## The People's Almanac #3

Bold and impassioned, sharp and defiant, Leslie Marmon Silko's essays evoke the spirit and voice of Native Americans. Whether she is exploring the vital importance literature and language play in Native American heritage, illuminating the inseparability of the land and the Native American people, enlivening the ways and wisdom of the old-time people, or exploding in outrage over the government's long-standing, racist treatment of Native Americans, Silko does so with eloquence and power, born from her profound devotion to all that is Native American. *Yellow Woman and a Beauty of the Spirit* is written with the fire of necessity. Silko's call to be heard is unmistakable; there are stories to remember, injustices to redress, ways of life to preserve. It is a work of major importance, filled with indispensable truths—a work by an author with an original voice and a unique access to both worlds.

### The People's Almanac Presents the Book of Lists

The peoples of Africa are neither ethnically, culturally, nor religiously homogeneous. European colonial powers took little note of this reality in carving up the continent, a fact reflected in the periodic outbreak of civil war since decolonization. Likewise, Western European models of development, whether in their liberal or Marxist manifestations, have so far failed to meet African development needs. The path to stability in Africa is through its people's character and goals. Almanac of African Peoples and Nations provides an essential guide to the major ethnic groups of the African continent, highlighting the major contributions and basic features of each. The Almanac reviews Africa's language families and their respective national and geographic concentrations, explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to Africa. The major African peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration. The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic, national, and tribal group detailing their history, customs, economic systems, and political and social organizations. The Almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to. Yakan notes that African societies are not highly integrated and must support multitudes of influential sub-cultures with conflicting agendas and loyalties. Arguing that tribalism reflects Africa's historical experience and cultural heritage, he sees the resolution of the continent's problems in consociational democracy, proportional representation, federalism, or some form of autonomous rule.

Find a fabulous (or infamous) woman mentioned and, please, go looking for more of her story. The names mentioned are merely temptations. Amuse-bouches for the mind, if you like. From revolutionary women to serial killers, pirate nuns to pioneering civil rights activists, doctors to dancing girls, artists to astronauts, these pages commemorate women from all around the world who were pushed to the margins of historical record. Wells, activist, suffragist, journalist and co-founder of the NAACP Eleanor G. Holm, disqualified from the 1936 Berlin Olympics for drinking too much champagne These stories are interspersed with helpful tips for the year, such as the month in which one is most likely to be eaten by a wolf, and the best time to sharpen your sickle. ### The People's Almanac Presents the Book of Lists 3

Sorcerer's Apprentice opens with Amy Wallace's first meeting with Carlos Castaneda, the infamous anthropologist-turned-shaman, whose books described meetings with Yaqui Indian spiritual teacher don Juan. Castaneda's rise was meteoric in the late 1960s as he wrote massive bestsellers, inspired many to experiment with psychedelics, and was dubbed "the Godfather of the New Age." The possibility that Castaneda's experiences may have been fabricated did little to compromise his legend. As the daughter of best-selling novelist Irving Wallace, Amy was rarely shy around famous people. When her father insisted she meet Castaneda, she at first demurred. Little did she know that a delightful first meeting would begin a 20-year friendship, followed by her descent into the dramatic and deeply troubled affair chronicled in this book. Sorcerer's Apprentice unblinkingly reveals the inner workings of the "Cult of Carlos," run by a charismatic authoritarian in his sixties who controlled his young female followers through emotional abuse, mind games, bizarre rituals, dubious teachings, and sexual excess. Wallace's story is both specific and universal, a captivating cautionary tale about the dangers of giving up one's power to a tyrant—and about surviving assaults on body and spirit.

Novelist Andrew Craig has not been sober in a very long time. After losing his wife in an auto accident he believes to have been his own fault, he turned to the bottle, and to his sister-in-law, Leah, who acts as his caretaker and live-in nurse. Then, when he is awarded the Nobel Prize in literature for his novel, "The Perfect State," a historical jab at communism, he heads for Stockholm, hoping to find a reason to live, and to write. The other laureates have their own problems, a heart surgeon who believes that sharing his award with an Italian colleague robs him of his glory, a married couple awarded the prize in medicine in the middle of a serious marital crisis, and others – including Max Stratman, whose heart isn't really up to the trip, but who needs the prize money to provide for niece, Emily. This novel delves into the lives, loves, dreams and nightmares of these characters, and others, building a panoramic view of the Nobel Prize, life in Stockholm, and the state of world politics in the years following World War II. It is rich and compelling, driving the reader from the pits of despair to the heights of inspiration. A wonderful novel by one of America's finest novelists. The Prize was made into a movie starring Paul Newman. SW: Six people all around the world are catapulted to international fame as they receive the most important telegraph of their lives, which invites them to Stockholm to receive the prize. This will result to be a turning point in their lives, in which personal affairs and political intrigue will engulf every one of the characters.

#### Almanac of African Peoples and Nations

'The perfect companion to the seasons' - India Knight Welcome to The Almanac: A Seasonal Guide to 2021. If you are new to The Almanac then welcome; if you are a regular reader then hello! The Almanac is about celebrating the unfolding year in all its various facets. The old dependables which I include every year are back: moon phases, sun rises and sets, tide time tables and the sky at night. As ever there are seasonal recipes and monthly gardening tips for the flower and vegetable garden too, as well as a bit of folklore, and nature and a song for each month. This year's edition has a theme: movement, migration and pilgrimage. This was not a reaction to the unsettling events of last year - it was half written by the time Covid-19 hit - but writing it from lockdown did give me a heightened appreciation of the way in which Britain and Ireland have always and continue to be places of movement, and are intimately connected to the rest of the world. You will find within this book migration tales for each month of this year, but I have also searched out seasonal tales of human movement, and included a pilgrimage for each month, some ancient, some current, all underlining the spiritual benefits of putting one foot in front of the other. Every month I have included a method of navigating using the stars, sun or moon, so you can find your way around in the dark (or just look out of your window and know where south is). And our monthly folk songs are all shanties this year, work songs with movement at their very heart, created to coordinate muscle power to drive sailing ships backwards and forwards across the Atlantic Ocean, and containing influences from the eastern seaboard of the US down to the Caribbean and beyond mixed with British and Irish folk traditions. These songs are stitched through with movement and travel, as is this Almanac. PRAISE FOR THE ALMANAC: A SEASONAL GUIDE 'This book is your bible' - The Independent 'An ideal stocking filler' - The English Garden 'I love this gem of a book' - Cerys Matthews 'Indispensable' - Sir Bob Geldof 'An uplifting nature-inspired guide' - Country & Town House magazine
