

Henry Parker And The English Civil War The Political Thought Of The Public Apos

[#Henry Parker](#) [#English Civil War](#) [#political thought](#) [#17th century politics](#) [#public opinion](#)

This resource explores the profound contributions of Henry Parker to political thought during the turbulent English Civil War. It meticulously analyzes his ideas concerning the role and influence of 'the public,' providing essential insights into 17th-century political philosophy and the intellectual foundations of governance during a period of immense societal upheaval.

Our goal is to bridge the gap between research and practical application...Parker Civil War Philosophy

Traditions of Theology

Articles in this volume, originally presented at the 1998 Symposium Hellenisticum in Lille, discuss theological questions that were central to the doctrines of the dominant schools in the Hellenistic age, such as the existence of the gods, their nature, and their concern for humankind.

Twelve Years a Slave

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Giuseppe Peano between Mathematics and Logic

This book contains the papers developing out the presentations given at the International Conference organized by the Torino Academy of Sciences and the Department of Mathematics Giuseppe Peano of the Torino University to celebrate the 150th anniversary of G. Peano's birth - one of the greatest figures in modern mathematics and logic and the most important mathematical logician in Italy - a century after the publication of *Formulario Mathematico*, a great attempt to systematise Mathematics in symbolic form.

Roman Aeneas

This book compiles Latin selections from the first six books of Virgil's *Aeneid*.

West Roman Vulgar Law

A friend of Galileo and author of the renowned utopia *The City of the Sun*, Tommaso Campanella (Stilo, Calabria, 1568- Paris, 1639) is one of the most significant and original thinkers of the early modern period. His philosophical project centred upon the idea of reconciling Renaissance philosophy with a radical reform of science and society. He produced a complex and articulate synthesis of all fields of knowledge – including magic and astrology. During his early formative years as a Dominican friar, he manifested a restless impatience towards Aristotelian philosophy and its followers. As a reaction, he enthusiastically embraced Bernardino Telesio's view that knowledge could only be acquired through the observation of things themselves, investigated through the senses and based on a correct understanding of the link between words and objects. Campanella's new natural philosophy rested on the principle that the books written by men needed to be compared with God's infinite book of nature, allowing them to correct the mistakes scattered throughout the human 'copies' which were always imperfect, partial and liable to revisions. It is in the light of these principles that he defended Galileo's right to read the book of nature while denouncing the mistake of those – be they Aristotelian philosophers or theologians – who wanted to stop him from carrying on his natural investigations. However, Campanella maintained that the book of nature, far from being written in mathematical characters, was a living organism in which each natural being was endowed with life and a degree of sensibility that was appropriate for its preservation and propagation. Nature as a whole was an organism in which each single part was directed towards the common good. This is the reason why Campanella thought that nature had to be regarded as an ideal model for any political organisation. Political structures were often ruled by injustice and violence precisely because they had departed from that natural model. This book charts Campanella's intellectual life by showing the origin, development and persistence of some of the fundamental tenets of his thought.

Tommaso Campanella

'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by Déterville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the *Letters of a Peruvian Woman* recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Françoise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes 'civilization'. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Letters of a Peruvian Woman

The travelogue of Harry De Windt, who set out on a journey from Paris to New York by land in the early 20th century. This book provides a fascinating look at the many places and people De Windt encountered along the way, from the bustling metropolis of New York to the wide open plains of the American West. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

From Paris to New York by Land

This sixth volume of the network *Impact of Empire* offers a comprehensive reading on the economic, political, religious and cultural impact of Roman military forces on the regions that were dominated by the Roman Empire.

The Impact of the Roman Army (200 BC-AD 476)

The legend of Aeneas as preserved in the art and artifacts of antiquity is the focus of this study. Gallant warrior, accomplice in the abduction of Helen, fugitive from burning Troy, founder of Rome-in all his roles, Aeneas appears in ancient sculpture and wall painting, on vases, coins, lamps, mirrors, and gems, as richly illustrated here. To what extent he was known to the Greeks and Romans, for what qualities he was admired, and how his legend served the propaganda of empire building are examined in this survey of the visual data, and these are correlated with what is known of the legend in the literary, historical, and religious traditions of the ancient Mediterranean world. Originally published in 1969. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Manitoba School Journal

John of Garland's *Parisiana poetria*, first published about 1220, expounds medieval poetic theory and summarizes contemporary thought about writing. The long account of rhymed poetry included here is the most complete that has survived. This volume presents the most authoritative edition of the Latin text alongside a fresh English translation.

Bona Dea

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

Parisiana Poetria

The name DGGTB (Deutsche Gesellschaft für Geschichte und Theorie der Biologie; German Society for the History and Theory of Biology) reflects recent history as well as German tradition. The Society is a relatively late addition to a series of German societies of science and medicine that began with the "Deutsche Gesellschaft für Geschichte der Medizin und der Naturwissenschaften\

Bibliotheca Spenceriana ...

'the oldest biography of Spinoza', *La Vie de Mr. Spinosa*, which in the manuscript copies is often followed by *L'Esprit de M. Spinosa*. Margaret Jacob, in her *Radical Enlightenment*, contended that the *Traite* was written by a radical group of Freemasons in The Hague in the early eighteenth century. Silvia Berti has offered evidence it was written by Jan Vroesen. Various discussions in the early eighteenth century consider many possible authors from the Renaissance onwards to whom the work might be attributed. The *Trois imposteurs* has attracted quite a bit of recent attention as one of the most significant irreligious clandestine writings available in the Enlightenment, which is most important for understanding the development of religious scepticism, radical deism, and even atheism in the seventeenth and eighteenth centuries. Scholars for the last couple of decades have been trying to assess when the work was actually written or compiled and by whom. In view of the widespread distribution of manuscripts of the work all over Europe, they have also been seeking to find out who was influenced by the work, and what it represented for its time. Hitherto unknown manuscripts are being turned up in public and private libraries all over Europe and the United States.

The Cat - A Guide to the Classification and Varieties of Cats and a Short Treatise Upon Their Care, Diseases, and Treatment

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. Heterodoxy, Spinozism, and Free Thought in Early-Eighteenth-Century Europe

This comprehensive inventory of all known sarcophagi from the Jewish catacombs of Rome, is the first specialized treatment of this subject in monograph form. It describes and analyses each sarcophagus and provides full reference material which it critically examines. This work thus fills a lacuna in the literature on this field, which has up to now been confined to the treatment of early Christian and pagan sarcophagi of the period. ýWe have here a complete overview of the Jewish sarcophagi of ancient Rome, all of them illustrated by photographs and provided with extensive bibliographies. This work thus fills a lacuna in the literature on this field.ý Journal for the Study of Judaism ýUntil this book, however, no one has attempted to assemble all of the Jewish sarcophagi separately in one place and to provide relevant information in the form of a well-ordered catalogue. For this reason, Konikoff's book provides a welcome resource for anyone interested in the material evidence of ancient Judaism and forms a good beginning for study of the sarcophagi, especially from a bibliographic point of view.ý Gnomon .

The Conflict Between Paganism and Christianity in the Fourth Century

The tenth book of Vergil's Aeneid contains some of the poem's most dramatic war narrative and yet has been unjustly neglected by Vergilian scholars. Making the text accessible to the modern reader, this book provides a full introduction examining the literary aspects of Aeneid 10, notes on the text and translation, a discussion of the major interpretational problems of the Aeneid raised in Book 10, and a facing English translation of the text for those with little or no knowledge of Latin. The first major commentary to deal exclusively with Book 10, this work will be invaluable to all interested in the great Roman epic.

Cat and Dog, Or, Memoirs of Puss and the Captain

'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought. Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes *The Lady in the Looking Glass*, *A Society*, *The Mark on the Wall*, *Solid Objects* and *Lappin and Lapinova*.

The Novels of Justinian

Teaching Dialogue Interpreting is one of the very few book-length contributions that cross the research-to-training boundary in dialogue interpreting. The volume is innovative in at least three ways. First, it brings together experts working in areas as diverse as business interpreting, court interpreting, medical interpreting, and interpreting for the media, who represent a wide range of theoretical and methodological approaches. Second, it addresses instructors and course designers in higher education, but may also be used for refresher courses and/or retraining of in-service interpreters and bilingual staff. Third, and most important, it provides a set of resources, which, while research driven, are also readily usable in the classroom – either together or separately – depending on specific training needs and/or research interests. The collection thus makes a significant contribution in curriculum design for interpreter education.

War, Technology and Society in the Middle East

When the school has a costume parade, all of the children dress up in recognizable costumes except for Sacha, who has made a costume of his own design.

The complaint of peace. Transl

Vol 1 905p Vol 2 961p.

Metaformations

The Rhaeto-Romance languages have been known as such to the linguistic community since the pioneering studies of Ascoli and Gartner over a century ago. There has never been a community of RR speakers based on a common history or polity and the various dialects are mutually unintelligible, but a unity, based on a number of common features, has been advanced. This book is the first general description of the Rhaeto-Romance languages to be written in English. It provides a critical examination of the phonology, morphology, lexicon, and syntax of the modern Rhaeto-Romance dialects within the broader perspective of Romance comparative linguistics.

Sarcophagi from the Jewish Catacombs of Ancient Rome

Art and Gentrification in the Changing Neoliberal Landscape brings together various disciplinary perspectives and diverse theories on art's dialectical and evolving relationship with urban regeneration processes. It engages in the accumulated discussions on art's role in gentrification, yet changes the focus to the growing phenomenon of artistic protests and resistance in the gentrified neighborhoods. Since the 1980s, art and artists' roles in gentrification have been at the forefront of urban geography research in the subjects of housing, regeneration, displacement and new urban planning. In these accounts the artists have been noted to contribute at all stages of gentrification, from triggering it to eventually being displaced by it themselves. The current presence of art in our neoliberal urban spaces

illustrates the constant negotiation between power and resistance . And there is a growing need to recognize art's shifting and conflicting relationship with gentrification. The chapters presented here share a common thesis that the aesthetic reconfiguration of the neoliberal city does not only allow uneven and exclusionary urban redevelopment strategies but also facilitates the growth of anti-gentrification resistance. The book will be of interest to scholars working in art history, urban cultures, cultural geography and urban studies as well as contemporary art practitioners and policymakers.

Vergil, Aeneid 10

This two-book developmental writing series engages using with its environmental theme. A Writer's Workshop: Crafting Sentences, Building Paragraphs engages developing writers with a hands-on, process-oriented, collaborative, and conscientious approach to writing, treating students as writers and writing as a dynamic process. Throughout, this text offers sound connections between its lessons and students' existing knowledge. It also explores why we study each writing skill and process, linking lessons to future application in the classroom and beyond.

A Dictionary of Books Relating to America

The two plays included in this volume follow the lives of a princess and a whore. Although set in Italy, this passionate tale of paternal disapproval and sexual deceit savors more of the underworld of Jacobean London with its asylums and prisons, gambling and prostitution.

The Lady in the Looking Glass

This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating. Now Open Access as part of the Knowledge Unlatched 2017 Backlist Collection.
