The Novels of Charles Lever

This book explores the Janus-faced features of privacy, and looks at their implications for the control of personal information, for sexual and reproductive freedom, and for democratic politics. It asks what, if anything, is wrong with asking women to get licenses in order to have children, given that pregnancy and childbirth can seriously damage your health. It considers whether employers should be able to monitor the friendships and financial affairs of employees, and whether we are entitled to know whenever someone rich, famous or powerful has cancer, or an adulterous affair. It considers whether we are entitled to privacy in public and, if so, what this might mean for the use of CCTV cameras, the treatment of the homeless and the provision of public facilities such as parks, libraries and lavatories. Above all, the book seeks to understand whether and, if so, why privacy is valuable in a democratic society, and what implications privacy has for the ways we see and treat each other. The ideas about privacy we have inherited from the past are marked by beliefs about what is desirable, realistic and possible which predate democratic government and, in some cases, predate constitutional government as well. Hence, this book argues, although privacy is an important democratic value, we can only realise that value if we use democratic ideas about the freedom, equality, security and rights of individuals to guide our understanding of privacy.

The Last Brother

In the remote forests of Mauritius, young Raj is almost oblivious of the Second World War raging beyond his tiny exotic island. With only his mother for company while his father works as a prison guard, solitary ever since his brothers died years ago, Raj thinks only of making friends. One day, the far-away world comes to Mauritius, and Raj meets David, a Jew exiled from his home in Europe and imprisoned in the camp where Raj's father works. David becomes the friend that he has always longed for, a brother to replace those he has lost. Raj knows that he must help David to escape. As they flee through sub-tropical landscapes and devastating storms, the boys battle hunger and malaria - and forge a friendship only death can destroy. *The Last Brother* is a powerful, poetic novel that sheds new light on a little-explored aspect of 20th-century history.

Waiting for Tomorrow

A powerful examination of the artistic impulse, cultural identity, and family bonds *Anita is waiting for Adam* to be released from prison. They met twenty years ago at a New Year's Eve party in Paris, a city where they both felt out of place—he as a recent arrival from the provinces, and she as an immigrant from the island of Mauritius. They quickly fell in love, married, and moved to a village in southwestern France, to live on the shores of the Atlantic with their little girl, Laura. In order to earn a living, Adam has left behind his love of painting to become an architect, and Anita has turned her desire to write into a job freelancing for a local newspaper. Over time, the monotony of daily life begins to erode the bonds of their marriage. The arrival of Adèle, an undocumented immigrant from Mauritius whom they hire to care for Laura, sparks artistic inspiration for both Adam and Anita, as well as a renewed energy in their relationship. But this harmony proves to be short-lived, brought down by their separate transgressions of Adèle's privacy and a subsequently tragic turn of events. With the careful observation, vivid description, and emotional resonance that are the hallmarks of her previous novel, *The Last Brother*, in *Waiting for Tomorrow* Nathacha Appanah investigates the life of the artist, the question of cultural differences within a marriage, and the creation and the destruction of a family.

The Last Crossing

Journey from Victorian England to the whiskey trading posts of the Old West in this epic award-winning bestseller from the author of *The Englishman's Boy*. In the late nineteenth century, Englishmen Charles and Addington Gaunt are sent by their father to find their brother Simon, a missionary who has gone missing in the wilds of the American West. In the outreaches of the Montana frontier, the brothers hire a guide—a half Blackfoot, half Scot named Jerry Potts—to lead them further north into the area where Simon was last seen. As the party heads out, it grows to include a journalist, a saloonkeeper, a Civil War veteran in search of love, and a young woman bent on revenge. There's no telling what awaits them . . . "One of North America's best writers . . . Tropic of Violence

Marie, a nurse on the island of Mayotte, adopts an abandoned baby and names him Moïse, raising him as a French boy. As he grows up, Moïse struggles with his status as an "outsider" and to understand why he was abandoned as a baby. When Marie dies, he is left alone, plunged into uncertainty and turmoil, ending up in the largest and most infamous slum on Mayotte, nicknamed "Gaza". Narrated by five different characters, *Tropic of Violence* is an exploration of lost youth on the French island of Mayotte in the Indian Ocean. Shining a powerful light on problems of violence, immigration, identity, deprivation and isolation on this island that became a French département in 2011, it is a remarkable, unsettling new novel that draws on the author's own observations from her time on Mayotte.

When she falls in love with a man from a well-to-do family, she believes that her dream is within reach, but her hopes are shattered when her lover is too weak to defy his family and agrees to an arranged marriage to a woman from his own caste.

Revival Season

The daughter of one of the South's most famous Baptist preachers discovers a shocking secret about her father that puts her at odds with both her faith and her family in this debut novel. "Spellbinding...Revival Season should be read alongside Alice Walker's *The Color Purple* and Chimamanda Ngozi Adichie's *Purple Hibiscus*." —The Washington Post A New York Times Book Review Editors' Choice Every summer, fifteen-year-old Miriam Horton and her family pack themselves tight in their old minivan and travel through small southern towns for revival season: the time when Miriam's father—one of the South's most famous preachers—holds massive healing services for people desperate to be cured of ailments and disease. But, this summer, the revival season doesn't go as planned, and after one service in which Reverend Horton's healing powers are tested like never before, Miriam witnesses a shocking act of violence that shakes her belief in her father—and her faith. When the Hortons return home, Miriam's confusion only grows as she discovers she might have the power to heal—even though her father and the church have always made it clear that such power is denied to women. Over the course of the following year, Miriam must decide between her faith, her family, and her newfound power that might be able to save others, but if discovered by her father, could destroy Miriam. Celebrating both feminism and faith, *Revival Season* is a "tender and wise" (Ann Patchett) story of spiritual awakening and disillusionment in a Southern, Black, Evangelical community.

*** J. M. G. Le Clézio is the Winner of the 2008 Nobel Prize for Fiction*** On the isle of Mauritius at the turn of the century the young Alexis L'Etang enjoys an idyllic existence with his parents and beloved sister - sampling the pleasures of privilege, exploring the constellations and tropical flora, and dreaming of treasure buried long ago by the Unknown Corsair. But with his father's death, Alexis must leave his childhood paradise and enter the harsh world of privation and shame. Years later, Alexis has become obsessed with the idea of finding the Corsair's treasure; and through it, the lost magic and opulence of his youth. He abandons job and family, setting off on a quest that will take him from the remote tropical islands to the hell of the First World War, and from a love affair with the mysterious Ouma to a momentous confrontation with the search that has consumed his life. By turns harsh and lyrical, pointed and nostalgic, *The Prospector* is a 'parable of the human condition' (Le Monde) by one of the most significant literary figures in Europe today.

The Prospector

Three boys, fifteen-year-old Ralph Rover (the narrator), eighteen-year-old Jack Martin and four-teen-year-old Peterkin Gay, are the sole survivors of a shipwreck on the coral reef of a large but uninhabited Polynesian island. At first their life on the island is idyllic; food, in the shape of fruits, fish and wild pigs, is plentiful, and using their only possessions; a broken telescope, an iron-bound oar and a small axe, they fashion a shelter and even construct a small boat. Their first contact with other people comes after several months when they observe two large outrigger canoes land on the beach. The two groups are engaged in battle and the three boys intervene to successfully defeat the attacking party, earning the gratitude of the chief Tararo. The Polynesians leave and the three boys are alone once more. Then more unwelcome visitors arrive in the shape of pirates, who make a living trading, or stealing, sandalwood. The three boys conceal themselves in a hidden cave, but Ralph is captured when he sets out to see if the pirates have left, and is taken aboard the pirate schooner. Ralph strikes up an unexpected friendship with one of the pirates, "Bloody Bill"

Coral Island

Joseph Skibell's magical tale about the Holocaust—a fable inspired by fact—received unanimous nationwide acclaim when first published in 1997. At the center of *A Blessing on the Moon* is Chaim Skibelski. Death is merely the beginning of Chaim's troubles. In the opening pages, he is shot along with the other Jews of his small Polish village. But instead of resting peacefully in the World to Come, Chaim, for reasons unclear to him, is left to wander the earth, accompanied by his rabbi, who has taken the form of a talking crow. Chaim's afterlife journey is filled with extraordinary encounters whose consequences are far greater than he realizes. Not since art Spiegelman's *Maus* has a work so powerfully evoked one of the darkest moments of the twentieth century with such daring originality.

A Blessing on the Moon

Jaime Deza, separated from his wife in Madrid, is at loose ends in London when his old friend Sir Peter Wheeler, a retired Oxford don, introduces him to the head of a secret government bureau of elite analysts with the ability to see past people's facades and predict their future behavior. A cocktail party test proves Deza to be one of the elect, and he goes to work clandestinely observing all sorts of people, from South American generals to pop stars. Deza also brings his finely tuned mind to bear on Wheeler's mysterious past and on his own family history, both of which are shadowed by the Spanish Civil War.

Your Face Tomorrow

Meticulously researched and controversial in scope and imagination, "*And So It Was Written*" travels to a time when a Third Temple is built and the Ark of the Covenant holding the Ten Commandments is found. As the Romans prepare to reclaim Israel, two sets of brothers—None Roman and one Jewish—find their friendships, hatreds, and lives intertwined.

And So It Was Written

A hurricane is building over the Gulf of Mexico, threatening the coastal town of Bois Sauvage, Mississippi, and Esch's father is growing concerned. He's a hard drinker, largely absent, and it isn't often he worries about the family. Esch and her three brothers are stocking up on food, but there isn't much to save. Lately, Esch can't keep down what food she gets; at fifteen, she has just realized that she's pregnant. Her brother Skeetah is sneaking scraps for his prized pit bull's new litter, dying one by one. Meanwhile, brothers Randall and Junior try to stake their claim in a family long on child's play and short on parenting. As the twelve days that make up the novel's framework yield to a dramatic conclusion, this unforgettable family - motherless children sacrificing for one another as they can, protecting and nurturing where love is scarce - pulls itself up to face another day.

Eve Out of Her Ruins

The friendship between Mary and Nix had endured since childhood, a seemingly unbreakable bond, until the mid-1980s, when the two young women embarked on a summer vacation in Greece. It was a trip initiated by Nix, who had just learned that Mary had been diagnosed with a disease that would cut her life short and who was determined that it be the vacation of a lifetime. But by the time their visit to Greece was over, Nix had withdrawn from their friendship, and Mary had no idea why. Three years later, Nix is dead, and Mary returns to Europe to try to understand what went wrong. In the process she meets the first of many men that she will spend time with as she travels throughout the world. Through them she experiences not only a sexual awakening but a spiritual and emotional awakening that allows her to understand how the past and the future are connected and to appreciate the freedom to live life adventurously.

Lullaby

Set in an alternate present that is a slightly, if dangerously, skewed version of our own, Keyhole Factory tracks the interwoven destinies of disparate characters up to and beyond the end of the world-as-we-know-it, brought on by a global super-virus. Beginning with a biting satire of an academic poetry conference, the novel moves on to encompass the stories of a poet-astronaut, a microbiologist contemplating an exit strategy from her high-level job designing biological weapons, a sports-car-driving killer who stages the aesthetic murders of utopian commune-dwellers, and a lone pirate radio disc jockey who may be the last person left alive broadcasting her story to nobody. Allowing form and content to shape each other, William Gillespie pries open the confusion in a moment of total crisis through a narrative web-work technique derived from deranged fiction pioneer Harry Stephen Keeler. Part imaginative free-for-all and part deeply felt examination of isolation and survival, the individual lives in Keyhole Factory shine through the chaos in all their beauty and tragedy. With his signature wit and originality, Gillespie spins a glittering fever-dream that questions our assumptions about the way we interpret events and our relation to the planet, without ever losing sight of the underlying experience of what it feels like to be a human being in the world we live in today.

A Life in Men

With the fierce emotional and intellectual power of such classics as Jean Rhys's *Good Morning, Midnight*, Sylvia Plath's *The Bell Jar*, and Clarice Lispector's *The Hour of the Star*, Kate Zambreno's novel *Green Girl* is a provocative, sharply etched portrait of a young woman navigating the spectrum between anomie and epiphany. First published in 2011 in a small press edition, *Green Girl* was named one of the best books of the year by critics including Dennis Cooper and Roxane Gay. In *Bookforum*, James Greer called it "ambitious in a way few works of fiction are." This summer it is being republished in an all-new Harper Perennial trade paperback, significantly revised by the author, and including an extensive P.S. section including never before published outtakes, an interview with the author, and a new essay by Zambreno. Zambreno's heroine, Ruth, is a young American in London, kin to Jean Seberg gamines and contemporary celebutantes, by day spritzing perfume at the department store she calls Horrids, by night trying desperately to navigate a world colored by the unwanted gaze of others and the uncertainty of her own self-regard. Ruth, the green girl, joins the canon of young people existing in that important, frightening, and exhilarating period of drift and anxiety between youth and adulthood, and her story is told through the eyes of one of the most surprising and unforgettable narrators in recent fiction—a voice at once distanced and maternal, indulgent yet blackly funny. And the result is a piercing yet humane meditation on alienation, consumerism, the city, self-awareness, and desire, by a novelist who has been compared with Jean Rhys, Virginia Woolf, and Elfriede Jelinek.

Keyhole Factory

By the author of *The Snow Leopard*, *The Tree Where Man Was Born* and *On the River Styx*, this novel is based around the circumstances of the death of a man in Florida 1910, who had terrorized his community in the Florida Everglades. It explores whether it was murder, exorcism or sacrifice.

Green Girl

In the remote forests of Mauritius young Raj is almost oblivious of the Second World War raging beyond his tiny exotic island. With only his mother for company while his father works as a prison guard, solitary ever since his brothers died years ago, Raj thinks only of making friends. One day, the far-away world comes to Mauritius and Raj meets David, a Jew exiled from his home in Europe and imprisoned in the camp where Raj's father works. David becomes the friend that he has always longed for, a brother to replace those he has lost. Raj knows that he must help David to escape. As they flee through sub-tropical landscapes and devastating storms, the boys battle hunger and malaria - and forge a friendship only death can destroy. *The Last Brother* is a powerful, poetic novel that sheds new light on a little-explored aspect of 20th-century history.

Killing Mister Watson

Meryem, a fifteen-year-old girl, lives in a rural village on the shores of Lake Van in Eastern Turkey. Her simple life changes dramatically after her uncle, a sheikh in a dervish order, rapes her. She is considered an outcast for shaming her family. When she is locked in a shed and left alone for days, she comes to the painful realization that her family expects her to hang herself with a length of rope left on the dirt floor. But she is defiant. As tradition still has it, a judgment must be made in the name of honor. She is told she is to be taken to Istanbul, a shining city she envisions being just over the nearest mountain. Many girls from her village have "gone to Istanbul," and she assumes it must be a wonderful place since not one has returned. In fact, those girls have been the victims of "honor-killings." Cemal, Meryem's cousin, a commando in the army, has been fighting in the mountains against the rebels. On his return home, he is welcomed as a hero though he has been severely traumatized by his war experiences. His father, who had violated Meryem, charges Cemal with the task of executing his cousin's punishment. As he and Meryem begin their journey, they proceed through the marketplace where the townspeople have gathered, some weeping and others mocking her. In Istanbul, a Harvard-educated professor named Irfan lives an elite existence. He has published many books, hosts a radio show, and seems to enjoy success and jet-set freedom. He revolts against the routine of his soulless life, deciding to leave his wealthy wife and Istanbul. He charts a boat to sail the Aegean. By coincidence, his path crosses with that of Meryem and Cemal. They embark on a journey together that fills their hearts with hope and sets them free. Already an international bestseller, this lyrical and moving tale juxtaposes the traditional and modern and draws attention to human rights violations against women in the Middle East.

Bliss

ONE OF NPR'S BEST BOOKS OF THE YEAR • A sweeping debut novel that explores the intimate struggle for independence and success of a young descendant of Indian indentured laborers in Mauritius, a small multiracial island in the Indian Ocean. "The beauty of Busjeet's splendid, often breathtaking book is, like the best stories of journeys to young adulthood, the precious and well-observed and heartbreaking details of day-to-day life." --Edward P. Jones, Pulitzer Prize winning author of *The Known World* In the 1950s, Vishnu Bhushan is a young boy yet to learn the truth beyond the rumors of his family's fractured histories--an alliance, as his mother says, of two bankrupt families. In evocative chapters, the first two decades of Vishnu's life in Mauritius unfolds with heart wrenching closeness as he battles to experience the world beyond, and the cultural, political, and familial turmoil that hold on to him. Through gorgeous and precise language, *Silent Winds, Dry Seas* conjures the spirit and rich life of Mauritius, even as its diverse peoples live under colonial rule. Weaving the soaring hopes, fierce love, and heart-breaking tragedies of Vishnu's proud Mauritian family together with his country's

turbulent path to gain independence, Busjeet masterfully evokes the epic sweep of history in the intimate moments of a boy's life. *Silent Winds, Dry Seas* is a poetic, powerful, and universal novel of identity and place, of the legacies of colonialism, of tradition, modernity, and emigration, and of what a family will sacrifice for its children to thrive.

The Story of a Marriage

In 1988, a retired schoolteacher named Pius Fernandes receives an old diary found in the back room of an East African shop. Written in 1913 by a British colonial administrator, the diary captivates Fernandes, who begins to research the coded history he encounters in its terse, laconic entries. What he uncovers is a story of forbidden liaisons and simmering vengeance, family secrets and cultural exiles--a story that leads him on an investigative journey through his own past and Africa's.

Silent Winds, Dry Seas

A family saga--told in a captivating narrative that leaps forwards and backwards in time--of one family's struggle to survive in the rural United States over 100 years. Carol was thirteen when her daddy lost her in a game of cards. One year later--pregnant and with nowhere to go--she is taken in by Bessie and Martha, who run a secret refuge for "lost women." Fifty years on in the same small Kentucky town, Carol's thirteen-year-old grandson rides his BMX and watches wrestling, mesmerized by 1980s excess, while his community fights to stay employed in factories and on farms. Simon Van Booy has woven the many struggles and small triumphs of three generations of a single Kentucky family into an intimate portrayal of American life that includes the Depression, war, faith, the hardship of women, racial prejudice, and rural disenfranchisement. Van Booy captures the distinctive voices of each generation, time and again revealing the sacred bonds of family and friendship in times of crisis. With stark, poetic clarity, *Night Came with Many Stars* is a captivating journey through one century that reveals an America rarely seen.

The Book of Secrets

In this remarkable novel, which spans eighty years of the twentieth century, Andreï Makine describes, beautifully but unsparingly, the almost uninterrupted succession of violence, misery, and horror that has been visited on the Russian people since the October Revolution of 1917. For those quick to forget, or too young to remember, he paints a graphic portrait of those years in a three-generational novel that is as moving as it is revealing. A young Russian army doctor is sent to distant shores to bind the wounds of those in Africa, the Near East, and South America that are pawns in the global political chess game during the Cold War. Recruited by an intelligence agent, he experiences the bloody reality of revolution on the ground. The book casts its eye back toward his grandfather Nikolai, a Red cavalry soldier fighting the Whites in 1920, and his father, whose story of World War II is invoked with a passion and force that bear comparison to the best writing on the subject. From the battlefields of the 1920s to the harsh African heat and dust of the desert in the 1980s, from the orphanage where the narrator spent his youth to the art galleries and chic salons of the glittering new West, *Requiem for a Lost Empire* has all the sweep and depth, all the beauty and insight of the great Russian novels. It is, as the eminent French critic Edmonde Charles-Roux noted, "an astonishing novel, one that will surely stand the test of time."

Night Came with Many Stars

Winner of the PEN USA Award for Fiction. "An admirable, steely-eyed collection of stories and vignettes featuring a family of ranchers."—*Publishers Weekly* On Hell's Bottom Ranch, a section of land below the Front Range, there are women like Renny who prefer a "little Hell swirled with their Heaven" and men like Ben, her husband, who's "gotten used to smoothing over Renny's excesses." There is a daughter who maybe plays it too safe and a daughter plagued by only "half-wanting" what life has to offer. The ranch has been the site of births and deaths of both cattle and children, as well as moments of amazing harmony and clear vision. "Set in the unpredictable West, these stories remind us that we cannot escape the messiness and obsessions of ordinary life."—Patricia Henley, author of *Hummingbird House* "Displays the talent of a brilliant, new writer."—*The Rocky Mountain News* "With the rugged beauty of the Rocky Mountains as backdrop, Pritchett's spare yet richly evocative stories portray the stark reality of life on a Colorado cattle ranch, where three generations of one family tend the land and animals, devoting and losing themselves to an existence few would understand or choose to follow . . . Regardless of whether the songs she hears are sung by a meadowlark or a jailbird, Pritchett excels

at juxtaposing the sensuous with the severe, the rapturous with the repugnant.”—Booklist “The stories jump back and forth in time, but their message is clear: this family’s ties are as quixotic, fierce, and enduring as the land that binds them together.”—School Library Journal

White Truffles in Winter

A FARMER and his wife fall on hard times. They haven’t lost everything the way others have, but they have lost enough. Their hope for a better future comes under threat when they discover an intruder on their land. A WOMAN from a small town marries an outsider. Her love for him battles with her suspicions that he is the source of the fires ravaging the mountains. A YOUNG BOY, neglected by his parents, sits in the remains of a crashed plane and lovingly tends to two frozen bodies.

The Heaven of Animals

A “mesmerizing” novel of a love triangle and a mysterious disappearance in South Korea (Booklist). In the fast-paced, high-urban landscape of Seoul, C and K are brothers who have fallen in love with the same beguiling drifter, Se-yeon, who gives herself freely to both of them. Then, just as they are trying desperately to forge a connection in an alienated world, Se-yeon suddenly disappears. All the while, a spectral, calculating narrator haunts the edges of their lives, working to help the lost and hurting find escape through suicide. When Se-yeon reemerges, it is as the narrator’s new client. Recalling the emotional tension of Milan Kundera and the existential anguish of Bret Easton Ellis, *I Have the Right to Destroy Myself* is a dreamlike “literary exploration of truth, death, desire and identity” (Publishers Weekly). Cinematic in its urgency, the novel offers “an atmosphere of menacing ennui [set] to a soundtrack of Leonard Cohen tunes” (Newark Star-Ledger). “Kim’s novel is art built upon art. His style is reminiscent of Kafka’s and also relies on images of paintings (Jacques-Louis David’s ‘The Death of Marat,’ Gustav Klimt’s ‘Judith’) and film (Jim Jarmusch’s ‘Stranger Than Paradise’). The philosophy—life is worthless and small—reminds us of Camus and Sartre, risky territory for a young writer. . . . But Kim has the advantage of the urban South Korean landscape. Fast cars, sex with lollipops and weather fronts from Siberia lend a unique flavor to good old-fashioned nihilism. Think of it as Korean noir.” —Los Angeles Times “Like Georges Simenon, [Kim’s] keen engagement with human perversity yields an abundance of thrills as well as chills (and, for good measure, a couple of memorable laughs). This is a real find.” —Han Ong, author of *Fixer Chao*

I Have the Right to Destroy Myself

A captivating and transporting travel novel, *Scorpionfish* reveals how what we leave behind may be exactly what we've been looking for all along. After the unexpected deaths of her parents, academic Mira returns to her childhood home in Athens. On her first night back, she encounters a new neighbor, a longtime ship captain who has found himself, for the first time in years, no longer at sea. As one summer night tumbles into another, Mira and the Captain's voices drift across the balconies of their apartments, disclosing details and stories: of careers, of families, of love. For Mira, love has so often meant Aris, an ex-boyfriend and rising Greek politician who has recently become engaged to a movie star. There is, too, her love for her dear friend Nefeli—a well-known artist who came of age during the military dictatorship—as well as Dimitra and Fady, a couple caring for a young refugee boy. Undergirding each relationship is the love that these characters have for Athens, a beautiful but complicated city that is equal parts lushness and sharp edges. *Scorpionfish* is a map of how and where we find our true selves: in the pull of the sea; the sway of late-night bar music; the risk and promise of art; and in the sparkling, electric, summertime charge of endless possibility. Award-winning author Natalie Bakopoulos braids a story of vulnerability, desire, and bittersweet truth, unraveling old ways of living and, in the end, creating something new.

Brave Surrender

A firsthand look into Kim Walker-Smith's journey from a place of shame and fear to stages around the world where she boldly proclaims the unconditional love of God. Kim Walker-Smith's passionate performance of "How He Loves" helped transform Jesus Culture into a global worship movement. But she wasn't always so confident of God's unrelenting, powerful love. Coming from a painful childhood, Kim struggled to believe that God could heal her heart or bring any sense from her past. Yet when she chose to hand her struggles over to God and receive His love, freedom, and healing in return, everything began to change. On the other side of surrender, Kim began a journey of looking at one painful memory at a time with God and exchanging her perspective for His truth--a journey in which God rewrote her story of pain into a story of redemption and hope. If you are longing to experience God more than the shame or hurts of your past, the pressures of your present, or the fear of your future, Brave Surrender offers a soul-healing path forward. As Kim learned in her own life, the first step--and the bravest step--is letting go. Once we let go of anything that gets between us and God, we are freed to take hold of the life that truly matters. As Kim writes, "When we encounter God's love, it changes the way we see. And when we learn to see what He sees, we will never be the same again."

Silk Queen: Book Two

Book 8 in the #1 bestselling Wishes Series To a wannabe princess like Fiona Black, Jean-Luc Décarie is storybook perfect. He's incredibly handsome, worldly and wealthy beyond measure. Best of all, he loves her. At first, her dreams of a fairy-tale ending with her Prince Charming seem to be back in her grasp, but she soon realises that all that glitters is not gold. The Décarie name is mud... and through no fault of his own, Jean-Luc's crown is rusty.

Sand Jewels

Book 2.5 in the #1 bestselling Wishes Series Gabrielle Décarie was over arrogant men – but that didn't mean she couldn't have a little fun with one. When she took a chance on Alex Blake, it was supposed to be a one-night deal. He was too cocky, too flirty and too complicated. Sand Jewels is the story of why she fell madly in love with him anyway.

Hope, Beauty and Friendship

This selection of poems by a new author was triggered by the tragic death of his 28-year-old daughter. So the collection begins with loss and the aftermath of loss: the hope of the author that his daughter and he may be reunited in the life to come. This hope underlies many of the poems. This is clearly articulated in 'Osler and Son', where a father grieves for loss of his son in World War I but in a stoical, unexpressed manner. The author records his childhood experience of emotions being held back in 'Boys Don't Cry John'. While some poems look back, most are contemporary, such as those inspired by the lockdown and the Ukraine War. The author advocates expression of feelings. This is powerfully expressed in relation to his experience of Friendship, both past and present. Transcendental beauty is a theme in the metaphysical poems 'The Colour Blue' and 'Roman Glass'. However, each poem is unique. Many of them speak from the heart and have an emotional impact. The author hopes that these will resonate with readers.

Taking on a position at a Manhattan gallery turns out to be Charli's dream job, but just a few weeks after starting at his father's firm, Adam realises that practising law is his worst nightmare. Biding his time is the plan. Charli has wanderlust in her soul and he's hopeful that sooner or later, she'll want to go home. Riding it out isn't hard. When fate throws them one nasty curveball after another, Charli's confidence is shattered and her heart is broken. After weeks of trying to make sense of the grief she's feeling, both realise she's out of her depth. Getting out of Dodge is Charli's preferred MO and she doesn't disappoint, finally deciding that it's time to leave New York. Returning to Pipers Cove is not the quick fix they were hoping for. Mello Yello is the intimate life story of music industry legend Jack Gibson a/k/a “Jack the Rapper.” Launching the careers of countless superstars, Gibson forged enduring friendships with some of the most illustrious African American personalities of the twentieth century. His long reaching influence began in 1949, when he and J.B. Blayton established the first black-owned radio station in the United States. As an emcee and promoter, he built enduring friendships with the early black royalty of the entertainment world, among them, Sammy Davis, Jr., Billie Holiday, Erroll Garner, Sarah Vaughan, Nat King Cole, Pearl Bailey, Dinah Washington, Nancy Wilson, and Ray Charles. When he was hired by Berry Gordy to head up promotion at a fledgling record company called Motown, Gibson befriended a new crop of stars, including Stevie Wonder, The Supremes, and Smokey Robinson. Moving on to the Revelot label, and then to Stax, Gibson’s uncanny timing once again positioned him to further the careers of Otis Redding, Jackie Wilson, Isaac Hayes, The Staple Singers, Rufus Thomas, Carla Thomas and many others. In addition to his involvement in the music scene, Gibson gave voice to the history as he lived it—covering the Civil Rights Movement, interviewing Malcolm X, and conducting a man-on-the-street report from Detroit as it burned following Dr. King’s assassination. With the publication of his influential Black trade magazine called The Mello Yello, The Rapper established a forum for discussions and contributed to sweeping changes for African Americans in radio and the recording industry. But his most long-reaching achievement was his glittering “Family Affair”—an annual black music convention that provided a springboard for new talent. Each year, without fail, the heavy hitters of the music industry cleared their schedules to lend their talents to the Family Affair: Prince, Tina Turner, Nancy Wilson, Janet Jackson, James Brown, Whitney Houston, Eddie Murphy, Hammer, Toni Braxton, Sinbad, L.L. Cool J. And the list goes on like a “Who’s Who” of entertainment superstars. After being honored by the Rock and Roll Hall of Fame, other accolades began to roll in from the United States Congress, the Smithsonian Institution, and countless other organizations. But The Rapper wasn’t finished yet. With decades of stories and music still alive in his soul, he returned to his roots—radio. Nearly fifty years after his beginnings at WERD, Jack The Rapper’s voice once again crackled across the airwaves in Las Vegas, Nevada, proclaiming three simple words: “I’m still here.”

Having been born into the saddle, and with a rock star owner as patron, he has no intention of settling down. Only his long-term groom Faith has other ideas. Tash and Hugo Beauchamp are the undisputed golden couple of British three-day-eventing, but their mettle is put to the test by the arrival of The Devil on Horseback, brooding Kiwi rider, Lough Strachan. Lough holds the key to Hugo’s darkest secret, and he intends to use it to access his greatest rival’s beautiful wife.

Kiss And Tell

In a powerful debut, rising star Sophia Thakur brings her spoken word performance to the page. Be with yourself for a moment. Be yourself for a moment. Airplane mode everything but yourself for a moment. From acclaimed performance poet Sophia Thakur comes a stirring collection of coming-of-age poems exploring issues of identity, difference, perseverance, relationships, fear, loss, and joy. From youth to school to family life to falling in love and falling back out again—the poems draw on the author’s experience as a young mixed-race woman trying to make sense of a lonely and complicated world. With a strong narrative voice and emotional empathy, this is poetry that will resonate with all young people, whatever their background and whatever their dreams.

Silver Dawn

Darling, I never wanted to grow home as bad in my life as I do now and if they don't give me a furlow I am going any how. Written in December 1862 by Private Wright Vinson in Tennessee to his wife, Christiana, in Georgia, these lines go to the heart of why Scott Walker wrote this history of the Fifty-seventh Georgia Infantry, a unit of the famed Mercer's Brigade. All but a few members of the Fifty-seventh lived within a close radius of eighty miles from each other. More than just an account of their military engagements, this is a collective biography of a close-knit group. Relatives and neighbors served and died side by side in the Fifty-seventh, and Walker excels at showing how family ties, friendships, and other intimate dynamics played out in wartime settings. Humane but not sentimental, the history abounds in episodes of real feeling: a starving soldier's theft of a pie; another's open confession, in a letter to his wife, that he may desert; a slave's travails as a camp orderly. Drawing on memoirs and a trove of unpublished letters and diaries, Walker follows the soldiers of the Fifty-seventh as they push far into Unionist Kentucky, starve at the siege of Vicksburg, guard Union prisoners at the Andersonville stockade, defend Atlanta from Sherman, and more. Hardened fighters who would wish hell on an incompetent superior but break down at the sight of a dying Yankee, these are real people, as rarely seen in other Civil War histories.

Hell's Broke Loose in Georgia

NEW YORK TIMES BESTSELLER • For the first time in decades comes a fresh look at the fabled Tudor dynasty, comprising some of the most enigmatic figures ever to rule a country. "A thoroughly readable and often compelling narrative . . . Five centuries have not diminished the appetite for all things Tudor."—Associated Press In 1485, young Henry Tudor, whose claim to the throne was so weak as to be almost laughable, crossed the English Channel from France at the head of a ragtag little army and took the crown from the family that had ruled England for almost four hundred years. Half a century later his son, Henry VIII, desperate to rid himself of his first wife in order to marry a second, launched a reign of terror aimed at taking powers no previous monarch had even dreamed of possessing. In the process he plunged his kingdom into generations of division and disorder, creating a legacy of blood and betrayal that would blight the lives of his children and the destiny of his country. The boy king Edward VI, a fervent believer in reforming the English church, died before bringing to fruition his dream of a second English Reformation. Mary I, the disgraced daughter of Catherine of Aragon, tried and failed to reestablish the Catholic Church and produce an heir. And finally came Elizabeth I, who devoted her life to creating an image of herself as Gloriana the Virgin Queen but, behind that mask, sacrificed all chance of personal happiness in order to survive. The Tudors weaves together all the sinners and saints, the tragedies and triumphs, the high dreams and dark crimes, that reveal the Tudor era to be, in its enthralling, notorious truth, as momentous and as fascinating as the fictions audiences have come to love. Praise for *The Tudors* "A rich and vibrant tapestry."—*The Star-Ledger* "A thoroughly readable and often compelling narrative . . . Five centuries have not diminished the appetite for all things Tudor."—Associated Press "Energetic and comprehensive . . . [a] sweeping history of the gloriously infamous Tudor era . . . Unlike the somewhat ponderous British biographies of the Henrys, Elizabeths, and Boleyns that seem to pop up perennially, *The Tudors* displays flashy, fresh irreverence [and cuts] to the quick of the action."—*Kirkus Reviews* "[A] cheeky, nuanced, and authoritative perspective . . . brims with enriching background discussions."—*Publishers Weekly* "[A] lively new history."—*Bloomberg*

An insightful and devastating account of how Wall Street lost its way from an insider who experienced the culture of Goldman Sachs first-hand. On March 14, 2012, more than three million people read Greg Smith's bombshell Op-Ed in the *New York Times* titled "Why I Am Leaving Goldman Sachs." The column

immediately went viral, became a worldwide trending topic on Twitter, and drew passionate responses from former Fed chairman Paul Volcker, legendary General Electric CEO Jack Welch, and New York City mayor Mike Bloomberg. Mostly, though, it hit a nerve among the general public who question the role of Wall Street in society -- and the callous "take-the-money-and-run" mentality that brought the world economy to its knees a few short years ago. Smith now picks up where his Op-Ed left off. His story begins in the summer of 2000, when an idealistic 21-year-old arrives as an intern at Goldman Sachs and learns about the firm's Business Principle #1: Our clients' interests always come first. This remains Smith's mantra as he rises from intern to analyst to sales trader, with clients controlling assets of more than a trillion dollars. From the shenanigans of his summer internship during the technology bubble to Las Vegas hot tubs and the excesses of the real estate boom; from the career lifeline he received from an NFL Hall of Famer during the bear market to the day Warren Buffett came to save Goldman Sachs from extinction-Smith will take the reader on his personal journey through the firm, and bring us inside the world's most powerful bank. Smith describes in page-turning detail how the most storied investment bank on Wall Street went from taking iconic companies like Ford, Sears, and Microsoft public to becoming a "vampire squid" that referred to its clients as "muppets" and paid the government a record half-billion dollars to settle SEC charges. He shows the evolution of Wall Street into an industry riddled with conflicts of interest and a profit-at-all-costs mentality: a perfectly rigged game at the expense of the economy and the society at large. After conversations with nine Goldman Sachs partners over a twelve-month period proved fruitless, Smith came to believe that the only way the system would ever change was for an insider to finally speak out publicly. He walked away from his career and took matters into his own hands. This is his story.

Why I Left Goldman Sachs

Boy Bear cannot hear Dad Bear coming to wake him up in the morning but he can feel the floor vibrate with his heavy footsteps. He can only grasp little bits of what his teacher says to him at school. He cannot catch what his friends are laughing at. And, all the time, Boy Bear keeps hearing the question, Can Bears ski? What does it mean? With the support of Dad Bear, Boy Bear visits an audiologist and, eventually, he gets hearing aids. Suddenly, he understands the question everyone has been asking him: Can you hear me? Raymond draws on his own experience to show how isolating it can be for a deaf child in a hearing world.

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

How Tobacco Smoke Causes Disease

The fascinating story of a trial that opened a window onto the century-long battle to control nature in the national parks. When twenty-five-year-old Harry Walker was killed by a bear in Yellowstone Park in 1972, the civil trial prompted by his death became a proxy for bigger questions about American wilderness management that had been boiling for a century. At immediate issue was whether the Park Service should have done more to keep bears away from humans, but what was revealed as the trial unfolded was just how fruitless our efforts to regulate nature in the parks had always been. The proceedings drew to the witness stand some of the most important figures in twentieth century wilderness management, including the eminent zoologist A. Starker Leopold, who had produced a landmark conservationist document in the 1950s, and all-American twin researchers John and Frank Craighead, who ran groundbreaking bear studies at Yellowstone. Their testimony would help decide

whether the government owed the Walker family restitution for Harry's death, but it would also illuminate decades of patchwork efforts to preserve an idea of nature that had never existed in the first place. In this remarkable excavation of American environmental history, nature writer and former park ranger Jordan Fisher Smith uses Harry Walker's story to tell the larger narrative of the futile, sometimes fatal, attempts to remake wilderness in the name of preserving it. Tracing a course from the founding of the national parks through the tangled twentieth-century growth of the conservationist movement, Smith gives the lie to the portrayal of national parks as Edenic wonderlands unspoiled until the arrival of Europeans, and shows how virtually every attempt to manage nature in the parks has only created cascading effects that require even more management. Moving across time and between Yellowstone, Yosemite, and Glacier national parks, *Engineering Eden* shows how efforts at wilderness management have always been undone by one fundamental problem--that the idea of what is "wild" dissolves as soon as we begin to examine it, leaving us with little framework to say what wilderness should look like and which human interventions are acceptable in trying to preserve it. In the tradition of John McPhee's *The Control of Nature* and Alan Burdick's *Out of Eden*, Jordan Fisher Smith has produced a powerful work of popular science and environmental history, grappling with critical issues that we have even now yet to resolve.

New York Times best-selling author Cynthia Leitich Smith turns to realistic fiction with the thoughtful story of a Native teen navigating the complicated, confusing waters of high school — and first love. When Louise Wolfe's first real boyfriend mocks and disrespects Native people in front of her, she breaks things off and dumps him over e-mail. It's her senior year, anyway, and she'd rather spend her time with her family and friends and working on the school newspaper. The editors pair her up with Joey Kairouz, the ambitious new photojournalist, and in no time the paper's staff find themselves with a major story to cover: the school musical director's inclusive approach to casting *The Wizard of Oz* has been provoking backlash in their mostly white, middle-class Kansas town. From the newly formed Parents Against Revisionist Theater to anonymous threats, long-held prejudices are being laid bare and hostilities are spreading against teachers, parents, and students — especially the cast members at the center of the controversy, including Lou's little brother, who's playing the Tin Man. As tensions mount at school, so does a romance between Lou and Joey — but as she's learned, "dating while Native" can be difficult. In trying to protect her own heart, will Lou break Joey's?

Introduction to Evolutionary Computing

Nothing stays black and white in a world full of shadows... I'm Alana Mitchell, and for my twentieth birthday, I got a brand-new magical destiny instead of the laptop I was saving for. I'm a witch. I have powers I can't control, enemies I know nothing about and a legacy I can't begin to grasp. There's a whole shadow-world out there waiting to swallow me whole, a world I didn't even know existed until I used my powers and unleashed hell upon my naïve self. I always figured that the first time I'd move in with a man, it'd be my boyfriend, not a bloodthirsty demon with a storm of secrets and his brother, but they're the only ones who can help me. My new roommates are driving me crazy with their I-know-better attitudes, beckoning stares and stupidly handsome faces. I want to hunt the bastards that destroyed my future, but the brothers' past is catching up to us in the form of a smart, bitter, and deadly enemy, one who will stop at nothing to possess me. To survive, I must embrace the darkness simmering inside me. And that darkness is terrifying. Shadow Walker is the first book in a slow-burn urban fantasy/paranormal series filled with action, suspense, angst, and smoking-hot men. Perfect for fans of Supernatural and Vampire Diaries.
