Natural Questions

In 'Natural Questions' Seneca expounds & comments on the natural sciences as understood in his day, offering insights to ancient philosophical & scientific approaches to the physical world, as well as vivid evocations of the grandeur, beauty & terror of nature.

Natural Questions

Annotation Most of Seneca's "Naturales Quaestiones" is given over to celestial phenomena. Book 1 discusses "lights" or fires in the atmosphere; 2, lightning and thunder; Book 3 concerns bodies of water. Seneca's method is to survey the theories of major authorities on the subject at hand and his work is therefore a rewarding guide to Greek and Roman thinking about the heavens.

Mark Challenges the Aeneid

Most scholars believe that Mark wrote his Gospel to the Romans. True: but in addition to presenting the Gospel to the Romans, Mark actually contextualized his Gospel by challenging the leading propaganda of his day, Virgil's Aeneid. The Roman poet, Virgil, wrote his masterpiece epic poem, the Aeneid, to promote the myth that Caesar Augustus was the son of god. The Aeneid went viral almost immediately upon publication in 19 BC, becoming Rome's premier piece of propaganda that promoted Augustus as the emperor who would bring peace to the world. Within the first century, the Aeneid reached from Masada to northern Britain and became a foundational piece of Roman education. Mark's mother, Mary, and his uncle, Joseph/Barnabas, raised him in wealth, and educated him in the four languages of Hebrew, Aramaic, Greek, and Latin. They drew him to Jesus, and Barnabas took Mark on the first missionary journey. Mark spent time with Peter in Rome, where Mark wrote his Gospel in Greek. Mark most certainly had direct access to the most influential piece of Latin literature, the Aeneid, and he wrote his masterpiece Gospel comparing Augustus with Jesus, the true Son of God.

The Complete Works of Shakespeare. [Edited by A. S., i.e. Anna Swanwick?] With a Memoir by A. Chalmers

This article seeks to define 'water culture' in Roman society by examining literary, epigraphic, and archaeological evidence, while understanding modern trends in scholarship related to the study of Roman water.

Water Culture in Roman Society

This revised edition of the Arden Shakespeare Complete Works includes the full text of *Double Falsehood*, which was published in the Arden Third series to critical acclaim in 2010. The play is an eighteenth century rewrite of Shakespeare's "lost" play *Cardenio* and as such is a fascinating testament to the original. A short introduction outlines its complex textual history and the arguments for including it within the Shakespeare canon. The Complete Works contains the texts of all Shakespeare's plays, poems and sonnets, edited by leading Shakespeare scholars for the renowned Arden series. A general introduction gives the reader an overall view of how and why Shakespeare has become such an influential cultural icon, and how perceptions of his work have changed in the intervening four centuries. The introduction summarises the known facts about the dramatist's life, his reading and use of sources, and the nature of theatrical performance during his lifetime. Brief introductions to each play, written specially for this volume by the Arden General Editors, discuss the date and contemporary context of the play, its position within Shakespeare's oeuvre, and its subsequent performance history. An extensive glossary explains vocabulary which may be unfamiliar to modern readers.

Arden Shakespeare Complete Works

Hercules is a tragedy of great theatrical, poetic, and cultural value. Written probably at the intersection of the principates of Claudius and Nero, it addresses central issues of early imperial Rome, even as it speaks profoundly to our times. Among its concerns are violence and madness; imperatives of family and self; Rome, identity and place; the nature of virtue; the longing for immortality; the theatre of rage; and the empire of death. The play is dramatically innovative, spectacular, and arresting: from its fiery, monumental god-prologue (the only one in Senecan tragedy), through meditative soliloquies, impassioned speeches, trenchant dialogue, a failed wooing scene with an impressive after-life in Tudor drama, a stunning entrance for Hercules and his captured hellhound, Theseus' ecphrastic narrative of the hero's infernal 'labour', to a familicidal madness scene and an emotionally turbulent, non-violent finale, in which the instinct for self-punitive suicide is thwarted by the claims of kinship and the acceptance of intolerable suffering. The whole is bound together by some of Seneca's most affective choral lyrics, as intellectually engaging as they are emotionally potent. *Hercules* is A. J. Boyle's sixth, full-scale edition for OUP of a play by or attributed to Seneca. It offers a comprehensive introduction, newly edited Latin text, English verse translation designed for both performance and academic study, and a detailed exegetic, analytic, and interpretative commentary. The aim has been to elucidate the text dramatically as well as philologically, and to locate the play firmly in its contemporary historical

and theatrical context and the ensuing literary and dramatic tradition. As such, its substantial influence on European drama from the sixteenth to the twenty-first centuries is given emphasis throughout; this and the accessibility of the commentary to Latinless readers make the edition particularly useful to scholars and students not only of classics, but also of comparative literature and drama, and to anyone interested in the cultural dynamics of literary reception and the interplay between theatre and history.

Tiberius to Nero

This collection is based on the required reading list of Yale Department of Classics. Originally designed for students, this anthology is meant for everyone eager to know more about the history and literature of this period, interested in poetry, philosophy and rhetoric of Ancient Rome. Latin literature is a natural successor of Ancient Greek literature. The beginning of Classic Roman literature dates to 240 BC. From that point on, Latin literature would flourish for the next six centuries. Latin was the language of the ancient Romans, but it was also the lingua franca of Western Europe throughout the Middle Ages. Consequently, Latin Literature outlived the Roman Empire and it included European writers who followed the fall of the Empire, from religious writers like Aquinas, to secular writers like Francis Bacon, Baruch Spinoza, and Isaac Newton. This collection presents all the major Classic Roman authors, including Cicero, Virgil, Ovid and Horace whose work intrigues and fascinates readers until this day. Content: Plautus: *Aulularia* *Amphitryon* Terence: *Adelphoe* Ennius: *Annales* Catullus: Poems and Fragments Lucretius: *On the Nature of Things* Julius Caesar: *The Civil War* Sallust: *History of Catiline's Conspiracy* Cicero: *De Oratore* Brutus Horace: *The Odes* *The Epodes* *The Satires* *The Epistles* *The Art of Poetry* Virgil: *The Aeneid* *The Georgics* Tibullus: *Elegies* Propertius: *Elegies* Cornelius Nepos: *Lives of Eminent Commanders* Ovid: *The Metamorphoses* Augustus: *Res Gestae Divi Augusti* Lucius Annaeus Seneca: *Moral Letters to Lucilius* Lucan: *On the Civil War* Persius: *Satires* Petronius: *Satyricon* Martial: *Epigrams* Pliny the Younger: *Letters* Tacitus: *The Annals* Quintilian: *Institutio Oratoria* Juvenal: *Satires* Suetonius: *The Twelve Caesars* Apuleius: *The Metamorphoses* Ammianus Marcellinus: *The Roman History* Saint Augustine of Hippo: *The Confessions* Claudian: *Against Eutropius* Boethius: *The Consolation of Philosophy* Plutarch: *The Rise and Fall of Roman Supremacy* Romulus Poplicola Camillus Marcus Cato Lucullus Fabius Crassus Coriolanus Cato the Younger Cicero

Seneca Hercules

A full-scale critical edition of *Medea*, offering a new Latin text, English verse translation designed for performance and study, and detailed commentary of the play, elucidating the text dramatically and philologically, and locating it in its contemporary historical and theatrical context and in ensuing literary and dramatic traditions.

Yale Required Reading - Collected Works (Vol. 2)

This new Complete Works marks the completion of the Arden Shakespeare Third Series and includes all of Shakespeare's plays, poems and sonnets, edited by leading international scholars. New to this edition are the 'apocryphal' plays, part-written by Shakespeare: *Double Falsehood*, *Sir Thomas More* and *King Edward III*. The anthology is unique in giving all three extant texts of *Hamlet* from Shakespeare's time: the first and second Quarto texts of 1603 and 1604-5, and the first Folio text of 1623. With a simple alphabetical arrangement the Complete Works are easy to navigate. The lengthy introductions and footnotes of the individual Third Series volumes have been removed to make way for a general introduction, short individual introductions to each text, a glossary and a bibliography instead, to ensure all works are accessible in one single volume. This handsome Complete Works is ideal for readers keen to explore Shakespeare's work and for anyone building their literary library.

The Complete Works of Shakspere. With a Memoir

Musaicum Books presents to you this meticulously edited Elizabeth Cady collection. Elizabeth Cady Stanton (1815 – 1902) was an American suffragist, social activist, abolitionist, and leading figure of the early women's rights movement. Her Declaration of Sentiments, presented at the Seneca Falls Convention held in 1848 in Seneca Falls, New York, is often credited with initiating the first organized women's rights and women's suffrage movements in the United States. Stanton was president of the National Woman Suffrage Association from 1892 until 1900. Contents: The Woman's Bible Comments on Genesis, Exodus, Leviticus, Numbers and Deuteronomy Comments on the Old and New Testaments from Joshua to Revelation The History of Women's Suffrage From 1848 to 1885 Eighty Years and More: Reminiscences 1815-1897

Seneca: Medea

This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic (such as sermons, aphorisms), individual major works, notable writers, and periodicals that created a market for essays, and particularly famous or significant essays. The preface details the historical development of the essay, and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings list, additional readings, and anthologies

Works, both Moral and Natural

It is commonly assumed that the creation story of Genesis and its chronology were the only narratives openly available in medieval and early modern Europe and that the discovery of geological time in the eighteenth century came as a momentous breakthrough that shook the faith in the historical accuracy of the Bible. Historians of science, mainstream geologists, and Young Earth creationists alike all share the assumption that the notion of an ancient Earth was highly heterodox in the pre-modern era. The old age of the world is regarded as the offspring of a secularized science. In this book, Ivano Dal Prete radically revises the commonplace history of deep time in Western culture. He argues that the chronology of the Bible always coexisted with alternative approaches that placed the origin of the Earth into a far, undetermined (or even eternal) past. From the late Middle Ages, these notions spread freely not only in universities and among the learned, but even in popular works of meteorology, geology, literature, and art that made them easily accessible to a vernacular and scientifically illiterate public. Religious authorities did not regard these notions as particularly problematic, let alone heretical. Neither the authors nor their numerous readers thought that holding such views was incompatible with their Christian faith. While the appeal of theories centered on the biblical Flood and on a young Earth gained popularity over the course of the seventeenth century, their more secular alternatives remained vital and debated. Enlightenment thinkers, however, created a myth of a Christian tradition that uniformly rejected the antiquity of the world, as opposed to a new secular science ready to welcome it. Largely unchallenged for almost three centuries, that account solidified over time into a still dominant truism. Based on a wealth of mostly unexplored sources, *On the Edge of Eternity* offers an original and nuanced account of the history of deep time that illuminates the relationship between the history of science and Christianity in the medieval and early modern periods, with lasting implications for Western society.

The Complete Works of Shakespeare. With a Memoir. [With a Portrait and Illustrations.]

The Roman statesman and philosopher Seneca (4 BCE–65 CE) made innovative use of the letter format to record both his moral philosophy and his personal experiences. In Letters on Ethics, rich descriptions of city and country life in Nero's Italy mix with discussions of Roman poetry and oratory and with personal advice to Seneca's friend Lucilius. The first complete English translation of this work in nearly a century, Letters on Ethics presents Seneca's fascinating reflections on daily life, education, and philosophical thought at Rome and elucidates these topics for modern readers. Written as much for a general audience as for Lucilius, these engaging letters offer advice on how to deal with everything from nosy neighbors to sickness, pain, and death. Above all, Seneca uses the relaxed form of the letter to introduce many major issues in Stoicism, for centuries the most influential philosophical system in the Mediterranean world. His lively and at times humorous explanations have made the Letters his most popular work and an enduring classic. Featuring an astute introduction and explanatory notes, this new edition by Margaret Graver and A. A. Long resituates the Letters on Ethics in the front ranks of world literature.

The Collected Works

Completely revised and updated, the fourth edition of this established dictionary offers entries on all aspects of the classical world. With reception and anthropology as new focus areas and numerous new entries, it is an essential reference work for students, scholars, and teachers of classics and for anyone with an interest in the classical era.

Guide to the Thought of Lucius Annaeus Seneca

Elizabeth Cady Stanton (1815-1902) was an American suffragist, social activist, abolitionist, and leading figure of the early women's rights movement. Her Declaration of Sentiments, presented at the Seneca Falls Convention held in 1848 in Seneca Falls, New York, is often credited with initiating the first organized women's rights and women's suffrage movements in the United States. Stanton was president of the National Woman Suffrage Association from 1892 until 1900. Contents: The Woman's Bible Comments on Genesis, Exodus, Leviticus, Numbers and Deuteronomy Comments on the Old and New Testaments from Joshua to Revelation The History of Women's Suffrage From 1848 to 1885 Eighty Years and More: Reminiscences 1815-1897
