Fresh out of a bad relationship that ended after a car accident left her with limited mobility, freelance accountant Cassidy Morgan has sworn off men. At least, that's the plan. Until a frantically barking dog leads her to a neighbor's house where she finds a mysterious man out cold and bleeding on the floor...and mumbling things like "no, they'll find me" when she tries to call an ambulance. Yeah, that's not at all concerning. Despite Markus's

surly attitude, Cassidy senses there's something else at work beneath his rugged, keep-your-distance exterior. Whatever it is, it's sexy as hell. With someone still trying to kill him, Markus doesn't want an innocent to get hurt, let alone take care of him. If only his dog wasn't crazy in love with her. If only the chemistry between Markus and Cassidy didn't explode whenever they were in the same room. If only Cassidy wasn't a target now, too.

Alek's older brother, Justice--the Alpha Zenith--was the first shifter to mate with a vampire in many generations, and it was believed the rare, fated pairing would stop at him. But, it hadn't. Aleksei 'Alek' Volkov was second beta, next in succession to the most powerful shifter in the world. He was proud of his title and he took his duties seriously. It was all he had. Until his true mate literally showed up on his doorstep. While his brother--the overachiever--excelled at having a vampire as a mate, Alek wasn't that optimistic he would. He wasn't averse to love, and he'd often thought of how different his life could've turned out if he'd ever experienced the emotion. His life was a mess and he'd worn a mask of stability for a majority of that time, only showing his siblings and pack what they needed to see--a strong Volkov alpha. Not the damaged man he was, with a tortured soul and a rogue wolf. Alek dropped his heavy head in his hands. Now, for some reason, I've been granted a true vampire mate. And not just any vampire. The intimidating Belleron Liatos. Lord High to the King and the leader of his army. Belleron 'Bell' Liatos had come to the states for one reason--his best friend and Vampire King, Chadwick Bentley. He certainly didn't come to be pounced on by a wolf that could act independently of its master. Not only was his destined cherished a complicated and confused man; but he was also unaware of the powerful presence that lurked in the shadows of his soul. Bell didn't know he'd be the key to unlocking an exceptional triad that would play a critical role in fulfilling the prophecy. This story DOES NOT contain or even mention MPREG. No multiple pairings. No cliffhangers. Ends with a very HFN. Warning: This book is M/M paranormal: If you DO NOT like alpha men shifting into large wolves, or vampires feeding from their destined beloveds, than this may not be the novel for you.

Prophecy

"You can fight me all you want, Grace, but you can't ignore what you feel for me forever. If neither of us reject each other the bond only grows stronger. You feel it don't you, your need for me," He calmly said, inching his way toward me. I glared at him, the sound of his voice had me pooling in my. I hated that, hated that all it took was his voice to turn me on, "You're not my mate. I refuse to believe it!" Was all I said before I stormed out of there. After a drunken one night stand with a stranger, Grace Evans wakes up with a note left at her bedside. The last words of the note both startle and confuse her especially since she saw her mate die in front of her very eyes. What happens when the mysterious stranger now comes to claim her? Will she give in to him or will she reject him, killing his wolf and breaking his heart?

Vowed in Shadows

Still, to say that it all began when Sophie Mol came to Ayemenem is only one way of looking at it . . . It could be argued that it actually began thousands of years ago. Long before the Marxists came. Before the British took Malabar, before the Dutch Ascendancy, before Vasco da Gama arrived, before the Zamorin's conquest of Calicut. Before Christianity arrived in a boat and seeped into Kerala like tea from a teabag. That it really began in the days when the Love Laws were made. The laws that lay down who should be loved, and how. And how much.

Bookstore owner Aubrey Barnes likes his quiet, orderly London life, thank you very much. His shop may be struggling, his only employee is a menace, and his plumbing is one creaky pipe away from disaster, but he can handle it. Maybe. He cannot, however, handle the film company that's thrown his Soho street into chaos. And he definitely can't handle the charismatic American actor Blake Sinclair. Which is why he's extremely reluctant to lease out his shop as a set for Blake's film, but it's his one opportunity to save his business. Now he can't get away from the distractingly hot actor. Then Aubrey finds himself alone with Blake in a trailer...and what happens next turns London's heat wave into an inferno that leaves him breathless. Aubrey is not cut out for the high-profile life of celebrity dating—especially an American actor who's not even out yet. Good thing their tryst is absolutely not going anywhere. But expecting nothing can be complicated...especially when it starts to mean everything. Each book in the When Snow Falls series is STANDALONE: * An Unexpected Kind of Love * When London Snow Falls

Sam:It's the first day of summer break and I'm officially done with high school! My softball team just won the championship and it's my two year anniversary with Brett. Everything's coming up Sam right? WRONG. When I found Brett cheating on me, things went from great, to bad, to horrible. Of course my bestie Kyrn ran over for a night of binging on ice cream and chick flicks. That was the plan at least...know what wasn't in the plan? Being kidnapped by a group of guys that look like they were sculpted by the hands of god. Even less expected was when one of my captor's growled "Mine" at me...and yes, I did say growl.Xavier:The moment I laid eyes on Sam I knew she was my mate and I would do whatever it took to have her. When your soul is linked to another, rules go out the window, and nothing or no one can keep you apart. I've followed her scent to her front door and there's no turning back now - she will be mine. When Sam approaches me from the darkness I hear my pack gasp as they say in unison "She's human." But guess what? I don't care.

Storm and Silence

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

An Unexpected Kind of Love

Eighteen-year-old Trinity is unlike any other werewolf in her pack. For one, there were unusual circumstances surrounding her birth, for another, she is the only pack member to never shift into a wolf form. So now she doesn't quite belong anywhere. Not quite human and not quite wolf. She thought she would be able to live her life how she wanted when she had turned eighteen. Go to college, make some friends, have some fun. But what is she to do when the dangerously sexy Alpha literally falls right into her lap? "I am not human, and I am not a wolf. I don't belong anywhere..." "...we both know that no one is going to mate with me, and even if they did, they would just reject me anyway." What is the sexy, brooding Alpha going to do? The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a Luna for the pack, his people would suffer. And what is he going to do when he stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they going to do now that they're literally stuck with each other?

Scarred

An awesome, globe-spanning, and New York Times bestselling journey through the beauty and power of mathematics What if you had to take an art class in which you were only taught how to paint a fence? What if you were never shown the paintings of van Gogh and Picasso, weren't even told they existed? Alas, this is how math is taught, and so for most of us it becomes the intellectual equivalent of watching paint dry. In *Love and Math*, renowned mathematician Edward Frenkel reveals a side of math we've

never seen, suffused with all the beauty and elegance of a work of art. In this heartfelt and passionate book, Frenkel shows that mathematics, far from occupying a specialist niche, goes to the heart of all matter, uniting us across cultures, time, and space. *Love and Math* tells two intertwined stories: of the wonders of mathematics and of one young man's journey learning and living it. Having braved a discriminatory educational system to become one of the twenty-first century's leading mathematicians, Frenkel now works on one of the biggest ideas to come out of math in the last 50 years: the Langlands Program. Considered by many to be a Grand Unified Theory of mathematics, the Langlands Program enables researchers to translate findings from one field to another so that they can solve problems, such as Fermat's last theorem, that had seemed intractable before. At its core, *Love and Math* is a story about accessing a new way of thinking, which can enrich our lives and empower us to better understand the world and our place in it. It is an invitation to discover the magic hidden universe of mathematics.

Play of Passion

The Kingdom of Askara has been torn apart by conflict for centuries, where humans exist as subservient beings to their werewolf masters. Legend says it will only be able to heal itself when an Alpha King and a pure omega are mated and crowned together, but a pure omega hasn't been born in over a thousand years. Luca is an Alpha-heir eagerly awaiting the choosing ceremony on his twenty-fifth birthday and the gifts granted by whichever omega he mates. His small pack is destitute due to the decisions of its ruling council, but being only an Alpha-heir, he has no authority to challenge them. Not until now - this moment he has waited a long time for. Kit grew up as a street-rat, an unlicensed human who would never be more than a slave for whichever master owns him. Then one day he came across a young Alpha-heir, attacked and dying of poison, and found out their fates were suddenly entwined. Luca needs to take over his pack and save his people. He cannot afford to be distracted. But when he meets Kit, he develops abilities indicating he is not just a pack Alpha, but the King his world has needed for a thousand years. Is Kit really the cause of Luca's newfound power, the true mate he needs? How is it possible when the young man isn't even a werewolf, and as merely a human, a mating is not only forbidden, but for Kit, a sentence of death?

Forthcoming Books

Daniel Lane, who prefers the desert to living in England, becomes involved in the struggles of an old sheik against the plotting by his son and Robert Barthampton. Muriel meets Lane at an embassy ball and feels compelled to visit him in the desert, partly because she has been told that Lizette is his mistress. On her second visit the oasis camp is attacked, Barthampton forces his attentions on Muriel and is killed by Lane, and Lizette is killed just after she explains that she had seen Lane only to give him helpful information. The British Army comes to the rescue, and Muriel and Lane are reconciled.

One Who Kisses

Honeymoon checklist: Suitcase—check Passport—check Husband—oops When Lilly Swanson's fiancé jilts her in front of five hundred wedding guests, she quickly hurtles through the first three stages of grief: screaming, crying and chocolate-eating. But then she makes a decision. Happily-ever-after may be temporarily on hold, but the honeymoon is still booked. And Lilly's going to go—alone. Except it doesn't quite work out like that. Before the plane even takes off, Lilly meets Damien. Tattooed, darkly mysterious and incredibly sexy, he doesn't plan anything beyond the next exotic trip—or the next scorching kiss. He's impulsive and unpredictable, yet somehow sure of himself. When he asks Lilly to go with him to the only place on earth where she can see a burning moon, she knows that saying yes will change everything. This is a story of what happens when you lose the life you thought would keep you safe—and find the courage to reach for the one you never even dreamed of.

Yesterday's Island

Nina came from wealth, but she's lost her fortune and her job and now she's hit rock bottom. Every day, she's looked down upon by her former peers as she serves them as a waitress at a high-class resort. While taking a walk on the beach during her time off, she trips over some driftwood and faints after smacking her head. An elegant, masculine man comes to her rescue. He clutches the freezing Nina to his warm chest and calms her trembling lips with a passionate kiss. Despite her self-consciousness, Nina returns his advances, and they spend one night drowning in pleasure. But can their fate cross the vast divide that separates the rich from the poor?

Burning Moon

Though one of the best-known books in the world, Pinocchio at the same time remains unknown—linked in many minds to the Walt Disney movie that bears little relation to Carlo Collodi's splendid original. That story is of course about a puppet who, after many trials, succeeds in becoming a "real boy." Yet it is hardly a sentimental or morally improving tale. To the contrary, Pinocchio is one of the great subversives of the written page, a madcap genius hurtled along at the pleasure and mercy of his desires, a renegade who in many ways resembles his near contemporary Huck Finn. Pinocchio the novel, no less than Pinocchio the character, is one of the great inventions of modern literature. A sublime anomaly, the book merges the traditions of the picaresque, of street theater, and of folk and fairy tales into a work that is at once adventure, satire, and a powerful enchantment that anticipates surrealism and magical realism. Thronged with memorable characters and composed with the fluid but inevitable logic of a dream, Pinocchio is an endlessly fascinating work that is essential equipment for life.

A mesmerizing novel of two love stories, separated by half a century but connected by one enchanting act of devotion—from the internationally acclaimed Israeli writer Meir Shalev. During the 1948 War of Independence—a time when pigeons are still used to deliver battlefield messages—a gifted young

pigeon handler is mortally wounded. In the moments before his death, he dispatches one last pigeon. The bird is carrying his extraordinary gift to the girl he has loved since adolescence. Intertwined with this story is the contemporary tale of Yair Mendelsohn, who has his own legacy from the 1948 war. Yair is a tour guide specializing in bird-watching trips who, in middle age, falls in love again with a childhood girlfriend. His growing passion for her, along with a gift from his mother on her deathbed, becomes the key to a life he thought no longer possible. Unforgettable in both its particulars and its sweep, *A Pigeon and A Boy* is a tale of lovers then and now—of how deeply we love, of what home is, and why we, like pigeons trained to fly in one direction only, must eventually return to it. In a voice that is at once playful, wise, and altogether beguiling, Meir Shalev tells a story as universal as war and as intimate as a winged declaration of love.

Burning Dawn

Paul Pritchard gained a reputation as a climber of routes of extreme technical difficulty. In 1998, a horrendous accident left him paralyzed. This text recalls his climbing memories and tells of his fight for recovery.

The Late Age of Print

The Arcades Project

This collection of letters forms a fascinating day-by-day account of Steinbeck's writing of *EAST OF EDEN*, his longest and most ambitious novel. The letters, ranging over many subjects - textual discussion, trial flights of workmanship, family matters - provide an illuminating perspective on Steinbeck, the creative genius, and a private glimpse of Steinbeck, the man.

Curiosities of Literature

Some of the Praise for *No Sense of Obligation* . . . fascinating analysis of religious belief -- Steve Allen, author, composer, entertainer [A] tour de force of science and religion, reason and faith, denoting in clear and unmistakable language and rhetoric what science really reveals about the cosmos, the world, and ourselves. Michael Shermer, Publisher, *Skeptic Magazine*; Author, *How We Believe: The Search for God in an Age of Science* About the Book Rejecting belief without evidence, a scientist searches the scientific, theological, and philosophical literature for a sign from God--and finds him to be an allegory. This remarkable book, written in the laypersons language, leaves no room for unproven ideas and instead seeks hard evidence for the existence of God. The author, a sympathetic critic and observer of religion, finds instead a physical universe that exists reasonlessly. He attributes good and evil to biology, not to God. In place of theism, the author gives us the knowledge that the universe is intelligible and that we are grownups, responsible for ourselves. He finds salvation in the here and now, and no ultimate purpose in life, except as we define it.

Pinocchio

The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. *The Optical Unconscious* will be

deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.
