Hour of the Cat

This novel of corruption and murder “illuminates New York City on the eve of WWII” (Publishers Weekly). It’s just another murder, one of the hundreds of simple homicides in 1939: A spinster nurse is killed in her apartment; a suspect is caught with the murder weapon and convicted. PI Fintan Dunne, though, feels compelled to unravel the complex setup that has put an innocent man on Death Row. He will soon find this is a murder with tentacles that stretch far beyond the crime scene . . . to Nazi Germany, in fact. In Berlin, meanwhile, plans for a military coup are forming among a cadre of Wehrmacht officers. Admiral Wilhelm Canaris, head of Military Intelligence, is gripped by a deadly paralysis: He is neither with the plotters nor against them. Joining them in treason would violate every value he holds as an officer. Betraying the plotters to the Gestapo Chief Reinhard Heydrich might just forsake the country’s last hope to avert utter destruction and centuries of shame. Heydrich is suspicious. With no limits to Hitler’s manic pursuit of territorial expansion, with crimes against the people candy-coated as racial purification, every German conscience must make a choice. And Fintan Dunne will be led into a murder conspiracy of a scope that defies imagination. “A good choice for those who enjoy a rich, stylish period piece that, like Philip Roth’s *The Plot against America*, explores the fickle fate of men and nations and the destructive power of a really bad idea.” —Booklist “Intelligent, ironic, well-written suspense that makes us think.” —James Patterson

Cat

The Cat Nap

Few people now-a-days think of denying, that man's noble friend the dog possesses a large amount, of what can only be termed reason. I myself believe, that almost every animal does; but in these pages I shall only claim the gift for our mutual friend, the domestic cat. Reason, I consider, is quite different from mere instinct. Instinct is born in an animal; reason is that instinct matured by experience. I hardly think that you can find a more sagacious animal than the cat. I doubt, indeed, if the dog is; for pussy's peculiar mode of existence, the many enemies she has to encounter, and the struggle she often has to obtain sustenance sufficient to keep life in her poor little body, bring all her faculties into better play, and tend to the development of her reasoning powers. Before you can fully fathom, what a wonderfully clever and wise creature even the commonest cat is, you must study her life in every phase, both out of doors and at the fireside. No relation of mere sporadic acts of sagacity, such as unfastening a door to get out, breaking a window to get in, or pulling a bell-rope to call the servant, can do justice to pussy's wisdom. Everything she does has a reason for it, and all her plans are properly schemed and thought out beforehand, for she never fails to look before she leaps. Why, my reader, with all due respect to your intellectual powers, if you were to be changed into a cat for four and twenty hours, and had a cat's routine of pleasure and duty to perform, with all your wisdom you would be as dead as a dried haddock before sun-down. Let us try to imagine one day in a cat's life.

Carbonel

ThunderClan's darkest hour is upon them and Fireheart, the warrior cat, must protect his clan from a threat unlike any the forest has ever seen, as the time comes for prophecies to unfold and heroes to rise.

Cats

This is a classic wartime tale of a (real!) cat who made his home at the Faber offices and decided he'd never leave. 'This time we need to get you - get all of the kittens, safe out of London,' said Morgan decisively . . . 'To have a chance for a better life, well, let's just say, I've got an idea.' Morgan is a young orphan who lives off scavenging - until he finds a cosy home at a famous London publishing house. Over time he learns a trade - and soon becomes the very best book cat in the business. And then the Blitz begins. Morgan finds himself training up twenty odd kittens to be book cats, and then there is the small matter of secretly evacuating them out of London. Happily, Morgan has a plan. Set in war-torn London, charmingly illustrated, and full of heart and verve. 'Charming.' Sunday Times 'A sweet feline twist on the classic evacuee story.' The Guardian 'A delightful book.' The Darkest Hour

For years, Tom Cox might have seemed like a regular, hard-living sort of bloke -- a lover of late nights, rock music and beer -- but he had a dark furry secret. Tom was a cat lover. Always had been, in fact. For a while, he kept his passion in check, but there was only so long he could postpone his true dream, especially after he met Dee, his moggy-loving soulmate. In 2001, Tom left London and his job as a rock critic behind, and he and Dee, replete with Dee's cat Janet and three new kittens, moved to a remote part of Norfolk, a county where they knew not one living human soul. They thought it would be easy. They thought their cat madness had reached its limit. They were very wrong on both counts. In UNDER THE PAW, Tom records the chaos of owning seven of the most charismatic, idiotic and duplicitous cats in the country. How exactly does a person go from living a fancy-free young metropolitan life to suddenly thinking it is normal to be on 24-hour call for multiple sets of whiskers? What are the essential rules of disposing of a dead pheasant? How do you learn to love your wife's ex's favourite pet? Tom addresses all these issues and much more, encountering death, depression, flying fur and the first human sentence spoken by a feline along the way. Running through all the maelstrom is the heartbreaking story of his long and chequered relationship with The Bear, his oldest cat: a "painfully sensitive" survivor moggy who may or may not be an evil genius.

The Book Cat

Celebrate a year in the life of the Cat Named Carrot, as she goes from humble beginnings in a shelter to a loving home with a family of three adorable little girls and internet stardom. Bailey was certainly no ordinary cat—an orange tabby who gained fans around the world when his humanlike antics went viral. Sadly, when 14-year-old Bailey died, his family grieved their loss. They'd never find a cat quite like him—or would they? Then along came Carrot, an orange tabby kitten born as a stray, who appeared just as Erin Merryn and her young girls Abby, Hannah, and baby Claire were mending their broken hearts. Written in the voice of Carrot, follow her remarkable journey from shelter cat to top Instagram celebrity feline. Much like Bailey did, she loves spending time with her human family: making mischief with her girl gang; going joyriding in a pint-sized pink Barbie Jeep; doing arts-and-crafts projects; modeling a pink tutu and flowery headband; enjoying a spa day complete with fluffy robe and cucumber eye treatments; celebrating Christmas, Easter, and every holiday in between. It's no wonder that Carrot's videos have gone viral—garnering millions of views on Ellen, the Dodo, Good Morning America, Access Hollywood, People, and many more. Complete with four-color photos that will leave readers purring with delight, the journal of this sweet, adorable kitty with personality to spare shows us that the human-animal bond runs more than fur deep. It is love that will last a lifetime!

The Cat Who Saved Books is a heartwarming story about finding courage, caring for others – and the tremendous power of books. 'Enchanting' – Observer _____ Grandpa used to say it all the time: Books have tremendous power. But what is that power really? Natsuki Books was a tiny second-hand bookshop on the edge of town. Inside, towering shelves reached the ceiling, every one crammed full of wonderful books. Rintaro Natsuki loved this space that his grandfather had created. He spent many happy hours there, reading whatever he liked. It was the perfect refuge for a boy who tended to be something of a recluse. After the death of his grandfather, Rintaro is devastated and alone. It seems he will have to close the shop. Then, a talking tabby cat called Tiger appears and asks Rintaro for help. The cat needs a book lover to join him on a mission. This odd couple will go on three magical adventures to save books from people who have imprisoned, mistreated and betrayed them. Finally, there is one last rescue that Rintaro must attempt alone . . . Sosuke Natsukawa's international bestseller, translated from Japanese by Louise Heal Kawai, is a story for those for whom books are so much more than words on paper.

Current Techniques in Small Animal Surgery, Fifth Edition provides current information regarding surgical techniques from the perspective of clinicians who are performing specific procedures on a regular basis. It is intended to be concise, well illustrated, and reflective of the writer's experience, both good and bad. The emphasis with this volume is technique. The pathophysiologic principles and applications are covered in the companion volume, Mechanisms of Disease in Small Animal Surgery, Third Edition. These two books are regarded by most practitioners and students as being a two-volume set.

Cats On The Run

Jim Qwilleran and his Siamese sleuths, Koko and Yum Yum, investigate the disappearance of a wealthy railroad buff in this mystery in the New York Times bestselling Cat Who series. Floyd Trevelyan's historic steam locomotive, newly restored, is the newest attraction in Moose County. But the excitement is eclipsed by shock when Trevelyan disappears—along with millions of investors' dollars. All in One Hour

Following on from Tom's life with six cats in UNDER THE PAW, he now picks up the story in TALK TO THE TAIL, updating readers on what has happened with his feline friends as well as looking back for more confessions about his animal-loving past. Readers of Tom's previous book will be delighted to read what has happened to his six eccentric cats. Why does Janet keep bringing 1980s sweet wrappers into the house? Will 24-hour surveillance of The Bear, using a state-of-the-art cat GPS system, finally solve the mystery of his wanderlust? Tom also writes about his bumbling forays into the remainder of the animal kingdom. He attempts to overcome his crippling fear of horses with disastrous results, chase ostriches in Kenya, put his hand into a tiger's mouth for 0.9 seconds and he meets his 'alter-doggo' -- the spaniel Tom regularly walks who likes to roll around in dead animals. Where will it all end? Will he give in to temptation and get a dog, a goat or even more cats? With this soppy creature-obsessive, anything is possible.

A wonderful sui generis novel about a visiting cat who brings joy into a couple's life in Tokyo A bestseller in France and winner of Japan's Kiyama Shohei Literary Award, *The Guest Cat*, by the acclaimed poet Takashi Hiraide, is a subtly moving and exceptionally beautiful novel about the transient nature of life and idiosyncratic but deeply felt ways of living. A couple in their thirties live in a small rented cottage in a quiet part of Tokyo; they work at home, freelance copy-editing; they no longer have very much to say to one another. But one day a cat invites itself into their small kitchen. It leaves, but the next day comes again, and then again and again. Soon they are buying treats for the cat and enjoying talks about the animal and all its little ways. Life suddenly seems to have more promise for the husband and wife — the days have more light and color. The novel brims with new small joys and many moments of staggering poetic beauty, but then something happens.... As Kenzaburo Oe has remarked, Takashi Hiraide's work "really shines." His poetry, which is remarkably cross-hatched with beauty, has been acclaimed here for "its seemingly endless string of shape-shifting objects and experiences, whose splintering effect is enacted via a unique combination of speed and minutiae."

Bodacious: The Shepherd Cat

Madeleine Levy was diagnosed with Asperger's syndrome at the age of eight. This is a book about her life growing up and the education system as she experienced it. When she was asked by her nursery school teacher what she wanted to be when she grew up, Madeleine's reply was very different to all the other children's: she wanted to be a cat. Later she was bullied for being different - for being bi-sexual, for having autism, or just for being, as she puts it, a weird goth kid. When I Grow Up I Want to Be a Cat is not just a brilliantly frank memoir but also in part a supportive guide for youngsters with autism and their parents or carers, and in part a critique of the education system whose standardised support Madeleine found lacking. It is a book that genuinely gives the perspective from someone on

the autistic spectrum - and not just Madeleine's own voice but the voices of nine other individuals with autism spectrum disorder whom she has interviewed for the book. Whatever your interest in autism or whatever your reason for reading it, *When I Grow Up I Want to Be a Cat* is an unforgettable read in which Madeleine addresses the highs and the lows of her life with compelling honesty, and which ultimately carries a hugely positive message for anyone who is facing struggles in life just for being different.
