Cocina en casa como un chef

El prestigioso cocinero Jordi Cruz nos enseña en este recetario a utilizar las últimas tendencias en técnicas culinarias, primero exponiendo la teoría y después proponiendo hasta 75 recetas para ponerlas en práctica. Para que puedas preparar en casa lo último en cocina creativa. «Aquí te presento un libro escrito con el corazón, cocinado a lo largo de mis primeros 26 años entre fuegos, cucharas y cazuelas. Congregano solo mi pasión por la cocina, sino también la de muchos cocineros que me han acompañado en este camino y que ya considero familia. Quizás muchas de estas recetas te parezcan complejas para hacerlas en casa, pero tengo claro que con curiosidad y un poco de tesón todo se puede lograr. Si estas páginas te sirven para descubrir alguna técnica, algún producto nuevo o te despiertan ese gusanillo hambriento y loco llamado «cocinar», todo nuestro trabajo habrá merecido el esfuerzo.» Jordi Cruz, 2016

País Cátaro

El catarismo es un movimiento religioso que se propagó durante el siglo X por el occidente de Europa, logrando su mayor expansión en el siglo XII entre los habitantes del Midi francés, especialmente en la zona del Languedoc, gracias a la protección de algunos señores feudales, vasallos de la Corona de Aragón. La Iglesia católica los declaró herejes y fueron perseguidos hasta lograr su erradicación durante la cruzada albigense (1209-1244). Derrotados, muchos de ellos se expandieron por Europa, y también arraigaron en España, especialmente en Cataluña. Las visitas a los castillos cátaros, la ciudad de Carcasona, las cuevas de Cabrespine y Limousis, se combinan con paseos para explorar los viñedos y degustar los néctares que producen los terruños del Minervois, Corbières, o el efervescente más antiguo del mundo: el Blanquette de Limoux. Antigua provincia romana con capital en Narbona, el departamento de Aude es rico en historia y tradiciones ancestrales.

The Trueba family embodies strong feelings. This family saga starts at the beginning of the 20th century and continues through the assassination of Allende in 1973.

Occitania, creada en 2016, engloba los cinco departamentos del Languedoc-Rosellón y los ocho de la antigua región Midi-Pyrénées. La fusión de estos territorios ha dado lugar a la segunda región más importante y grande del país. El Languedoc-Rosellón ofrece al viajero hermosos paisajes llenos de contrastes entre los contrafuertes de los Pirineos y la meseta de la Camarga. Mientras, la región del Midi-Pyrénées reúne el encanto de sus magníficas ciudades y poblaciones medievales (Carcasona, Albi, Cordes-sur-Ciel), testigos silenciosos de las luchas entre cátaros y católicos, y la modernidad más futurista de las industrias dedicadas al mundo de la aeronáutica. Todo apoyado en una excelente gastronomía y excelentes vinos.

Nouvelle-Aquitaine (Nueva Aquitania) acumula muchos superlativos. En primer lugar, es la mayor región francesa, con una superficie superior a la de Austria. La diversidad de su oferta turística la convierte también en el destino más popular para los turistas franceses: naturaleza cuidada, viñedos de fama mundial, excepcional gastronomía, ciudades dinámicas, míticas playas, patrimonio prodigioso... Aquí encontrará también la duna natural más alta de Europa, la duna del Pilat, destinos prestigiosos como Burdeos, el valle del Dordoña, el País Vasco francés, Cognac, La Rochelle, Pau y los Pirineos, o Limoges y su artesanía..., además de algunos enclaves que ocupan un lugar destacado en la lista de los espacios imprescindibles elegidos por los visitantes cada año, como la cueva de Lascaux, Futuroscope, la Cité du Vin, la Ciudad Internacional de la Tapicería de Aubusson... Nouvelle-Aquitaine es también el terreno de juego de la mayor caza del tesoro de Europa, Terra Aventura, que ya ha seducido a más de tres millones de jugadores y que ofrece más de cuatrocientas rutas insólitas, divertidas y gratuitas por todo el territorio para descubrir, en familia o con amigos, las perlas de la región, explorando su historia, sus bellos pueblos, sus leyendas y sus tradiciones. Todos encontrarán lo que buscan para pasar unas vacaciones ideales en Nouvelle-Aquitaine: vacaciones activas o relajantes, de exploración u ocio... Los excepcionales activos naturales de la región la convierten en un destino perfecto para realizar actividades al aire libre durante todo el año: más de 6700 km de carriles bici, grandes lagos de agua dulce, 750 km de costa para disfrutar del surf, la natación y los deportes náuticos (desde los más tranquilos hasta los más agitados), 88 campos de golf repartidos entre viñedos y el océano, estaciones de esquí, un parque nacional y cinco parques naturales regionales donde practicar senderismo... Con una riquísima oferta cultural construida siglo tras siglo, la región le invita a emocionarse ante las creaciones prehistóricas, medievales o contemporáneas, a impregnarse del espíritu de un lugar, a sumergirse en la vida de personajes famosos, a saludar la memoria de quienes escribieron las grandes páginas de su historia. A esta pluralidad de paisajes, culturas, relieves, actividades, colores e historias, se suma sobre todo un espíritu común a todo el territorio, un espíritu amable, gastronómico, festivo y profundamente humano. Ese gusto por compartir que transforma las vacaciones en un caleidoscopio de experiencias únicas.

The House of the Spirits

Las tierras de la bota de Italia sirvieron de puente entre Oriente y Occidente, y acogieron tanto a griegos como romanos, bizantinos, normandos, angevinos, borbones... que dejaron tesoros arquitectónicos con formas de castillos, iglesias, catedrales, capillas en la roca..... Estas tres regiones del sur de Italia forman un trío encantador entre el mar o la montaña, la gastronomía y el sentido de la hospitalidad. Aquí, la naturaleza y el litoral realzan el paisaje y enriquecen la mesa. El mar, fuente inagotable de alimento, se acerca a lamer delicadamente las ruinas romanas y los típicos pueblecitos de pescadores. En estas tierras viven hombres apegados a su tierra que, a pesar de las diferencias entre regiones, llevan dentro de sí la marca de esta identidad sureña. En este pedacito de Italia sobresale Matera (Basilicata), Capital de la Cultura 2019, que ofrece una excelente oportunidad para conocer el corazón mediterráneo, su cálida población y sus paisajes bañados por una luz deslumbrante.

Occitania

The book is divided into 12 chapters, each covering a basic culinary category, such as Bread', Sauces' or Custard'. The recipes in each chapter are then arranged on a continuum, the transition from one recipe to another generally amounting to a tweak or two in the method or ingredients

¿Conoces el estilo de vida lionés? Este modo de vida le permitió a Lyon ganar el Oscar al "mejor destino europeo de fin de semana de 2016" en la ceremonia de entrega de los World Travel Awards. Un estilo de vida que los lioneses desean compartir con los visitantes que acuden a admirar una ciudad excepcional donde sobresale la belleza de sus edificios —desde el casco antiguo de Fourvière hasta el futurista museo de las Confluencias, pasando por el barrio Renaissance, clasificado como Patrimonio de la Humanidad—, y la calidad de su gastronomía, que la ha convertido en una de las capitales gastronómicas del mundo. Además, Lyon es un destino cuyo alegre corazón (desde Guignol hasta Florence Foresti) late todo el año al ritmo de muchos eventos. La gran metrópoli de Lyon está situada en el corazón de un conjunto de tierras increíblemente ricas. Hacia el norte se llega al Beaujolais y a sus famosos viñedos, que bordean encantadores pueblos con ricas tradiciones culinarias. Si nos dirigimos hacia el este, nos acercamos al Ain, en cuyos pueblos también cultivan los hábitos culinarios de la región con sus quenelles de lucio. Al sur, el valle del Ródano y sus huertos marcan la ruta de las vacaciones.

Spices are rare things, at once familiar and exotic, comforting us in favourite dishes while evoking far-flung countries, Arabian souks, trade winds, colonial conquests and vast fortunes. From anise to zedoary, *The Book of Spice* introduces us to their properties, both medical and magical, and the fascinating stories that lie behind both kitchen staples and esoteric luxuries. John O'Connell's bite-size chapters combine insights on history and art, religion and medicine, culture and science, richly seasoned with anecdotes and recipes. Discover why Cleopatra bathed in saffron and mare's milk, why wormwood-laced absinthe caused eighteenth-century drinkers to hallucinate and how cloves harvested in remote Indonesian islands found their way into a kitchen in ancient Syria. Almost every kitchen contains a tin of cloves or a stick of cinnamon, almost every dish a pinch of something, whether chilli or cumin. Combining an extraordinary amount of research with a lifelong passion, this is culinary history at its most appetising. *The Book of Spice* is an invaluable reference and an entertaining read.

Ulysses is a novel by the Irish writer James Joyce. It is considered to be one of the most important works of Modernist literature, it has been called "a demonstration and summation of the entire movement". "Before Joyce, no writer of fiction had so foregrounded the process of thinking." However, even proponents of *Ulysses* such as Anthony Burgess have described the book as "inimitable, and also possibly mad". There have been at least 18 different "*Ulysses*" editions (Joyce's handwritten manuscripts were typed by a number of amateur typists). This eBook is a faithful reproduction of the notable first book edition published in Paris on 2 February 1922 by Sylvia Beach at Shakespeare and Company (only 1000 copies were printed). James Augustine Aloysius Joyce (2 February 1882 – 13 January 1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for *Ulysses* (1922), a landmark work in which the episodes of Homer's *Odyssey* are paralleled in an array of contrasting literary styles, perhaps most prominent among these the stream of consciousness technique he perfected. Other major works are the short-story collection *Dubliners* (1914), and the novels *A Portrait of the Artist as a Young Man* (1916) and *Finnegans Wake* (1939). His complete oeuvre also includes three books of poetry, a play, occasional journalism, and his published letters.

The year is 1819, and the renowned chef Owen Wedgwood has been kidnapped by a beautiful yet ruthless pirate. He will be spared, Mad Hannah Mabbot tells him, as long as he can conjure an exquisite meal every Sunday from the ship's meager supplies. While Wedgwood attempts to satisfy his captor with feasts such as tea-smoked eel and pineapple-banana cider, he realizes that Mabbot herself is under siege. Hunted by a deadly privateer and plagued by a saboteur, she pushes her crew past exhaustion

in her search for the notorious Brass Fox. But there is a method to Mabbot's madness, and as the Flying Rose races across the ocean, Wedgwood learns to rely on the bizarre crew members he once feared: a formidable giant who loves to knit; a pair of stoic martial arts masters, sworn to defend their captain; and the ship's deaf cabin boy, who becomes the son he never had. An anarchic tale of love and appetite, Eli Brown's Cinnamon and Gunpowder is a wildly original feat of the imagination, deep and startling as the sea itself.

In Near a Thousand Tables, acclaimed food historian Felipe Fernández-Armesto tells the fascinating story of food as cultural as well as culinary history -- a window on the history of mankind. In this "appetizingly provocative" (Los Angeles Times) book, he guides readers through the eight great revolutions in the world history of food: the origins of cooking, which set humankind on a course apart from other species; the ritualization of eating, which brought magic and meaning into people's relationship with what they ate; the inception of herding and the invention of agriculture, perhaps the two greatest revolutions of all; the rise of inequality, which led to the development of haute cuisine; the long-range trade in food which, practically alone, broke down cultural barriers; the ecological exchanges, which revolutionized the global distribution of plants and livestock; and, finally, the industrialization and globalization of mass-produced food. From prehistoric snail "herding" to Roman banquets to Big Macs to genetically modified tomatoes, Near a Thousand Tables is a full-course meal of extraordinary narrative, brilliant insight, and fascinating explorations that will satisfy the hungriest of readers.

Cocina fácil para la mujer moderna

Adam Smith, the founder of modern economics, believed that our actions stem from self-interest and the world turns because of financial gain. But every night Adam Smith's mother served him his dinner, not out of self-interest but out of love. Today, economics focuses on self-interest and excludes our other motivations. It disregards the unpaid work of mothering, caring, cleaning and cooking and its influence has spread from the market to how we shop, think and date. In this engaging takedown of the economics that has failed us, Katrine Maral journeys from Adam Smith's dinner table to the recent financial crisis and shows us how different, how much better, things could be.

Ulysses

This book explores the intellectual history of the Catholic revival in literature in Europe.

Nacionalismo culinario

With an introduction by novelist David Vann In April 1992, Chris McCandless set off alone into the Alaskan wild. He had given his savings to charity, abandoned his car and his possessions, and burnt the money in his wallet, determined to live a life of independence. Just four months later, Chris was found dead. An SOS note was taped to his makeshift home, an abandoned bus. In piecing together the final travels of this extraordinary young man's life, Jon Krakauer writes about the heart of the wilderness, its terribly beauty and its relentless harshness. Into the Wild is a modern classic of travel writing, and a riveting exploration of what drives some of us to risk more than we can afford to lose.

Mundos en palabras

A New York Times bestseller With a new introduction by The Motorcycle Diaries filmmaker Walter Salles, and featuring 24 pages of photos taken by Che. The Motorcycle Diaries is Che Guevara's diary of his journey to discover the continent of Latin America while still a medical student, setting out in 1952 on a vintage Norton motorcycle together with his friend Alberto Granado, a biochemist. It captures, arguably as much as any book ever written, the exuberance and joy of one person's youthful belief in the possibilities of humankind tending towards justice, peace and happiness. After the release in 2004 of the exhilarating film of the same title, directed by Walter Salles, the book became a New York Times and international bestseller. This edition includes a new introduction by Walter Salles and an array of new material that was assembled for the 2004 edition coinciding with the release of the film, including 24 pages of previously unpublished photos taken by Che, notes and comments by his wife, Aleida Guevara March, and an extensive introduction by the distinguished Cuban author, Cintio Vitier. "A journey, a number of journeys. Ernesto Guevara in search of adventure, Ernesto Guevara in search of America, Ernesto Guevara in search of Che. On this journey, solitude found solidarity. 'I' turned into 'we.'"—Eduardo Galeano "As his journey progresses, Guevara's voice seems to deepen, to darken, colored by what he witnesses in his travels. He is still poetic, but now he comments on what he sees, though still poetically, with a new awareness of the social and political ramifications of what's going on around him."—January Magazine "Our film is about a young man, Che, falling in love with a continent and finding his place in it." —Walter Salles, director of the film version of The Motorcycle Diaries "All this wandering around 'Our America with a Capital A' has changed me more than I thought." —Ernesto Che Guevara, from The Motorcycle Diaries

Primera plana

A delightful collection of classic recipes, folk history, and original drawings by Cape Cod's most-admired chef. With a new Introduction by Anthony Bourdain "It's a true classic, one of the most influential of my life." --Anthony Bourdain, from the new introduction "Provincetown ... is the seafood capital of the universe, the fishiest town in the world. Cities like Gloucester, Boston, New Bedford, and San Diego may have bigger fleets, but they just feed the canneries. Provincetown supplies fresh fish for the tables of gourmets everywhere." --Howard Mitcham Provincetown's best-known and most-admired chef combines delectable recipes and delightful folklore to serve up a classic in seafood cookbooks. Read about the famous (and infamous!) Provincetown fishing fleet, the adventures of the fish and shellfish that roam Cape Cod waters, and the people of Provincetown--like John J. Glaspie, Lord Protector of the Quahaugs. Then treat yourself to Cape Cod Gumbo, Provincetown Paella, Portuguese Clam Chowder, Lobster Fra Diavolo, Zarzuela, and dozens of other Portuguese, Creole, and Cape Cod favorites. A list

of fresh and frozen seafood substitutes for use anywhere in the country is a unique feature of this lively book. You'll learn the right way to eat broiled crab and the safe way to open oysters. You'll even learn how to cook a sea serpent!

Near a Thousand Tables

"Wolke is Martha Stewart with a PhD." —American Scientist "Wolke, longtime professor of chemistry and author of the Washington Post column Food 101, turns his hand to a Cecil Adams style compendium of questions and answers on food chemistry. Is there really a difference between supermarket and sea salt How is sugar made? Should cooks avoid aluminum pans? Interspersed throughout Wolke's accessible and humorous answers to these and other mysteries are recipes demonstrating scientific principles. There is gravy that avoids lumps and grease; Portuguese Poached Meringue that demonstrates cream of tartar at work; and juicy Salt-Seared Burgers.... With its zest for the truth, this book will help cooks learn how to make more intelligent choices." —Publishers Weekly
