The Spring of the Ram

The Spring of the Ram

In sixteenth-century Europe, young Niccolo travels from Florence to Trebizond on the Black Sea, where the West and the Orient meet and where he finds both opportunity and danger

The Spring of the Ram

In 1461, the mysterious enigmatic Nicholas is in Florence. Backed by none other than Cosimo de' Medici, he will sail the Black Sea to Trebizond, last outpost of Byzantium, and the last jewel missing

from the crown of the Ottoman Empire. But trouble lies ahead. Nicholas's step-daughter - at the tender age of thirteen - has eloped with his rival in trade: a Machiavellian Genoese who races ahead of Nicholas, sowing disaster at every port. And time is of the essence: Trebizond may fall to the Turks at any moment. Crackling with wit, breathtakingly paced, *THE SPRING OF THE RAM* is a pyrotechnic blend of scholarship and narrative shimmering with the scents, sounds, colors and combustible emotions of the 15th century.

Niccolo Rising

In this first book of *The House of Niccolò* series, the author of the *Lymond Chronicles* introduces a new hero, Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed *Lymond Chronicles*, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges. *Niccolò Rising*, Book One of the series, finds us in Bruges, 1460. Jousting is the genteel pastime, and successful merchants are, of necessity, polyglot. Street smart, brilliant at figures, adept at the subtleties of diplomacy and the well-timed untruth, Dunnett's hero rises from wastrel to prodigy in a breathless adventure that wins him the hand of the strongest woman in Bruges and the hatred of two powerful enemies. From a riotous and potentially murderous carnival in Flanders, to an avalanche in the Alps and a pitched battle on the outskirts of Naples, *Niccolò Rising* combines history, adventure, and high romance in the tradition stretching from Alexandre Dumas to Mary Renault.

Race of Scorpions

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed *Lymond Chronicles*, Dorothy Dunnett presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. In 1462, Nicholas is a wealthy 21-year-old. His beloved wife has died. His stepchildren have locked him out of the family business. He and his private army are the target of multiple conspiracies. And both contenders for the throne of Cyprus, the brilliant Queen Carlotta and her charismatic, sexually ambivalent brother James, are demanding his support. Walking a tightrope of intrigue, Dunnett's hero juggles adversaries and allies, from the delectable courtesan Primaflora to the Mameluke commander Tzani-Bey al Ablak, a man of undiluted evil. Masterfully paced, alive with sensual delights, *Race of Scorpions* confirms Dorothy Dunnett as the grande dame of the genre.

Scales of Gold

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed *Lymond Chronicles*, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe. Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. The year 1464 finds Nicholas back in Venice. Plagued by enemies bent on dissolving his assets and smearing his character, he sets sail for Africa, legendary location of the Fountain of Youth, home to a descendant of Sheba and Solomon, and the source of gold in such abundance that men prefer to barter in shells. He will learn firsthand the brutality and grandeur of the Dark Continent, from the horror of the slave trade to the austere nobility of Islamic Timbuktu. He will discover, too, the charms of the beautiful Gelis van Borselen--a woman whose passion for Nicholas is rivaled only by her desire to punish him for his role in her sister's death. Erotic and lush with detail, *Scales of Gold* embraces the complexity of the Renaissance, where mercantile adventure couples with more personal quests behind the silken curtains of the Age of Discovery.

The Unicorn Hunt

With the bravura storytelling and pungent authenticity of detail she brought to her acclaimed *Lymond Chronicles*, Dorothy Dunnett, grande dame of the historical novel, presents *The House of Niccolò* series. The time is the 15th century, when intrepid merchants became the new knighthood of Europe.

Among them, none is bolder or more cunning than Nicholas vander Poele of Bruges, the good-natured dyer's apprentice who schemes and swashbuckles his way to the helm of a mercantile empire. Scotland, 1468: a nation at the edge of Europe, a civilization on the threshold of the Modern Age. Merchants, musicians, politicians, and pageantry fill the court of King James III. In its midst, Nicholas seeks to avenge his bride's claim that she carries the bastard of his archenemy, Simon St. Pol. When she flees before Nicholas can determine whether or not the rumored child is his own—or exists at all—Nicholas gives chase. So begins the deadly game of cat and mouse that will lead him from the infested cisterns of Cairo to the misted canals of Venice at carnival. Breathlessly paced, sparkling with wit. The Unicorn Hunt confirms Dorothy Dunnett as the genre's finest practitioner.

Two Birds in a Tree

The health of business is inextricably linked with the health of humanity and nature. But our current approaches to leadership treat business as entirely separate—and the result has been recurring economic, environmental, and human crises. In this extraordinary book, Ram Nidumolu uses evocative parables and stories from the ancient Indian wisdom texts, the Upanishads, to introduce Being-centered leadership. This new kind of leadership is anchored in the concept of Being, the fundamental reality that underlies all phenomena. Being-centered leaders are guided by an innate sense of interconnection—the good of the whole becomes an integral part of their decisions and actions. Using the experiences of over twenty trailblazing CEOs, as well as those from his own life, Nidumolu describes a four-stage road map every aspiring leader can use to reconnect business to the wider world—to the benefit of all.

Medieval Robots explores the forgotten history of real and imagined machines that captivated Europe from the ninth through the fourteenth centuries.

Heroism in the Harry Potter Series

Taking up the various conceptions of heroism that are conjured in the Harry Potter series, this collection examines the ways fictional heroism in the twenty-first century challenges the idealized forms of a somewhat simplistic masculinity associated with genres like the epic, romance and classic adventure story. The collection's three sections address broad issues related to genre, Harry Potter's development as the central heroic character and the question of who qualifies as a hero in the Harry Potter series. Among the topics are Harry Potter as both epic and postmodern hero, the series as a modern-day example of psychomachia, the series' indebtedness to the Gothic tradition, Harry's development in the first six film adaptations, Harry Potter and the idea of the English gentleman, Hermione Granger's explicitly female version of heroism, adult role models in Harry Potter, and the complex depictions of heroism exhibited by the series' minor characters. Together, the essays suggest that the Harry Potter novels rely on established generic, moral and popular codes to develop new and genuine ways of expressing what a globalized world has applauded as ethically exemplary models of heroism based on responsibility, courage, humility and kindness.

To Lie with Lions

Merchant-banker Nicholas de Fleury, having wrested his infant son from the boy's formidable mother, pauses en route to the land of golden light to set in train a deception that will ensnare nations in the triumphant ruin of his enemies. This is volume six in the "House of Niccolo".

The Book of the Courtier

"The Book of the Courtier" by Baldassarre conte Castiglione is a lengthy philosophical dialogue on the topic of what constitutes an ideal courtier or court lady, worthy to befriend and advise a Prince or political leader. Castiglione set the narrative of the book in his years as a courtier in his native Duchy of Urbino. It offers a poignantly nostalgic evocation with a reverent tribute to the friends of Castiglione's youth.

The Dorothy Dunnett Companion

Dorothy Dunnett has earned worldwide acclaim for the masterful blending of historical fact and imagination in her two series of novels set in brilliantly reconstructed fifteenth- and sixteenth-century landscapes. The Dorothy Dunnett Companion II is an encyclopedic resource that completes and expands the reach of the first Companion in documenting the historical and literary riches of Dunnett's Lymond Chronicles and House of Niccolo novels. In this second guide, Elspeth Morrison not only covers the final three Niccolo novels for the first time, but also provides a wealth of additional information about all of the earlier novels and highlights the links between the two now-completed series. Once again, she illuminates the real figures and events and the cultural and literary allusions Dunnett weaves into her works, translating foreign phrases and offering up fascinating background details, from the history of golf and the argot of galley slaves to the uses of puffins and polar bears. Together with the first Companion, The Dorothy Dunnett Companion II provides a complete and essential guide to the world of Lymond and Niccolo.

Caprice And Rondo

January 1474, in the deep cold of an ice-bound Danzig: a man is spending a frivolous winter not facing up to his responsibilities ... It is the merchant Niccolo, diviner, soldier, banker to Kings; shunned by all who know him after revelations of his murderous mischief-making. But his talents are too great to be squandered, and a subtle political dance ensues as rivals in Poland, Venice, and Persia bid for his services in trade and war and diplomacy. Niccolo has lost his family; but he will discover a new purpose in life...

Gemini

'Dunnett's legion of devoted readers will need no recommendation to buy GEMINI. They would, I imagine, walk barefoot to the bookshop over broken glass to get it ... Anyone reading this novel, even as an introduction to Dunnett's work will, I suspect, join that band of admirers' Sunday Times GEMINI represents the final appearance of Nicholas de Fleury, who opened this series as a carefree, clumsy 18 year old apprentice in Flanders. Now he is in his thirties. The culmination of this amazing series sees Niccolo face his toughest battle yet, against an enemy who will tax every skill he has acquired over the course of the last few years...

Blockchain Chicken Farm

A New York Times Book Review Editors' Choice "A brilliant and empathetic guide to the far corners of global capitalism." --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian

imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

The Unicorn

WITH AN INTRODUCTION BY STEPHEN MEDCALF When Marian Taylor takes the post of governess at Gaze castle, remote house on a beautiful but desolate coast, she finds herself confronted with many strange mysteries. What kind of crime or catastrophe in the past still keeps the house under a brooding spell? And is her employer Hannah an innocent victim, a guilty woman, a lunatic, or a witch?

Venus and the Arts of Love in Renaissance Florence

In this volume, Rebekah Compton offers the first survey of Venus in the art, culture, and governance of Florence from 1300 to 1600. Organized chronologically, each of the six chapters investigates one of the goddess's alluring attributes – her golden splendor, rosy-hued complexion, enchanting fashions, green gardens, erotic anatomy, and gifts from the sea. By examining these attributes in the context of the visual arts, Compton uncovers an array of materials and techniques employed by artists, patrons, rulers, and lovers to manifest Venusian virtues. Her book explores technical art history in the context of love's protean iconography, showing how different discourses and disciplines can interact in the creation and reception of art. *Venus and the Arts of Love in Renaissance Florence* offers new insights on sight, seduction, and desire, as well as concepts of gender, sexuality, and viewership from both male and female perspectives in the early modern era.

100 Must-read Historical Novels

This latest guide in the highly successful Must-Read series depicts 100 of the finest historical fiction tales published, with a further 500 recommendations. The text covers a wide range of classic works and key authors.

The Inimitable Jeeves

In *The Inimitable Jeeves*, Bertie Wooster and his valet Jeeves embark on a series of riotous adventures. Among other things they involve Bertie's feeble attempts to stop his friend Bingo Little from falling in love with every girl he meets. But the amiable chump's main concern is to avoid the eagle eye and iron will of his merciless Aunt Agatha. In one of the funniest works in the English language, P. G. Wodehouse charms, delights, and occasionally surprises the reader with his shrewd parody of the carefree lives of the English elite.

A History of Orgies

An orgy, the dictionary tells us, is “a wild gathering, marked by promiscuous sexual activity, excessive drinking, etc.” Burgo Partridge tells us precisely what that has meant down through the ages. He begins with the Greeks, who celebrated sexuality at Dionysian festivals, and the Romans, who imported unwholesome brutalities into their orgiastic celebrations. We then learn of the penchant for group sex displayed by medieval popes, the junketings of Restoration England, the aristocratic hedonists of the Hellfire Club and Scotland's notorious Wig Club, the orgiastic tastes of Casanova and the Marquis de Sade, right into the 20th century and the bizarre excesses of Aleister Crowley.

Musings of a Chinese Mystic

Here is the story of the forgotten pioneers of the Mohawk Valley during the Revolutionary War. Here Gilbert Martin and his young wife struggled and lived and hoped. Combating hardships almost too great to endure, they helped give to America a legend which still stirs the heart. In the midst of love and hate, life and death, danger and disaster, they stuck to the acres which were theirs, and fought a war without ever quite understanding it. Drums Along the Mohawk has been an American classic since its original publication in 1936.

A History of French Literature

A History of Western Political Thought is an energetic and lucid account of the most important political thinkers and the enduring themes of the last two and a half millennia. Written with students of the history of political thought in mind, the book: * traces the development of political thought from Ancient Greece to the late twentieth century * focuses on individual thinkers and texts * includes 40 biographies of key political thinkers * offers original views of theorists and highlights those which may have been unjustly neglected * develops the wider themes of political thought and the relations between thinkers over time.

A History of Western Political Thought

Representing a broad range of ethnic diversity, these in-depth profiles present fascinating accounts of lives and careers, the circumstances under which works were produced, and their literary significance. Each profile also includes critical evaluation,

World Authors, 1995-2000

The year is 1557 and Francis Crawford of Lymond must serve the King of France for a year before he can return to Russia, where he believes his destiny lies. Yet the astrologer John Dee has said: It is not one thing you seek, but two; and the place for neither is Russia. Lymond, exercising his formidable military talents against the English, has no desire to discover the meaning of this prophecy. But Philippa, his wife-in-name only, has. And she devotes her days to a hazardous search for the truth about the past, and the future, of her enigmatic husband.

Checkmate

A revolutionary rethinking of everything we know about power It shapes every interaction we have, whether we're trying to get a two-year-old to eat green vegetables or ask for a promotion at work. But how do we really gain power? And what does it do to us? As renowned psychologist Dacher Keltner reveals, the new science of power shows that our Machiavellian view of status is wrong. Influence comes not to those who are ruthless, but to those with socially intelligence and empathy. Yet, ironically, the seductions of success lead us to lose those very qualities that made us powerful in the first place. Keltner draws on fascinating case studies to illuminate this 'power paradox', revealing how it shapes not just companies and elections but everyday relationships. As his myth-busting research shows, power - and powerlessness - distorts our behaviour, affecting whether or not we will have an affair, break the law, drive recklessly or find our purpose in life. In twenty original 'power principles', Keltner shows how we can retain power by maintaining a focus on others. By redefining power as the ability to do good, The Power Paradox turns everything we know about influence, status and inequality upside down.

The Power Paradox

The third in Robert Greene's bestselling series is now available in a pocket sized concise edition. Following *48 Laws of Power* and *The Art of Seduction*, here is a brilliant distillation of the strategies of war to help you wage triumphant battles everyday. Spanning world civilisations, and synthesising dozens of political, philosophical, and religious texts, *The Concise 33 Strategies of War* is a guide to the subtle social game of everyday life. Based on profound and timeless lessons, it is abundantly illustrated with examples of the genius and folly of everyone from Napoleon to Margaret Thatcher and Hannibal to Ulysses S. Grant, as well as diplomats, captains of industry and Samurai swordsmen.

The Scottish Highlands

In 1461, the mysterious enigmatic Nicholas is in Florence. Backed by none other than Cosimo de' Medici, he will sail the Black Sea to Trebizond, last outpost of Byzantium, and the last jewel missing from the crown of the Ottoman Empire. But trouble lies ahead. Nicholas's step-daughter - at the tender age of thirteen - has eloped with his rival in trade: a Machiavellian Genoese who races ahead of Nicholas, sowing disaster at every port. And time is of the essence: Trebizond may fall to the Turks at any moment. Crackling with wit, breathtakingly paced, *THE SPRING OF THE RAM* is a pyro technic blend of scholarship and narrative shimmering with the scents, sounds, colors and combustible emotions of the 15th century.

The 33 Strategies Of War

This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives. The period was one of extraordinary upheaval and change, as the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions – political, economic and intellectual – of the Dutch Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of human activity; between culture and history. The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. In continually crossing disciplinary, linguistic and national boundaries, while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus, this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements.

The Spring of the Ram

This second book in the legendary *Lymond Chronicles* follows Francis Crawford of Lymond who has been abruptly called into the service of Mary Queen of Scots. Though she is only a little girl, the Queen is already the object of malicious intrigues that extend from her native country to the court of France. It is to France that Lymond must travel, exercising his sword hand and his agile wit while also undertaking the most unlikely of masquerades, all to make sure that his charge's royal person stays intact.

From Revolt to Riches

Since publication in 1979 Isabel Rivers' sourcebook has established itself as the essential guide to English Renaissance poetry. It provides an account of the main classical and Christian ideas, outlining their meaning, their origins and their transmission to the Renaissance; illustrates the ways in which Renaissance poetry drew on classical and Christian ideas; contains extracts from key classical and Christian texts and relates these to the extracts of the English poems which draw on them; includes suggestions for further reading, and an invaluable bibliographical appendix.

Queens' Play

This third volume in *The Lymond Chronicles*, the highly renowned series of historical novels takes place in 1551, when Francis Crawford of Lymond is dispatched to embattled Malta, to assist the Knights of Hospitallers in defending the island against the Turks. But shortly the swordsman and scholar discovers that the greatest threat to the Knights lies within their own ranks, where various factions vie secretly for master.

Classical and Christian Ideas in English Renaissance Poetry

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
