Sermons on the Beginning of All Things

Reprint of the original, first published in 1871.

The Beginning of All Things

"In an age when faith and science seem constantly to clash, can theologians and scientists come to a meeting of minds? Yes, maintains the intrepid Hans Küng, as he brilliantly argues here that religion and science are not mutually exclusive but complementary"--Back cover.

The Beginning of All Things

The Beginning of All Things is a children's literature and is based on the creation of mankind and the universe. God, Jesus, and the Holy Spirit were involved in a beautiful conversation about the creation. It's a book where everything on earth first began.

Sermons on the Beginning of All Things, as Revealed to Us in the Word of God

Many Christians think of the doctrine of creation primarily as relating to the world's origins. In *The Beginning and End of All Things*, Edward W. Klink III presents a more holistic understanding of creation—a story that is unfolded throughout all of Scripture and is at the core of the gospel itself. From beginning to end, the theme of creation and new creation not only directs the movement of the entire biblical story but also unifies its message. Klink explores the goodness of the physical world and how it will be perfected in the new creation of heaven and earth. Along with offering rich insights about God and his purposes for the world, a biblical theology of creation guides how we engage nature, culture, and life as embodied beings. *Essential Studies in Biblical Theology (ESBT)*, edited by Benjamin L. Gladd, explore the central or essential themes of the Bible's grand storyline. Taking cues from Genesis 1–3, authors trace the presence of these themes throughout the entire sweep of redemptive history. Written for students, church leaders, and laypeople, the ESBT offers an introduction to biblical theology.

The Beginning and End of All Things

"Focusing on beginnings - the beginnings of time, of the world, of man, of human will - Kung deals with an array of scientific precepts and teachings. From a unified field theory to quantum physics to the Big Bang to the theory of relativity - even superstring and chaos theories - he examines all of the theories regarding the beginning of the universe and life (of all kinds) in that universe."--BOOK JACKET.

The Beginning of All Things

Robyn Schneider's *The Beginning of Everything* is a witty and heart-wrenching teen novel that will appeal to fans of books by John Green and Ned Vizzini, novels such as *The Perks of Being a Wallflower*, and classics like *The Great Gatsby* and *The Catcher in the Rye*. Varsity tennis captain Ezra Faulkner was supposed to be homecoming king, but that was before—before his girlfriend cheated on him, before a car accident shattered his leg, and before he fell in love with unpredictable new girl Cassidy Thorpe. As Kirkus said in a starred review, "Schneider takes familiar stereotypes and infuses them with plenty of depth. Here are teens who could easily trade barbs and double entendres with the characters that fill John Green's novels." Funny, smart, and including everything from flash mobs to blanket forts to a poodle who just might be the reincarnation of Jay Gatsby, *The Beginning of Everything* is a refreshing contemporary twist on the classic coming-of-age novel—a heart-wrenching story about how difficult it is to play the part that people expect, and how new beginnings can stem from abrupt and tragic endings.

The History of the Origin of All Things; Including the History of Man ... Written by God's Holy Spirits, Through an Earthly Medium, L. M. Arnold, Etc

A classic collection of stories by one of the best-known and most esteemed retellers of the last fifty years. Enter a world of cunning, trickery, and revenge. Encounter bold warriors, courageous women, strength in battle and bravery against the odds. These are the stories of the Viking gods. Drama and action abound as legendary heroes struggle against mighty giants, loathsome beasts, and sinister dwarves—even as they fight amongst themselves. (reissue of ISBN 0-19-274167-5)

The Beginning of Everything

This book assumes an interdisciplinary character, providing a window into the subtle relationship between faith and reason in early patristic thought and its relevance for forging the doctrine of creation ex nihilo. In so doing, it highlights the extent to which early Christian thinkers found a common ground with the Greek philosophical tradition.

Jesus Christ is the Wisdom of God. Origen says: "He is called Wisdom, as we find in the words of Solomon ... He is called Top and firstborn, as the apostle says: "He was born before all creatures." However, firstborn is not something different in nature from Wisdom, but it is the same (with her.) Finally, the apostle Paul says, "Christ is the Power of God and the Wisdom of God." In verse one of Genesis — the first book in the Old Testament corpus — it is said, "In the beginning God created the heavens and the earth," and in Revelation, the last of the books of the New Testament, Christ testified of Himself, "I am the beginning." In addition to that, we can also quote the words from the Gospel of Jonah, which read: "In the beginning was the Word ... all things came into being through him ...". This means that in His Word and Wisdom, which are Christ, the only begotten Son of the Father, God the Father created all that exists. /// ...Christ was not "created" by God at a given time, but on the contrary, time was created in Him. Since God is above time and space, the very generation of the Word is, quite naturally, an over-temporal and extra-spatial act. That is why Origen says, "God the Father never existed, even for a moment, without this Wisdom." /// Origen goes on to clarify the relationship that exists between God the Father and His Son. He writes: "this birth (of the Son of the Father) - eternally and unceasingly resembles how the radiance is born of light."

Before now, time were not counted in day and night of the rotation of the earth around the sun or vice versa, and even the earth was not yet in existence, but there was another source of light and energy and the days were counted in an astronomical number which if they were to be compared to this days, 1000 years in these days will be infinitesimally negligible in comparison to 1 year of those days. They all pass through the Evolution, Transformation and Transmutation to become what they are.

Beginning of all things

As we move into the next books in the series, I am probably skirting very close to the edge of what would be one of the symptoms of my condition. But it was very hard to leave much of this material out for a number of reasons. The first of these is that one cannot describe the lust for life that can be obtained when suffering the extremes of some conditions, such as manic depression, and some of the insights one discovers in the peaks of these conditions can be just as the book states it. That is to say if one has clarity during these times. Much of the material I have written during these times are actually during such experiences, but in hindsight, during editing, the material appears so comprehensive and logical I decided to include it to really give one insight into some true inner workings of the mind and the bigger issues we can face in our lives.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

A God Complex

The NIV is the world's best-selling modern translation, with over 150 million copies in print since its first full publication in 1978. This highly accurate and smooth-reading version of the Bible in modern English has the largest library of printed and electronic support material of any modern translation.

The First Book of Moses, Called Genesis

Origen's On First Principles is a foundational work in the development of Christian thought and doctrine: it is the first attempt in history at a systematic Christian theology. For over a decade it has been out of print with only expensive used copies available; now it is available at an affordable price and in a more accessible format. On First Principles is the most important surviving text written by third-century Church father, Origen. Origen wrote in a time when fundamental doctrines had not yet been fully articulated by the Church, and contributed to the very formation of Christianity. Readers see Origen grappling with the mysteries of salvation and brainstorming how they can be understood. This edition presents G. W. Butterworth's trusted translation in a new, more readable format, retains the introduction by Henri de Lubac, and includes a new foreword by John C. Cavadini. As St. Gregory of Nazianzus, Doctor of the Church, wrote: "Origen is the stone on which all of us were sharpened."

Alpha

Have we or can we have any certain solution of those two great questions—Whence are all things? and Whither do all things tend? No thinking man is content to live merely in a transitory present, ever emerging out of darkness and ever returning thither again, without knowing any thing of the origin and issue of the world and its inhabitants. Yet it would seem that to-day men are as much in uncertainty on these subjects as at any previous time. It even appears as if all our added knowledge would only, for a time at least, deprive us of the solutions to which we trusted, and give no others in their room. Christians have been accustomed to rest on the cosmogony and prophecy of the Bible; but we are now frankly told on all hands that these are valueless, and that even ministers of religion more or less "sacrifice their sincerity" in making them the basis of their teachings. On the other hand, we are informed that nothing can be discerned in the universe beyond matter and force, and that it is by a purely material and spontaneous evolution that all things exist. But when we ask as to the origin of matter and force, and the laws which regulate them—as to the end to which their movement is tending, as to the manner in which they have evolved the myriad forms of life and the human intelligence itself—the only answer is that these are "insoluble mysteries." Are we, then, to fall back on the real or imagined revelations and traditions of the past, and to endeavor to find in them some foothold of assurance; or are we to wait till further progress in science may have cleared up some of the present mysteries? Whatever may be said of the former alternative, all honest students of science will unite with me in the admission that the latter is hopeless. We need not seek to belittle the magnificent triumphs of modern science. They have been real and stupendous. But it is of their very nature to conduct us to ultimate facts and laws of which science can give no explanation; and the further we push our inquiries the more insuperably does the wall of mystery rise before us. It is true we can furnish the materials for philosophical speculations which may be built on scientific facts and principles; but these are in their nature uncertain, and must constantly change as knowledge advances. They can not solve for us the great practical problems of our origin and destiny. In these circumstances no apology is needed for a thorough and careful inquiry into those foundations of religious belief which rest on the idea of a revelation of origins and destinies made to man from without, and on which we may build the superstructure of a rational religion, giving guidance for the present and hope for the future. In the following pages I propose to enter upon so much of this subject as relates to the origin and earliest history of the world, in so far as these are treated of in the Bible and in the traditions of the more ancient nations; and this with reference to the present standpoint of science in relation to these questions.

Revelation

In the beginning God created the heaven and the earth. Genesis 1:1 Thus the heavens and the earth were finished and all the host of them. Genesis 2:1 And I saw an angel standing in the sun; and he cried with a loud voice, saying to all the fowls that fly in the midst of heaven, Come and gather yourselves together unto the supper of the great God. That ye may eat the flesh of kings, and the flesh of captains, and the flesh of mighty men, and the flesh of horses, and of them that sit on them, and the flesh of all men, both free and bond, both small and great. And the remnant were slain with the sword of him that sat upon the horse, which sword proceeded out of his mouth, and all the fowls were filled with their flesh. Revelation 19:17-18 and 21 ZZZZZ With these few words of these three chapters, God introduces His creative works, places them at the beginning of all things, and establishes His rights to them as their Creator. Then, with only a few more words, He discloses how they end. This becomes the basis for John Rogers's new book, *The Gentile Valley of Bones*. From the book of Genesis through the book of Revelation, follow the author on a journey of enlightenment. Learn of God's creation of the earth, of his covenant with those he created, and of the great love he bears for his creation, even to the end of all things.

History of the Origin of All Things

IN THE BEGINNING WAS THE WORD, AND THE WORD WAS WITH GOD, AND THE WORD WAS GOD considers Scriptures, the inspired words of God [2 Timothy 3:16] in the Holy Bible to glorify God and to testify to the truth of His Word in the Holy Bible that He exists, He is our CREATOR, the CREATOR of the universe, Our LORD and SAVIOR Jesus Christ as it is written in the Holy Bible: ?In the beginning was the Word, and the Word was with God, and the Word was God. 2 He was with God in the beginning. 3 Through him all things were made; without him nothing was made that has been made. 4 In him was life, and that life was the light of all mankind. 5 The light shines in the darkness, and the darkness has not overcome it [John 1:1-5]. The passage cited, [John 1:1-5] instructs us that God exists, He is our CREATOR and the CREATOR of the universe, He is our LORD and SAVIOR Jesus Christ. Our LORD and SAVIOR Jesus Christ is God, our CREATOR and the CREATOR of the universe

as it is written in the Holy Bible: "Through him all things were made; without him nothing was made that has been made [John 1:3]. Our LORD and SAVIOR Jesus Christ is God our CREATOR and the CREATOR of the universe, there is no other [Isaiah 43:10]. Scriptures, the words of God [2 Timothy 3:16] in the Holy Bible instruct that Our LORD and SAVIOR Jesus Christ is God, our CREATOR and the CREATOR of the universe, the only true God [1 John 5:20], there is no other. There is only one God, as it is written in the Holy Bible: "Hear, O Israel: The Lord our God, the Lord is one [Deuteronomy 6:4]. "before me no god was formed, nor shall there be any after me [Isaiah 43:10]. Our LORD and SAVIOR Jesus Christ instructs us that there is only one God: "I and the Father are one" [John 10:30].

Holy Bible (NIV)

Who is Jesus Christ? You've never met Him in person, and you don't know anyone who has. But there is a way to know who he is. How? Jesus Christ - the divine Person revealed in the Bible - has a unique excellence and a spiritual beauty that speaks directly to our souls and says, "Yes, this is truth." It's like seeing the sun and knowing that it is light, or tasting honey and knowing that it is sweet. The depth and complexity of Jesus shatter our simple mental frameworks. He baffled proud scribes with his wisdom but was understood and loved by children. He calmed a raging storm with a word but would not get himself down from the cross. Look at the Jesus of the Bible. Keep your eyes open, and fill them with the portrait of Jesus in God's Word. Jesus said, "If anyone's will is to do God's will, He will know whether the teaching is from God or whether I am speaking on my own authority." Ask God for the grace to do His will, and you will see the truth of His Son. John Piper has written this book in the hope that all will see Jesus for who he really is and will come to enjoy him above all else.

The Origin of All Things

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

On First Principles

The Knowing the Bible series is a resource designed to help Bible readers better understand and apply God's Word. These 12-week study lead participants through books of the Bible and are made up of four basic components: (1) Reflection questions help readers engage the text at a deeper level; (2) "Gospel Glimpses" highlight the gospel of grace throughout the book; (3) "Whole-Bible Connections" show how any given passage connects to the Bible's overarching story of redemption, culminating in Christ; and (4) "Theological Soundings" identify how historic orthodox doctrines are taught or reinforced throughout Scripture. With contributions from an array of influential pastors and church leaders, these gospel-centered studies will help Christians see and cherish the message of God's grace on each and every page of the Bible. The books of Colossians and Philemon complement each other as two New Testament texts that gloriously display the gospel and its implications for how God's people should live today. Written around the same time, both letters resonate with the apostle Paul's overriding passion to magnify Jesus Christ as the supreme manifestation of God's redemptive purposes.

Ante-Nicene Christian Library: The writings of Cyprian, etc., v. 2 (1869)

After two volumes of autobiography, Hans Kung now writes a short personal statement of his Christian belief.

The Origin of the World According to Revelation and Science

Ancient tradition suggests that this world-weary lament is the work of Solomon in old age. Casting its eye over the transient nature of life, the book questions the striving for wisdom and the truth, choosing instead to espouse the value of living for the moment. The text is introduced by Doris Lessing.

Where is My Home?

If you've ever considered packing up and making a new start in life, then you'll enjoy this faith-building, true story about a little family that decided to move from the city and build a log home in the mountains of Montana. Building and maintaining a successful home and family in today's world requires a foundation of faith, prayer, repentance, forgiveness, respect, love, compassion, and a willingness to work. As you read from the pages of my journals, written as it happened, you will experience with my family the trials, challenges, and successes of building our home and family in Montana. I chose the title "Big Skies and Cowpies" to emphasise that despite the beauty of Montana, building a home and family here can require dealing with the occasional "cowpie."

I listened to them speak their language and thought that I understood some of their tongue. Could this be? I ventured even closer and listened further. My heart was pounding with joy. Though these people were light years away from Mars, they possessed almost the same tongue language that we had learned in our lesser institutions on Mars. Imagine that? It seemed as though they now spoke about themselves and it was in an archaic mode of time, for they spoke of the quickness of their travel and the prominence of the Pharaoh Pharaoh? I once had read about such Pharaoh people in our history volumes, which lived on Mars thousands of years ago. I was beginning to now understand that this planet was not as progressed as Mars had been maybe this is good I thought, very well for us. "Thank you, Dargod," I whispered to myself. It was as though Dargod was always with me, wherever I went. I had been on Earth only three sunrises, and I had already found that this soil was like Mars's, only with different dimensions. The inhabitants here were nearly the same. But, were they friendly?

Tall Tales, Half-Truths, and Big Fat Lies!

_____ 'An admirable novel'- The Times 'In this portrait of men and women swept along by great events, and determined to be on the side of the angels, Fuentes has invested the often colourless world of politics with romantic ardour' - Sunday Telegraph _____ An epic and heartbreaking love story that will leave no one untouched. Like Fuentes's masterpiece *The Death of Artemio Cruz*, the action in this novel begins in the state of Veracruz and moves to Mexico City. From 1905 to 1978, Fuentes traces the extraordinary Laura Díaz; a life filled with a multitude of witty, heartbreaking scenes and the sounds, colours, tastes and scents of Mexico. Laura grows into a politically committed artist who is also a wife and mother, a lover of great men, and a complicated and alluring heroine whose bravery prevails despite her losing a brother, son, and grandson to the darkest forces of Mexico's turbulent, often corrupt politics. Hers is a life which has helped to affect the course of history, and it is the story of a woman who has loved and understood with unflinching honesty. _____ 'Fuentes's affair with the fickle forces of creativity reaches a rare and poignant intensity ... a landmark book' - Scotsman

The Years with Laura Diaz

The new novel from Jill Wolfson—an exciting, fresh voice in middle-grade fiction Whitney has been in so many foster homes that she can give a complete rundown on the most common varieties of foster parents—from the look-on-the-bright-side types to those unfortunate examples of pure evil. But one thing she doesn't know much about is trees. This means heading for Foster Home #12 (which is all the way at the top of the map of California, where there looks to be nothing but trees) has Whitney feeling a little nervous. She is pretty sure that the middle of nowhere is going to be just one more place where a hyper, loud-mouthed kid who is messy and small for her age won't be welcome for long. Jill Wolfson has woven together the stories of an irrepressible foster child and a deeply divided small town with incredible humor and compassion.

Foraging is not just a throwback to our hunter-gatherer past; it's a way to reconnect with the landscape. And Langdon Cook is not just your typical grocery cart-toting dad. For him, gourmet delicacies abound, free for the taking if we just open our eyes. As a result, he finds himself free-diving in icy Puget Sound in hopes of spearing a snaggletooth lingcod, armed with nothing more than a "Hawaiian sling." He tempts fate by eating mushrooms that may or may not be poisonous. He strings up a fly rod to chase after sea-run trout. He even pulls on the gardening gloves to collect stinging nettles. In wry, detailed prose, he traces his journey from wrangler of pre-packaged calories to connoisseur of coveted wild edibles. Structured around the seasons of the year, each chapter focuses on a specific food type and concludes with a recipe featuring the author's hard-won bounty, a savory stop to each adventure-filled morsel.

The Santa's Great Treasure Chest: 450+ Christmas Novels, Tales, Carols & Legends

"You Can't Go Home Again" – George Webber has written a successful novel about his family and hometown. When he returns to that town, he is shaken by the force of outrage and hatred that greets him. Family and lifelong friends feel naked and exposed by what they have seen in his books, and their fury drives him from his home. Outcast, George Webber begins a search for his own identity. It takes him to New York and a hectic social whirl; to Paris with an uninhibited group of expatriates; to Berlin, lying cold and sinister under Hitler's shadow. "Look Homeward, Angel" is an American coming-of-age story. The novel is considered to be autobiographical and the character of Eugene Gant is generally believed to be a depiction of Thomas Wolfe himself. Set in the fictional town and state of Altamont, Catawba, it covers the span of time from Eugene's birth to the age of 19. "Of Time and the River" is the continuation of the story of Eugene Gant, detailing his early and mid-twenties. During that time Eugene attends Harvard University, moves to New York City, teaches English at a university there, and travels overseas with his friend Francis Starwick.

Can a leopard change its spots? What cataclysmic force or horrific event could bring a God-fearing, straight-as-an-arrow man to embrace Charles Ponzi as a hero? Zippy Cosmo was born at the height of the Great Depression to impoverished parents. He grew up on a cigarette and a piss for breakfast, but with a steely work ethic and a penchant for self-sacrifice and honesty. His picture is the dictionary definition of altruism. Widows and orphans championed him. He brought great happiness to the orgasmically deprived. No charitable cause was beneath his notice. The great, near-great, and the gutter-dweller were thrilled to be the subject of one of his magnificent, unsolicited oil portraits. Yet at life's end, he ripped off thousands for millions. Who wrought this change? The mob? A dominatrix? Witness the transformation of a soul that would give Freud dreams of revision...

This carefully crafted ebook: "The Just So Stories for Little Children (Illustrated Edition)" is formatted for your eReader with a functional and detailed table of contents. The Just So Stories for Little Children are a highly fantasized origin stories, especially for differences among animals, they are among Kipling's best known works. The stories are pourquoi (French for "why") or origin stories, fantastic accounts of how various phenomena came about. In it, Mowgli hears the story of how the tiger got his stripes. The

Just So Stories typically have the theme of a particular animal being modified from an original form to its current form by the acts of man, or some magical being. For example, the Whale has a tiny throat because he swallowed a mariner, who tied a raft inside to block the whale from swallowing other men. The Camel has a hump given to him by a djinn as punishment for the camel's refusing to work (the hump allows the camel to work longer between times of eating). The Leopard's spots were painted by an Ethiopian (after the Ethiopian painted himself black). The Kangaroo gets its powerful hind legs, long tail, and hopping gait after being chased all day by a dingo, sent by a minor god responding to the Kangaroo's request to be made different from all other animals. Rudyard Kipling (1865–1936) was an English short-story writer, poet, and novelist. He wrote tales and poems of British soldiers in India and stories for children. He is regarded as a major innovator in the art of the short story; his children's books are classics of children's literature; and one critic described his work as exhibiting "a versatile and luminous narrative gift".
