez was twenty-three, a young man experimenting with his writing when this mother asked him to come back with her to the village of his grandparents and the memories of his Colombian childhood. In the first part of Gabriel Garcia Marquez's memoir, the Nobel Prize-winning author returns to the atmosphere and influences that shaped his formidable imagination and formed the basis of his world-famous, and much-loved, fiction. 'A treasure trove, a discovery of a lost land we knew existed but couldn't find. A thrilling miracle of a book' *The Times* 'A marvellous journey. Never less than a miracle' *Sunday Times* 'Marquez writes in this lyrical, magical language that no one else can do' Salman Rushdie

The author, in defining the genre of "lyrical fiction," separates a type of fiction that can be legitimately viewed as "poetry" from other narrative types. The lyrical novelist uses fictional devices to find an aesthetic expression for experience, achieving an effect most frequently seen in dreams, picaresques, and allegories. Analyzing representative novels by Hermann Hesse, Andre Gide, and Virginia Woolf, Ralph Freedman focuses on the problem of self-consciousness. His findings are directly applicable to much twentieth-century fiction. Originally published in 1963. Gabriel García Márquez

"[A] landmark work . . . which showed how literary evaluation draws authority from the institutions—principally universities—within which it is practiced." —The New Yorker Winner of the René Wellek Prize of the American Comparative Literature Association John Guillory challenges the most fundamental premises of the canon debate by resituating the problem of canon formation in an entirely new theoretical framework. The result is a book that promises to recast not only the debate about the literary curriculum but also the controversy over "multiculturalism" and the current "crisis of the humanities." Employing concepts drawn from Pierre Bourdieu's sociology, Guillory argues that canon formation must be understood less as a question of the representation of social groups than as a question of the distribution of "cultural capital" in the schools, which regulate access to literacy, to the practices of reading and writing. "A brilliant analysis of a debate that has come to define our cultural moment. Ceding nothing to sentiment, Guillory has written an intellectually severe and uncompromising study that will leave few of our comfortable commonplaces quite intact. This is, in short, a landmark work; one that will outrage and inform in equal measure." —Henry Louis Gates, Jr. "This is the very best account I've read of how and why literary canons are formed and what can be gained from an understanding

of the process of formation. Guillory's analysis is highly sophisticated, his learning prodigious, and his judgment excellent. Cultural Capital is a major study in every way and will be discussed for years to come." —Marjorie Perloff
