How can insights from Construction Grammar (CxG) be applied to foreign language learning (FLL) and foreign language teaching (FLT)? This volume explores several aspects of Pedagogical Construction Grammar, with a specific look at issues relevant to second language acquisition, FLL, and FLT. The contributions in this volume discuss a wide range of constructions, as well as different resources, methodologies, and data used to learn constructions in the language classroom. More specifically, they seek to provide answers to the following questions: What do new constructional approaches to teaching and learning foreign language look like that take the insights of CxG seriously? What should electronic resources using constructions and semantic frames for foreign language instruction look like? How should constructions (pairings of form with meaning/function) in the foreign language classroom be introduced? What role does frequency play in learning constructions in the language classroom? What types of strategies does CxG offer to facilitate the acquisition of a second language? This volume is relevant for anyone interested in second language acquisition, foreign language pedagogy, Construction Grammar, and Cognitive Linguistics. Endorsements: If first language learning flows forth from language use, teaching language should be based on relevant usage-patterns, modified in accordance with the advanced cognitive and linguistic knowledge of older learners. The current volume shows how insights from first and second language learning and usage-based Construction Grammar can be turned into evidence-based teaching strategies. Heike Behrens, University of Basel Usage-based Construction Grammar has changed our view of language learning, but it is only recently that researchers have begun to apply the insights of the constructionist approach to language pedagogy. This volume brings together a collection of articles in which experts of Construction Grammar and Usage-based Linguistics make concrete proposals for teaching constructions by using corpora and other resources. A must read for everybody interested in grammar teaching. Holger Diessel, University of Jena With Directions for Pedagogical Construction Grammar, Boas has produced an impressive and much-needed volume which excels at illustrating the immense potential of constructionist approaches to improve language pedagogy. The contributions to this volume, all authored by leading cognitive and corpus linguists, convincingly describe what a successful future of language teaching could look like—one that is founded in usage-based linguistics and takes language patterns seriously. I consider this volume essential reading for any applied linguist. Ute Römer, Georgia State University

Tintin au Tibet

From the black and white pages of a Belgian Catholic newspaper in the late 1920s to the virtual world of a 3D CGI Hollywood movie in 2011, the young adventurous reporter Tintin has come a long way. When Georges Remi, under his nom de plume Herge, sent the crudely drawn hero on his maiden voyage to Communist Russia, little did he know that they were both embarking on a lifelong journey - or in the case of the perpetually youthful Tintin, an eternal mythic quest. Though regarded as mere children's comic books by some, the stories reflect the momentous changes of the twentieth century through the globe-trotting adventures of the young reporter and his companions. They also tell a larger tale - about

the author's and our inner world. This book gives an overview of the canon of Tintin adventures for new readers, giving insights into the graphic language of the stories, as well introducing the wider field of Tintinology to non-academic readers. It concludes by assessing the recent adaptation from the page to the screen by Steven Spielberg and Peter Jackson.

Tintin in Tibet

Eigentlich ist Tim Reporter. Doch regelmäßig schlüpft er in die Rolle des Privatdetektivs, um gegen das Böse zu kämpfen. Immer an seiner Seite: der Foxterrier Struppi, Kapitän Haddock, Professor Bienlein und die beiden Detektive Schulze und Schultze. Die Geschichte bei Tim & Struppi folgt den beiden Helden auf ihrer Reise durch die Zeit und untersucht sowohl den Wahrheitsgehalt als auch die kulturelle Einbettung der Geschichten. Verschiedene Schauplätze, verschiedene Jahrzehnte und verschiedene Gegner lassen Raum für historische Betrachtungen: Über Expeditionsgeschichten bis zu einer Vorhersage der Sonnenfinsternis bei den Maya (die vor dem Hintergrund von 2012 noch einmal besondere Beachtung erfährt), lassen sich auch Anklänge an Science Fiction und Fantasy erkennen. Tim & Struppi geben darüber hinaus ein besonders fantasievolles und faszinierendes Bild unserer Gesellschaft ab, was eine Beschäftigung mit den Comics überaus interessant macht.

Comiczeichnen ist eine kreative Praxis, in der hochspezialisierte körperlich-zeichnerische und intellektuell-kreative Fähigkeiten und Techniken zusammenspielen. Die Comicgeschichte hat immer wieder einzigartige Zeugnisse dieser Kulturtechnik hinterlassen: Skizzen, Studien, Skripte, getuschte Originalseiten und natürlich digitale Daten. Wie aber sind diese Spuren der ästhetischen Produktion zu lesen? Und wie können kreative Praxisprozesse überhaupt beschrieben werden? Damit beschäftigt sich die Comicentwurforschung, deren Aufgaben und Herausforderungen im vorliegenden Band erstmals skizziert werden. Darüber hinaus untersucht das Buch verschiedene Figurationen des Comiczeichnens, an denen sichtbar wird, welche metaphorischen, narrativen oder diagrammatischen Verfahren aufgesucht werden, um komplexe Praktiken wie das Comiczeichnen zu kommunizieren. Dabei werden Kreativitäts-, Handlungs- und Erkenntnistheorie zu einem neuartigen Blick auf Produktionsästhetik verbunden. In Exkursen untersucht der Band außerdem die Ästhetik des Comicentwurfs aus einer phänomenologisch inspirierten Perspektive und erläutert die sozioökonomische Situation zeitgenössischer Comicproduzenten. Die zahlreichen Abbildungen gestatten dabei einen Blick in die Werkstätten von namhaften Comiczeichnern wie Hergé, Chris Ware, Art Spiegelman oder Flix.

Tintin i the Snaws o Tibet

Diese Arbeit beschäftigt sich mit dem Lernpotenzial von Geschichtscomics, einem bislang in der geschichtsdidaktischen Forschung kaum beachteten Gegenstand. Anhand des gesamten Bestandes der bislang in Deutschland veröffentlichten Geschichtscomics untersucht der Autor die prinzipiellen Möglichkeiten und Grenzen dieses Kunstgenres in Bezug auf die Entwicklung von historischen Kompetenzen im Geschichtsunterricht. Anhand von geschichtsdidaktischen Theorie-Aspekten (Narrativität, Geschichtskultur, Emotionales Lernen, Geschichts-Dekonstruktion, u.a.) und empirischen Befunden werden Thesen über die Kapazitäten, Themenfelder und die förderungswürdigen Kompetenzen diskutiert. Die Befunde aus Theorie und Empirie ermöglichen schließlich ein pragmatisches Fazit.

"Takes the reader on a journey through Tibet in this account of one of the world's most ancient civilizations. The country has an innate beauty and conjures up images of mysticism, romance and adventure. Niema Ash's story is that of a humanist and artist, and not an academic."--

Das vorliegende Buch stellt eine Vernetzung von Religionspädagogik, Bibliothherapie und Comicforschung vor und ist damit ein Novum in der Innovation des Religionsunterrichts. Es geht um die Bedeutung des Bildes für religiöse Lernprozesse, um umfassende Ausführungen zur Bibliothherapie sowie zur Religionspädagogik und Comictheorie. Drei Unterrichtseinheiten mit kinderliterarischen Comics verweisen darauf, dass mit der Verbindung von Bild und Text differenzierte Lernangebote für heterogene Lerngruppen realisiert werden können. Im Rahmen einer explorativen Studie werden ermutigende Lernprozesse belegt.

Tim in Tibet. (Uebersetzung)...

Katja will für ein paar Wochen raus aus ihrem Alltag als Ärztin. Gemeinsam mit ihrer elfjährigen Tochter Julia startet sie zu einer Tibetreise in den Himalaya. Das höchste Gebirge unseres Planeten gilt nicht umsonst als Dach der Welt: Es berührt mit seinen atemberaubenden Gipfeln nicht nur den Himmel, sondern auch die Seelen derer, die dieses Erlebnis wagen. Gleich nach der Ankunft in Tibets Hauptstadt Lhasa landen die beiden unsanft in der Realität und die Träume der Reisenden platzen wie Seifenblasen. Beide halten an ihren Zielen fest: Julia will einen Stein aus Omas Garten ins Basislager am Mount Everest bringen, Katja ist auf der Suche nach einem kraftspendenden Sehnsuchtsort, ihrem Shangri-La. Ob in Tibet der Zauber des sagenumwobenen Shangri-La als paradiesischer Ort spürbar ist? Let's go Himalaya - Wo bitte geht's nach Shangri-La ist eine ganz besondere Mutter-Tochter-Geschichte über Mut und Liebe, über Kulturkämpfe und Glücksmomente und über Loslassen und Ankommen vor der beeindruckenden Gebirgskulisse des Himalaya.

Tintin in Tibet

Eine Schatzkiste schauriger Geschichten, wunderbar gruselig illustriert von Axel Scheffler und zum Fürchten gut übersetzt von Mirjam Pressler "Wenn deine Lehrerin in der letzten Zeit auffallend blass aussieht und du den Eindruck hast, dass ihre Eckzähne immer spitzer werden, dann rate ich dir, sofort mit dem Kapitel über Vampire zu beginnen. Vielleicht lässt sich noch etwas retten." Solche guten Tipps finden sich zuhauf in diesem Handbuch, daneben alles Wissenswerte über Geister, Hexen, Zombies und die anderen Mitglieder der großen Gruselfamilie. Ein Nachschlagewerk also, das voller nützlicher Informationen steckt und sich mit seinen vielen witzigen Anekdoten zugleich wie ein spannender Schmöker liest. Außerdem werden die drei klassischen Gruselbücher der Weltliteratur, Dracula, Frankenstein sowie Dr. Jekyll und Mr. Hyde und ihre Autoren kindgerecht vorgestellt. Und so ganz nebenbei lernen Kinder, wie Aberglauben entsteht, was es mit Voodoo auf sich hat, wie es zur Hexenverfolgung kam, und vieles mehr.

The Graphic Mythology of Tintin - a Primer

Imprisoned in India by the British when World War II was declared, Austrian climber Heinrich Harrer escaped, crossing the Himalayas to Tibet. Settling in Lhasa, the Forbidden City, he became the tutor and friend of the present Dalai Lama in this classic of adventure literature.

Die Geschichte bei Tim & Struppi

Seeking adventure, a couple, Ernst and Emilie, embark on a trek across the Himalayas, from Nepal into western Tibet. After a clandestine mountain crossing at the source of the Brahmaputra River, the two lost explorers find themselves destitute with no map and meager supplies. Suddenly, they are captured by a bedraggled patrol of outcasts from the Chinese Army. Their trip turns into a wild odyssey as they become "prisoners" of this ragtag group of wacky characters. Dripping wet and shivering, we found refuge in a shack adjoining the collection of drowning huts from which we had escaped.
