Dr. Moreau'nun Adas1

Bir yandan korkun bir yandan umudun varsa iki kanatlı olursun, tek kanatla uçulmaz zaten. Mevlânâ Bilimkurgunun en büyük ustası kabul edilen, farklı türdeki eserleri bugüne dek, pek çok sanatçıya ve yazara ilham kaynağı olan H. G. Wells, belki de gelecekte bizi ilk korkutan yazardır. Edward Prendick, ya adlı bir gemi kazası sonucu, tuhaf bir adada mahsur kalır. Bir süre sonra insan mı hayvan mı oldu anlayamadı. Yaratıklara dair dehşet verici gerçeği fark eder... Dr. Moreau'nun Adası, viviseksiyondan ilham alan tüyler ürpertici hikâyesiyle doğa, bilim, evrim, ahlak ve insan üzerine derinlikli sorular sormayı başaran bilim insanı "sarsıcı" bir yapıttır. "Görünürde bu yabancılerdeki illet bana da bulaşabilir ama içimin derinlikleri gülme isteğiyle tiksinti yükseliyordu. Uzun bir yasaklar listesini tekrarladıktan sonra bu garip ilahi yeni

bir forma bürünüverdi. 'Ac1n1n Evi onun evidir. Yapan El onun elidir. Yaralayan El onun elidir. Oyile_tiren El onun elidir... Çakan _im_ek onundur... Derin, tuzlu sular onundur.' Akl1ma Moreau'nun bu insanlar1 hayvana çevirdikten sonra güdük beyinlerine kendisinin Tanr1 oldu u fikrini a_1lam1_ olabilece i gibi korkunç bir dü_ün geldi."

Doktor Moreau'nun Adas1

Arter, 1.400'ü a_k1n yapıt bar1nd1ran koleksiyonundan kurgulanan sergilere e_lik etmek üzere 2019 itibar1 yeni bir yay1n dizisi ba_latt1: ARTER ARKA PLAN. Dizinin bu dördüncü kitab1, Arter Koleksiyonu'ndan seçilen eserlerle bu sergi için üretilmi_i_lerin de aralar1nda yer ald1 1 mekâna özgü büyük ölçekli yer-le_tirmeleri bir araya getiren grup sergisi Locus Solus'a e_lik ediyor. Kitapta, "do a" fikrini olgular, kurgular ve duygular perspektifinden irdelemeyi amaçlayan serginin arka plan1ndaki dü_üncelerden ve serginin kurgulanma sürecinden hareketle seçilerek özgün bir kurguyla bir araya getirilen metinler, imajlar ve bu yay1n için üretilmi_yeni çal1_malar yer al1yor. Küratör Selen Ansen'in do a ile kültürün birbirlerine nüfuz etme ve birbirlerini etkileme biçimlerinden yola ç1karak olu_turdu u sergiye e_lik eden kitapta yitik yerler, bilinçd1 manzaralar, yabanc1 topraklar, hayali mekânlar, buralar, oralar ve yok-yerler, mucizevi diyarlar, göksel, yerüstü ve yeralt1 âlemlerle ilintili metinlerle birlikte Sena Ba_öz, Pascal Janovjak ve Su Pola'n1n özel olarak kaleme al1nm1_denemelerine yer veriliyor. Bu kitap, e_lik etti i sergiyi yans1tmakla beraber, serginin bar1nd1rd1 1 yerleri ço altmay1 ve temel ald1 1 "do a" fikrini çe_itlendirerek sorgulamay1 hedefliyor. Buras1 de i_ken, yar1 özerk, farklı yerlerin ve zamanlar1n ikâmet etti i bir bölgedir bir bak1ma. Elimize geçen her kitap gibi, oturarak, ayakta ya da uzanarak, gün ortasında ya da gece vakti, dört duvar arasında ya da açık havada bu kitab1n içinde gezinmek mümkün. Buraya gelen her kimse büyük ihtimalle tek ba_1nad1r, nitekim okumak uzun zamandır genellikle yalnız ve sessizce yapılan bir faaliyet. Oçeri girdi in ad1m att1 1 yeri kavramak için gözlerini alabildi ine açmal1 ama s1n1rlar1n1n ötesine geçmek için de onları kapatmaktan imtina etmemeli. Bu ne fazla uzun ne fazla k1sa kitap bir bedendir de ayn1 zamanda; Aby Warburg'un önemsedi i "iyi kom_uluk" ilkesine göre düzenlenmi_, ayr1_1k bak1_ aç1lar1n1 ve heterojen dü_bulu_turan melez bir beden. Burada bir araya gelen yaz1lar arasında, ilk ba_lamlar1ndan ç1kart1larak parçala_hâlinde yay1mlananlar, tümüyle tekrar yay1mlananlar ve sergi çerçevesinde kaleme al1nm1_metinler var. Öte yandan burada, kimi konu_kan kimi dilsiz, ilk ba_lamlar1ndan ç1kart1larak yurtsuzla_t1r1lm1_ ve yeni b ba_lamla bulu_arak yeni yurtlar edinen imgeler de var. Burada kuramdan çok kurgu, denemeden çok anlat1, kafiyele_iirle serbest_iir, bir manifesto, ansiklopedi ve sözlük sayfalar1, kalabal1klardan ziyade yalnızlıklar, betondan fazla bitki örtüsü ve en az söylenen_eyler kadar dile getirilmeyen_eyler de var. — Selen Ansen katkılarıyla Sena Ba_öz • John Berger • Jen Bervin • Karl Blossfeldt • Richard Brautigan • Charles Burns • Joseph Conrad • Julio Cortázar • Karel apek • Evliyâ Çelebi • Ferit Edgü • Helmut Eisendle • Gianni Guadalupi • Marlen Haushofer • Robert Hooke • Pascal Janovjak • Kamo no ChMmei • Gizem Karaka_ • Tetsumi Kudo • D.H. Giovanni Scognamillo, a_k ve korku

Since the publication of Thomas More's genre-defining work *Utopia* in 1516, the field of utopian literature has evolved into an ever-expanding domain. This Companion presents an extensive historical survey of the development of utopianism, from the publication of *Utopia* to today's dark and despairing tendency towards dystopian pessimism, epitomised by works such as George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *The Handmaid's Tale*. Chapters address the difficult definition of the concept of utopia, and consider its relation to science fiction and other literary genres. The volume takes an innovative approach to the major themes predominating within the utopian and dystopian literary tradition, including feminism, romance and ecology, and explores in detail the vexed question of the purportedly 'western' nature of the concept of utopia. The reader is provided with a balanced overview of the evolution and current state of a long-standing, rich tradition of historical, political and literary scholarship.

Locus Solus

This volume unites four of Wells' liveliest and most engaging tales of the strange evolution and behaviour of animals - including human beings. The *Island of Doctor Moreau* is followed by three fantastic yet chillingly plausible short stories of human-animal encounters.

The Cambridge Companion to Utopian Literature

"On be_ gümlük sanat ve fikir mecmuas1," 1933-Jan. 1, 1939; "Aylık edebiyat ve sanat dergisi," Jan. 1997-

The Island of Doctor Moreau and Other Stories

The “beautiful” novel that inspired the Showtime series, from a Nebula Award finalist (The New York Times). The Man Who Fell to Earth tells the story of Thomas Jerome Newton, an alien disguised as a human who comes to Earth on a mission to save his people. Devastated by nuclear war, his home planet, Anthea, is no longer habitable. Newton lands in Kentucky and starts patenting Anthean technology—amassing the fortune he needs to build a spaceship that will bring the last three hundred Anthean survivors to Earth. But instead of the help he seeks, he finds only self-destruction, sinking into alcoholism and abandoning his spaceship, in this poignant story about the human condition—which has inspired both a film starring David Bowie and the new series starring Chiwetel Ejiofor—by the acclaimed author of Mockingbird. “Beautiful science fiction . . . The story of an extraterrestrial visitor from another planet is designed mainly to say something about life on this one.” —The New York Times “An utterly realistic novel about an alien human on Earth . . . Realistic enough to become a metaphor for something inside us all, some existential loneliness.” —Norman Spinrad, author of The Iron Dream “Those who know The Man Who Fell to Earth only from the film version are missing something. This is one of the finest science fiction novels of its period.” —J. R. Dunn, author of This Side of Judgment

Türk dili

A story of passion, greed, secrets and lies. Present day: A reclusive woman living in outback Australia receives a letter acknowledging a terrible secret from her past. Thirty years before, she stole another woman's life. From the moment the letter is opened two women are on a collision course with destiny. From the London pop scene, to the opera stages of Europe; from a tiny Greek island, to a stifling manor house full of secrets and deceptions; from the sun-drenched Queensland coast, to the silent outback; Angela and Ellie are two women both looking for something. One in search of her identity and her memory; the other in search of the love that she had and lost; theirs is a duet whose last note will not be sung until the heart-stopping climax, when a shadow from the past returns to claim them both.

Cinemascope

Assigned to protect a judge whose unpopular ruling regarding a potential serial killer has led to threats, Minneapolis homicide detective Sam Kovac and his partner, Nikki Liska, find their case taking a whole new direction when the judge is kidnapped and they discover that the suspect list is far larger than anyone could have expected. Reprint.

Kitap-11k

This carefully crafted ebook: "The Time Machine + The Invisible Man + The War of the Worlds (3 Unabridged Science Fiction Classics)" is formatted for your eReader with a functional and detailed table of contents. H.G. Wells is an English author best known as a sci-fi writer, though he was also a prolific writer in many other genres, including contemporary novels, history, politics and social commentary, and even writing text books and rules for war games. The first great novel to imagine time travel, The Time Machine (1895) follows its scientist narrator on an incredible journey that takes him finally to Earth's last moments—and perhaps his own. The scientist who discovers how to transform himself in The Invisible Man (1897) will also discover, too late, that he has become unmoored from society and from his own sanity. The War of the Worlds (1898)—the seminal masterpiece of alien invasion adapted by Orson Welles for his notorious 1938 radio drama, and subsequently by several filmmakers—imagines a fierce race of Martians who devastate Earth and feed on their human victims while their voracious vegetation, the red weed, spreads over the ruined planet...

Bir levantenin Beyo lu an1lar1

The sleds were singing their eternal lament to the creaking of the harness and the tinkling bells of the leaders; but the men and dogs were tired and made no sound. The trail was heavy with new-fallen snow, and they had come far, and the runners, burdened with flint-like quarters of frozen moose, clung tenaciously to the unpacked surface and held back with a stubbornness almost human. Darkness was coming on, but there was no camp to pitch that night. The snow fell gently through the pulseless air, not in flakes, but in tiny frost crystals of delicate design. It was very warm—barely ten below zero—and the

men did not mind. Meyers and Bettles had raised their ear flaps, while Malemute Kid had even taken off his mittens.

Var1k

With an Introduction by Linda Dryden, Professor of English Literature at Edinburgh Napier University and the author of *Joseph Conrad and H. G. Wells: The Fin-de Siecle-Literary Scene*. At the end of the nineteenth century a stranger arrives in the Sussex countryside and mayhem ensues; in the sleepy county of Kent a miracle food brings biological chaos that engulfs and threatens the entire planet. H. G. Wells's fertile and mercurial imagination never brought us more bizarre and unsettling stories than those revealed in 'The Invisible Man' (1897) and 'The Food of the Gods, and How It Came to Earth' (1904). These are stories of extraordinary physical transformations and are at once extremely funny and richly imaginative. At the same time, Wells poses some very probing questions about the ethical dimensions to science and the human capacity for both pity and cruelty. Brought together for the first time in this new Wordsworth edition, *The Invisible Man* and *The Food of the Gods* are two of Wells's most entertaining and thought-provoking works. AUTHOR: H. G. Wells (21 September 1866 - 13 August 1946) is famously often referred to as 'the father of science fiction' but Wells's phenomenal imagination ranged far and wide and included works of comic social realism. Such is Wells's facility with story-telling that well over a century after their publication, that his stories are as fresh and compelling to us today as they would have been when his initial readers first turned their pages, often in astonishment and frequently in amusement.

The Man Who Fell to Earth

Russia in the Shadows is the title of the book by H. G. Wells published early in 1921, which includes a series of articles previously printed in *The Sunday Express* in connection with Wells's second visit to Russia in September and October 1920. Contents: Petersburg in Collapse Drift and Salvage The Quintessence of Bolshevism The Creative Effort in Russia The Petersburg Soviet The Dreamer in the Kremlin The Envoy Herbert George "H. G." Wells (1866 – 1946) was an English writer, now best known for his work in the science fiction genre. He was also a prolific writer in many other genres, including contemporary novels, history, politics and social commentary, even writing textbooks and rules for war games.

Ak_it Göktürk'e saygı

Essays and addresses on man's new knowledge in the natural sciences, the social sciences and the humanities, from the viewpoint of an evolutionary humanist.

Duet

BY THE BESTSELLING AUTHOR OF THE TALENTED MR RIPLEY, CAROL AND STRANGERS ON A TRAIN 'Highsmith writes about men like a spider writing about flies' OBSERVER 'For eliciting the menace that lurks in familiar surroundings, there's no one like Patricia Highsmith' TIME 'The Glass Cell has lost little of its disturbing power . . . Highsmith was a genuine one-off' DAILY TELEGRAPH Based on a true story, *The Glass Cell* is Highsmith's deeply disturbing fictionalisation of everything she learned. Falsely convicted of fraud, the easy-going but naive Philip Carter is sent to prison. Despite his devotion to Hazel, his wife, and the support of David Sullivan, a lawyer and friend who tries to avenge the injustice done to him, Carter endures six lonely and drug-ravaged years. Upon his release, Carter is a much more discerning, suspicious, and violent man. His beautiful wife is waiting for him. He has never had any reason to doubt her. For those around him, earning back his trust can mean the difference between life and death.

Prior Bad Acts

"*Kipps The Story of a Simple Soul* is a novel by H. G. Wells, first published in 1905. Humorous yet sympathetic, the perceptive social novel is generally regarded as a masterpiece, and it was his own favourite work. It was adapted into the stage and cinema musical *Half a Sixpence*."

The Time Machine + The Invisible Man + The War of the Worlds (3 Unabridged Science Fiction Classics)

A fascinating book on the joys of discovering how the world works, by the Pulitzer Prize–winning author of *Cosmos* and *Shadows of Forgotten Ancestors*. “Magnificent . . . Delightful . . . A masterpiece. A message of tremendous hope for humanity . . . While ever conscious that human folly can terminate man’s march into the future, Sagan nonetheless paints for us a mind-boggling future: intelligent robots, the discovery of extraterrestrial life and its consequences, and above all the challenge and pursuit of the mystery of the universe.”—Chicago Tribune “Go out and buy this book, because Carl Sagan is not only one of the world’s most respected scientists, he’s a great writer. . . . I can give a book no greater accolade than to say I’m planning on reading it again. And again. And again.”—The Miami Herald “The brilliant astronomer . . . is persuasive, provocative and readable.”—United Press International “Closely reasoned, impeccably researched, gently humorous, utterly devastating.”—The Washington Post

Hece

The Panopticon project for a model prison obsessed the English philosopher Jeremy Bentham for almost 20 years. In the end, the project came to nothing; the Panopticon was never built. But it is precisely this that makes the Panopticon project the best exemplification of Bentham’s own theory of fictions, according to which non-existent fictitious entities can have all too real effects. There is probably no building that has stirred more philosophical controversy than Bentham’s Panopticon. The Panopticon is not merely, as Foucault thought, “a cruel, ingenious cage”, in which subjects collaborate in their own subjection, but much more—constructing the Panopticon produces not only a prison, but also a god within it. The Panopticon is a machine which on assembly is already inhabited by a ghost. It is through the Panopticon and the closely related theory of fictions that Bentham has made his greatest impact on modern thought; above all, on the theory of power. The Panopticon writings are frequently cited, rarely read. This edition contains the complete “Panopticon Letters”, together with selections from “Panopticon Postscript I” and “Fragment on Ontology”, Bentham’s fullest account of fictions. A comprehensive introduction by Miran Bozovic explores the place of Panopticon in contemporary theoretical debate.

Sakl1 su

An evocation of Leonardo da Vinci and the world of Renaissance artists; also a thought-provoking parable.

An Odyssey of the North

Prodigiously influential, Jacques Derrida gave rise to a comprehensive rethinking of the basic concepts and categories of Western philosophy in the latter part of the twentieth century, with writings central to our understanding of language, meaning, identity, ethics and values. In 1993, a conference was organized around the question, ‘Whither Marxism?’, and Derrida was invited to open the proceedings. His plenary address, ‘Specters of Marx’, delivered in two parts, forms the basis of this book. Hotly debated when it was first published, a rapidly changing world and world politics have scarcely dented the relevance of this book.

P

This translation of the French *Femme au dix-huitième siècle* from 1862, first published in English in 1928, traces the life of the Eighteenth Century woman in an historical account. Through discussion of evidence from paintings and memoirs, the book draws an intimate lifelike account of what lay behind these images for women in France of this time. The Goncourt brothers wrote several social histories but were also art critics and novelists. Here they offer portraits of upper, middle and working class women in France. This is one of the earliest accounts of life for women in this period.

Sadako and the Thousand Paper Cranes

Jorge Luis Borges is one of the seminal figures in twentieth-century literature. His influence on the art of narrative and on the very way people think about writing has been incalculable. All postwar fiction, from García Márquez to Fuentes, Updike to Barth, Calvino to Eco, bears Borges’s imprint—in spite of the fact that Borges did not write a single novel. Born at the turn of the century in Argentina, Borges grew up with cosmopolitan parents who fostered his love of literature—and his active imagination. He spent his early youth in Europe, and though he traveled in literary circles, it was not until he returned to Buenos Aires in the late 1930s that he embarked on a substantial writing career of his own. *Ficciones* and *El Aleph*, the collections of short stories on which his reputation is based, were cryptic, playful,

and vertiginously imagined. They have become benchmarks of Latin American fiction, paving the way for the Magic Realism that followed. Still, fame was slow to come to Borges, and the stature of his work was not recognized until the 1960s. Blind, living with his mother—who died just ten years before he did—and increasingly unpopular in his politics, Borges attracted extraordinary international attention in his later years that lasted until his death in 1986. *Borges: A Life* is the first biography to be written in English since Borges died, and from it emerges a picture of a complex man who neither courted fame nor acknowledged the literary revolution he set in motion. Based on firsthand research in Buenos Aires, James Woodall's portrait depicts the Borges the world never saw: the young pamphleteering poet obsessed by Walt Whitman and Argentine slang; the sexually timid intellectual falling disastrously in love just as he was writing his finest prose; the guru of Latin American letters whose sole aim in old age was domestic happiness. Casting new light on the background to the stories and the poetry, James Woodall also looks at Buenos Aires itself, a city in one of the most dramatic periods of its history. At the center of Woodall's depiction are the two grand obsessions of Borges's life: his celibate love of women and his loathing of Argentina's most charismatic dictator, Juan Perón.
